

Did you get help paying for your Vermont Health Connect insurance plan in 2014?

File your tax return!

If you got a subsidy to help pay your Vermont Health Connect insurance premiums, you'll need to file a tax return.

Why? The federal government paid an estimated Premium Tax Credit to your insurance company each month.

The IRS will decide if you received the right amount when you file your tax return. If you didn't get the right amount, you could get money back or you might owe money.

Free tax return preparation is available at 80 sites in Vermont!

Call 2-1-1 for information.
