If the Commissioner’s decision, after a hearing, is that the employee was not entitled to any or all benefits paid between the discontinuance and the final decision, upon request of the employer, the Commissioner may order that the employee repay all benefits to which the employee was not entitled. The employer may enforce a repayment order in any court of law having jurisdiction.

Reimbursement required under this subsection, except to prevent double recovery, shall not reduce the employee’s recovery of any benefit or payment provided by a plan or policy that was privately purchased by the injured employee, including uninsured-under insured motorist coverage, or any other first party insurance payments or benefits.

(2) In an instance where the recovery amount is less than the full value of the claim for personal injuries or death, the employer or its workers’ compensation insurance carrier shall be reimbursed less than the amount paid or payable under this chapter. Reimbursement shall be limited to the proportion which the recovery allowed in the previous subsection bears to the total recovery for all damages. In determining the full value of the claim for personal injuries or death, the Commissioner shall make that administrative determination by considering the same evidence that a Superior Court would consider in determining damages in a personal injury or wrongful death action, or the Commissioner may order that the valuation of the claim be determined by a single arbitrator, which shall be adopted as a decision of the Commissioner. An appeal from the Commissioner’s decision shall be made pursuant to section 670 of this title, except that the action shall be tried to the presiding judge of the Superior Court.

        The House proposes to the Senate to amend the bill by striking out all after the enacting clause and inserting in lieu thereof the following:

        Sec. 1. TRANSITIONAL FACILITIES; DEPARTMENT OF CORRECTIONS; STUDY

        (a) Findings. The General Assembly finds that the Department of Corrections has experienced a rise in costs of $17,624,076.00 since FY 2012. The General Assembly further finds that there are offenders in the State of Vermont who are eligible for release from State correctional facilities but who are not released due to a lack of suitable housing. The General Assembly further finds that recidivism is reduced and public safety is enhanced when offenders receive supervision as they transition to their home community. Therefore, it is the intent of the General Assembly that the Department of Corrections shall explore the creation of secure transitional facilities so that offenders may return to their home communities. It is also the intent of the General Assembly that the housing in these facilities include programs for employment, training, transportation, and other appropriate services. It is also the intent of the General Assembly that the Department of Corrections work with communities to gain support for these programs and services.

        (b) Recommendations. The Commissioner of Corrections shall examine and make recommendations for the establishment of transitional facilities under the supervision of the Department of Corrections. The recommendations shall include an evaluation of costs associated with establishing transitional facilities, a detailed budget for funding transitional facilities, an estimate of
State capital funding needs, potential site locations, a summary of the programming and services that are currently available to transitioning offenders, proposals for programming and services for transitioning offenders that may be needed, and eligibility guidelines for offenders to reside in transitional facilities, including the number of offenders who would be eligible for residence in a transitional facility.

(c) Report. On or before January 15, 2015, the Commissioner of Corrections shall submit the recommendations described in subsection (b) of this section to the House Committee on Corrections and Institutions and the Senate Committee on Institutions.

(d) Definitions. As used in this section, “transitional facility” means housing intended to be occupied by offenders granted furloughs to work in the community.

Sec. 2. EFFECTIVE DATE

This act shall take effect on July 1, 2014.

House Proposal of Amendment Concurred In with Amendment

S. 239.

House proposal of amendment to Senate bill entitled:
An act relating to the regulation of toxic substances.

Was taken up.

The House proposes to the Senate to amend the bill by striking all after the enacting clause and inserting in lieu thereof the following:

Sec. 1. FINDINGS

The General Assembly finds that:

(1) There are more than 84,000 chemicals used commercially in the United States, and each year approximately 1,000 chemicals are added to the list of registered chemicals.
(2) More than 90 percent of the chemicals in commercial use in the United States have never been fully tested for potential impacts on human health or the environment.

