**Maps**

**General Use**

- [Agency Mapping Unit](#) - Maintains the official record of all public roadways in the state.
- [Static Maps](#) - Images and/or PDFs generated by VTrans.
- [Interactive Web Maps](#) - Web-based maps available online from VTrans.
- [Order Maps and Vacation Guides](#) - Web resources from Vermont Tourism.
- [VTrans ArcGIS Online](#) - Gallery of our most popular interactive web maps. They are used to visualize our data, track our assets, improve our planning, and help us achieve the agency's mission and vision.

**Highway Research**

- [Crash Maps](#) - Our Highway Research unit publishes maps of high crash locations, accident types and other crash-related statistics.

**Project Information**

- [Project information map](#) - An interactive map of all the projects we are currently working on.

**Town Highway Maps**

- [Current](#)
- [Archive](#) - Used for historical researching, like ancient roads.

**Interactive Web Maps**

Listed below are interactive web-based maps available for download from VTrans. These maps have capabilities and features not normally associated with static maps.

- Vermont Emergency Management (VEM) Preliminary Damage Assessment Map**  
This map indicates the preliminary damage severity for a given natural disaster event, selected by the date of the event.
- Vermont Online Geodetic Information System (VOLGIS)**  
VOLGIS is a web-based, GIS application that allows users to search for, and retrieve geodetic control information using a graphical interface.
- Vermont Statewide Park and Ride Lots**  
Vermont has many Park and Rides located throughout the state making it easier to carpool or vanpool to your destination.
- Vermont Travel Information 511**  
Vermont's 511 system is administered by VTrans staff, and provides current travel-related information.
- Vermont Travel Information 511 - Listing**  
A listing of the current events and conditions in Vermont's 511 system as administered by VTrans staff. Data is listed by route, and is sorted from begin to end.
- VTrans Current Maintenance Districts**  
This map displays the current boundaries and route extensions for VTrans' maintenance districts.
- VTrans' Digital Print Room**  
VTrans' Digital Print Room (DPR) is the agency archival system for large format documents and imagery. It contains historic project plans, inventory photo

**VERMONT** Operations  
Vermont Agency of Transportation

Vermont.gov | Agency of Transportation Home | Calendar | Contact | Site Map

**Home** | **Maintenance Districts** | **Central Garage** | **Technical Services** | **Publications and Maps** | **About**

you are at: [Home](#) | [Maintenance Districts](#)

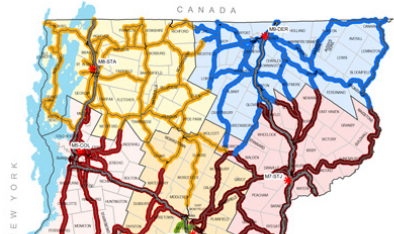

**Maintenance Districts**

- District 1 - Bennington
- District 2 - Brattleboro
- District 3 - Rutland
- District 4 - White River Junction
- District 5 - Colchester
- District 6 - Berlin
- District 7 - St. Johnsbury
- District 8 - St. Albans
- District 9 - Derby

**Maintenance Districts**

Vermont has nine transportation maintenance districts who are responsible for all maintenance activities on state highways, and for providing technical assistance to municipalities located within their district boundaries. Each district is managed by a District Transportation Administrator (DTA). The Maintenance Transportation Administrator (MTA) oversees all DTAs.

To see more detailed information about each district, click on the district listing below the map.

**VERMONT** Planned Bridge Closures, Year to Date  
Agency of Transportation Online Map Center

Full Event | [Basemap](#) | [Planned Bridge Closures Listing](#) | [Zoom to Town](#) | [Zoom to Town](#)

**Legend**

**Introduction & Help**  
Welcome to VTrans planned bridge closure map. This map displays all the anticipated bridge closures for the current calendar year-to-date. Click on a bridge icon to see more information about the planned bridge closure. You can also view our planned bridge closures listing.

**Instructions**

- Move over and click any closure (yellow symbol) on the map. A pop-up window will display information about the closure, including the route that the closure is on and the feature it crosses, project name, and begin and end dates for the closure.
- Click the "Additional Info" link to see more information about the project.
- Click the "zoom in" link to zoom in further.
- Click the "Full Extent" link to return to the full extent of Vermont at anytime.
- You can change the basemap from the "Basemap" drop-down list. Select from street map, color orthophotography, or black and white orthophotography.

# Concept

Develop a centralized location where the public can be directed to easily retrieve Agency information most relevant to them.

- Intuitive and easy to use
- Provide an enjoyable user experience
- Be designed to expand in the future

# Execution

- Cross divisional team
- Varying technical skill sets
- Clear priorities
- Freedom to explore solution

# Perspective

- Data is consolidated
- Relevant information is shared
- Easy to navigate and use
- Sustainable

# Demonstration

<http://vtransparency.vermont.gov/>

# Moving Forward

- Continue to develop site
- Start to move other information
- Continue to review and improve data
