1	TO THE HOUSE OF REPRESENTATIVES:
2	The Committee on Corrections and Institutions to which was referred
3	House Bill No. 610 entitled "An act relating to clarifying the Clean Water
4	State Revolving Fund and Water Pollution Control Grant Programs"
5	respectfully reports that it has considered the same and recommends that the
6	bill be amended by striking out all after the enacting clause and inserting in
7	lieu thereof the following:
8	Sec. 1. 10 V.S.A. chapter 55 is redesignated to read:
9	CHAPTER 55. AID TO MUNICIPALITIES FOR WATER SUPPLY,
10	AND WATER POLLUTION ABATEMENT AND
11	SEWER SEPARATION CONTROL
12	Sec. 2. 10 V.S.A. § 1251 is amended to read:
13	§ 1251. DEFINITIONS
14	Whenever used or referred to in this chapter, unless a different meaning
15	clearly appears from the context:
16	* * *
17	(18) "Pollution abatement facilities" means municipal sewage treatment
18	plants, pumping stations, interceptor and outfall sewers, and attendant facilities
19	as prescribed by the Department to abate pollution of the waters of the State.

1	Sec. 3. 10 V.S.A. § 1259(j) is amended to read:
2	(j) No person shall discharge waste from hydraulic fracturing, as that term
3	is defined in 29 V.S.A. § 503, into or from a pollution abatement facility, as
4	that term is defined in section $\frac{1571}{1251}$ of this title.
5	Sec. 4. 10 V.S.A. § 1278 is amended to read:
6	§ 1278. OPERATION, MANAGEMENT, AND EMERGENCY RESPONSE
7	PLANS FOR POLLUTION ABATEMENT FACILITIES
8	(a) Findings. The general assembly General Assembly finds that the state
9	State shall protect Vermont's lakes, rivers, and streams from pollution by
10	implementing programs to prevent sewage spills to Vermont waters and by
11	requiring emergency planning to limit the damage from spills which do
12	occur. In addition, the general assembly General Assembly finds it to be
13	cost-effective and generally beneficial to the environment to continue state
14	State efforts to ensure energy efficiency in the operation of treatment facilities.
15	(b) Planning requirement. Effective July 1, 2007, the secretary of natural
16	resources Secretary of Natural Resources shall as part of a permit issued under
17	section 1263 of this title, require a pollution abatement facility, as that term is
18	defined in section $\frac{1571}{1251}$ of this title, to prepare and implement an
19	operation, management, and emergency response plan for those portions of
20	each pollution abatement facility that include the treatment facility, the sewage
21	pumping stations, and the sewer line stream crossing.

1	(c) Collection system planning. As of July 1, 2010, the secretary of natural
2	resources Secretary of Natural Resources, as part of a permit issued under
3	section 1263 of this title, shall require a pollution abatement facility, as that
4	term is defined in section $\frac{1571}{1251}$ of this title, to prepare and implement an
5	operation, management, and emergency response plan for that portion of each
6	pollution abatement facility that includes the sewage collection systems. The
7	requirement to develop a plan under this subsection shall be included in a
8	permit issued under section 1263 of this title, and a plan developed under this
9	subsection shall be subject to public review and inspection.
10	* * *
11	Sec. 5. 10 V.S.A. § 1571 is amended to read:
12	§ 1571. DEFINITIONS
13	As used in this chapter:
14	(1) "Agency" means Agency of Natural Resources.
15	(2) "Board" means the Natural Resources Board.
16	(3) "Combined sewer separation facilities" means sewers, pipe lines,
17	pumps, structures and attendant facilities necessary to convey liquid wastes in
18	such a manner that industrial wastes, domestic sewage, or both, are conveyed
19	separately from storm water, and may include storm water treatment facilities.

