**Maple Leaf Farm Data**  
**For Vermont House Human Services Committee**  
**January 13, 2014**

1. Facility Capacity: 41 beds (22 men, 11 women, 8 Flexible Use)
2. Census: The average census for the period July 1-Dec. 31, 2013 was 36.13, as compared to last year's average census of 37.91.
  - State contracted beds, which total 30.86 per day, averaged 28.29.
  - Grant for the Uninsured beds, contracted at 4.34, averaged 4.02.
  - Medicaid beds, contracted at 26.52, averaged 24.27\*
3. Wait List: Using ADAP's definition of a wait list (basically post intake), the July 1-Dec. 31, 2013 average wait list was 36. Average wait time to admission was 12.76 days. There are significant numbers of people in the process of being considered for admission who are not counted in the "Wait List".

\*Note that Medicaid beds have typically been 100% utilized, or slightly more. The drop in utilization is connected to a drop in Length of Stay of about 2 days.