(3) In 1976, the federal government passed the Toxic Substances Control Act (TSCA) in an attempt to improve the regulation of chemicals in the United States. However, TSCA grandfathered approximately 62,000 chemicals from regulation under the Act. Consequently, the U.S. Environmental Protection Agency (EPA) is not required to assess the risk of these chemicals. Since TSCA became law, EPA only has required testing for approximately 200 chemicals, and has banned or restricted the use of five of those chemicals. No chemicals have been banned in over 20 years.

(4) Biomonitoring studies reveal that toxic chemicals are in the bodies of people, including chemicals linked to cancer, brain and nervous damage, birth defects, developmental delays, and reproductive harm. Even newborn babies have chemical body burdens, proving that they are being polluted while in the womb.

(5) Vermont has regulated the use of individual chemicals of concern, including lead, mercury, bisphenol A, phthalates, decabromodiphenyl ether, tris(1,3-dichloro-2-propyl) phosphate, and tris(2-chloroethyl) phosphate, but reviewing chemicals individually, one at a time, is inefficient and inadequate for addressing the issues posed by chemicals of concern.

(6) Other states and countries, including Maine, Washington, California, and the European Union, are already taking a more comprehensive approach to chemical regulation in consumer products, and chemical regulation in Vermont should harmonize with these efforts.

(7) The State has experience monitoring and regulating chemical use through the toxic use and hazardous waste reduction programs.

(8) In order to ensure that the regulation of toxic chemicals is robust and protective, parties affected by the regulation of chemical use shall have ample opportunity to comment on proposed regulation so that the legal and financial risks of regulation are minimized.

Sec. 2. 18 V.S.A. chapter 38A is added to read:

CHAPTER 38A. CHEMICALS OF HIGH CONCERN TO CHILDREN

Sec. 10. 18 V.S.A. § 7612a is added to read:

§ 7612a. PROBABLE CAUSE REVIEW

(a) Within three days after an application for involuntary treatment is filed, the Family Division of the Superior Court shall conduct a review to determine whether there is probable cause to believe that the person was a person in need of treatment at the time of his or her admission. The review shall be based solely on the application for an emergency examination and accompanying certificate by a licensed physician and the application for involuntary treatment.

(b) If, based on a review conducted pursuant to subsection (a) of this section the Court finds probable cause to believe that the person was a person in need of treatment at the time of his or her admission, the person shall be ordered held for further proceedings in accordance with Part 8 of this title. If probable cause is not established, the person shall be ordered discharged or released from the hospital and returned to the place from which he or she was transported or to such place as the person may reasonably direct.

(c) An application for involuntary treatment shall not be dismissed solely because the probable cause review is not completed within the time period required by this section if there is good cause for the delay.
Sec. 11. 18 V.S.A. § 7615 is amended to read:

§ 7615. HEARING ON APPLICATION FOR IN VOLUNTARY TREATMENT

(a)(1) Upon receipt of the application, the court shall set a date for the hearing to be held within 10 days from the date of the receipt of the application or 20 days from the date of the receipt of the application if a psychiatric examination is ordered under section 7614 of this title unless the hearing is continued by the court pursuant to subsection (b) of this section.

(2)(A) The applicant or a person who is certified as a person in need of treatment pursuant to section 7508 of this title may file a motion to expedite the hearing. The motion shall be supported by an affidavit, and the Court shall rule on the motion on the basis of the filings without holding a hearing. The Court:

(i) shall grant the motion if it finds that the person demonstrates a significant risk of causing the person or others serious bodily injury as defined in 13 V.S.A. § 1021 even while hospitalized, and clinical interventions have failed to address the risk of harm to the person or others;

(ii) may grant the motion if it finds that the person has received involuntary medication pursuant to section 7624 of this title during the past two years and, based upon the person’s response to previous and ongoing treatment, there is good cause to believe that additional time will not result in the person establishing a therapeutic relationship with providers or regaining competence.

(B) If the Court grants the motion for expedited hearing pursuant to this subdivision, the hearing shall be held within ten days from the date of the order for expedited hearing.

(b)(1) The court may grant either each party an onetime extension of time of up to seven days for good cause.

(2) The Court may grant one or more additional seven-day continuances if:

(A) the Court finds that the proceeding or parties would be substantially prejudiced without a continuance; or

(B) the parties stipulate to the continuance.

