# Property Tax Administration - 2013 Tax Year

## Equalization

The Division of Property Valuation and Review (PVR) is required annually to determine the equalized education property value and coefficient of dispersion for each school district in Vermont. This year's equalization study was based on the assessed value of property as established by each municipality as of April 1, 2013.

The equalization study incorporates the following steps:

- 1) PVR collects data for each sale of real estate occurring in each municipality throughout the State that occurs between April 1<sup>st</sup> to March 31 of the given year.
- 2) The circumstances of the sales are analyzed to eliminate sales that do not represent a fair market sale.
- 3) The remaining sales are classified into 15 categories each category representing a distinct market sector .
- 4) The ratio of the listed-value-to-sales-price for all market sales is calculated using the listed value at the time of the sale.
- 5) Equalization ratios that represent statistically reliable estimates of the divergence from 100 percent of fair market value for each grand list class, category, and for the municipality as a whole are calculated.
- 6) The resulting ratios are applied to the grand list value for the appropriate category, class or the municipality as a whole to compute the equalized education property value for the municipality.

The study's estimate of market value for a municipality is called the *equalized education property value* (EPPV). The EPPVs determined as part of the 2013 equalization study are a measure of the property wealth of a school district and are used as an important data element in the setting of education tax rates for all Vermont school districts. The ratio of a school district's total taxable un-equalized education property value to the total taxable equalized education property value is the common level of appraisal (CLA) used to equalize the education property tax rates throughout the State.

## Property Values

Statewide, the total un-equalized listed value went up less than 1%. Two factors generally affect the change in un-equalized listed values—new construction and reappraisals. New construction has not fully recovered from the recent recession but, at least within the residential real estate market, it has begun to pick up in the last couple of years. For the 2013 tax year, there were reappraisals in 20 towns. This compares to 21, 21, 33, and 38 reappraisals in four prior years. In several of those towns the reappraisal resulted in a lower grand list for 2013. The market has stabilized and is showing signs of recovery.

The state total equalized *education* property value decreased by about a half a percent this year. This compares to a decrease of about 1.5 percent in the prior year indicating that the Vermont's real estate market continues to recover from the downturn that began in 2008 - 2009.

<b>Tax Year</b>	<b>Educ LV (Billions \$)</b>	<b>% Change</b>	<b>EEPV (Billions \$)</b>	<b>% Change</b>
2005	52.0	16.75%	61.5	13.66%
2006	59.2	13.82%	69.1	12.36%
2007	65.2	10.21%	75.8	9.68%
2008	71.5	9.60%	80.9	6.73%
2009	74.4	4.13%	82.6	2.17%
2010	76.3	2.55%	81.3	-1.57%
2011	77.8	1.98%	79.6	-2.02%
2012	78.4	0.68%	78.5	-1.45%
2013	78.6	0.26%	78.1	-0.46%

The state total equalized *municipal* property value followed suit in dropping slightly over 2012. The equalized municipal property value is derived from the un-equalized grand list that municipalities use to assess municipal (i.e., non-education) property taxes.

**State Total Equalized MUNICIPAL Property Value (Billions \$)**

2008	82.1
2009	83.8
2010	82.2
2011	80.7
2012	79.6
2013	79.3

The total taxable personal property (machinery/equipment and inventory) value this year is \$922.4 million. With the exception of Cable, most personal property is taxed for municipal services but not for education costs.

**PP on Municipal GL (Millions \$)**

2008	852.8
2009	852.2
2010	827.8
2011	845.2
2012	843.5
2013	922.4

The Vermont real estate market is slowly recovering. The housing price index over the year is ticking up. The median R1 sale price is up by 8%, though this may be more reflective of the types of properties selling than of the market as a whole. Moderately priced homes appear to be selling in greater numbers than high end houses.

<b>Tax Year</b>	<b>R1 Median Price</b>	<b>S1 Median Price</b>
2004	159,900	150,000
2005	180,000	170,750
2006	194,000	179,000
2007	200,000	175,000
2008	200,000	170,000*
2009	199,000	155,000
2010	187,500	170,500
2011	185,000	160,000
2012	180,000	150,000
2013	194,825	159,000

*\* The term Vacation was changed in 2009 to Seasonal to better define the category. Seasonal homes are dwelling that are built for less than full year occupancy, The highest and best use of the property determines the category. The present use of the property and the ownership of the property are not the deciding factors. These may include cabins, hunting camps, camps or cottages on lake or ponds, etc.*

You can find town by town property transfer statistics on the Tax Department’s website under “Statistics.”

This year Orleans, Chittenden, Franklin, Addison, and Bennington Counties showed an increase in equalized education property value. Rutland County saw the greatest percentage decrease over 2012.

**Change in EEPV – 2012 to 2013**

<b>County</b>	<b>% Change</b>	<b>Rank</b>
Orleans	1.92%	1
Chittenden	1.16%	2
Franklin	1.05%	3
Addison	0.35%	4
Bennington	0.29%	5
Caledonia	-0.38%	6
Essex	-0.76%	7
Washington	-0.85%	8
Orange	-1.46%	9
Windham	-1.59%	10
Lamoille	-1.81%	11
Grand Isle	-2.09%	12
Windsor	-2.25%	13
Ruland	-2.57%	14

Note that the calculations of the EEPV values and changes are based on the results prior to any appeals. Appeals by municipalities may result in a slight reduction in the 2013 equalized values. In past years, appeals have resulted in less than half of a percent decrease in the statewide total value.

