

Vermont Public Service Board Legislative Priorities

Emailed Dated 12/5/2013 from Jim Volz

I want to apologize for not responding to your request for a short executive summary which the committee wanted to get today. Please also convey my apologies to Chairman Botzow. It was an oversight on my part. We have only one bill that we care about, and that is from last year. It is S. 25 and will be necessary to implement our electronic document retention program. Gregg Faber will be stopping by today and will be happy to brief you or Chairman Botzow about this matter, or arrange to provide a memo if you need that.
