Subject: New Gun Laws in VT

Good afternoon Representatives,

After reading the disappointing news that your colleagues in the Senate have voted to advance S.141 I felt that I should reach out to you and reiterate my view that Vermont's gun laws are more than adequate as they currently stand. I would request that you oppose any new laws regarding firearms in our state. I'm aware that your personal opinion may be different than mine, but as my representatives I'd like to remind you that you will not get my vote in the future if you act contrary to the wishes of your constituents. Have a great weekend.