## Taxes and Tax Rates

The base education tax rates for Tax Year 2013 were up over 2012 and the increase is in response to the growth in education spending over that time period.

Tax Year	Homestead Base Rate	Nonresidential Base Rate	EEPV (Billion \$)	Education Spending <sup>1</sup>	School Tax Adjustments (State Payments)
2005	1.02	1.51	61.5	962,976,995	92,597,558
2006	0.95	1.44	69.1	1,015,048,578	106,590,553
2007	0.87	1.36	75.8	1,056,563,162	109,995,949
2008	0.87	1.36	80.9	1,109,754,777	113,989,450
2009	0.86	1.35	82.6	1,132,474,781	134,369,701
2010	0.86	1.35	81.3	1,130,803,523	145,309,090
2011	0.87	1.36	79.6	1,125,189,915	142,955,566
2012	0.89	1.38	78.5	1,158,753,333	134,703,320
2013	0.94	1.44	78.1	1,215,749,726	137,532,417

<sup>1</sup> Education spending defined in 16 VSA §4001(6)

The following are some summary numbers concerning the change in taxes assessed and effective tax rates (ETR's).

### School, Municipal and Total Taxes Assessed in Millions of \$ (before income sensitization)

Tax Year	School Taxes <sup>2</sup>	Municipal Taxes <sup>3</sup>	Total Taxes	% Change School Taxes	% Change Muni Taxes	Total % Change
2005	814.5	292.5	1,107.0	10.9%	6.9%	9.8%
2006	879.3	316.1	1,195.4	8.0%	8.1%	8.0%
2007	919.5	335.1	1,254.6	4.6%	6.0%	5.0%
2008	1,000.7	353.9	1,354.6	8.8%	5.6%	8.0%
2009	1,015.8	365.7	1,417.5	5.1%	3.3%	4.6%
2010	1,071.5	372.0	1,443.5	1.9%	1.7%	1.8%
2011	1,065.3	379.2	1,444.5	-0.6%	1.9%	0.1%
2012	1,075.4	393.9	1,469.3	0.9%	3.9%	1.7%
2013	1,119.8	402.5	1,552.4	4.1%	2.2%	3.6%

<sup>2</sup> Does not include education taxes levied on “increment” in tax increment financing (TIF) districts.

<sup>3</sup> Municipal taxes include only town/city level taxes and not taxes of villages and special districts.

### School, Municipal and Total Effective Tax Rates (ETR)

Tax Year	Homestead School ETR	Nonresidential School ETR	Municipal ETR <sup>3</sup>	Hmstd Total ETR	NonRes Total ETR
2004	1.31	1.41	0.49	1.80	1.90
2005	1.30	1.35	0.47	1.77	1.82
2006	1.23	1.32	0.47	1.70	1.79
2007	1.17	1.26	0.44	1.61	1.70
2008	1.18	1.29	0.43	1.61	1.72
2009	1.21	1.33	0.44	1.65	1.77
2010	1.26	1.38	0.45	1.71	1.83
2011	1.29	1.39	0.47	1.76	1.86
2012	1.34	1.40	0.50	1.84	1.90
2013	1.41	1.45	0.51	1.92	1.96

<sup>3</sup> Municipal taxes include only town/city level taxes and not taxes of villages and special districts.

### Assessment Practices in Vermont

There are two widely used measures for evaluating assessment practices in Vermont—the common level of appraisal (CLA) and the coefficient of dispersion (COD). The CLA is the ratio of a municipality’s total grand list value to its corresponding “equalized” value derived through PVR’s equalization study. The statewide CLA was 100.6% this year.

Tax Year	Statewide CLA
2007	86.0%
2008	88.4%
2009	90.1%
2010	93.9%
2011	97.7%
2012	99.8%
2013	100.6%

Another way to use the CLA to evaluate assessment practices is to consider the change in the number of municipalities that have extremely low CLA’s and are thus far from Vermont’s statutorily set standard of 100 percent fair market value. As the CLA decreases, indicating valuations that are further away from true market value, the more difficult it is for property owners to analyze whether their valuation is equitable. In 1981, 41 municipalities were appraising property at less than 30 percent of fair market value. In 2007 there were only 26 districts with a CLA less than 60 percent. By 2014 there are no longer any towns that have a

CLA under 80 percent which is the statutory threshold below which a municipality will receive a reappraisal order Property Valuation and Review.

While the problem in the past had been municipalities with low CLAs, the issue now is more appropriately framed in terms of the number of municipalities with CLAs in excess of 100 percent. In 2013, 65 percent of Vermont towns and cities have a CLA over 100% this year—a total of 67. This is a concern not only in terms of appraisal accuracy but also as a legal issue as legally grand list valuations should not exceed 100 percent. Given this, it is especially concerning that in 2013 there were 32 municipalities with CLAs in excess of 110 percent.

The coefficient of dispersion (COD) is a measure of the equity across assessments in a municipality’s grand list. In essence, the COD measures the degree to which individual property valuations vary from the average level of appraisal in a municipality. As such, it is a much better measure of fairness than the CLA. The higher the COD in a municipality, the more likely it is that similar properties are being assessed at different levels resulting in inequities in assessments within a grand list.