1	(4) "Department" means the Department of Environmental
2	Conservation.
3	(5) "Municipality" means a municipality as defined in 1 V.S.A. § 126.
4	(6) "Pollution Water pollution abatement and control facilities" means
5	municipal sewage treatment plants, pumping stations, interceptor and outfall
6	sewers, and attendant facilities as prescribed by the Department to abate
7	pollution of the waters of the State such equipment, conveyances, and
8	structural or nonstructural facilities owned or operated by a municipality that
9	are needed for and appurtenant to the prevention, management, treatment,
10	storage, or disposal of stormwater, sewage, or waste, including a wastewater
11	treatment facility, combined sewer separation facilities, an indirect discharge
12	system, a wastewater system, flood resiliency work related to a structural
13	facility, or a groundwater protection project.
14	(7) "Potable water supply facilities" means municipal water sources,
15	water treatment plants, structures, pipe lines, storage facilities, pumps and
16	attendant facilities necessary to develop a source of water, and to treat and
17	convey it in proper quantity and quality for public use within a municipality.
18	[Repealed.]
19	* * *
20	(9) "Disadvantaged municipality" means a municipality or the served
21	area of a municipality which:

1	(A) Has a median household income below the State average median
2	household income as determined by the Secretary, and which after construction
3	of the proposed water supply improvements will have an annual household
4	user cost greater than one percent of the median household income as
5	determined by the Secretary; or
6	(B) Has a median household income equal to or greater than the State
7	average median household income as determined by the Secretary, and which
8	after construction of the proposed water supply improvements will have an
9	annual household user cost greater than 2.5 percent of the median household
10	income as determined by the Secretary. [Repealed.]
11	* * *
12	(11) "Sewage" shall have the same meaning as used in 24 V.S.A.
13	<u>§ 3501.</u>
14	(12) "Stormwater" shall have the same meaning as stormwater runoff in
15	section 1264 of this title.
16	(13) "Waste" shall have the same meaning as used in section 1251 of
17	this title.
18	Sec. 6. 10 V.S.A. § 1572 is amended to read:
19	§ 1572. COORDINATED PLAN REVIEW
20	The department is designated the principal agency of the state to review and
21	approve potable water supply projects funded under this chapter. The

1	department of health and any other state agency with a statutory responsibility
2	to review such projects shall within 30 days of receipt of documents for
3	review, advise the department of their comments, which the department shall
4	resolve into a single state position to be transmitted to the applicant. Reviews
5	of projects pursuant to chapter 151 of this title shall be exempt from the
6	coordinated plan of review required by this section. [Repealed.]
7	Sec. 7. 10 V.S.A. § 1591 is amended to read:
8	§ 1591. PLANNING
9	(a) Planning advance. A municipality or a combination of two or more
10	municipalities desiring an advance of funds for the development of engineering
11	plans for potable water supply facilities or improvements, or for water
12	pollution abatement facilities or improvements, or for combined sewer
13	separation facilities, as the case may be, may apply to the department for an
14	advance under this chapter. Engineering plans may include source exploration,
15	surveys, reports, designs, plans, specifications or other engineering services
16	necessary in preparation for construction of the types of facilities referred to in
17	this section.
18	(b) The department, with the approval of the secretary, may use up to ten
19	percent of the funds provided under this chapter to undertake regional
20	engineering-planning and process research. Funds approved for regional

1	engineering planning may be awarded directly to a lead municipality and
2	administered in accordance with this chapter. [Repealed.]
3	Sec. 8. 10 V.S.A. § 1592 is amended to read:
4	§ 1592. APPLICATION
5	The application shall be supported by data covering:
6	(1) A description of the project;
7	(2) A description of the engineering service to be performed;
8	(3) An explanation of the need for the project;
9	(4) An estimate of the cost of the project;
10	(5) The amount of advance requested;
11	(6) A schedule for project implementation;
12	(7) Such other information and assurances as the department may
13	require. [Repealed.]
14	Sec. 9. 10 V.S.A. § 1593 is amended to read:
15	§ 1593. AWARD OF ADVANCE
16	(a) The department may award an advance in an amount determined by the
17	department to be suitable for the engineering planning under standards
18	established by the department:
19	(1) For planning of potable water supply facilities, when it finds the
20	same to be necessary in order to preserve or enhance the quality of water
21	provided to the inhabitants of the municipality, or to alleviate an adverse public

