**Rep. Miller of Shaftsbury** explained her vote as follows:

“Mr. Speaker:

Even though I believe that prohibition does not work in modifying or changing behavior, I do believe that education works. I support Representative Till's amendment because health care costs increases have been out of control for years and years.

My committee, Education, recently increased the penalty threshold in Bill H. 46 by 9/10 of one percent to help school boards with their budgets because health care costs increased 7.8 percent this year.

Till's amendment offers a way to decrease spending while saving the lives of our youth.”

**Rep. Morris of Bennington** explained her vote as follows:

“Mr. Speaker:

My respect for this process is great. My obligation to the youth of Vermont is greater. This conversation is not new and I applaud Rep. Till and the advocates who fought to have this heard as it was omitted from the process. We have failed to support tobacco prevention and cessation in this state. It is my respect for public health and loyalty to Vermon ters and not Big Tobacco that will keep me fighting this fight.”

**Rep. Webb of Shelburne** explained her vote as follows:

“Mr. Speaker:

My vote here does not reflect my view on the importance of this amendment and its reasonableness. I am disappointed that this did not go
through the deliberative process. It speaks to my request to the committee to take this up and begin the deliberative process ASAP.”

Thereupon, the bill was read the third time and passed.

§ 808. FURLOUGHS GRANTED TO OFFENDERS

(a) The Department may extend the limits of the place of confinement of an offender at any correctional facility if the offender agrees to comply with such conditions of supervision the Department, in its sole discretion, deems appropriate for that offender’s furlough. The Department may authorize furlough for any of the following reasons:

(1) To visit a critically ill relative.

(2) To attend the funeral of a relative.

(3) To obtain medical services.

(4) To contact prospective employers.

(5) To secure a suitable residence for use upon discharge.

(6) To continue the process of reintegration initiated in a correctional facility. The offender may be placed in a program of conditional reentry status
by the Department upon the offender’s completion of the minimum term of sentence. While on conditional reentry status, the offender shall be required to participate in programs and activities that hold the offender accountable to victims and the community pursuant to section 2a of this title.

(b) An offender granted a furlough pursuant to this section may be accompanied by an employee of the Department, in the discretion of the Commissioner, during the period of the offender’s furlough. The Department may use electronic monitoring equipment such as global position monitoring, automated voice recognition telephone equipment, and transdermal alcohol monitoring equipment to enable more effective or efficient supervision of individuals placed on furlough.

(c) The extension of the limits of the place of confinement authorized by this section shall in no way be interpreted as a probation or parole of the offender, but shall constitute solely a permitted extension of the limits of the place of confinement for offenders committed to the custody of the Commissioner.

(d) When any enforcement officer, as defined in 23 V.S.A. § 4, employee of the Department, or correctional officer responsible for supervising an offender believes the offender is in violation of any verbal or written condition of the furlough, the officer or employee may immediately lodge the offender at a correctional facility or orally or in writing deputize any law enforcement officer or agency to arrest and lodge the offender at such a facility. The officer or employee shall subsequently document the reason for taking such action.

(e) The Commissioner may place on medical furlough any offender who is serving a sentence, including an offender who has not yet served the minimum term of the sentence, who is diagnosed with a terminal or debilitating condition so as to render the offender unlikely to be physically capable of presenting a danger to society. The Commissioner shall develop a policy regarding the application for, standards for eligibility of, and supervision of persons on medical furlough. The offender may be released to a hospital, hospice, other licensed inpatient facility, or other housing accommodation deemed suitable by the Commissioner.

(f) While appropriate community housing is an important consideration in release of offenders, the Department shall not use lack of housing as the sole factor in denying furlough to offenders who have served at least their minimum sentence for a nonviolent misdemeanor or nonviolent felony provided that public safety and the best interests of the offender will be served by reentering the community on furlough. The Department shall adopt rules to implement this subsection.
Sec. 4. 28 V.S.A. § 808a is amended to read;

§ 808a. TREATMENT FURLOUGH

(a) An offender may be sentenced to serve a term of imprisonment, but placed by a court on treatment furlough to participate in such programs administered by the Department in the community that reduce the offender’s risk to reoffend or that provide reparation to the community in the form of supervised work activities.

