Annual School Immunization Survey: Key Data Findings for 2014-15

Kindergarten

- During the 2014-15 school year, 87.7% of children entering kindergarten had received all required vaccines; the highest percent of fully immunized children entering kindergarten since immunization requirements were revised in 2008.
- Children whose parents cannot provide a complete vaccination record may be enrolled provisionally, and must be fully vaccinated within six months. The rate of provisionally admitted children dropped to 6.2%, the lowest level since 2008-09.
- The rate of philosophical exemptions among children entering kindergarten is 5.8%. The 2013-14 philosophic exemption rate was 5.9%, the highest rate since separate tracking of philosophical exemptions began in the 2000-01 school year.