1	health condition, or to allow for orderly development and growth of the
2	municipality, except that no funds may be awarded until the department
3	determines that the applicant has complied with the provisions of section
4	1676a of this title, unless such funds are solely for the purpose of determining
5	the effect of the proposed project on agriculture;
6	(2) For planning of pollution abatement facilities, in order to enable a
7	municipality to comply with water quality standards established under chapter
8	47 of this title;
9	(3) For the planning of combined sewer separation facilities, when it
10	finds the same to be necessary to allow improvement of the quality of the
11	receiving water in order that increased legitimate water uses and recreational
12	potential in the best interest of the public can be realized.
13	(b) The department shall award an advance for planning under this section
14	only when it finds:
15	(1) That the cost of the project is reasonable for its intended
16	purpose; and
17	(2) That local funds are not readily available for the planning, and funds
18	are not readily available through other established planning and design
19	programs. [Repealed.]

1 Sec. 10. 10 V.S.A. § 1594 is amended to read: 2 § 1594. PAYMENT OF AWARDS 3 On receipt of the engineering planning documents and their approval by the 4 department, the department shall certify the award to the commissioner of 5 finance and management who shall issue his or her warrant for payment 6 thereof from the construction grant funds available to the department. The 7 department may direct the commissioner of finance and management to issue 8 his or her warrant for partial payments of the award upon receipt and approval 9 of portions of the total engineering work to be performed under the advance, 10 together with recipient's certification that costs for which reimbursement has 11 been requested have been incurred and paid by the recipient municipality. The 12 recipient shall provide supporting evidence of payment upon the request of the 13 department. Partial payments shall be made not more frequently than monthly. 14 Interest costs incurred in local short-term borrowing of the planning advance 15 shall be reimbursed as part of the planning advance. [Repealed.] 16 Sec. 11. 10 V.S.A. § 1595 is amended to read: 17 § 1595. REPAYMENT OF ADVANCES 18 Advances under this subchapter shall be repaid when construction of the 19 facilities or any portion thereof is undertaken. Where a construction grant is 20 made by the department for the project, the amount of the outstanding 21 advances shall be retained from the first payment of the grant funds. In other

1	instances, if repayment is not made within 60 days upon demand by the
2	department, the sum shall bear interest at the rate of 12 percent per annum
3	from the date payment is demanded by the department to the date of payment
4	by the municipality. The department may approve proportional repayment
5	when construction is initiated on a small portion of the planned project.
6	[Repealed.]
7	Sec. 12. 10 V.S.A. chapter 55, subchapter 3 is redesignated to read:
8	Subchapter 3. Construction Grants in Aid
9	Sec. 13. 10 V.S.A. § 1621 is amended to read:
10	§ 1621. FINANCIAL ASSISTANCE
11	A municipality which that desires state State financial assistance for
12	construction, improvement, or expansion of potable water supply facilities,
13	water pollution abatement and control facilities, or combined sewer separation
14	facilities, may make application to the department Department in accordance
15	with this subchapter.
16	Sec. 14. 10 V.S.A. § 1622 is amended to read:
17	§ 1622. ELIGIBLE PROJECTS
18	For purposes of As used in this subchapter, eligible project costs for water
19	pollution abatement and control facilities projects shall include:
20	(1) In the case of potable water supply projects receiving grants under
21	subsection 1624(a) of this title, the costs of development of water sources,