Assessment equity is important in order to meet the equal protection requirements of the Vermont and United States Constitutions. If a town’s grand list shows a common level of appraisal of 90 percent and all properties are assessed relatively close to 90 percent of their market value, there is a high degree of equity and the municipality will have a low COD. Assessment standards generally hold that CODs of 15 percent or less are good and that for newer, homogenous property types like condominiums, a COD of 10% or less is considered good. If, on the other hand, individual properties range in assessment from 50 to 150 percent of market value, then property owners are not being treated fairly in terms of the resulting tax burdens. Maintaining the equity or uniformity of assessments is more important than maintaining an overall level of assessment that is close to the 100 percent valuation standard.

Extremely *low CODs can also raise a red flag* indicating that properties may be being reassessed based on recent sales without considering the impact on similar properties that have not recently sold. “The objective of ratio studies is to determine appraisal performance for the populations of properties--both sold and unsold parcels. As long as standardized schedules and formulas are used in the valuation process, there is little reason to expect any significant difference in appraisal performance between sold and unsold parcels. If, however, sold parcels are selectively reappraised based on their sales prices or other criteria, the appraised values used in ratio studies will not be representative and ratio statistics will be distorted. In all probability, calculated measures of central tendency will be artificially high and measure of dispersion will be artificially low.”<sup>4</sup>

<sup>4</sup> *Property Appraisal and Assessment Administration*, page 601, Joseph K. Eckert, Ph.D., General Editor, IAAO

**Distribution of Grand List CODs over Time**

<b>Tax Year</b>	<b>10% and less</b>	<b>&gt; 10% and &lt; 20%</b>	<b>20% - 30%</b>	<b>30% and higher</b>
2001	13%	69%	17%	1%
2003	14%	62%	24%	0%
2005	6%	51%	40%	3%
2006	5%	51%	36%	8%
2007	10%	56%	26%	8%
2008	27%	51%	21%	5%
2009	32%	54%	12%	2%
2010	29%	58%	10%	2%
2011	27%	58%	15%	2%
2012	24%	68%	8%	0%
2013	21%	73%	5%	1%

32 V.S.A. § 4041a requires that a municipality with a CLA less than 80 percent or a COD greater than 20 percent must reappraise and will be ordered to do so by the director of PVR. If a municipality does not make a reasonable attempt to reappraise its grand list, all state funding to the municipality can be withheld until it complies with its reappraisal requirement.

## **Payments to Municipalities from State Funds**

The Vermont Department of Taxes annually issues payments to Vermont towns and cities for several grant programs and in total all grant payments made by the Department were about \$22.4 million in fiscal year 2014.

The largest of the Department grant programs is the municipal hold harmless or current use program. This grant program serves to reimburse towns and cities for foregone municipal property tax revenue. The revenue is foregone as properties enrolled in the current use program are taxed at their use value, as opposed to fair market value, and for nearly all properties their current use valuation is much lower than their market valuations. Payments are made annually on or before November 1<sup>st</sup>. In fiscal year 2014, total hold harmless payments were \$13.4 million.

The Department's second largest grant program is Payment-In-Lieu-Of-Taxes (PILOT). Annual PILOT payments are made to municipalities to compensate them to foregone municipal taxes due to presence of State owned buildings in a municipality. These payments are made annually on or before the end of October. Payment is based on the assessed value of state-owned property in accord with 32 V.S.A. §3701. In fiscal year 2014, State Buildings PILOT payments totaled about \$5.8 million.

For the most part, the last program provides grant payments to municipalities to assistance them with the cost of grand list maintenance and to help pay for the cost of reappraisals. This program makes annual payments to municipalities and is comprised of three parts.

- Payments to pay for educational opportunities for Listers and Assessors
- Payments that must be used by a municipality for grand list maintenance and reappraisal costs
- Payments to reimburse municipalities for the assistance they provide to PVR in conducting annual equalization study

Total payments in fiscal year 2014 for the three parts of this grant program totaled about \$3.2 million and of that amount nearly \$99,000 is distributed in support of Lister education, \$2.8 million for grand list maintenance and reappraise and more than \$331,000 for assistance with the equalization study.

## Education and Training

During 2013 PVR once again provided a full training program to listers and others in many aspects of tax administration and assessment.

A range of offerings was provided so that everyone, from new listers to seasoned assessors, could take a class appropriate to their level of experience and understanding. There were seven topics and three professional courses presented at various locations and dates around the state, with 175 total participants.

PVR staff presented the following classes: Lister Training, Advanced Lister Training, Residential Data Collection and Land Appraisal. PVR also sponsored three International Association of Assessing Officers (IAAO) courses – Standards of Professional Practice and Ethics, Understanding Real Property Appraisal and Fundamentals of Real Property Appraisal, which were all taught by IAAO certified instructors. There were also individual training sessions for town-specific issues.

PVR continued its collaboration with the University of Vermont Extension Service to provide seminars at the Town Officer Education Conferences. Listers again comprised the largest audience at the three Spring 2013 sessions held around the state. PVR staff presented two workshops: Understanding the Homestead/Housesite Declaration and A Guide to Solar Valuation.

Education continues to be a high priority for PVR and for the Legislature. The funds appropriated to towns for lister education provide opportunities for those listers who otherwise would not have the resources to attend classes. Listers continue to actively participate in PVR's Lister Education Program, which enables them to understand their responsibilities as listers, and better perform the duties of the office. Many towns have benefitted from the classes developed by PVR and will benefit going forward as we continue our mission of providing education and training to elected officials.