(c) The hearing shall be conducted according to the Vermont Rules of Evidence applicable in civil actions in the criminal division.
of the superior courts of the state, and to an extent not inconsistent with this part, the rules of civil procedure of the state Vermont Rules of Civil Procedure shall be applicable.

(d) The applicant and the proposed patient shall have a right to appear at the hearing to testify. The attorney for the state State and the proposed patient shall have the right to subpoena, present, and cross-examine witnesses, and present oral arguments. The court Court may, at its discretion, receive the testimony of any other person.

(e) The proposed patient may at his or her election attend the hearing, subject to reasonable rules of conduct, and the court Court may exclude all persons, except a peer support person designated by the proposed patient, not necessary for the conduct of the hearing.

(d) A copy of the durable power of attorney advance directive, if available, shall be attached to the petition.

Sec. 13. 18 V.S.A. § 7625 is amended to read:

§ 7625. HEARING ON PETITION FOR INVOLUNTARY MEDICATION; BURDEN OF PROOF

(a) Unless consolidated with an application for involuntary treatment pursuant to subdivision 7624(b)(2) of this title, a hearing on a petition for involuntary medication shall be held within seven days of filing and shall be conducted in accordance with sections 7613, 7614, 7615(b)–(e), and 7616 and subsections 7615(b)–(e) of this title.

(b) In a hearing conducted pursuant to this section, section 7626, or section 7627 of this title, the commissioner has the burden of proof by clear and convincing evidence.

(c) In determining whether or not the person is competent to make a decision regarding the proposed treatment, the court shall consider whether the person is able to make a decision and appreciate the consequences of that decision.

Sec. 14. 18 V.S.A. § 7626 is amended to read:

§ 7626. DURABLE POWER OF ATTORNEY ADVANCE DIRECTIVE

(a) If a person who is the subject of a petition filed under section 7624 of this title has executed a durable power of attorney advance directive in accordance with the provisions of 18 V.S.A. chapter 111, subchapter 2 chapter 231 of this title, the court shall suspend the hearing and enter an order pursuant to subsection (b) of this section, if the court determines that:

(1) the person is refusing to accept psychiatric medication;

(2) the person is not competent to make a decision regarding the proposed treatment; and
(3) the decision regarding the proposed treatment is within the scope of the valid, duly executed durable power of attorney for health care advance directive.

(b) An order entered under subsection (a) of this section shall authorize the commissioner to administer treatment to the person, including involuntary medication in accordance with the direction set forth in the durable power of attorney advance directive or provided by the health care agent or agents acting within the scope of authority granted by the durable power of attorney advance directive. If hospitalization is necessary to effectuate the proposed treatment, the court may order the person to be hospitalized.

(c) In the case of a person subject to an order entered pursuant to subsection (a) of this section, and upon the certification by the person’s treating physician to the court that the person has received treatment or no treatment consistent with the durable power of attorney for health care for 45 days after the order under subsection (a) of this section has been entered, then the court shall reconvene the hearing on the petition.

(1) If the court concludes that the person has experienced, and is likely to continue to experience, a significant clinical improvement in his or her mental state as a result of the treatment or nontreatment directed by the durable power of attorney for health care, or that the patient has regained competence, then the court shall enter an order denying and dismissing the petition.

(2) If the court concludes that the person has not experienced a significant clinical improvement in his or her mental state, and remains incompetent then the court shall consider the remaining evidence under the factors described in subdivisions 7627(c)(1)-(5) of this title and render a decision on whether the person should receive medication. [Repealed.]

(d)(1) The Commissioner of Mental Health shall develop a protocol for use by designated hospitals for the purpose of educating hospital staff on the use and applicability of advance directives pursuant to chapter 231 of this title and other written or oral expressions of treatment preferences pursuant to subsection 7627(b) of this title.

