Sec. 1. 9 V.S.A. § 41b is amended to read:

§ 41b. RENT-TO-OWN AGREEMENTS; DISCLOSURE OF TERMS

(a) The attorney general shall adopt by rule standards for the full and conspicuous disclosure to consumers of the terms of rent-to-own agreements. For purposes of this section a rent-to-own agreement means an agreement for the use of merchandise by a consumer for personal, family, or household purposes, for an initial period of four months or less, that is renewable with each payment after the initial period and that permits the lessee to become the owner of the property. An agreement that complies with this article is not a retail installment sales contract, agreement or obligation as defined in this chapter or a security interest as defined in section 1-201(37) of Title 9A.

(b) The attorney general, or an aggrieved person, may enforce a violation of the rules adopted pursuant to this section as an unfair or deceptive act or practice in commerce under section 2453 of this title.

(a) Definitions. In this section:

(1) “Advertisement” means a commercial message that solicits a consumer to enter into a rent-to-own agreement for a specific item of merchandise that is conveyed:

(A) at a merchant’s place of business;

(B) on a merchant’s website; or

(C) on television or radio.

(2) “Cash price” means the price of merchandise available under a rent-to-own agreement that the consumer may pay in cash to the merchant at the inception of the agreement to acquire ownership of the merchandise.

(3) “Clear and conspicuous” means that the statement or term being disclosed is of such size, color, contrast, or audibility, as applicable, so that the nature, content, and significance of the statement or term is reasonably apparent to the person to whom it is disclosed.

(4) “Consumer” has the same meaning as in subsection 2451a(a) of this title.

- 1952 -
(5) “Merchandise” means an item of a merchant’s property that is available for use under a rent-to-own agreement. The term does not include:

(A) real property;

(B) a mobile home, as defined in section 2601 of this title;

(C) a motor vehicle, as defined in 23 V.S.A. § 4;

(D) an assistive device, as defined in section 41c of this title; or

(E) a musical instrument intended to be used primarily in an elementary or secondary school.

(6) “Merchant” means a person who offers, or contracts for, the use of merchandise under a rent-to-own agreement.

(7) “Merchant’s cost” means the documented actual cost, including actual freight charges, of merchandise to the merchant from a wholesaler, distributor, supplier, or manufacturer and net of any discounts, rebates, and incentives that are vested and calculable as to a specific item of merchandise at the time the merchant accepts delivery of the merchandise.

(8)(A) “Rent-to-own agreement” means a contract under which a consumer agrees to pay a merchant for the right to use merchandise and acquire ownership, which is renewable with each payment after the initial period, and which remains in effect until:

(i) the consumer returns the merchandise to the merchant;

(ii) the merchant retakes possession of the merchandise; or

(iii) the consumer pays the total cost and acquires ownership of the merchandise.

(B) A “rent-to-own agreement” as defined in subdivision (7)(A) of this subsection is not:

(i) a sale subject to 9A V.S.A. Article 2;

(ii) a lease subject to 9A V.S.A. Article 2A;

(iii) a security interest as defined in subdivision 9A V.S.A. § 1-201(a)(35); or

(iv) a retail installment contract or retail charge agreement as defined in chapter 61 of this title.

(9) “Rent-to-own charge” means the difference between the total cost and the cash price of an item of merchandise.
(10) “Total cost” means the sum of all payments, charges, and fees that a consumer must pay to acquire ownership of merchandise under a rent-to-own agreement. The term does not include charges or fees for optional services or charges or fees due only upon the occurrence of a contingency specified in the agreement.

(b) General requirements.

(1) Prior to execution, a merchant shall give a consumer the opportunity to review a written copy of a rent-to-own agreement that includes all of the information required by this section for each item of merchandise covered by the agreement and shall not refuse a consumer’s request to review the agreement with a third party, either inside the merchant’s place of business or at another location.

(2) A disclosure required by this section shall be clear and conspicuous.

*** Financial Literacy ***

Sec. 2. FINDINGS

The General Assembly finds:

(1) Many Vermonters are not learning the basics of personal finance in school or in life and their lack of knowledge and skill can have severe and negative consequences to themselves and Vermont’s economy. Financial illiteracy affects everyone—men and women, young and old, and crosses all racial and socio-economic boundaries.

(2) Financial literacy is an essential 21st century life skill that young people need to succeed, yet recent studies and surveys show that our youth have not mastered these topics. For example, a 2013 report by Vermont Works for Women indicated that young women believe that a lack of personal finance training was a major deficiency in their education. Without improved financial literacy, the next generation of Vermont leaders, job creators, entrepreneurs, and taxpayers will lack skills they need to survive and to thrive in this increasingly complex financial world.

(3) The following are some facts about the lack of financial literacy in Vermont’s k–12 schools:

(A) Vermont received a “D” grade in a national report card on State efforts to improve financial literacy in high schools, but more than one-half of the states received a grade of A, B, or C;

(B) in an Organisation for Economic Co-operation and Development (OECD) Programme for International Student Assessment (PISA) international financial literacy test of 15-year-olds, the United States ranked 9th out of 13 countries participating in the exam—statistically tied with the Russian Federation and behind China, Estonia, Czech Republic, Poland, and Latvia;
(C) only 10 percent of high schools in Vermont (7 out of 65) have a financial literacy graduation requirement;

(D) a 2011 survey shows that as many as 30 percent of Vermont high schools may not even offer a personal finance elective course for their students to take; and

(E) the same survey indicates that Vermont high school administrators estimate that more than two-thirds of the students graduate without achieving competence in financial literacy topics.