We are continually looking to introduce new ways of presenting courses which will better reach our target audience and enable more listers to participate in education. To that end PVR has been collaborating more closely with the Vermont Assessors and Lister Association (VALA) and the New England Municipal Resource Center (NEMRC).

In January 2013, PVR rolled out its Appraiser Certification Program for listers and assessors. The program has been well-received and 12 certificates have been issued so far, encompassing each of the first three program levels.

## Appeals to the Property Tax Hearing Officers

The Director of PVR appoints hearing officers to hear and decide appeals from decisions of the local boards of civil authority in accord with 32 V.S.A. §4461-4469.

As of publication date, 87 appeals have been received for the 2013 tax year. Very few of the 2013 appeals have been heard.

The majority of appeals heard by the hearing officers, including those 2012 cases decided to date, result in either no change in value or a reduction in value. The 2012 results so far are:

<u>Value Increased</u>	<u>No Change</u>	<u>Reduced 20% or Less</u>	<u>Reduced More than 20%</u>
16	32	55	21

Here are the results of appeals over the last several years:

<b>Tax Year</b>	<b># Appeals</b>	<b># Withdrawn</b>	<b># Reduced</b>	<b># Raised or Unchanged</b>
2001	134	18	69	47
2002	152	24	87	41
2003	192	64	76	52
2004	198	34	76	88
2005	159	18	68	73
2006	133	19	72	42
2007	161	19	71	71
2008	192	28	112	52
2009	175	23	115	37
2010	185	12	104	69
2011	241	21	123	97
2012*	140	7	77	47

\* 9 outstanding as of publication

## **Computer Assisted Mass Appraisal System (CAMA)**

Section 3411(4)(8) of Title 32, requires PVR to develop and recommend to the general assembly improved methods for standardizing property assessment procedures, to provide technical assistance and instruction to the listers in a uniform appraisal system. A tool used by PVR to assist in meeting the challenge of enhancing assessment uniformity is a Computer Assisted Mass Appraisal (CAMA) system.

The Department currently supports two Windows-based software applications. One application is MicroSolve, a CAMA product that is supplied by New England Municipal Resource Center (NEMRC) which utilizes the Marshall and Swift values for the cost approach. It is also capable of utilizing the market comparison approach and the income approach to value. NEMRC also supplies a tax administration software application called the Grand List Administration Module. The two systems are linked so that values generated in the CAMA program are automatically transferred to the Grand List Module.

Since stabilizing the CAMA software, a long-term plan that outlines the architecture and capabilities of the next generation CAMA software is underway. To this end, the evaluation group continues to meet to re-evaluate, define and prioritize major system enhancements over the next several years.

The Department's IT Division includes a computer Help Desk staff. The IT Help Desk staff is currently supporting 198 towns using MicroSolve/NEMRC; all towns in Vermont are using the NEMRC Tax Administration software. During the past year, PVR and IT Help Desk staff participated in numerous training sessions throughout the State providing instruction on both basic and advanced Microsolve/NEMRC components. Advanced sessions included sketching and the commercial database. PVR's goal is to continue to provide educational services to offer comprehensive training program for the NEMRC systems.

# Real Estate Transaction Taxes

The transaction tax programs include: Property Transfer Tax, Land Gains Tax, Real Estate Withholding and Real Estate Withholding Income Tax.

## Property Transfer Tax

The Property Transfer Tax is collected at the time an interest in real property is transferred and a deed or other instrument of conveyance recorded. The Property Transfer Tax is paid by the buyer. Not all transfers require the payment of a tax as many exemptions are incorporated in the Statute. However, any deed or other instrument of conveyance that is submitted to a town clerk for recording must be accompanied by a Property Transfer Tax return even if no tax is due. As of January 1, 2011, preparers have had a choice of submitting a Transfer Tax Return on a paper form or utilizing the online electronic Property Transfer Tax Return system (ePTTR). ePTTR returns are averaging around 45% of the total number of Transfer Tax Returns filed.

Transfer Tax Returns include information about the transfer that is coded and entered into a database allowing for access to the information by the Department, real estate professionals and the general public. The information in the Transfer Tax Returns provides the initial data on sales that are used in the equalization study described in this Report. The Department and others use the statistics generated from the information in the Transfer Tax Returns to track real estate trends in the market.

The number of yearly returns filed with the Department exceeded 20,000 (taxable and non taxable) with a decrease in paid returns from 16,083 in FY 2008, to 17,495 in FY 2013.

### Revenue from this tax per fiscal year is as follows:

2008	\$33,991,555.30
2009	\$22,945,645.75
2010	\$23,818,571.98
2011	\$25,642,975.34
2012	\$24,096,924.92
2013	\$28,513,867.34

## Land Gains

This is a tax on the gain from the sale or exchange of land that has been held for less than six years. The tax is typically paid by the seller, though in certain circumstances this liability is transferred to the buyer. Exemptions do exist for non-payment of the tax, but generally, if land is held for less than six years, the buyer is required to withhold 10% of the purchase price of the land and the seller is required to file a Land Gains Tax return to report the sale. The withholding is used to pay any tax owed. The seller can avoid withholding, however, by either obtaining a certificate from the Department, or by paying the tax at closing. Though this tax does provide some revenue to the state, its main purpose is to discourage "speculation," the holding of land for a short period and then selling it at a profit. Thus the tax rate is on a sliding scale based on the sellers' holding period and the percentage the gain bears to the basis. The longer the holding period and the smaller the percentage, less tax is paid. The number of paid returns has decreased from 1,555 in FY 2008, to 1,010 in FY 2013.