(2) Prior to a patient’s discharge or release, a hospital shall provide information to a patient in the custody or temporary custody of the Commissioner regarding advance directives, including relevant information developed by the Vermont Ethics Network and Office of the Mental Health Care Ombudsman.
Sec. 15. 18 V.S.A. § 7627 is amended to read:

§ 7627. COURT FINDINGS; ORDERS

(b) If a person who is the subject of a petition filed under section 7625 of this title has not executed a durable power of attorney an advance directive, the court shall follow the person’s competently expressed written or oral preferences regarding medication, if any, unless the commissioner demonstrates that the person’s medication preferences have not led to a significant clinical improvement in the person’s mental state in the past within an appropriate period of time.

(c) If the court finds that there are no medication preferences or that the person’s medication preferences have not led to a significant clinical improvement in the person’s mental state in the past within an appropriate period of time, the court shall consider at a minimum, in addition to the person’s expressed preferences, the following factors:

(1) The person’s religious convictions and whether they contribute to the person’s refusal to accept medication;

(2) The impact of receiving medication or not receiving medication on the person’s relationship with his or her family or household members whose opinion the court finds relevant and credible based on the nature of the relationship;

(3) The likelihood and severity of possible adverse side effects from the proposed medication;

(4) The risks and benefits of the proposed medication and its effect on:
   (A) the person’s prognosis; and
   (B) the person’s health and safety, including any pregnancy; and

(5) The various treatment alternatives available, which may or may not include medication.

(d) As a threshold matter, the Court shall consider the person’s competency. If the court finds that the person is competent to make a decision regarding the proposed treatment or that involuntary medication is not supported by the factors in subsection (c) of this section, the court shall enter a finding to that effect and deny the petition.

(e) As a threshold matter, the Court shall consider the person’s competency. If the court finds that the person is incompetent to make a decision regarding the proposed treatment and that involuntary medication is
supported by the factors in subsection (c) of this section, the court shall make specific findings stating the reasons for the involuntary medication by referencing those supporting factors.

(f) (1) If the court grants the petition, in whole or in part, the court shall enter an order authorizing the commissioner to administer involuntary medication to the person. The order shall specify the types of medication, the permitted dosage range, length of administration, and method of administration for each. The order for involuntary medication shall not include electric convulsive therapy, surgery, or experimental medications. A long-acting injection shall not be ordered without clear and convincing evidence, particular to the patient, that this treatment is the most appropriate under the circumstances.

(2) The order shall require the person’s treatment provider to conduct monthly reviews of the medication to assess the continued need for involuntary medication, the effectiveness of the medication, the existence of any side effects, and whether the patient has become competent pursuant to subsection 7625(c) of this title, and shall document this review in detail in the patient’s chart and provide the person’s attorney with a copy of the documentation within five days of its production.

(g) For a person receiving treatment pursuant to an order of hospitalization, the commissioner may administer involuntary medication as authorized by this section to the person for up to 90 days, unless the court finds that an order is necessary for a longer period of time. Such an order shall not be longer than the duration of the current order of hospitalization. If at any time a treatment provider finds that a person subject to an order for involuntary medication has become competent pursuant to subsection 7625(c) of this title, the order shall no longer be in effect.

Sec. 16. 18 V.S.A. § 7629 is amended to read:

§ 7629. LEGISLATIVE INTENT

(a) It is the intention of the general assembly to recognize the right of a legally competent person to determine whether or not to accept medical treatment, including involuntary medication, absent an emergency or a determination that the person is incompetent and lacks the ability to make a decision and appreciate the consequences. The State of Vermont recognizes the fundamental right of a person to determine the extent of health care the person will receive, including treatment provided during periods of lack of competency that the person expressed a desire for when he or she was competent.
(b) This act protects this right through a judicial proceeding prior to the use of nonemergency involuntary medication and by limiting the duration of an order for involuntary treatment to no more than one year. The least restrictive conditions consistent with the person’s right to adequate treatment shall be provided in all cases. The General Assembly adopts the goal of high-quality, patient-centered health care, which the Institute of Medicine defines as “providing care that is respectful of and responsive to individual patient preferences, needs, and values and ensuring that patient values guide all clinical decisions.”

