The term also includes those persons who provide feed or shelter to a domestic pet or wolf-hybrid. ~~However, it is not the intent of the general assembly to require a person to be responsible under this chapter for feral animals that take up residence in a building other than the person’s home, even if the person occasionally provides feed to the animal.~~

\* \* \*

(10) “Pet dealer” means any person who sells or exchanges or who offers to sell or exchange cats, dogs, or wolf-hybrids, or any combination thereof, from three or more litters of cats, dogs, or wolf-hybrids in any 12-month period to consumers. (b) The Secretary shall prescribe a form for and the content of the certificate to be used under subsection (a) of this section. The form shall include an identification of the type of cat, dog, or wolf-hybrid, the owner, date and diagnosis, the treatment recommended, if any, and an estimated cost of the treatment. (c) Every pet dealer or pet shop who sells a cat, dog, or wolf-hybrid to a consumer shall provide the consumer at the time of sale with the written form prescribed by the Secretary. The notice may be included in a written contract, a certificate of the history of the cat, dog, or wolf-hybrid, or another separate document.

(d) The Secretary shall prescribe by rule other information which shall be provided in writing by the pet dealer or pet shop to the consumer at the time of sale. The information shall include a description of the cat, dog, or wolf-hybrid, including breed and date of purchase; the name, address, and telephone number of the consumer; and the purchase price. Certification of this document occurs when signed by the pet dealer or pet shop.

(e) Refund or reimbursement required under subsection (a) of this section shall be made within ten business days following receipt of the signed veterinary certification. The certification shall be presented to the pet dealer or pet shop within three business days by the consumer.

#### § 3922. CHALLENGE BY PET DEALER OR PET SHOP

A pet dealer or pet shop may contest a demand for reimbursement, refund, or exchange under section 3921 of this title by requiring the consumer to produce the cat, dog, or wolf-hybrid for examination by a licensed veterinarian of the pet dealer or pet shop's designation. If the consumer and the pet dealer or pet shop are unable to reach an agreement under the provisions of this section within ten business days of an examination, the consumer may initiate an action in a court of competent jurisdiction in the locality where the consumer resides to obtain a refund, exchange, or reimbursement. Nothing in this section shall limit the rights or remedies which are otherwise available to the consumer under any other law.

#### § 3923. ADMINISTRATIVE PENALTIES

The Secretary may assess administrative penalties under 6 V.S.A. §§ 15-17 not to exceed \$1,000.00 for violations of this subchapter.

#### § 3924. EXEMPTIONS

Duly incorporated humane societies, rescue organizations, or animal shelters that make animals available for adoption are exempt from the requirements of this subchapter.

The consumer may have:~~

~~(1) the right to return the animal and receive a full refund of the purchase price, including sales tax, and reasonable veterinary fees related to certification under this section. ~~(b) The commissioner shall prescribe a form for and the content of the certificate to be used under subsection (a) of this section. The form shall include, but not be limited to, an identification of the type of animal, the owner, date and diagnosis, the treatment recommended, if any, and an estimated cost of the treatment. The form shall also include notice of the provisions of subsection (a) of this section.~~

~~(c) Every pet dealer who sells an animal to a consumer shall provide the consumer at the time of sale with the written form prescribed by the commissioner. The notice may be included in a written contract, an animal history certificate or other separate document.~~

~~(d) The commissioner shall prescribe by rule other information which shall be provided in writing by the pet dealer to the consumer at the time of sale. Such information shall include, but not be limited to, a description of the animal, including breed and date of purchase, the name, address and telephone number of the consumer and the purchase price. Certification of this document occurs when signed by the pet dealer.~~

~~(e) Refund or reimbursement required under subsection (a) of this section shall be made within ten business days following receipt of the signed veterinary certification. The certification shall be presented to the pet dealer within three business days by the consumer.~~

#### ~~§ 4303. CHALLENGE BY PET DEALER~~

~~A pet dealer may contest a demand for reimbursement, refund or exchange under section 4302 of this title by requiring the consumer to produce the animal for examination by a licensed veterinarian of the dealer's designation. If the consumer and the dealer are unable to reach an agreement under provisions of this section within ten business days of an examination, the consumer may initiate an action in a court of competent jurisdiction in the locality where the consumer resides to obtain a refund, exchange or reimbursement. § 202. ELECTRICAL ENERGY PLANNING

(a) The ~~department of public service~~ Department of Public Service, through the ~~director for regulated utility planning~~ Director for Regulated Utility Planning, shall constitute the responsible utility planning agency of the ~~state~~ State for the purpose of obtaining for all consumers in the ~~state~~ State proper utility service at minimum cost under efficient and economical management consistent with other public policy of the ~~state~~ State. The ~~director~~ Director

---

shall be responsible for the provision of plans for meeting emerging trends related to electrical energy demand, supply, safety, and conservation.

