(2) Category 2 amendments under section 6326 of this title, which are amendments that require a procedural determination by an independent entity concerning whether they may be made without a public review process in accordance with this subchapter or whether they should undergo such a process.

(3) Category 3 amendments under section 6327 of this title, which are amendments that require a public review process in accordance with this subchapter.

(b) Except for those amendments that are expressly exempt from the provisions of this subchapter, a person shall not approve or execute an amendment to a conservation amendment other than a Category 1 amendment without complying with sections 6326 through 6331 of this title.

#### § 6325. CATEGORY 1 AMENDMENTS; APPROVAL BY HOLDER WITHOUT REVIEW

(a) A Category 1 amendment is an amendment to an existing conservation easement that has a beneficial, neutral, or not more than a de minimis negative impact on the protected qualities under the existing easement. The holder and landowner may approve a Category 1 amendment without notice to or review by an independent entity. Category 1 amendments shall be limited to the following:

(1) placing additional land under the protection of the easement;

(2) adding, expanding, or enhancing the protected qualities under the easement;

(3) including, for the benefit of a holder, a right of first refusal, an option to purchase at agricultural value, or another right to acquire an ownership interest in the property in the future;

(4) amending the easement to protect areas that were excluded from the easement or to further restrict rights and uses that were retained by the landowner under the existing easement;

(5) correcting typographical or clerical errors without altering the intent of or the protected qualities or the uses permitted under the easement;

(6) modernizing or clarifying the language of the easement without changing its intent or the protected qualities or the uses permitted under the easement;

(7) permitting additional uses under the easement that will have no more than a de minimis negative impact on the protected qualities under the easement;

(8) merging conservation easements on two or more protected properties into a single easement, adjusting the boundaries between two or more protected properties, or adjusting the boundaries of areas excluded from the easement resulting from the merger, provided that the merger does not:

(A) remove land covered by the easement;

(B) permit new uses under the easement that will have more than a de minimis negative impact on protected qualities on the property; or

(C) reduce the existing safeguards of the protected qualities on the property;

(9) modifying the legal description of the protected property to reference a subsequent survey of the area covered by or excluded from the easement; or

(10) relocating an existing recreational trail without materially detracting from the public's access or quality of experience.

(b) In the event a holder or landowner of a protected property seeks a recordable document from the Panel establishing that an amendment constitutes a Category 1 amendment, the holder shall follow the procedures for a Category 2 amendment under section 6326 of this title.

#### § 6326. CATEGORY 2 AMENDMENTS; CRITERIA; REVIEW

(a) A Category 2 amendment is an amendment that:

(1) the holder reasonably believes will have not more than a de minimis negative impact on the protected qualities under an existing easement but that does not clearly meet the definition of a Category 1 amendment; or

(2) adjusts the boundaries of the land protected by the easement or adjusts the boundaries of areas excluded from the easement, but only if:

(A) the adjustment does not reduce the area covered by the easement by more than the greater of:

(i) two acres; or

(ii) one percent of the land protected by the easement, not to exceed five acres; and

(B) the holder reasonably believes the amendment will have no more than a de minimis negative impact on the protected qualities under the existing easement.

(b) A holder seeking review of a Category 2 amendment shall submit a request for review to the Panel, together with a copy of the amendment, a description of the protected property and easement, and an explanation of the purpose and effect of the amendment. The request for review shall include the applicant's and landowner's names and addresses, and the address of the applicant's principal office in this State and, if the applicant is not a municipality or state agency, a statement of its qualifications as a holder. The request to the Panel shall be signed by each holder and the landowner or the landowner's representative. In addition, the holder shall certify and demonstrate that the amendment:

(1) is consistent with the public conservation interest;

(2) is consistent with the conservation purpose and intent of the easement;

(3) complies with all applicable federal, state, and local laws;

(4) does not result in private inurement or confer impermissible private benefit under 26 U.S.C. § 501(c)(3);

(5) has a net beneficial, neutral, or not more than a de minimis negative impact on the protected qualities under the existing easement. In determining such net beneficial, neutral, or de minimis negative impact, the holder shall address the degree to which the amendment will balance the stated goals and purposes of the easement and shall identify whether these goals and purposes are ranked by the terms of the easement and demonstrate that the proposed amendment is consistent with that ranking; and

(6) is consistent with the documented intent of the donor, grantor, and all persons that directly funded the acquisition of the easement.