1	treatment facilities, pumping and storage facilities, the main transmission
2	system to the center of the population area, and attendant facilities determined
3	necessary by the department, an approved grant allowance to defray all or a
4	portion of the engineering costs, and up to a \$3,000.00 grant allowance for
5	administrative and legal costs relating to the project, but shall exclude all costs
6	of land and easements required for the project and legal and administrative
7	costs incident thereto. For a potable water supply project receiving a loan
8	under subsection 1624(b) of this title, the total project cost as determined by
9	the secretary consistent with federal law equipment, conveyances, and
10	structural or nonstructural facilities needed for and appurtenant to the
11	prevention, management, treatment, storage, or disposal of sewage, waste, or
12	stormwater, and the associated costs necessary to construct the improvements,
13	including costs to acquire land for the project.
14	(2)(A) In the case of water pollution abatement projects, the cost of
15	sewage treatment plants, outfall sewers, interceptor sewers, pumping or lift
16	stations, overflow control structures and attendant facilities determined
17	necessary by the department and such other sewers necessary for federal aid
18	requirements, an approved grant allowance to defray all or a portion of the
19	engineering costs, and up to a \$3,000.00 grant allowance for administrative
20	and legal costs relating to the project, but shall exclude all costs of land and

1	easements required for the project and legal and administrative costs incident
2	thereto which are not eligible for federal assistance
3	(B) In the case of water pollution abatement projects utilizing
4	innovative or alternative processes or techniques and determined eligible for
5	federal grants under section 201(g)(5) of P.L. 92-500, and its subsequent
6	amendment, the cost of building, acquisition, alteration, remodeling,
7	improvement or extension of treatment works, an approved grant allowance to
8	defray all or a portion of the engineering costs, and up to a \$3,000.00 grant
9	allowance for administrative and legal costs relating to the project, but shall
10	exclude all costs of land and easements required for the project and legal and
11	administrative costs incident thereto which are not eligible for federal
12	assistance.
13	(C) In the case of water pollution abatement projects utilizing
14	privately owned treatment works serving one or more residences or small
15	commercial establishments, and determined eligible for federal grant assistance
16	under section 201(h) of P.L. 92-500, and its subsequent amendment, the cost of
17	building, acquisition, and alteration of facilities, an approved grant allowance
18	to defray all or a portion of the engineering costs, and up to a \$3,000.00 grant
19	allowance for administrative and legal costs relating to the project, but shall
20	exclude all costs of land and easements required for the project and legal and

1	administrative costs incident thereto which are not eligible for federal
2	assistance.
3	(3) In the case of combined sewer separation projects, the cost of
4	combined sewer separation facilities, storm water treatment facilities, and
5	attendant facilities determined necessary by the department, an approved grant
6	allowance to defray all or a portion of the engineering costs, and up to a
7	\$3,000.00 grant allowance for administrative and legal costs relating to the
8	project, but shall exclude all costs of land and easements required for the
9	project and legal and administrative costs incident thereto.
10	(4) All water pollution abatement projects shall be in conformance with
11	the provisions of chapter 151 of this title.
12	Sec. 15. 10 V.S.A. § 1623 is amended to read:
13	§ 1623. APPLICATION
14	A municipality which that has voted funds in a specific amount to construct
15	a water pollution abatement and control facility as described in section 1622 of
16	this title, at a meeting duly warned for that purpose, which desires to avail
17	itself of state State aid funds under this subchapter, shall apply for such funds
18	in writing to the department Department in a manner prescribed by the
19	department Department. Municipalities whose water pollution abatement
20	facilities have been previously constructed and which meet the permit