(c) It is the policy of the General Assembly to work towards a mental health system that does not require coercion or the use of involuntary medication when a person is opposing it. The distress and insult to human dignity that results from compelling a person to participate in medical procedures against his or her will are real regardless of how poorly the person may understand the procedures or how confused or mistaken the person may be about the procedures.

(d) This act will render the J. L. v. Miller consent judgment no longer applicable. This chapter protects the rights and values described in this section through a judicial process to determine competence prior to an order for nonemergency involuntary medication and by limiting the duration of an order for involuntary treatment to no more than one year. The least restrictive order consistent with the person’s right to adequate treatment shall be provided in all cases.

(3) If an advance directive contains a provision executed in compliance with this section:

(A) The agent may, in the event the principal lacks capacity, make health care decisions over the principal’s objection, provided that the decisions are made in compliance with subsection 9711(d) of this title.
(B) A clinician shall follow instructions of the agent authorizing or withholding health care over the principal’s objection.

S. 252.

Pending entry on the Calendar for notice, on motion of Senator Campbell, the rules were suspended and House proposal of amendment to Senate bill entitled:

An act relating to financing for Green Mountain Care.

Was taken up for immediate consideration.
The House proposes to the Senate to amend the bill by striking out all after the enacting clause and inserting in lieu thereof the following:

* * * Intent and Principles * * *

Sec. 1. LEGISLATIVE INTENT; FINDINGS; PURPOSE

(a)(1) It is the intent of the General Assembly to continue moving forward toward implementation of Green Mountain Care, a publicly financed program of universal and unified health care.

(2) It is the intent of the General Assembly not to change in any way the benefits provided to Vermont residents by Medicare, the Federal Employees Health Benefit Program, TRICARE, a retiree health program, or any other health benefit program beyond the regulatory authority of the State of Vermont.

(b) The General Assembly finds that:

(1) It has been three years since the passage of 2011 Acts and Resolves No. 48 (Act 48), which established the Green Mountain Care Board, authorized payment reform initiatives, and created the framework for the Vermont Health Benefit Exchange and Green Mountain Care.

(2) The Green Mountain Care Board currently regulates health insurance rates, hospital budgets, and certificates of need. In 2013, the Green Mountain Care Board’s hospital budget review limited hospital growth to 2.7 percent, the lowest annual growth rate in Vermont for at least the last 15 years. The Green Mountain Care Board issued four certificates of need and one conceptual development phase certificate of need. It also issued 31 health insurance rate decisions and reduced by approximately five percent the rates proposed by insurers in the Vermont Health Benefit Exchange.

(3) In 2013, Vermont was awarded a three-year State Innovation Model (SIM) grant of $45 million to improve health and health care and to lower costs for Vermont residents. The grant funds the creation of a sustainable model of multi-payer payment and delivery reform, encouraging providers to change the way they do business in order to deliver the right care at the right time in the right setting. The State has created a 300-person public-private stakeholder group to work collaboratively on creating appropriate payment and delivery system models. Through this structure, care management models are being coordinated across State agencies and health care providers, including the Blueprint for Health, the Vermont Chronic Care Initiative, and accountable care organizations.

(4) From the SIM grant funds, the State recently awarded $2.6 million in grants to health care providers for innovative pilot programs improving care
delivery or for creating the capacity and infrastructure for care delivery reforms.

(5) Three accountable care organizations (ACOs) have formed in Vermont: one led by hospitals, one led by federally qualified health centers, and one led by independent physicians. The Green Mountain Care Board has approved payment and quality measures for ACOs, which create substantial uniformity across payers and will provide consistent measurements for health care providers.

(6) The Vermont Health Benefit Exchange has completed its first open enrollment period. Vermont has more people enrolled through its Exchange per capita than are enrolled in any other state-based Exchange, but many Vermonters experienced difficulties during the enrollment period and not all aspects of Vermont’s Exchange are fully functional.