(c) Within a reasonable time after receiving a request for review of a Category 2 amendment and after providing 10 days' notice to all other panel members, the Chair of the Panel shall make a determination and promptly notify the holder and landowner of the subject easement that:

(1) no further review of the amendment is required because it satisfies all of the criteria listed under subsection (b) of this section;

(2) the holder must submit further information before a review can be completed; or

(3) the holder must seek approval of the amendment as a Category 3 amendment because the amendment fails one or more of the criteria listed under subsection (b) of this section.

(d) If two or more members of the Panel believe that the proposed amendment fails one or more of the criteria listed under subsection (b) of this section and those members notify the Chair either individually or collectively within 10 days of the date of the Chair's notice to the Panel members, the amendment shall be subject to review as a Category 3 amendment.

(e) If the determination under this section is that no further information or approval is required, the Chair shall, upon the holder's request, send a notice of this determination in a recordable form to the holder.

(f) The Panel may adopt rules allowing certain Category 2 amendments to proceed as Category 1 amendments, provided the Panel establishes reasonable limitations to ensure that any such amendment will have not more than a de minimis negative impact on the protected qualities under the easement.

#### § 6327. CATEGORY 3 AMENDMENTS; REVIEW OPTIONS

(a) A Category 3 amendment is an amendment to an existing conservation easement that:

(1) removes a protected quality from the easement or changes the hierarchy of the easement's stated purposes;

(2) materially reduces the safeguards afforded to the protected qualities under the easement; or

(3) is not a Category 1 or Category 2 amendment.

(b) A holder shall not execute or record a Category 3 amendment without first:

(1) filing a petition for approval and obtaining the approval of the Panel for a Category 3 amendment in accordance with section 6328 of this title;

(2) filing a petition for approval and obtaining the approval of the Environmental Division of the Superior Court for a Category 3 amendment in accordance with section 6329 of this title. If an easement provides that the proposed amendment may only be approved by court order, then a holder may seek to amend the easement only by filing a petition for approval with the Environmental Division; or

(3) notifying the Panel that the holder will be conducting a holder's public review process under section 6330 of this title and completing that review process and any review by the Panel under section 6331 of this title.

(c) Having elected one of the review options described in this section for a given amendment, a holder may not elect to use one of the other options for the same amendment, except as provided in subsection 6330(h) of this title.

§ 6328. CATEGORY 3 PETITION TO PANEL; PROCEDURE; CRITERIA

(1) the Attorney General, the Vermont Housing and Conservation Board, and the Agencies of Agriculture, Food and Markets and of Natural Resources;

(5) all persons who originally conveyed or amended the conservation easement, unless the existing easement was conveyed or amended more than 25 years before the filing of the petition or the Panel determines that the addresses cannot be reasonably ascertained under the circumstances or that notification of such persons is otherwise impracticable; however, if the original conveyance of the easement contained any donor-imposed restrictions accepted by the holder in exchange for the easement, the Panel shall require the petitioner to demonstrate that it has made reasonable efforts to provide a copy of the petition to all persons who originally conveyed the conservation easement.

(c) Online posting. At the time a petition for a Category 3 amendment is filed, the holder shall post on its website or on another website designated by the Panel a copy of the petition and accompanying materials and information required under subsection (a) of this section.

(d) Notice of petition and proposed hearing by Panel.

