## Mission/Vision Statement

The mission of the Vermont Department of Forests, Parks and Recreation (FPR) is to monitor and maintain the health, integrity, diversity and value of important species, natural communities, and ecological processes by:

- Managing forests for sustainable economic growth;
- Providing and promoting opportunities for compatible outdoor recreation; and
- Furnishing related information, education, and service.

## Department/Program Description

**Administration** - The Administration Division is responsible for leadership and oversight of all Department programs, financial management, personnel management, policy development and legal services, as well as conservation education and administering recreation and land and water conservation grant programs.

**Forestry** - Forestry programs affect a broad and expanding constituency concerned with the sustainable use, management, protection and health of Vermont's forest landscape, representing 75% of the state. These forests provide the economic resource base for Vermont's diverse forest products industry through sustainable timber management, as well as providing the cornerstone of the state's recreation and tourism economies. Vermont's actively managed forest also provides critical biological diversity, natural communities and wildlife habitat.

The Forestry Division has responsibility for administration and oversight of the 1.7 million acres of private land enrolled in the current use tax program for forest land, stewardship activities on over 345,000 acres of state-owned land, assisting municipalities in the management of urban trees and municipal forests, forest health monitoring, assisting the forest products industry including the growing biomass energy market and the administration of forestry assistance programs.

**State Parks** - The State Parks Division is responsible for planning, operation, construction and maintenance of the State Parks system and the conservation and interpretation of the natural and cultural resources within it. The State Park system includes 52 developed Parks that saw over 1,000,000 visits in 2015 and contribute an estimated \$83 million annually to Vermont's economy.

**Land Administration** - The Lands Administration Division has the responsibility for the administration of state-owned lands managed by the three departments within the Agency of Natural Resources (ANR) - approximately 345,000 acres of fee lands and an additional 140,000 acres of conservation and recreation easements that are held by the Agency. In this capacity, the Division also maintains ANR property records and maps; administers leases, licenses and special use permits for ANR lands; carries out ANR land acquisitions and other property transactions; coordinates long-range management planning for ANR lands; conducts property surveys and prepares maps of ANR lands, and coordinates development of ANR lands policies.

**Vermont Youth Conservation Corps** - FPR is the administrator of pass-through funds to the Vermont Youth Conservation Corps (VYCC) from recreational trail funds and general funds. VYCC provides youth with work and educational opportunities to develop leadership and skills through natural resource related projects.

**Forest Highway Maintenance** - This program uses state funds to repair and maintain the ANR forest highway network. This network consists of approximately 600 miles of roads and is essential to the maintenance of state park and forest land, timber extraction, and to providing access for expanding the use by the recreating public.

**Recreation** - Although there is no direct appropriation at this point, dispersed recreation service is not only a prominent program of the department, but also a growing aspect in terms of volume and public demand. Staff and resources from all department divisions use state appropriations combined with federal and private funding to provide recreational access to the state-owned lands managed by the department. The increasing demand for access coupled with a renewed appreciation for the multiple values of outdoor recreation activity to individuals and communities has led to the department's current concentrated effort to focus on expanding and improving access to recreational opportunities on department lands.

### **Key Budget Issues FY17**

Parks visitation again reached record-breaking levels with attendance exceeding 1 million visitors, a visitation level that last happened 27 years ago and has only occurred four other times over the 91 year history of the park system. Attendance reached 1,017,117, a 5% increase over 2014. We continue to rely on park revenue to offset upward pressure in the State Parks Division budget and across the department. In addition to increased revenue, this level of visitation brings increased costs, primarily in the areas of temporary staff, maintenance equipment and materials and capital improvements. We are mindful of the fact that weather can have a dramatic impact on summer park receipts and winter ski lease revenue, revenue which we rely upon to balance our budget.

Modest operating expense increases and pay act are offset primarily by revenue from park receipts with some pressures offset by operating expense cuts. The park temporary staff budget increased to allow for additional staff necessary to keep pace with park visitation and to align this historically under-budgeted line item with planned expenditures.

Under the FY16 Retirement Incentive Program the department lost five positions, two county foresters, a forestry district manager, a parks regional facilities manager and a parks maintenance technician. Efforts are being made to minimize the impacts from the loss of these critical positions.

Our ongoing structural budget problem threatens to create a deficit in the Lands and Facilities Trust Fund and, therefore, a sizeable operating deficit, (projected by 2022 at the current level of use). We propose to address a portion of this structural problem by restoring general fund base to reduce reliance on the Trust Fund and helps to avoid complete depletion of the Fund. The restored general fund will be offset by a direct application of Lands and Facilities Trust Fund to the general fund.

The Forestry Division continues to see reductions in base funding from the U.S. Forest Service and has offset some of this reduction through successes with competitive federal grant opportunities.

## Fiscal Year 2017 Budget Development Form Overview- Forests, Parks and Recreation

	General \$\$	Special \$\$	Federal \$\$	Interdept'l Transfer \$\$	Total \$\$
<b>Total FPR FY2016 Appropriation</b>	<b>6,250,827</b>	<b>11,654,931</b>	<b>3,613,535</b>	<b>346,250</b>	<b>21,865,543</b>
Standard adjustments to internal service allocated fees.	15,222				15,222
Salary and benefit increases due to pay act, staff changes and benefit rate changes.	138,473	164,385	43,789		346,647

27 NARRATIVE/COMMENTS/STORY: Describe the program. Who/what does it serve? Are there any data limitations or caveats? Explain trend or recent changes. Speak to new initiatives expected to have future impact.

The state lands timber sale program supports Vermont's forest products industry through the sale of the products of forest management activities on state forest land and state parks. Forest management plans, vetted through a public process, guide forest management activities designed to improve forest health and productivity, improve wildlife habitat and to create more resilient forests. Detailed prescriptions are written for each treatment and trees are marked for harvest to implement the prescriptions. Marked timber is sold on a competitive bid basis to contractors who harvest it and, in turn, supply local sawmills and secondary wood industries which add value and stimulate local economic activity. Staff regularly monitor harvests while operational to ensure compliance with contract conditions and relevant statutes. State lands program staff implement the program, but reductions in staffing over time and the many competing demands on their time which effect their ability to implement the program. Analysis of time coding indicate a steady and substantial increase in time coded to administration of recreational activities on state lands and a slow decrease in time spent on the state forest timber sale program. CAVEATS: Production volumes listed above are based on volumes and acres offered for sale in a given fiscal year. Revenues are based on receipts from timber sales which are likely to have been sold in previous years due to the multi-year nature of most timber sale contracts. Cost figures are based on time and expenses coded in a particular fiscal year which includes the costs of both marking and selling timber sales as well as the administration of contracts initiated in previous years.

23	NARRATIVE/COMMENTS/STORY: Describe the program. Who/what does it serve? Are there any data limitations or caveats? Explain trend or recent changes. Speak to new initiatives expected to have future impact.
24	The purpose of the state parks program is to provide high quality service, facilities and stewardship of resources so Vermonters and their guests can realize meaningful outdoor recreation experiences to improve their personal physical and emotional health, to enhance their environmental literacy and to contribute to their economy. Numerous studies support the conclusion that high quality outdoor recreation activity contributes to personal physical and emotional health and environmental sensitivity. There are no ongoing efforts however to directly tie these benefits to individuals visiting Vermont State Parks. It can be assumed that both total annual visitation and participation in interpretive programming effectively measure performance toward those outcomes.
