

## VAHHA Proposal

VAHHA proposes a fee of \$350 per month/patient for telemonitoring monitoring services. VAHHA estimates the cost to Medicaid could be as low as \$91,000 a year to \$183,000, a small investment that could result in considerable savings and better care.

Average number of patients per month	50	75	150
Cost/per month (\$350/patient/month )	\$17,500	\$26,250	\$35,000
Yearly cost total (Federal and State)	\$210,000	\$315,000	\$420,000
State payments (.4356) for year	\$91,476	\$137,214	\$182,952
Federal payments (.5644) for year	\$118,524	\$177,786	\$237,048