(4) Most students are not financially literate when they enter college and we know that many students leave college for “financial reasons.” Too few Vermont college students have received personal finance education in k–12 school or at home. In fact, a Schwab survey indicated that parents are nearly as uncomfortable talking to their children about money as they are discussing sex. Except in some targeted programs and occasional courses, most college students in Vermont are not offered much in the way of financial literacy education. Personal finance education often consists of brief mandatory entrance and exit counseling for students with federal loans, along with reminders to Vermont students to repay their loans. Today’s college graduates need to be financially sophisticated because they face greater challenges than previous generations experienced. As a result of the recent recession, many are worse off than their parents were at the same age, with more debt and stagnant or lower incomes. They have higher unemployment rates than older citizens, more live at home with their parents, while fewer own a home, have children or are married. A lack of financial skills is clearly a factor in the failure of many in this generation to launch, and is having a substantial impact on our overall economy.

(5) A more financially sophisticated collegiate student body can be expected to yield a corresponding increase in retention and persistence rates, fewer student loans, and lower student loan default rates and greater alumni giving.

(6) Several studies show that financially sophisticated college students have better outcomes. For example, three University of Arizona longitudinal studies that followed students through college and into the workforce clearly demonstrated that achieving financial self-sufficiency, a key developmental challenge of young adulthood, appears to be driven by financial behaviors practiced during emerging adulthood. The study indicated that college students who exhibited responsible early financial practices experienced smoother transitions to adulthood than students who had poor behaviors. The studies also found that those students who were most successful with this
transition to adulthood had more financial education through personal finance or economics classes.

(7) Some troubling facts about college students lack of financial literacy include:

(A) 63 percent of Vermont four-year college students that graduated in 2012 had student loan debt that averaged $28,299.00; 

(B) nationally, nearly 11 percent of all student loan borrowers were delinquent in their payments by more than 90 days as of June 2014; and

(C) only 27 percent of parents in Vermont have set aside funds for their child’s college education.

(8) Many of Vermont’s adults struggle financially. The recent recession demonstrated that our citizens have trouble making complex financial decisions that are critical to their well-being. Nearly one-half of Vermont adults have subprime credit ratings, and thus pay more interest on auto and home loans and credit card debt; nearly two-thirds have not planned for retirement; and less than one-half of Vermont adults participate in an employment-based retirement plan.

(9) Personal economic stress results in lost productivity, increased absenteeism, employee turnover, and increased medical, legal, and insurance costs. Employers in Vermont and our overall economy will benefit from a decrease in personal economic stress that can result from more adult financial education.

(10) Some troubling facts about Vermont adults’ lack of financial literacy:

(A) in a 2014 survey, 41 percent of U.S. adults gave themselves a grade of C, D, or F on their personal finance knowledge;

(B) nationally, 34 percent of adults indicated that they have no retirement savings;

(C) as of the third quarter of 2014, among those Vermonters owing money in revolving debt, including credit cards, private label cards, and lines of credit, the average balance was $9,822.00 per borrower;

(D) 62 percent of Vermont adults do not have a rainy-day fund, a liquid emergency fund that would cover three months of life’s necessities;

(E) nearly 20 percent of adult Vermonters are unbanked or underbanked; and
(F) 22 percent of Vermont adults used one or more nonbank borrowing methods in the past five years, including an auto title loan, payday loan, advance on tax refund, pawn shop, and rent-to-own.

(11) Vermonters need the skills and tools to take control of their financial lives. Studies have shown that financial literacy is linked to positive outcomes like wealth accumulation, stock market participation, retirement planning, and avoidance of high cost alternative financial products.

(12) When they graduate, Vermont high school students should, at a minimum, understand how credit works, how to budget, and how to save and invest. College graduates should understand those concepts in addition to the connection between income and careers, and how student loans work. Vermont adults need to understand the critical importance of rainy-day and retirement funds, and the amounts they will need in those funds.

(13) All Vermonters should have access to content and training that will help them increase their personal finance knowledge. Vermont students and adults need a clear path to building their personal finance knowledge and skills. Vermont needs to increase its focus on helping Vermonters become wiser consumers, savers, and investors. Financial literacy education is a helping hand that gives individuals knowledge and skills that can lift them out of a financial problem, or prevent difficulties from occurring.

(14) A more financially sophisticated and capable citizenry will help improve Vermont’s economy and overall prosperity.

(15) In 2014, a Vermont Financial Literacy Task Force convened by the Center for Financial Literacy at Champlain College, recommended as one of its 13 action items that a Vermont Financial Literacy Commission be created to help improve the financial literacy and capability of all Vermonters.

Sec. 3. 9 V.S.A. chapter 151 is added to read:
