Senior Policy and Legal Advisor
Vermont Department of Health

March 10, 2016

To the extent this bill [H.824] affects the department, we have no objection.

Good morning David,

House General is considering H.824 – concerning the adoption of OSHA rules and standards (linked below).

The Committee would like to know if the Department of Health has a position on the bill.

You may wish to note Section 2, as it relates to rule making provisions.

The Committee hopes to take action later today or tomorrow morning.

Many thanks for your early response.

Ron
