Legislative Committee Data & Information Requests
Vermont Household Health Insurance Survey
All slide numbers reflect presentation to legislative committees

Uninsured

- Slide deck for VHC to send to navigators & assisters with just the slides showing information about the uninsured and underinsured
- Slide #21 – factors for the lack of insurance
  - Same information shown over time
- Slide #24 – Distribution of Uninsured
  - Broken out to reflect eligibility e.g. Less than 138%FPL
- Slide #25 – Uninsured kids
  - How many kids reside in families whose annual incomes are less than 300% FPL?
- Slide #32 – Uninsured kids by FPL
  - Can we tell why kids are uninsured in families with greater than 400% FPL?
- New Slide - Can we show counts of uninsured kids compared to kids in poverty over time?
- 

Coverage

- Slide #41  - Medicaid/Dr. D
  - Broken out to reflect eligibility e.g. less than 138%,
  - Broken out to show age and income
- New slide showing Vermont residents by insurance coverage type and by income

Underinsured

- Slide 49 – % underinsured (under 65)
  - Similar slide, but for Vermonters over 65
- Slide 50 – underinsured by age
  - Same information but showing trend over time
  - Can we determine how many are underinsured because of total potential exposure (deductible test) versus how many are underinsured because of the actual expended out of pocket costs?
- Slide 55 – concern re: losing coverage
  - Breakdown by age
- Slide 56 – Medicaid folks concerned re: losing coverage
  - Why?
- Slide 58 – out of pocket amounts
  - Can we show this information by age &/or income?
- More kids are now uninsured for more than a year. What can we say re: why kids are uninsured for longer & why that has changed?

Medical Expenses and Barriers to Care
  o Can we pull out information related to mental health access and barriers to care into a mini-deck?

Miscellaneous
  o What are we able to explain re: why people who left state insurance are now uninsured?
  o Can we see distribution of spending by age? (this question no longer makes sense to me, but let me know what you think).