(1) On receipt of a complete petition, the Panel shall promptly publish, at the expense of the petitioner, a notice of the petition in at least one area newspaper reasonably calculated to reach members of the public in the area where the protected property is located. The Panel also shall post the notice of public hearing on the Natural Resources Board website. The Panel shall send copies of the hearing notice to the petitioners, to the persons listed in subsection (b) of this section, and to adjoining landowners who may be affected by the amendment to the easement, unless it determines that the number of adjoining landowners is so large that direct notification is not practicable.

(2) The Panel's notice shall include each of the following:

(A) a description of the property subject to the existing conservation easement, the name of each petitioner, and a summary of the proposed amendment;

(B) the date, time, and place of the public hearing that the Panel proposes to hold. The date of the proposed public hearing shall be not less than 25 days and not more than 40 days from the date of publication of the notice in the newspaper. The place of the public hearing shall be in the vicinity of the protected property subject to the easement;

(C) a link to the website on which the petition for the amendment and accompanying materials and information can be found;

(D) a statement that the Panel may waive the proposed public hearing, if no request for a hearing is received by the Panel within 15 days of the date on which the notice is published in the newspaper;

(E) information on how a person may request a public hearing; and

(F) information on how a person may confirm whether the proposed public hearing will be held.

(e) Request for hearing. Any person may request that the Panel hold a public hearing on the proposed amendment. The request for a hearing shall be submitted to the Panel and state the reasons why a hearing is warranted. On receipt by the Panel of a request for hearing, the Panel promptly shall send a copy of the request to the petitioners and to all persons listed in subsection (b) of this section.

(f) Public hearing; process; subpoena authority. The Panel shall conduct a public hearing on a petition under this section if a request for a public hearing is timely filed or it determines that a hearing is necessary.

(1) Any petition and any hearing on a petition for amendment of an easement shall not be considered a contested case under 3 V.S.A. chapter 25.

(2) Any person may participate in any hearing on any petition for amendment of an easement and shall have an opportunity to provide written or oral testimony to the Panel.

(3) The Panel shall have the power to issue a subpoena under the Vermont Rules of Civil Procedure to compel a petitioner to make available all relevant records pertaining to the conservation easement and the proposed amendment. The Environmental Division of the Superior Court shall have jurisdiction over any motion to quash or enforce such a subpoena.

(A) A petitioner may request that the Panel not disclose personal or confidential information contained in records subject to a subpoena under this section that the petitioner demonstrates is not directly and substantially related to the criteria of subsection (h) of this section. On a determination that the petitioner has made such a demonstration, the records shall be exempt from inspection and copying under the Public Records Act and the Panel shall keep the records confidential from all persons except the Panel's members and staff unless a court of competent jurisdiction orders disclosure of the records.

(B) Any person who believes that additional information is needed from the easement holder before or during the hearing may direct a request to

the Panel, which may then require the petitioner to produce the requested information.

(C) If the petitioner fails to respond to a subpoena in a timely fashion, the Panel may deny the petition for amendment.

(g) Information considered. In any proceeding under this section, the Panel shall consider all circumstances and information that may reasonably bear upon the public conservation interest in upholding or amending the conservation easement, including each of the following:

(1) any material change in circumstances that has taken place since the easement was conveyed or last amended, including changes in applicable laws or regulations, in the native flora or fauna, or in community conditions and needs, or the development of new technologies or new agricultural and forestry enterprises;

(3) the existence or lack of reasonable alternatives to address the changed circumstances;

(4) whether the amendment changes an easement's stated purpose or hierarchy of purposes;

(5) the certification requirements for Category 2 amendments listed in subdivisions 6326(b)(1)–(4) of this title;

(6) the documented intent of the donor, grantor, and all direct funding sources and any donor-imposed restrictions accepted by the holder in exchange for the easement, if applicable; and

(7) any other information or issue that the Panel considers relevant.

(h) Criteria for approval.