**Revenue from this tax per fiscal year is as follows:**

2008	\$3,449,827.15
2009	\$2,222,921.10
2010	\$600,065.45
2011	\$880,055.67
2012	\$783,868.23
2013	\$1,158,711.85

**Real Estate Withholding**

This is a withholding tax on the sale or exchange of real estate by nonresidents of Vermont. The withholding is the responsibility of the buyer, but is a credit for the seller to be used on their income tax return. Gains from the sale of real estate are taxable to nonresidents and the withholding is security to the state that an income tax return will be filed. The rate of withholding is 2.5% of the sales price. Certificates of reduced withholding are issued by the Department, when the seller can establish no tax is due or that the 2.5% amount exceeds the seller's maximum tax liability. Approximately 2,000 returns are filed annually.

**Withholding revenue from this tax per fiscal year is as follows:**

2008	\$11,652,096.73
2009	\$8,237,044.02
2010	\$7,851,932.03
2011	\$8,627,926.21
2012	\$7,032,893.17
2013	\$8,037,959.42

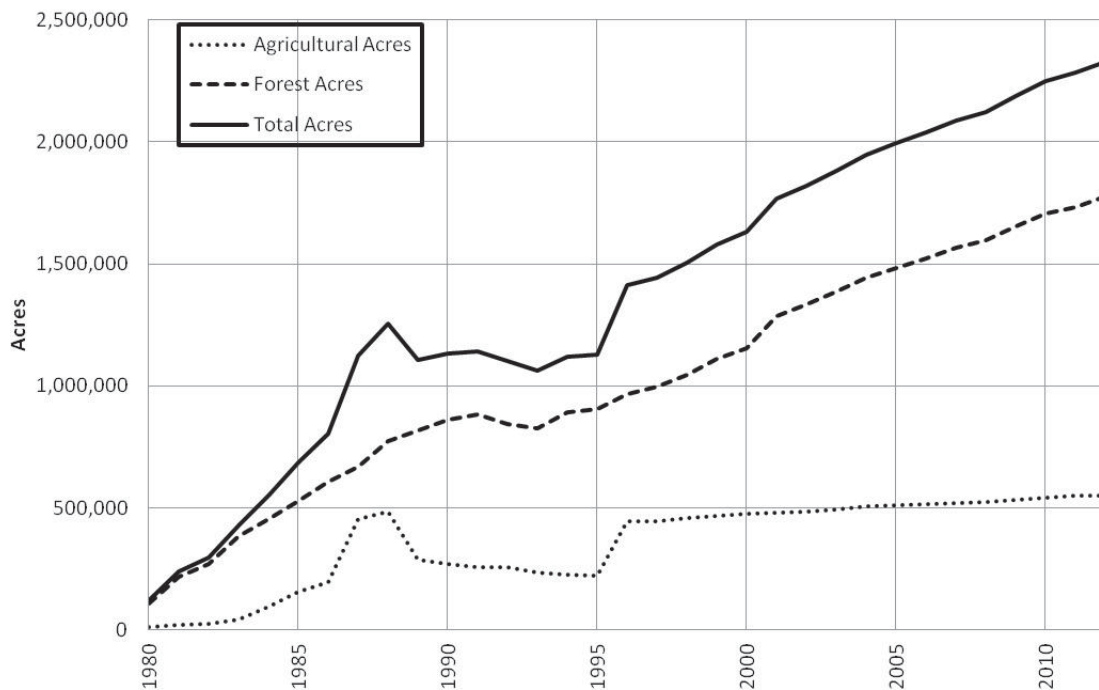

**Real Estate Withholding Income Tax**

This is a tax on income from capital gains on the sale of real estate by non residents. The withholding that occurred at sale is a credit against this tax and any balance is refunded to the taxpayer. If the withholding is not enough to cover the liability, the taxpayer pays the difference. Real Estate Withholding and the corresponding income tax return, insure that non- residents pay their fair share of tax on Vermont real estate sales. Approximately 2,000 income returns are filed annually. Revenue figures from this tax are unavailable, as they are part of the overall income tax figures.

## 2013 Use Value Appraisal Program

Vermont's Current Use Program (32 V.S.A. Chapter 124) began in tax year 1980 with the enrollment of less than 120,000 acres. As of 2013, this number has soared to 2,369,708 acres and includes 14,246 landowners and 17,646 parcels (see graph below and Table 1 for details). A 2008 report estimated that 58.9% of the potentially eligible agricultural land and 40.4% of the potentially eligible forest land was enrolled. With the increases in enrollment since 2008, this percentage has obviously grown.

### Annual Current Use Enrollment

The purposes of the program are “to encourage and assist the maintenance of Vermont’s productive agricultural and forest land; to encourage and assist in their conservation and preservation for future productive use and for the protection of natural ecological systems; to prevent the accelerated conversion of these lands to more intensive use by the pressure of property taxation at values incompatible with the productive capacity of the land; to achieve more equitable taxation for undeveloped lands; to encourage and assist in the preservation and enhancement of Vermont’s scenic natural resources, and to enable the citizens of Vermont to plan its orderly growth in the face of increasing development pressures in the interests of the public health, safety and welfare ” (32 V.S.A. §3751).

