Bill Referred to Committee on Finance

S. 138.

Senate bill of the following title, appearing on the Calendar for notice, and affecting the revenue of the state, under the rule was referred to the Committee on Finance:

An act relating to promoting economic development.

Senate Resolution Referred

S.R. 7.

Senate resolution of the following title was offered, read the first time and is as follows:

Senate resolution relating to climate change.

By Senators Campion, Ashe, Balint, Baruth, Bray, Cummings, Lyons, MacDonald, McCormack, Pollina, Sears, Sirotkin, White, and Zuckerman,

S.R. 7. Senate resolution relating to climate change.

Whereas, according to the most credible body of climate experts in the world, the Intergovernmental Panel on Climate Change, the “warming in the climate system is unequivocal,” and “human influence on the climate system is clear,” and

Whereas, 10 V.S.A. § 578 explicitly sets forth the goal of the State of Vermont to reduce greenhouse gas pollution as follows:

It is the goal of the State to reduce emissions of greenhouse gases from within the geographic boundaries of the State and those emissions outside the
boundaries of the State that are caused by the use of energy in Vermont in order to make an appropriate contribution to achieving the regional goals of reducing emissions of greenhouse gases from the 1990 baseline by:

(1) 25 percent by January 1, 2012;

(2) 50 percent by January 1, 2028;

(3) if practicable using reasonable efforts, 75 percent by January 1, 2050, and

Whereas, in 2013, the Department of Public Service reported to the General Assembly that as of 2011, Vermont’s greenhouse gas emissions were almost unchanged from the State’s 1990 emissions, and

Whereas, consequently, the State has already failed to meet its statutory goal of a 25 percent reduction in greenhouse gas pollution, and

Whereas, an analysis of state data from the National Climatic Data Center shows that in Vermont, during the years 1948–2011, there was an 84 percent increase in extreme precipitation, and

Whereas, extreme storms and so-called hundred year floods have already caused hundreds of millions of dollars in damage in this decade alone, and University of Vermont researchers have said Tropical Storm Irene is a “harbinger of what’s to come,” and

Whereas, clean energy technologies can help Vermonter save money, cut pollution, and become energy self-sufficient, and

Whereas, in its rejection of the Schatz Amendment to S.1 (the Keystone Pipeline bill) on Wednesday, January 21, 2015, the U.S. Senate voted against recognizing that “it is extremely likely that global increases in atmospheric [greenhouse gas] concentrations and global temperatures are caused by human activities,” and

Whereas, failure to identify accurately any problem precludes the development of effective solutions, now therefore be it

Resolved by the Senate:

That the Senate of the State of Vermont recognizes that climate change is real, that human activities make a substantive contribution to climate change, and that it is imperative Vermont take steps now to reduce its reliance on fossil fuels in order to promote energy independence and meet the State’s statutory goals for reduced greenhouse gas emissions, and be it further

Resolved: That the Secretary of the Senate be directed to send a copy of this resolution to the Vermont Congressional Delegation.
