The University of Vermont

Update Since Last Session: “Summer Study Committee” on Performance Based Funding

- Met three times to study Performance Based Funding Models
- Model should be based on nationally-recognized “output performance measures”
- Goal: more Vermonters should graduate with degrees
- Proposal: “Complete College Vermont,” an incentive payment to UVM and the VSC to support low income/first generation Vermont students

Deepening UVM's Access to Success Efforts: “Step Up” & “Complete College VT”

UVM is partnering with Vermont State Colleges to propose two new programs:

- Step-Up – target and recruit working age Vermonters to attend college with five free classes
- Complete College Vermont –strengthen financial aid and support services for low-income and first generation students

UVM 2015 Highlights

UVM STEM Facility

- Projected completion: 2017
- State of the art laboratory facilities and classrooms
- Major economic driver for the state of Vermont through jobs and applied research
- 26 subcontractors and 300 individuals working on the site

UVM 2015 Highlights

Example of Basic and Applied Knowledge through Discovery and Research:

Opiate Addiction Research

- National Institute of Health grant funds UVM study of the effects of illicit drugs on brain development in teens and young adults. The grant allows UVM scientists to study not only how to decrease the effects of addiction, but also its biological basis with a view to trying to avoid addiction in the first place.
- Popular undergraduate class teaches the effects of various addictive substances on the structure and function of the brain. Exposure to these lectures appears to be having a marked effect on choices concerning the recreational use of drugs – whether they be opiate analgesics or heroin.

Teaching Tomorrow's Leaders

As Vermont's only comprehensive research university, UVM is critically important to the education of Vermont's next generation and the economic well-being of our state.

Over 4,200 enrolled Vermonters

**43% of Vermont students attended UVM
tuition free in 2015**

**(due to the use of 1/2 of UVM's appropriation for
scholarships, supplemented with private donations)**

UVM's Economic Impact in VT

32,000 UVM alums live and work in Vermont.

Largest employer in the state: 11,500 Vermonters employed by UVM and UVM Medical Center.

\$132 million in awarded outside research grants and contracts in 2015, with 89% of that funding coming in from out of state.

\$1 billion of direct and indirect economic activity to Vermont contributed by UVM every year, representing a **25 to 1 return on investment** from the state's appropriation to UVM.

National institutions compare public research university metrics and show that UVM has a much leaner management and executive team than other public research institutions, per 1,000 students.

Snapshot: UVM's State Appropriation of \$42.7 million in FY 16

- 50% -- Scholarship and Financial Aid Support for Vermonters
- 25% -- Agricultural and Extension Services
- 25% -- Medical Education
- Vermont Package, EPSCoR Match, for Research Grants

**All State funding goes directly either to
1) Vermont student financial support or to
2) UVM's land grant mission**

UVM and the 40% Rule

- Dates from the 1950's
- Only institution of higher education in Vermont subject to the rule
- The 40% rule was eliminated almost two years ago for distance and graduate programs with no adverse effect on tuition for Vermonters
- Elimination of this rule will allow us to align with market norms and moderate tuition rates to make UVM more affordable for all students
