Maxine:

I want to thank you and the members of your committee for having the courage to take this issue in a direction that is counter to the senate version, and to go against the wishes of so many (misguided) people in this state that see no problem with the legalization of marijuana. In my opinion, the senate version is nothing more than a means to generate more revenue for the state by using the desires of so many people to legalize pot as the justification. I believe this will be the biggest issue this session. Again, thank you very much.

Sincerely,

Steve Allen
