WASHINGTON COUNTY YOUTH SERVICE BUREAU/ BOYS & GIRLS CLUB

2013 Annual report

Recently, Vermont Life published an article challenging the notion that young people are leaving Vermont. Behind this notion are fears that Vermont is not only losing revenue needed to care for our aging population, but perhaps that we were losing our relevance as well. The article offered some refreshing challenges to this fear by providing numerous examples of young people who were coming in to the state, or choosing to stay here because Vermont offers a high quality of life and growing opportunities for small scale entrepreneurs.

This poses an important public discussion for Vermonters to have. How are we creating communities in which youth matter? This question drives every aspect of the WCYSB's work. We ask that question as we develop teen center programming that links youth and community through new avenues of belonging; we ask it as we find new ways to improve youth work through our statewide program development efforts; and we ask it every time we help a youth

discover new ways to achieve success.

This is the message that underlies everything we do. "You Matter," is a message that we convey to youth as they work to identify their place in our communities. With the addition of just three letters, "Youth Matters," the message now speaks to communities accepting the challenge of becoming more vibrant and relevant to Vermont's emerging citizens.

YOU(th) Matter(s)

Kreig Pinkham Executive Director

"So when I think of the Basement, I don't think of a club. I think of the way the staff encouraged me to have a voice, I think of how much the space and myself have grown over the years, and more importantly, I see a community full of people constantly looking after each other."