(1) The Panel shall approve an amendment if it finds, by clear and convincing evidence, that the amendment:

(A) is consistent with the public conservation interest;

(B) is consistent with the purposes stated in section 6301 of this chapter;

(C) will not result in private inurement or confer impermissible private benefit under 26 U.S.C. § 501(c)(3);

(D) will result in adequate compensation to the holder. Any such compensation shall be paid to the holder of the easement and shall be used by

the holder for the conservation of lands in a manner consistent, as nearly as possible, with the public conservation interest stated in the easement; and

(E) meets at least one of the following:

(i) the amendment promotes or enhances the conservation purposes of the easement or the protected qualities under the easement, even though it may be inconsistent with a strict interpretation of the terms of the existing easement;

(ii) enforcement of the easement term proposed for amendment would result in significant financial burdens to the easement holder or landowner and result in minimal conservation benefit to the public; or

(iii) the amendment clearly enhances the public conservation interest, even though it may allow the diminution of one or more conservation purposes or protected qualities on the property protected by the existing easement.

(2) In the event the conservation easement subject to the petition requires that an amendment comply with more restrictive conditions than the criteria listed in this subsection, the Panel must also find that those conditions have been met in order to approve the amendment.

(i) Decision. Following the hearing, or after a determination without a hearing, the Panel shall issue a written decision approving, approving with conditions, or denying the amendment request and stating the reasons for the Panel's decision.

(1) The Panel shall post its written decision on the Board's website and shall distribute a copy to each holder of the subject easement, the landowner, the Attorney General, and to any other person who participated in the public hearing, if one was held.

(2) If the decision approves an amendment that terminates an easement in whole or in part, the Panel shall require that the holder apply any monetary compensation to achieve a conservation purpose similar to that stated in the easement and shall require, as a condition of approval, the holder to identify such purpose and provide documentation proving that the compensation has been applied in accordance with this subdivision (2).

(j) The Attorney General may request reconsideration of a decision by the Panel. Such a request shall be filed within 30 days of the decision and shall identify each specific issue to be reconsidered. The request shall not be governed by the Vermont Rules of Civil Procedure and shall address the merits of each specific issue. In its decision, the Panel shall address the merits of each such issue under subsection (h) of this section.

(1) The petition shall be signed by each holder, the landowner or landowner's representative, and any person who holds an executory interest that allows assumption of ownership of the property or the easement, if the amendment is approved.

(2) The petitioner shall serve the petition on the persons described in subdivisions 6328(b)(1)–(5) of this title.

The Division may direct the petitioner to provide a list of adjoining landowners.

(3) A petition under this section shall include the content required by subdivision 6328(a)(1)(A) through (F) of this title and such other information as the Division's rules may direct.

(b) A petition under this section shall be a matter of original jurisdiction before the Environmental Division. The Division shall provide notice of the first status conference or hearing, whichever is earlier, to the persons signing the petition and the persons on whom service of the petition is required. The Vermont Rules of Environmental Court Proceedings shall apply to petitions under this section. The Attorney General shall have a statutory right to intervene in a petition under this section and may appear at his or her discretion.

(c) In deciding a petition under this section, the Division shall consider the information described under subsection 6328(g) of this title and apply the criteria enumerated under subdivision 6328(h) of this title. However, if the terms of the conservation easement proposed for an amendment provide one or more criteria for amendment that are more stringent than those applied by the Panel, the Division shall apply the more stringent criteria set forth in the easement in making its decision.

(d) Unless otherwise agreed, the holder or holders who file a petition under this section shall bear the costs and expenses of review of the petition.

§ 6330. HOLDER'S PUBLIC REVIEW AND HEARING PROCESS

(4) Sending a copy of the easement amendment proposal and notice to the persons described in subdivisions 6328(b)(1)–(5) of this title;

(5) Sending a copy of the notice to all adjoining landowners who may be affected by the amendment to the easement, unless all holders of the subject easement agree that the number of adjoining landowners is so large that direct notification is not practicable.