1	requirements established under chapter 47 of this title may make application
2	for state aid funds without further vote of the municipality:
3	(1) if the local share of the project costs are formally authorized by the
4	municipal officials from funds available to them, or
5	(2) if the project is to construct facilities to remove phosphorus to a level
6	of 1 milligram per liter,
7	(3) and provided the project meets all other requirements of the
8	department.
9	Sec. 16. 10 V.S.A. § 1624 is amended to read:
10	§ 1624. FINANCIAL ASSISTANCE WITH WATER SUPPLY PROJECTS
11	(a) Grants. The secretary may award a municipality a state grant for a
12	potable water supply facility of up to 35 percent of its total eligible project
13	cost, when the municipality contributes at least ten percent of the total eligible
14	costs, for which purpose the municipality may use federal funds obtained from
15	other programs, and when the secretary finds that:
16	(1) the project is necessary, and the proposed type, size and estimated
17	cost of the project are suitable for its intended purpose;
18	(2) at least one half of the property owners of the new area of the
19	municipality to be served by the project have contracted to connect to the water
20	system and pay for service at rates which the legislative body of the

1	municipality determines to be adequate to cover the anticipated operating and
2	maintenance costs including debt services;
3	(3) the proposed rate and fee schedule provide for reasonable
4	contributions by all persons in the municipality benefited by the project; and
5	(4) the municipality has voted bonds for the project prior to April 5,
6	1997 in anticipation of the receipt of a construction grant authorized under this
7	subsection.
8	(b) Loans.
9	(1) The secretary may certify to the Vermont municipal bond bank
10	established by 24 V.S.A. § 4571 the award of a loan to a municipality to assist
11	with a potable water supply facility project, when the secretary finds that:
12	(A) the project is necessary;
13	(B) the proposed type, size, and estimated cost of the project are
14	suitable for its intended purpose; and
15	(C) the municipality will have the technical, financial, and
16	managerial ability to operate the facility in compliance with federal and state
17	law.
18	(2) The certification by the secretary shall specify the interest rate, and
19	indicate which of the following loan conditions concerning construction loans
20	apply:

1	(A) The term shall not exceed 20 years, and the annual interest rate,
2	plus administrative fee, shall be no more than three percent or less than zero
3	percent, except that when the applicant municipality is disadvantaged as
4	defined by subdivision 1571(9) of this title, the term shall not exceed 30 years.
5	When the applicant municipality is disadvantaged as defined in subdivision
6	1571(9)(A) of this title, the annual interest rate, plus administrative fee, shall
7	be no less than minus three percent.
8	(B) In no instance shall the annual interest rate, plus administrative
9	fee, be less than necessary to achieve an annual household user cost equal to
10	one percent of the median household income of the applicant municipality or
11	served area, taking into account:
12	(i) debt retirement of the project, including any monies a
13	municipality may borrow to match federal funds available to the drinking
14	water state revolving fund pursuant to subsection (d) of this section;
15	(ii) prior drinking water projects; and
16	(iii) estimated annual operation and maintenance costs as
17	determined by the secretary.
18	(3) A municipal legislative body may execute a loan agreement under
19	this subsection, provided the loan is authorized by municipal voters and
20	secured by the full faith and credit of the municipality.

1	(4) A loan shall be issued and administered pursuant to chapter 120 of
2	Title 24.
3	(5) Loans shall be available to the extent funds are available and
4	according to priorities established by the secretary.
5	(6) For purposes of this subsection, the secretary shall determine the
6	median household income of a municipality from the most recent federal
7	census data available when the priority list used for funding the project was
8	approved, or at the option of an applicant municipality, based on the
9	recommendation of an independent contractor hired by the municipality and
10	approved by the secretary. The determination of the secretary shall be final.
11	The cost of an independent contractor may be included in the total cost of a
12	project. When using federal census data to determine the median household
13	income of a municipality, the census data shall be adjusted for inflation
14	beginning in the second year of availability by increasing it four percent per
15	year.
16	(7) Loans awarded for the purpose of refinancing old debt shall be for a
17	term of no more than 20 years and at an interest rate set by the state treasurer
18	at no less than zero percent and no more than 80 percent of the average rate on
19	marketable obligations of the state, except that municipalities or private water
20	system owners which qualify for loan awards under 24 V.S.A. § 4770 and
21	which incurred debt and initiated construction after April 5, 1997 may receive