(b) Provided the approval of the sentencing judge is first obtained, the Department may place on treatment furlough an offender who has not yet served the minimum term of the sentence, who, in the Department’s determination, needs residential treatment services not available in a correctional facility. The services may include treatment for substance abuse or personal violence or any other condition that the Department has determined should be addressed in order to reduce the offender’s risk to reoffend or cause harm to himself or herself or to others in the facility. The offender shall be released only to a hospital or residential treatment facility that provides services to the general population. The State’s share of the cost of placement in such a facility, net of any private or federal participation, shall be paid pursuant to memoranda of agreement between and within State agencies reflective of their shared responsibilities to maximize the efficient and effective use of State resources. In the event that a memorandum of agreement cannot be reached, the Secretary of Administration shall make a final determination as to the manner in which costs will be allocated.

(c)(b)(1) Except as provided in subdivision (2) of this subsection, the Department, in its own discretion, may place on treatment furlough an offender who has not yet served the minimum term of his or her sentence for an eligible misdemeanor as defined in section 808d of this title if the Department has made a determination based upon a risk assessment that the offender poses a low risk to public safety or victim safety and that employing an alternative to incarceration to hold the offender accountable is likely to reduce the risk of recidivism.

(b) The Board shall have the following duties:

(13) Adopt by rule pursuant to 3 V.S.A. chapter 25 standards for accountable care organizations, including reporting requirements, patient protections, solvency and ability to assume financial risk, and other matters the Board deems necessary and appropriate to the operation and evaluation of accountable care organizations pursuant to this chapter.

Sec. 5. 18 V.S.A. § 9382 is added to read:

§ 9382. OVERSIGHT OF ACCOUNTABLE CARE ORGANIZATIONS

(a) In order to be eligible to receive payments from Medicaid or commercial insurance through any payment reform program or initiative, including an all-payer model, each accountable care organization with 10,000 or more attributed lives in Vermont shall obtain and maintain certification from the Green Mountain Care Board. The Board shall adopt rules pursuant to 3 V.S.A. chapter 25 to establish standards and processes for certifying accountable care organizations, which may include consideration of acceptance of accreditation by the National Committee for Quality Assurance or another national accreditation organization for any of the criteria set forth in this section. In order to certify an ACO to operate in this State, the Board shall ensure that the following criteria are met:

(1) the ACO’s governance, leadership, and management structure is transparent, reasonably and equitably represents the ACO’s participating providers and its patients, and includes a consumer advisory board and other processes for inviting and considering consumer input;

(2) the ACO has established appropriate mechanisms to provide, manage, and coordinate high-quality health care services for its patients, including incorporating the Blueprint for Health, coordinating services for complex high-need patients, and providing access to health care providers who are not participants in the ACO;
(3) the ACO has established appropriate mechanisms to receive and distribute payments to its participating health care providers;

(4) the ACO has established appropriate mechanisms and criteria for accepting health care providers to participate in the ACO that prevent unreasonable discrimination and are related to the needs of the ACO and the patient population served;

(5) the ACO has established mechanisms to promote evidence-based health care, patient engagement, coordination of care, use of electronic health records, and other enabling technologies to promote integrated, efficient, and effective health care services;

(6) the ACO has the capacity for meaningful participation in health information exchanges;

(7) the ACO has performance standards and measures to evaluate the quality and utilization of care delivered by its participating health care providers;

(8) the ACO does not place any restrictions on the information its participating health care providers may provide to patients about their health or decisions regarding their health;

(9) the ACO’s participating health care providers engage their patients in shared decision making to ensure their awareness and understanding of their treatment options and the related risks and benefits of each;

(10) the ACO has an accessible mechanism for explaining how ACOs work; provides contact information for the Office of the Health Care Advocate; maintains a consumer telephone line for complaints and grievances from attributed patients; responds and makes best efforts to resolve complaints and grievance from attributed patients, including providing assistance in identifying appropriate rights under a patient’s health plan; and share deidentified complaint and grievance information with the Office of the Health Care Advocate at least twice annually;