(7) According to the 2013 Blueprint for Health Annual Report, Vermont residents receiving care from a patient-centered medical home and community health team had favorable outcomes over comparison groups in reducing expenditures and reducing inpatient hospitalizations. As of December 31, 2013, 121 primary care practices were participating in the Blueprint for Health, serving approximately 514,385 Vermonters.

(8) The Agency of Human Services has adopted the modified adjusted gross income standard under the Patient Protection and Affordable Care Act, further streamlining the Medicaid application process.

(9) Vermonters currently spend over $2.5 billion per year on private funding of health care through health insurance premiums and out-of-pocket expenses. Act 48 charts a course toward replacing that spending with a publicly financed system.

(10) There is no legislatively determined time line in Act 48 for the implementation of Green Mountain Care. A set of triggers focusing on decisions about financing, covered services, benefit design, and the impacts of Green Mountain Care must be satisfied, and a federal waiver received, before launching Green Mountain Care. In addition, the Green Mountain Care Board must be satisfied that reimbursement rates for providers will be sufficient to recruit and retain a strong health care workforce to meet the needs of all Vermonters.

(11) Act 48 required the Secretary of Administration to provide a financing plan for Green Mountain Care by January 15, 2013. The financing plan delivered on January 24, 2013 did not “recommend the amounts and necessary mechanisms to finance Green Mountain Care and any systems improvements needed to achieve a public-private universal health care
system,” or recommend solutions to cross-border issues, as required by Sec. 9 of Act 48. The longer it takes the Secretary to produce a complete financing plan, the longer it will be until Green Mountain Care can be implemented.

(c) In order to implement the next steps envisioned by Act 48 successfully, it is appropriate to update the assumptions and cost estimates that formed the basis for that act, evaluate the success of existing health care reform efforts, and obtain information relating to key outstanding policy decisions. It is the intent of the General Assembly to obtain a greater understanding of the impact of health care reform efforts currently under way and to take steps toward implementation of the universal and unified health system envisioned by Act 48.

(d) Before making final decisions about the financing for Green Mountain Care, the General Assembly must have accurate data on the direct and indirect costs of the current health care system and how the new system will impact individual decisions about accessing care.

(e) The General Assembly also must consider the benefits and risks of a new health care system on Vermont’s businesses when there are new public financing mechanisms in place, when businesses no longer carry the burden of providing health coverage, when employees no longer fear losing coverage when they change jobs, and when business start-ups no longer have to consider health coverage.

(f) The General Assembly must ensure that Green Mountain Care does not go forward if the financing is not sufficient, fair, predictable, transparent, sustainable, and shared equitably.

(g) The General Assembly must be satisfied that an appropriate plan of action is in place in order to accomplish the transitions needed for successful implementation of Green Mountain Care.

Sec. 2. PRINCIPLES FOR HEALTH CARE FINANCING

The General Assembly adopts the following principles to guide the financing of health care in Vermont:

(1) All Vermont residents have the right to high-quality health care.

(2) All Vermont residents shall contribute to the financing for Green Mountain Care through taxes that are levied equitably, taking into account an individual’s ability to pay and the value of the health benefits provided so that access to health care will not be limited by cost barriers.

(3) The financing system shall maximize opportunities to take advantage of federal tax credits and deductions.
(4) As provided in 33 V.S.A. § 1827, Green Mountain Care shall be the payer of last resort for Vermont residents who continue to receive health care through plans provided by an employer, by a federal health benefit plan, by Medicare, by a foreign government, or as a retirement benefit.

(5) Vermont’s system for financing health care shall raise revenue sufficient to provide medically necessary health care services to all Vermont residents, including:

(A) ambulatory patient services;
(B) emergency services;
(C) hospitalization;
(D) maternity and newborn care;
(E) mental health and substance use disorder services, including behavioral health treatment;
(F) prescription drugs;
(G) rehabilitative and habilitative services and devices;
(H) laboratory services;
(I) preventive and wellness services and chronic care management; and

(J) pediatric services, including oral and vision care.

