§ 1122. EXEMPTIONS

   (a) Notwithstanding subsections 1121(a) and (b) of this title, a person may remain in school or in a child care facility without a required immunization:

      (1) If the person or, in the case of a minor, the person’s parent or guardian presents a form created by the Department and signed by a licensed health care practitioner authorized to prescribe vaccines or a health clinic stating that the person is in the process of being immunized. The person may continue to attend school or a child care facility for up to six months while the immunization process is being accomplished;

      (2) If a health care practitioner, licensed to practice in Vermont and authorized to prescribe vaccines, certifies in writing that a specific immunization is or may be detrimental to the person’s health or is not appropriate, provided that when a particular vaccine is no longer contraindicated, the person shall be required to receive the vaccine;

      (3) If the person or, in the case of a minor, the person’s parent or guardian annually provides a signed statement to the school or child care facility on a form created by the Department that the person, parent, or guardian:

(C)(ii) understands information that failure to complete the required vaccination schedule increases risk to the person and others of contracting or carrying a vaccine-preventable infectious disease; and

(D)(iii) understands information that there are persons with special health needs attending schools and child care facilities who are unable to be vaccinated or who are at heightened risk of contracting a vaccine-preventable communicable disease and for whom such a disease could be life-threatening.