1	loans at interest rates and terms pursuant to subdivision (b)(2)(A) of this
2	section.
3	(8) Loans awarded for the purpose of conducting feasibility studies and
4	preparation of engineering plans and designs shall be for a term of no more
5	than five years at an interest rate of zero percent.
6	(9) Loans awarded for the purpose of purchasing land or conservation
7	easements to protect public water sources shall be for a term of no more than
8	20 years at an annual interest rate of three percent.
9	(10) The secretary may forgive up to \$25,000.00 of a loan from the
10	Vermont environmental protection agency (EPA) drinking water state
11	revolving fund to municipalities for improvements to public school water
12	systems following substantial completion of the project. The secretary shall
13	establish amounts, eligibility, policies, and procedures for loan forgiveness in
14	the annual state intended use plan (IUP) with public review and comment prior
15	to finalization and submission to the EPA.
16	(11) Subject to the interest rate and administrative fee limitations of
17	subdivision (b)(2) of this section, the secretary may designate projects as
18	United States Department of Agriculture Rural Development Vermont EPA
19	drinking water state revolving fund jointly-funded projects, and reduce the
20	Vermont EPA revolving fund interest rate, plus administrative fee, in order to
21	make the total loan cost of the joint loan to the municipality equivalent to the

VT LEG #314450 v.3

1	total loan cost of a separately funded Vermont EPA revolving loan for the
2	same project.
3	(c)(1) Zebra mussel control. The department may award supplemental
4	financial aid for the construction of zebra mussel control measures, upon
5	finding that the proposed project is necessary. The supplemental aid shall be
6	awarded in such a manner that the total financial burden of a water system,
7	including zebra mussel controls, shall not exceed, in the first year after
8	receiving the supplemental aid, an annual cost to a typical household of
9	1.5 percent of median household income for the project area as determined by
10	the department. The estimate of such cost shall include all awards of aid under
11	subsections (a) and (b) of this section, all other aid available to the applicant,
12	and the estimated new and existing capital debt retirement and annual
13	operating costs of the system. Awards of supplemental aid may, in accordance
14	with the eligibility limitations of subdivision 1622(1) of this title, consist of:
15	(A) a loan under chapter 120 of Title 24 with an interest rate
16	sufficient to assure that annual user costs do not exceed 1.5 percent of the
17	median household income; or
18	(B) a grant for up to, but not exceeding, the total capital cost of the
19	proposed project, in order to assure as closely as possible that annual
20	household user costs do not exceed 1.5 percent of the median household
21	income for the project area.

1	(2) In awarding financial assistance under this section, the department
2	shall determine the existing and proposed annual user cost in accordance with
3	procedures or rules adopted under chapter 25 of Title 3.
4	(d) Municipal match of federal revolving funds.
5	(1) A municipality may choose to provide the state money necessary to
6	match federal monies available to the drinking water state revolving fund
7	established by 24 V.S.A. § 4753(a)(3), and thereby become eligible to receive
8	a loan from the revolving fund in the amount of the total cost of a water facility
9	project approved under this section. Such a loan from the revolving fund, for
10	up to the total project cost, shall be approved by municipal voters and secured
11	by the full faith and credit of the municipality or anticipated revenues from
12	municipal water charges.
13	(2) The amount of such a municipal match of federal funds shall be
14	equal to one-sixth of the total project cost, which shall constitute a sum in
15	addition to the amount of a loan for the total project cost to be received by the
16	municipality from the revolving fund. A municipality is authorized to borrow
17	monies needed for the match amount, from sources other than the revolving
18	fund, which shall be approved by municipal voters and secured by the full faith
19	and credit of the municipality or anticipated revenues from municipal water
20	charges, or a municipality may use other funds or tax revenues available to it
21	for this purpose.