(h)(1) This The authority of the Board under this section shall apply only to the rate review process for policies for major medical insurance coverage and shall not apply to the policy forms for major medical insurance coverage or to the rate and policy form review process for policies for specific disease, accident, injury, hospital indemnity, dental care, vision care, disability income, long-term care, student health insurance coverage, or other limited benefit coverage, to Medicare supplemental insurance, or to benefit plans that are paid directly to an individual insured or to his or her assigns and for which the amount of the benefit is not based on potential medical costs or actual costs incurred.
(2) The policy forms for major medical insurance coverage, as well as

***

*** Adverse Childhood Experiences ***

Sec. 20. FINDINGS AND PURPOSE

(a) It is the belief of the General Assembly that controlling health care costs requires consideration of population health, particularly Adverse Childhood Experiences (ACEs).
(b) The ACE Questionnaire contains ten categories of questions for adults pertaining to abuse, neglect, and family dysfunction during childhood. It is used to measure an adult’s exposure to traumatic stressors in childhood. Based on a respondent’s answers to the Questionnaire, an ACE Score is calculated, which is the total number of ACE categories reported as experienced by a respondent.

(c) In a 1998 article entitled “Relationship of Childhood Abuse and Household Dysfunction to Many of the Leading Causes of Death in Adults” published in the American Journal of Preventive Medicine, evidence was cited of a “strong graded relationship between the breadth of exposure to abuse or household dysfunction during childhood and multiple risk factors for several of the leading causes of death in adults.”

(d) The greater the number of ACEs experienced by a respondent, the greater the risk for the following health conditions and behaviors: alcoholism and alcohol abuse, chronic obstructive pulmonary disease, depression, obesity, illicit drug use, ischemic heart disease, liver disease, intimate partner violence, multiple sexual partners, sexually transmitted diseases, smoking, suicide attempts, and unintended pregnancies.

(e) ACEs are implicated in the ten leading causes of death in the United States and with an ACE score of six or higher, an individual has a 20-year reduction in life expectancy.

(f) An individual with an ACE score of two is twice as likely to experience rheumatic disease. An individual with an ACE score of four has a three-to-four-times higher risk of depression; is five times more likely to become an alcoholic; is eight times more likely to experience sexual assault; and is up to ten times more likely to attempt suicide. An individual with an ACE score of six or higher is 2.6 times more likely to experience chronic obstructive pulmonary disease; is three times more likely to experience lung cancer; and is 46 times more likely to abuse intravenous drugs. An individual with an ACE score of seven or higher is 31 times more likely to attempt suicide.

(g) Physical, psychological, and emotional trauma during childhood may result in damage to multiple brain structures and functions.

(h) ACEs are common in Vermont. In 2011, the Vermont Department of Health reported that 58 percent of Vermont adults experienced at least one adverse event during their childhood, and that 14 percent of Vermont adults have experienced four or more adverse events during their childhood. Seventeen percent of Vermont women have four or more ACEs.

(i) The impact of ACEs is felt across all socioeconomic boundaries.
(j) The earlier in life an intervention occurs for an individual with ACEs, the more likely that intervention is to be successful.

(k) ACEs can be prevented where a multigenerational approach is employed to interrupt the cycle of ACEs within a family, including both prevention and treatment throughout an individual’s lifespan.

(l) It is the belief of the General Assembly that people who have experienced adverse childhood experiences can be resilient and can succeed in leading happy, healthy lives.

Sec. 21. VERMONT FAMILY BASED APPROACH PILOT

(a) The Agency of Human Services, through the Integrated Family Services initiative, within available Agency resources and in partnership with the Vermont Center for Children, Youth, and Families at the University of Vermont, shall implement the Vermont Family Based Approach in one pilot region. The pilot shall be fully implemented by January 1, 2015 to the extent resources are available to support the implementation.

(b)(1) In the pilot region, the Agency of Human Services, community partner organizations, schools, and the Vermont Center for Children, Youth, and Families shall identify individuals interested in being trained as Family Wellness Coaches and Family Focused Coaches.

(2) Each Family Wellness Coach and Family Focused Coach shall:

   (A) complete the training program provided by the Vermont Family Based Approach;