(11) the ACO collaborates with providers not included in its financial model, including home- and community-based providers and dental health providers;

(12) the ACO does not interfere with patients’ choice of their own health care providers under their health plan, regardless of whether a provider is participating in the ACO; does not reduce covered services; and does not increase patient cost sharing;
meetings of the ACO’s governing body include a public session which all business that is not confidential or proprietary is conducted and members of the public are provided an opportunity to comment; and

the impact of the ACO’s establishment and operation does not diminish access to any health care service for the population and area it serves.

(b)(1) The Green Mountain Care Board shall adopt rules pursuant to 3 V.S.A. chapter 25 to establish standards and processes for reviewing, modifying, and approving ACO budgets. In its review, the Board shall review and consider:

(A) information regarding utilization of the health care services delivered by health care providers participating in with the ACO;

(B) the goals and recommendations of the health resource allocation plan created in chapter 221 of this title;

(C) the expenditure analysis for the previous year and the proposed expenditure analysis for the year under review;

(D) the character, competence, fiscal responsibility, and soundness of the ACO and its principals;

(E) any reports from professional review organizations;

(F) the ACO’s efforts to prevent duplication of high-quality services being provided efficiently and effectively by existing community-based providers in the same geographic area;

(G) the extent to which the ACO provides incentives for systemic health care investments to strengthen primary care, including strategies for recruiting additional primary care providers, providing resources to expand capacity in existing primary care practices, and reducing the administrative burden of reporting requirements for providers while balancing the need to have sufficient measures to evaluate adequately the quality of and access to care;

(H) the extent to which the ACO provides incentives for systemic health care investments in social determinants of health, such as developing support capacities that prevent hospital admissions and readmissions, reduce length of hospital stays, improve population health outcomes, and improve the solvency of and address the financial risk to community-based providers that are participating providers of an accountable care organization;

(I) public comment on all aspects of the ACO’s costs and use and on the ACO’s proposed budget;
(J) information gathered from meetings with the ACO to review and discuss its proposed budget for the forthcoming fiscal year;

(K) information on the ACO’s administrative costs, as defined by the Board; and

(L) the effect, if any, of Medicaid reimbursement rates on the rates for other payers.

(2) The Office of the Health Care Advocate shall have the right to intervene in any ACO budget review under this subsection. As an intervenor, the Office of the Health Care Advocate shall receive copies of all materials in the record and may:

(A) ask questions of any participant in the Board’s ACO budget review;

(B) submit written comments for the Board’s consideration; and

(C) provide testimony in any hearing held in connection with the Board’s ACO budget review.

(c) The Board’s rules shall include requirements for submission of information and data by ACOs and their participating providers as needed to evaluate an ACO’s success. They may also establish standards as appropriate to promote an ACO’s ability to participate in applicable federal programs for ACOs.

(d) All information required to be filed by an ACO pursuant to this section or to rules adopted pursuant to this section shall be made available to the public upon request, provided that individual patients or health care providers shall not be directly or indirectly identifiable.

(e) To the extent required to avoid federal antitrust violations, the Board shall supervise the participation of health care professionals, health care facilities, and other persons operating or participating in an accountable care organization. The Board shall ensure that its certification and oversight processes constitute sufficient State supervision over these entities to comply with federal antitrust provisions and shall refer to the Attorney General for appropriate action the activities of any individual or entity that the Board determines, after notice and an opportunity to be heard, may be in violation of State or federal antitrust laws without a countervailing benefit of improving patient care, improving access to health care, increasing efficiency, or reducing costs by modifying payment methods.

Through its authority over payment reform pilot projects under 18 V.S.A. § 9377, the Board shall also oversee the development and operation of accountable care organizations in order to encourage them to achieve compliance with the criteria established in 18 V.S.A. § 9382(a) and to establish budgets that reflect the criteria set forth in 18 V.S.A. § 9382(b).
