

AT&T's Network Investment: \$100M+ since 2009; 46 new sites; 250+ network upgrades

By the end of 2016:

- AT&T will have built **46 new towers**, including 11 along areas identified by administration officials as high priority (I-91, Newfane, Bethel);
- AT&T will have performed over **250 technology upgrades to towers**;
- AT&T has conducted meetings with 32 municipalities and RPCs (approx. **75% of filings**) to discuss municipal concerns;
- AT&T has made changes to approximately half of its tower applications; and
- In all, AT&T has conducted/participated in **over 60 meetings with municipalities & RPCs** regarding its network infrastructure.