Land owners may apply to have eligible land and farm buildings enrolled in the program. In return for agreeing to keep the property in agricultural and forest production, the owner pays property taxes based on use value rather than the fair market value. Enrolled farm buildings are exempt from taxes. The municipalities receive an annual payment from the state to make up the difference between the municipal taxes paid at use value and fair market value.

Enrolled land is encumbered with a perpetual lien in favor of the State of Vermont in order to ensure payment of the Land Use Change Tax should it ever become due. Land Use Change Tax becomes due when enrolled land or previously enrolled land becomes developed. The lien remains until such time as the Land Use Change Tax.

**Table 1: Current Use Annual Enrollment**

<b>Tax Year</b>	<b>Parcels</b>	<b>Owners</b>	<b>Agricultural Acres</b>	<b>Forest Acres</b>	<b>Total Acres</b>
2005	13,640	10,807	510,645	1,482,437	1,993,082
2006	14,061	11,195	515,422	1,521,506	2,036,928
2007	14,640	11,721	521,381	1,564,321	2,085,702
2008	15,047	12,078	524,835	1,594,324	2,119,159
2009	15,642	12,570	534,275	1,654,295	2,188,810
2010	16,308	13,135	543,354	1,704,668	2,248,022
2011	16,724	13,469	549,601	1,734,012	2,283,613
2012	17,190	13,831	551,055	1,776,153	2,327,208
2013	17,647	14,246	555,234	1,814,585	2,369,819

For those owners who qualify by making 50% of their gross annual income from the business of farming or who lease to someone who makes 50% of their gross annual income from the business of farming, the farm buildings in active agricultural use can be enrolled in the program. This includes dwellings used for farm employee housing. By statute, the use value on these buildings is established at zero percent of fair market value. For 2013, the value of farm buildings enrolled in the program ranged from \$100 to over \$4 million.

As with past legislative sessions, the program anticipates an examination of program structure and benefits in order to address pressures on the state budget and to improve customer service. The program began work on the internal design issues for a web-based application system in 2011. The program began working on the development of the web portal in late 2012. The web-based application system will begin with the internal processing of applications in the spring of 2014 and will come online for public use later in 2014.

**Table 2: Farm Building Enrollment**

<b>Year</b>	<b>Parcels with Farm Buildings</b>	<b>Listed Value of Farm Buildings</b>
2009	1,993	\$250,021,838
2010	1,972	\$255,515,511
2011	1,851	\$251,682,401
2012	1,857	\$257,446,331
2013	1,883	\$266,749,350

For the 2014 tax year, 464 new applications have been submitted and are being reviewed. From these applications, the largest parcel is 959 acres and the smallest is 1.4 acres. In total, the new applications proposed to enroll 104 new farm buildings. Based upon the 945 transfers that are associated with current use parcels, the program anticipated 1,200 total transfers and another 300 applications to increase enrollments and update existing parcels. An estimated 1,200 additional applications for increasing existing enrollments, transferring enrollments, and updating parcels with substantial changes are anticipated to be filed and processed.

## **Use Values**

The Current Use Advisory Board (CUAB) is charged with adopting rules, providing administrative oversight, and establishing use values. The CUAB meets annually to review data presented by the Agency of Agriculture, Food and Markets and by the Department of Forests, Parks and Recreation regarding the appropriate use values to be assigned for the forthcoming property tax year. The data is used to establish the use values for computing the taxes on enrolled land (see Table 3). The net annual stumpage value per acre is a key component for forest land use value rate. Pasture and crop land rental values are the key component for agricultural land. Enrolled farm building use value is established in statute as 0% of the fair market value, so no taxes are paid by the landowner on these buildings.

**Table 3: Use Values**

<b>Tax Year</b>	<b>Forest Land Value per Acre</b>	<b>Forest Land Value Greater than One Mile from Road per Acre</b>	<b>Agriculture Land Value per Acre</b>
2005	\$120	\$90	\$122
2006	\$127	\$95	\$146
2007	\$133	\$100	\$146
2008	\$136	\$102	\$187
2009	\$123	\$92	\$199
2010	\$122	\$92	\$215
2011	\$122	\$92	\$238
2012	\$123	\$92	\$254
2013	\$119	\$89	\$265
2014	\$118	\$89	\$279

### **Program Costs and Tax Savings**

Tax savings to landowners have steadily climbed to over \$57 million in 2013 (see Table 4). The enrollment in the program has also seen a steady increase both in parcels, owners, and acres enrolled except for the “easy out” years in the 1990s (see graph above). As the enrollment has climbed and landowners overall save more in property taxes, the cost of the program has increased.

The “Municipal Tax Savings to Landowners” column in Table 4 is the total municipal taxes saved by enrolled land owners and conversely the taxes not paid to the municipality by the landowner due to enrollment in the program. The state provides a “Hold Harmless” payment to the municipality each year which makes up for the difference is the lost property taxes due to the prior year’s current use enrollment. The Hold Harmless payment in 1980 was just over \$400,000. In 2013, it was \$13.89 million. The calculations for each municipality’s hold harmless payment are available on the Department’s website at <http://www.state.vt.us/tax/treascollinfo.shtml>.

The “Education Tax Savings to Enrolled Landowners” column in Table 3 is the total statewide education taxes saved by enrolled land owners and conversely the forgone revenue to the state’s education fund. Forgone revenue means that these taxes are never paid into the Education Fund. In 2013, the forgone revenue to the education fund was \$43,110,537. The value of the program to Vermont’s working landscape, relating industries, and environmental quality are not quantified here, but are viewed as being significant.