VT LEG #314450 v.3

1	(e) Upon request of the owner of a privately owned public water system, a
2	municipality shall apply for and support an application for a community
3	development block grant to receive use of state State and federal funds,
4	provided:
5	(1) the private water system owner agrees to pay all administrative and
6	legal costs incurred by the municipality in pursuit of the grant;
7	(2) the municipality finds that the project to be supported by the grant is
8	consistent with applicable local and regional plans, and local ordinances or
9	other local enactments;
10	(3) the private water system owner, to the extent practicable, undertakes
11	the administration of logistical and legal work necessary to prepare the
12	application materials; and
13	(4) the private water system owner agrees to hold the municipality
14	harmless from any claims of liability arising from the grant application or
15	project.
16	(f) The secretary may use federal funds to award grants to municipalities to
17	complete studies, or for start-up costs associated with the physical and
18	operational consolidation of public water systems or the interconnection of
19	public water systems. The secretary shall establish amounts, eligibility,
20	priorities, policies, and procedures in the annual state intended use plan (IUP).
21	[Repealed.]

1	Sec. 17. 10 V.S.A. § 1624a is amended to read:
2	§ 1624a. AWARDS FOR POLLUTION ABATEMENT PROJECTS FOR
3	COMBINED SEWER OVERFLOWS
4	(a) When the Department finds that a proposed water pollution abatement
5	project not covered under section 1625 of this title is necessary, that the
6	proposed type, kind, quality, size, and estimated cost of the project, including
7	operation cost and sewage disposal charges, are suitable for abatement of
8	pollution, and that the project or the prescribed project phases are necessary to
9	meet the intent of the water quality classifications established by the Secretary
10	or by statute under chapter 47 of this title, the Department may award State
11	financial assistance to the project. These projects may include ancillary work
12	determined by the Secretary to be necessary to attain the water quality goals.
13	(b) The assistance shall consist of:
14	(1) A grant of 25 percent of the eligible project cost.
15	(2) A loan from the Vermont Environmental Protection Agency (EPA)
16	Pollution Control Revolving Fund or the Vermont Pollution Control Revolving
17	Fund of 50 percent of the eligible project cost. No interest shall be charged. In
18	a certificate to the Vermont Municipal Bond Bank, the Secretary shall
19	recommend the term, repayment schedule, and other terms and conditions of
20	the loan.

1	(c) Notwithstanding the percentages of assistance provided for in
2	subsection (b) of this section, when a municipality is certified by the Secretary
3	of Commerce and Community Development to be within a designated job
4	development zone, the grant to the municipality shall be 50 percent of eligible
5	project costs and the loan shall be 25 percent of eligible project costs.
6	(d) Grants and loans under this section may be made from State and federal
7	sources, as determined by the Secretary.
8	(e) A loan agreement may be entered into by action of the legislative body
9	of the municipality, using procedures specified by applicable general or special
10	enabling authority, following:
11	(1) authorization by the electorate of issuance of bonds in the amount of
12	25 percent of project costs, unless the municipality has determined to use some
13	other method of financing its share of project cost; and
14	(2) authorization by the electorate of indebtedness in the amount of the
15	loan under this section.
16	(f) A loan agreement may include provisions for deferred repayment if the
17	electorate has authorized the future issuance of bonds to make a final
18	repayment of the loan, and the authorization specifies whether the bond
19	agreements will pledge the full faith and credit of the municipality or sufficient
20	revenues from municipal sewage disposal charges.