(b) The ~~department~~ Department, through the ~~director~~ Director, shall prepare an electrical energy plan for the ~~state~~ State. The plan shall be for a 20-year period and shall serve as a basis for state electrical energy policy. The electric energy plan shall be based on the principles of “least cost integrated planning” set out in and developed under section 218c of this title. The plan shall include at a minimum:

(1) an overview, looking 20 years ahead, of statewide growth and development as they relate to future requirements for electrical energy, including patterns of urban expansion, statewide and service area economic growth, shifts in transportation modes, modifications in housing types and design, conservation and other trends and factors which, as determined by the ~~director~~ Director, will significantly affect state electrical energy policy and programs;

(2) an assessment of all energy resources available to the ~~state~~ State for electrical generation or to supply electrical power, including, among others, fossil fuels, nuclear, hydro-electric, biomass, wind, fuel cells, and solar energy and strategies for minimizing the economic and environmental costs of energy supply, including the production of pollutants, by means of efficiency and emission improvements, fuel shifting, and other appropriate means;

(3) estimates of the projected level of electrical energy demand;

(4) a detailed exposition, including capital requirements and the estimated cost to consumers, of how such demand shall be met based on the assumptions made in subdivision (1) of this subsection and the policies set out in subsection (c) of this section; and

(5) specific strategies for reducing electric rates to the greatest extent possible in Vermont over the most immediate ~~five-year~~ six-year period, for the next succeeding ~~five-year~~ six-year period, and long-term sustainable strategies for achieving and maintaining the lowest possible electric rates over the full 20-year planning horizon consistent with the goal of maintaining a financially stable electric utility industry in Vermont.

(c) In developing the plan, the ~~department~~ Department shall take into account the protection of public health and safety; preservation of environmental quality; the potential for reduction of rates paid by all retail electricity customers; the potential for reduction of electrical demand through conservation, including alternative utility rate structures; use of load management technologies; efficiency of electrical usage; utilization of waste

heat from generation; and utility assistance to consumers in energy conservation.

(d) In establishing plans, the ~~director~~ Director shall:

(1) Consult with:

(A) the public;

(B) Vermont municipal utilities;

(C) Vermont cooperative utilities;

(D) Vermont investor-owned utilities;

(E) Vermont electric transmission companies;

(G) industrial customer representatives;

(H) commercial customer representatives;

(I) the ~~public service board~~ Public Service Board;

(J) an entity designated to meet the public's need for energy efficiency services under subdivision 218c(a)(2) of this title;

(K) other interested state agencies; and

(L) other energy providers.

(2) To the extent necessary, include in the plan surveys to determine needed and desirable plant improvements and extensions and coordination between utility systems, joint construction of facilities by two or more utilities, methods of operations, and any change that will produce better service or reduce costs. To this end, the ~~director~~ Director may require the submission of data by each company subject to supervision, of its anticipated electrical demand, including load fluctuation, supplies, costs, and its plan to meet that demand and such other information as the ~~director~~ Director deems desirable.

(e) The ~~department~~ Department shall conduct public hearings on the final draft and shall consider the evidence presented at such hearings in preparing the final plan. The plan shall be adopted no later than January 1, ~~2004~~ 2016 and readopted in accordance with this section by every sixth January 1 thereafter, and shall be submitted to the ~~general assembly~~ General Assembly each time the plan is adopted or readopted. The provisions of 2 V.S.A. § 20(d) (expiration of required reports) shall not apply to the submission to be made under this subsection.

(f) After adoption by the ~~department~~ Department of a final plan, any company seeking ~~board~~ Board authority to make investments, to finance, to site or construct a generation or transmission facility or to purchase electricity or rights to future electricity, shall notify the ~~department~~ Department of the proposed action and request a determination by the ~~department~~ Department whether the proposed action is consistent with the plan. In its determination whether to permit the proposed action, the ~~board~~ Board shall consider the ~~department's~~ Department's determination of its consistency with the plan along with all other factors required by law or relevant to the ~~board's~~ Board's decision on the proposed action. If the proposed action is inconsistent with the plan, the ~~board~~ Board may nevertheless authorize the proposed action if it finds that there is good cause to do so. The ~~department~~ Department shall be a party to any proceeding on the proposed action, except that this section shall not be construed to require a hearing if not otherwise required by law.

(g) The ~~director~~ Director shall annually review that portion of a plan extending over the next ~~five~~ six years. The ~~department~~ Department, through the ~~director~~ Director, shall ~~annually~~ biennially extend the plan by ~~one~~ two additional ~~year~~ years; and from time to time, ~~but in no~~ and in any event ~~less than every five years~~ sixth year, institute proceedings to review a plan and make revisions, where necessary. The ~~five-year~~ six-year review and any interim revisions shall be made according to the procedures established in this section for initial adoption of the plan. The six-year review and any revisions made in connection with that review shall be performed contemporaneously with readoption of the comprehensive energy plan under section 202b of this title.

(h) The plans adopted under this section ~~shall be submitted to the energy committees of the general assembly and~~ shall become the electrical energy portion of the state energy plan.

(i) It shall be a goal of the electrical energy plan to assure, by 2028, that at least 60 MW of power are generated within the ~~state~~ State by combined heat and power (CHP) facilities powered by renewable fuels ~~or by nonqualifying SPEED resources~~, as defined in section 8002 of this title. In order to meet this goal, the plan shall include incentives for development and strategies to identify locations in the ~~state~~ State that would be suitable for CHP. The plan shall include strategies to assure the consideration of CHP potential during any process related to the expansion of natural gas services in the ~~state~~ State.