**Table 4: Tax Savings to Landowners**

<b>Tax Year</b>	<b>Municipal Tax Savings to Enrolled Landowners</b>	<b>Education Tax Savings to Enrolled Landowners</b>	<b>Total Savings to Enrolled Landowners</b>
2005	\$8,078,698	\$24,901,872	\$32,980,570
2006	\$8,871,412	\$27,125,217	\$35,996,629
2007	\$9,728,409	\$29,797,654	\$39,526,063
2008	\$10,712,418	\$33,913,934	\$44,626,352
2009	\$11,585,297	\$37,385,819	\$48,971,116
2010	\$12,288,566	\$40,191,533	\$52,480,099
2011	\$12,549,456	\$40,668,894	\$53,218,350
2012	\$13,384,246	\$41,209,109	\$54,593,355
2013	\$13,890,827	\$43,110,537	\$57,001,364

## Land Use Change Tax

A one-time land use change tax is levied when enrolled land is “developed” as that term is defined in 32 V.S.A. §3752. Landowners can withdraw from the program without paying the tax provided they have not developed the land. The lien remains on the land until such time as the land use change tax is paid.

The tax for land enrolled more than 10 years is ten percent of the fair market value of the developed land. The tax is twenty percent for parcels enrolled 10 years or less. In 2013, 154 discontinuances fell into the 10% penalty category, 51 discontinuances fell into the 20% category, and 1 discontinuance had both 10% and 20% penalties. Although not assessed a land use change tax, 41 parcels had farm buildings discontinued because they no longer qualified for enrollment.

The acres developed and discontinued are shown in Table 5 along with the amount of land use change tax assessed and the number of discontinuances that were processed by the program. The land use change tax is assessed when the land is developed or the land owner wishes to voluntarily remove the lien. By statute, development includes the construction of any building, road or other structure that is not used for farming: logging, forestry or conservation purposes; any mining, excavation or landfill activity; the creation of a parcel of less than 25 acres unless the transfer is to an immediate relative and the new parcel is eligible for continued enrollment; the cutting of timber contrary to a forest or conservation management plan; or a change in the parcel or use of parcel in violation of the conservation management standards.

Land can be discontinued from the program without having the land use change tax assessed. These acres are show in the “Acres Discontinued, but No Land Use Change Tax Due” column. If the land is then developed in the future, the program might find out about the development through a title search when a parcel is being transferred, through the listers who are aware of the previous enrollment, or it might go undetected for years.

**Table 5: Development and Discontinuance of Enrolled Land**

<b>Calendar Year</b>	<b>Land Use Change Tax (LUCT)</b>	<b>Acres Developed and/or Lien Voluntarily Removed</b>	<b>Acres Discontinued, but No Land Use Change Tax Due</b>	<b>Number of Discontinuances</b>

## **Equalization Study Based on 2013 Grand Lists**

PVR annually conducts a study of all the grand lists of the state. This study is commonly called the Equalization Study. Its purpose is to derive estimates of the fair market value of the grand lists used to raise school taxes. The reference to equalization stems from the fact that most towns' grand lists are not at 100 percent fair market value in any given year. If they were, there would be no reason for the state to estimate market values and determine common levels of appraisal (CLAs).

PVR has been performing equalization studies since its creation in 1978. Prior to the creation of PVR, the property tax division of the Tax Department began conducting equalization studies on a voluntary basis in 1957. In June 1963, the legislature passed and the Governor signed No. 137 of the Acts of 1963. This became known as "Equalization." That statute directed the Commissioner of Taxes to begin establishing the fair market value of all taxable property in each town on an annual basis.

The results of the study have long served as a critical component in the distribution of the Education Fund. With the passage of Acts 60 (1997) and 68 (2003), the results of the study are even more essential. They serve as an important component for equalizing school districts' state education tax rates. The Education CLA shown in the following tables will be used, with the exception of towns that reappraised for their 2014 grand lists, in the calculation of actual education tax rates to be used during fiscal year 2015.

For towns that have active tax incremental finance (TIF) districts the education grand list figure used in the determination of the common level of appraisal includes the value of the "increment." However, the education grand list figure reported to the Agency of Education for those municipalities to determine the education tax liability will not include the value of the "increment."

As a result of the 2013 legislative session, a provision became law that required that the six municipalities comprising the Unified Towns and Gores of Essex County (UTG's) be treated as a single assessment district for the calculation of equalization results (Act 73 of 2013, Section 39). Grand list valuations for the six towns and gores as well as the sales data were combined as part of the process of calculating a single CLA, coefficient of dispersion (COD) and equalized education grand list value for all six UTGs.

For more details on the study methodology, see the document entitled, "Introduction to Vermont's Equalization Study" on the Tax Department's website under "Property."

**2013 Summary of Municipal Equalized Values**

## **Statutory Exemptions**

The following report contains the number and values of properties exempt from property taxation by law 32 V.S.A. §3802. By statute, several types of properties are exempt including: property owned by the United States; state and municipal government owned properties; organizations chartered by act of Congress including veterans' organizations; and the Red Cross, Boy and Girl Scout organizations. Also covered under this statute are real and personal estate used for public, pious, and charitable uses; property held by and for the benefit of college fraternities and societies; property owned and occupied by a Young Men's or a Women's Christian Association; land and buildings used for cemetery purposes; grounds and property owned by agricultural societies so long as the same are used annually for agricultural fairs.

