

1 TO THE HOUSE OF REPRESENTATIVES:

2 The Committee on Health Care to which was referred House Bill No. 762
3 entitled “An act relating to the Adverse Childhood Experience Questionnaire”
4 respectfully reports that it has considered the same and recommends that the
5 bill be amended by striking out all after the enacting clause and inserting in
6 lieu thereof the following:

7 Sec. 1. FINDINGS AND PURPOSE

8 (a) It is the belief of the General Assembly that controlling health care
9 costs requires consideration of population health, particularly Adverse
10 Childhood Experiences (ACEs).

11 (b) The ACE Questionnaire contains ten categories of questions for adults
12 pertaining to abuse, neglect, and family dysfunction during childhood. It is
13 used to measure an adult’s exposure to traumatic stressors in childhood. Based
14 on a respondent’s answers to the Questionnaire, an ACE Score is calculated,
15 which is the total number of ACE categories reported as experienced by a
16 respondent.

17 (c) In a 1998 article entitled “Relationship of Childhood Abuse and
18 Household Dysfunction to Many of the Leading Causes of Death in Adults”
19 published in the American Journal of Preventive Medicine, evidence was cited
20 of a “strong graded relationship between
21 the breadth of exposure to abuse or

1 household dysfunction during
2 childhood and multiple risk factors for
3 several of the leading causes of death
4 in adults.”

5 (d) The greater the number of ACEs experienced by a respondent, the
6 greater the risk for the following health conditions and behaviors: alcoholism
7 and alcohol abuse, chronic obstructive pulmonary disease, depression, obesity,
8 illicit drug use, ischemic heart disease, liver disease, intimate partner violence,
9 multiple sexual partners, sexually transmitted diseases, smoking, suicide
10 attempts, and unintended pregnancies.

11 (e) ACEs are implicated in the ten leading causes of death in the United
12 States and with an ACE score of six, an individual has a 20-year reduction in
13 life expectancy.

14 (f) An individual with an ACE score of two is twice as likely to experience
15 rheumatic disease. An individual with an ACE score of four has a
16 three-to-four-times higher risk of depression; is five times more likely to
17 become an alcoholic; is eight times more likely to experience sexual assault;
18 and is up to ten times more likely to attempt suicide. An individual with an
19 ACE score of six or higher is 2.6 times more likely to experience chronic
20 obstructive pulmonary disease; is three times more likely to experience lung
21 cancer; and is 46 times more likely to abuse intravenous drugs. An individual

1 with an ACE score of seven or higher is 31 times more likely to attempt
2 suicide.

3 (g) Physical, psychological, and emotional trauma during childhood may
4 result in damage to multiple brain structures and functions.

5 (h) ACEs are common in Vermont. In 2011, the Vermont Department of
6 Health reported that 58 percent of Vermont adults experienced at least one
7 adverse event during their childhood, and that 14 percent of Vermont adults
8 have experienced four or more adverse events during their childhood.
9 Seventeen percent of Vermont women have four or more ACEs.

10 (i) The impact of ACEs is felt across all socioeconomic boundaries.

11 (j) The earlier in life an intervention occurs for an individual with ACEs,
12 the more likely that intervention is to be successful.

13 (k) ACEs can be prevented where a multigenerational approach is
14 employed to interrupt the cycle of ACEs within a family, including both
15 prevention and treatment throughout an individual's lifespan.

16 (l) It is the belief of the General Assembly that people who have
17 experienced adverse childhood experiences can be resilient and can succeed in
18 leading happy, healthy lives.

19 Sec. 2. TRAUMA-INFORMED CARE IN BLUEPRINT FOR HEALTH

20 (a) Using existing funding streams if available, the Director of the
21 Blueprint for Health, in consultation with appropriate stakeholders who are

1 interested participants, shall explore ways to implement the following
2 initiatives:

3 (1) use at Blueprint for Health practices of an appropriate and voluntary
4 screening tool containing questions on the ten categories of adverse childhood
5 experiences, including consideration of patient privacy, appropriate training for
6 providers using a screening tool, and increased per-member, per-month
7 payments to incentivize use of an appropriate screening tool; and

8 (2) a pilot program in at least two interested counties using the Vermont
9 Center for Children, Youth, and Families' Vermont Family Based Approach,
10 in which participating community health teams may hire a family wellness
11 coach, or contract with an appropriate community partner organization who
12 shall serve as a family wellness coach, to provide prevention, intervention,
13 outreach, and wellness services to families within the community health team's
14 region.

15 (b) On or before December 15, 2014, the Director of the Blueprint for
16 Health shall submit a report to the House Committee on Health Care and to the
17 Senate Committee on Health and Welfare containing findings and
18 recommendations regarding the implementation of the initiatives listed in
19 subsection (a) of this section, including evaluation measures and approaches,
20 and funding constraints and opportunities.

