

Expanding Cellular Service and E-9-1-1

Vermont Telecommunications Authority
Presentation to the Senate Finance
Committee

February 12, 2014

Cellular Coverage and Access to Wireless 9-1-1

- Expanding Wireless 9-1-1 Coverage Requires Expanding Cellular Coverage
- Cellular networks must accept 9-1-1 calls from any phone compatible with their network (even from a non-subscriber)
 - AT&T & T-Mobile use one network standard
 - Verizon, Sprint, and US Cellular use another standard