Towns are to list the statutorily exempt properties in the grand list using a fair market value assessment. Determining the market value of exempt property is often difficult. Most exempt properties have a specific public use (independent of the land) which may result in relatively little marketable value if offered publicly for sale therefore it is difficult to determine the appropriate value. This report is not reflective of all exempt properties.

## Property Tax Adjustment Credits

Many Vermont property owners receive assistance paying the property taxes on their primary residence in the form of a property tax adjustment credit paid for by the State. Vermont towns and cities levied property taxes totaling about \$1.522 billion in fiscal year 2014. While this represents total property tax levied it is important to understand that this is total property taxes without consideration of the amount of assistance that Vermont homeowners received from the State in the form of property tax adjustments. Below is a Table that summarizes from fiscal year 2008 to 2014 the amount of property taxes that were actually paid for with State property tax adjustments credits. In fiscal year 2014, adjustments to homeowners totaled about \$158 million or about 10.4 percent of total property taxes levied by the State and municipal governments.

The report on the following pages breaks out the amount of property tax adjustments credits paid by the State to homeowners by Vermont municipality and county.

<b>Fiscal Year</b>	<b>School Prop Tax Adjustment</b>	<b>Circuit Breaker</b>	<b>Renter Rebate</b>	<b>Total</b>	<b>% Change</b>
FY08	\$114,675,634	\$15,971,405	\$6,924,340	\$137,537,380	
FY09	\$115,395,480	\$16,973,707	\$7,238,621	\$139,607,808	1.51%
FY10	\$135,850,961	\$18,968,027	\$8,113,487	\$162,932,475	16.71%
FY11	\$145,309,090	\$20,321,655	\$8,815,405	\$174,446,149	7.07%

**Notes:**

1. Property Tax Adjustments are applied for at the same time as Personal Income Tax returns for Tax Year 2012 and are applied to Fiscal Year 2014 property taxes. Both School Property Tax Adjustments (Prebates) and Circuit Breaker Adjustments (Homeowner Rebates) are calculated on prior year household income and housesite property taxes paid.

2. Housesites are parcels with the residence and up to two acres declared as residential for the 2014 Fiscal Year by October 15, 2013. This column reports number of homestead declarations.

3. Formerly called "Homeowner Rebate." Cells of 3 or fewer returns suppressed. State totals include suppressed data.

4. Circuit Breaker Adjustment is calculated on school property taxes remaining after adjustment and municipal taxes for claimants with Household Income of \$47,000 or less. Also called "Additional Adjustment."

**Notes:**

1. Property Tax Adjustments are applied for at the same time as Personal Income Tax returns for Tax Year 2012 and are applied to Fiscal Year 2014 property taxes. Both School Property Tax Adjustments (Prebates) and Circuit Breaker Adjustments (Homeowner Rebates) are calculated on prior year household income and housesite property taxes paid.

2. Housesites are parcels with the residence and up to two acres declared as residential for the 2014 Fiscal Year by October 15, 2013. This column reports number of homestead declarations.

3. Formerly called "Homeowner Rebate." Cells of 3 or fewer returns suppressed. State totals include suppressed data.

4. Circuit Breaker Adjustment is calculated on school property taxes remaining after adjustment and municipal taxes for claimants with Household Income of \$47,000 or less. Also called "Additional Adjustment."

## Taxes and Tax Rates

The 2013 taxes and tax rates shown on the following pages are the rates for fiscal year 2014. These rates were levied against the April 1, 2013, grand lists. State education rates are set by the Commissioner of Taxes in accord with 32 V.S.A. §5402. Town rates are, for the most part, set by the selectboard in accord with 17 V.S.A. §2664.

Some towns also set a local agreement rate in accord with 32 V.S.A. §5404a(d). This rate, which is generally relatively small, is levied against the municipal grand list but raises education taxes foregone as a result of local agreements, e.g. voted exemptions, stabilization agreements, etc. Those rates are included in the “Municipal/Local Agri (Agreement) Tax Rate” column.

Both the homestead and the nonresidential rates rose again this year. The FY14 base rates were \$0.94 and \$1.44, respectively. The chart below shows the education base rates from tax year 2006 to present.

<b>Fiscal Year</b>	<b>Tax Year</b>	<b>Homestead</b>	<b>Nonresidential</b>
FY07	2006	\$ 0.95	\$ 1.44
FY08	2007	\$ 0.87	\$ 1.36
FY09	2008	\$ 0.87	\$ 1.36
FY10	2009	\$ 0.86	\$ 1.35
FY11	2010	\$ 0.86	\$ 1.35
FY12	2011	\$ 0.87	\$ 1.36
FY13	2012	\$ 0.89	\$ 1.38
FY14	2013	\$ 0.94	\$ 1.44

## Effective Tax Rates

The effective tax rates are the rates that would be in effect if all towns were appraised at 100% of market value with no equalization adjustment.

To calculate the effective education tax rate, divide the education tax for both homestead and non-residential by their respective estimated equalized education grand list values. To calculate the municipal effective tax rate, divide the municipal tax assessed by the equalized municipal grand list.

The following report shows the estimated homestead and nonresidential effective rates of all Vermont school districts.

## 2013 Effective Tax Rates

### Addison