21 **Sec. 3. VERMONT FAMILY BASED APPROACH PILOT PROGRAM**

1 (a) Using existing funding streams if available, the Commissioner of
2 Health, in consultation with appropriate stakeholders, shall develop and
3 implement a pilot program for primary schools in at least two interested school
4 districts throughout the State using the Vermont Center for Children, Youth,
5 and Families' Vermont Family Based Approach.

6 (b) A nurse or mental health professional employed at a primary school
7 within a participating school district may apply to the Department of Health to
8 take part in a four-day training program on the Vermont Center for Children,
9 Youth, and Families' Vermont Family Based Approach. The Department shall
10 select nurses or mental health professionals from among the applicants to
11 participate in the training.

12 (c) Upon completion of the four-day training program, each participating
13 nurse or mental health professional shall employ the training received on the
14 Vermont Family Based Approach in his or her school district. This shall
15 include a formal presentation on the Vermont Family Based Approach for
16 faculty members at the participating nurse or mental health professional's
17 school district.

18 (d) On or before January 15 of each year through January 15, 2020, the
19 Department shall report to the House Committees on Education, on Health
20 Care, and on Human Services and to the Senate Committees on Education and

1 on Health and Welfare regarding any findings or recommendations related to
2 the Vermont Family Based Approach Pilot Program in schools.

3 (e) The Vermont Family Based Approach Pilot Program shall cease to exist
4 on June 30, 2020.

5 Sec. 4. 18 V.S.A. chapter 13, subchapter 3 is added to read:

6 Subchapter 3. Trauma-Informed Care

7 § 751. DIRECTOR OF ADVERSE CHILDHOOD EXPERIENCE,

8 EDUCATION, AND TREATMENT

9 The Commissioner of Health shall designate a Director of Adverse
10 Childhood Experience, Treatment, and Prevention within the Department who
11 shall be responsible for:

12 (1) surveying existing resources in each community health team's region
13 and identifying gaps in resources, if any;

14 (2) coordinating the implementation of services throughout the
15 Department for persons who experienced trauma as a child;

16 (3) providing advice and recommendations to the Commissioner on the
17 expansion of services throughout the State for persons who experienced trauma
18 as a child; and

19 (4) developing and implementing programs, if applicable, aimed at
20 preventing and treating persons who experienced trauma as a child.

1 Sec. 5. RECOMMENDATION; UNIVERSITY OF VERMONT’S COLLEGE
2 OF MEDICINE AND SCHOOL OF NURSING CURRICULUM

3 The General Assembly recommends to the University of Vermont’s College
4 of Medicine and School of Nursing that they consider adding or expanding
5 information to their curricula about the Adverse Childhood Experience Study
6 and the impact of adverse childhood experiences on lifelong health.

7 Sec. 6. TRAUMA-INFORMED EDUCATIONAL MATERIALS

8 (a) On or before January 1, 2015, the Vermont Board of Medical Practice,
9 in collaboration with the Vermont Medical Society Education and Research
10 Foundation, shall develop educational materials pertaining to the Adverse
11 Childhood Experience Study, including available resources and
12 evidence-based interventions for physicians, physician assistants, and advance
13 practice registered nurses.

14 (b) On or before July 1, 2016, the Vermont Board of Medical Practice and
15 the Office of Professional Regulation shall disseminate the materials prepared
16 pursuant to subsection (a) of this section to all physicians licensed pursuant to
17 26 V.S.A. chapters 23, 33, and 81, physician assistants licensed pursuant to
18 26 V.S.A. chapter 31, and advance practice registered nurses licensed pursuant
19 to 26 V.S.A. chapter 28, subchapter 3.

1 Sec. 7. REPORT; DEPARTMENT OF HEALTH; GREEN MOUNTAIN

2 CARE BOARD

3 (a) On or before November 1, 2014, the Department of Health shall submit
4 a written report to the Green Mountain Care Board containing:

5 (1) recommendations for incorporating education, treatment,
6 and prevention of adverse childhood experiences into Vermont's medical
7 practices and the Department of Health's programs;

8 (2) recommendations on the availability of appropriate screening tools
9 and evidence-based interventions for individuals throughout their lives,
10 including expectant parents; and

11 (3) recommendations on additional security protections that may be used
12 for information related to a patient's adverse childhood experiences.

13 (b) The Green Mountain Care Board shall review the report submitted
14 pursuant to section (a) of this section and attach comments to the report
15 regarding the report's implications on population health and health care costs.

16 On or before January 1, 2015, the Board shall submit the report with its
17 comments to the Senate Committees on Education and on Health and Welfare
18 and to the House Committees on Education, on Health Care, and on Human
19 Services.

20 Sec. 8. EFFECTIVE DATE

21 This act shall take effect on July 1, 2014.