(c) Any person may participate in the holder's public review process and public hearing by submitting written comments or oral comments, or both, at the public hearing. The holder may require each participant in the public hearing to sign a register noting their presence at the hearing and providing their electronic or other mailing address.

The holders may prepare a written decision to which they all agree. If all holders do not agree to the written decision, the amendment shall not be approved.

(f) The holder shall file the decision with the Panel, together with a certification that the holder has conducted a public hearing and complied with this section. At the time of this filing, the holder shall post on its website:

(1) a copy of the written decision and certification filed with the Panel;

(2) the date that the decision and certification were filed with the Panel; and

(3) state that any such request for review must state the basis for the appeal, include a statement of issues, and make a prima facie showing that the holder's decision is not in the public conservation interest.

(h) If at any time prior to the issuance of a final decision by the holder, any holder or the landowner decides to terminate the holder's public review process, the amendment shall not be approved. However, at the option of the landowner and holder, the proposed amendment may be submitted and approved as a Category 3 amendment by the Panel or the Environmental Division of the Superior Court in accordance with this subchapter.

(1) A person who originally conveyed the easement may also make a prima facie case that the amendment fails to comply with conditions concerning amendments that may be contained in the original easement.

(2) In this section, the term "prima facie" means an initial showing of specific facts which, if proven, would show that the easement amendment is not in the public conservation interest or, if the request was filed by a person who originally conveyed the easement, does not comply with conditions

concerning amendments that may be contained in the original easement. A prima facie showing also shall include the reasons why the facts prove that the amendment is not in the public conservation interest or does not comply with the original easement's conditions.

(d) The Panel, on its own initiative or by written request of the holder, may dismiss a request for review without further hearing if the person requesting the review is not eligible to request review under this section or the request for review fails to comply with subsection (c) of this section.

(1) the request for review shall be limited to the statement of issues raised in the request for review, unless the Panel determines that a request to amend the statement of issues is timely filed and will not result in prejudice to any party to the proceeding; and

(2) the decision of the holder shall be presumed to be in the public conservation interest. This presumption shall be rebutted if the Panel finds that there was a substantial violation of the procedural requirements of section 6330 of this title or if the amendment does not meet the criteria of section 6328(h) of this title.

#### § 6332. REVOCATION OF EASEMENT AMENDMENTS

(a) Revocation by the Panel. On its own initiative or at the request of the Attorney General or a person who participated in the Panel's or holder's review process, the Panel may revoke easement amendments approved under section 6328, 6330, or 6331 of this title.

(B) failure of a holder of the easement to disclose all relevant and material facts in the petition or during the review process;

(C) misrepresentation by a holder of the easement of any relevant and material fact at any time.

(c) This section shall not be applied to alter the rights of a good faith purchaser who, subsequent to approval of an amendment under this chapter, purchased property affected by the amendment without notice of the misrepresentation or failure to disclose and was not responsible for and had no knowledge or constructive notice of the conditions imposed by the Panel or Environmental Division.

#### § 6333. APPEALS

(d) Preservation. An objection that has not been raised before the Panel or the Environmental Division may not be considered by the Supreme Court, unless the failure or neglect to raise that objection is excused by the Supreme Court because of extraordinary circumstances.

(e) Standard of review. The Supreme Court may reverse a decision appealed under this section only if the decision is clearly erroneous or the Panel or Environmental Division clearly abused its discretion.

#### § 6334. CONTRIBUTOR RESTITUTION ACTIONS; DAMAGE LIMITATION

A decision by the Panel or the Environmental Division on an amendment under this subchapter shall not affect any right of a person who has personally or directly contributed to the holder's acquisition of the easement to seek restitution in a court of competent jurisdiction of the contribution based upon misrepresentation or breach of contract on the part of the easement holder. However, such restitution shall be only for the amount contributed or granted, and shall not include interest, damages, attorney's fees, or other costs, unless the reviewing court finds that the holder has acted in bad faith.