1	(1) Except as provided in subdivision (2) of this subsection, loan
2	repayments shall be according to the following schedule:
3	(A) 0.50 percent in the first year and increasing thereafter at 0.50
4	percent per year through the ninth year; and
5	(B) 5.0 percent in the 10th year through the 19th year; and
6	(C) the remainder in the 20th year.
7	(2) Notwithstanding subdivision (1) of this subsection, a municipality
8	shall be entitled to loan repayment under this subdivision if repayment would
9	produce municipal sewer rates in the municipality which exceed 150 percent of
10	the current State average rate for a family of four. For purposes of this
11	calculation, the municipality's sewer rates shall be deemed to include operating
12	costs, payments on the municipality's water pollution control debt, and
13	repayment of five percent of the principal of the loan under this section. The
14	following shall be minimum repayments under this subdivision:
15	(A) 0.25 percent per year in the first through the tenth year, dating
16	from the issuance of the certification of completion of the project;
17	(B) 0.50 percent in the 11th year and increasing thereafter at 0.50
18	percent per year through the 19th year; and
19	(C) the remainder in the 20th year.
20	(3) When a loan is issued with deferred repayment provisions pursuant
21	to authorization of the electorate under this section for the future issuance of

1	bonds, upon maturity of the loan, if other sources of revenue are available, the
2	legislative body of the municipality may elect not to issue bonds to make the
3	final payment on the loan. The term of these bonds, if issued, shall not exceed
4	20 years. As authorized in the initial vote, these bonds may be secured by a
5	pledge of the full faith and credit of the municipality or by sufficient revenues
6	from municipal sewage disposal charges.
7	(g) State financial assistance under this section shall be made to the extent
8	that funds are available and according to a system of priorities established by
9	the Secretary. In establishing this system, priority shall be given to pollution
10	abatement and not to the support of demand growth, and to projects
11	discharging into or near lakes on January 1, 1988.
12	(h) Notwithstanding subsection (b) of this section, a loan awarded from the
13	Vermont Environmental Protection Agency Pollution Control Revolving Loan
14	Fund for a combined sewer overflow abatement project may be for up to 100
15	percent of the eligible project cost if:
16	(1) the project is included on a priority list; and
17	(2) the project is capitalized, at least in part, with a Federal Clean Water
18	State Revolving Fund grant that includes loan forgiveness provisions.
19	[Repealed.]

1	Sec. 18. 10 V.S.A. § 1625 is amended to read:
2	§ 1625. AWARDS FOR POLLUTION ABATEMENT PROJECTS TO
3	ABATE DRY WEATHER SEWAGE FLOWS
4	(a) When the Department finds that a proposed water pollution abatement
5	project is necessary to maintain water quality standards during dry weather
6	sewage flows, and that the proposed type, kind, quality, size, and estimated
7	cost, including operation cost and sewage disposal charges, of the project are
8	suitable for abatement of pollution, and the project or the prescribed project
9	phases are necessary to meet the intent of the water quality classifications
10	established by the Secretary or by statute under chapter 47 of this title, the
11	Department may award to municipalities a State assistance grant of up to
12	25 percent of the eligible project cost, provided that in no case shall the total of
13	the State and federal grants exceed 90 percent of the eligible project costs:
14	(1) except that the 90 percent limitation shall not apply when the
15	municipality provides, as their local share, federal funds allocated to them for
16	the purpose of matching other federal grant programs having a matching
17	requirement; and
18	(2) except that the total of State and federal grants issued under
19	P.L. 92-500 section 202(a)(2) may equal up to 95 percent of the eligible costs
20	for innovative or alternative wastewater treatment processes and techniques.

VT LEG #314450 v.3

1	(b) In carrying out the purposes of this subchapter, the Department shall
2	define the purpose and scope of an eligible project, including a determination
3	of the area to be served, type of treatment, effluent limitations, eligible
4	construction costs, cost accounting procedures and methods and other such
5	project construction, operation and fiscal elements necessary to meet federal
6	aid requirements. The Department shall, as a part of the administration of this
7	grant program, encourage municipalities to undertake capital development
8	planning and to establish water and sewer charges along public utility
9	concepts.
10	(c) Any municipality having proceeded with construction of facilities with
11	a State grant of 25 percent since July 1, 1984 shall be eligible for an increase in
12	the State grant to a total of 35 percent of the eligible project costs.
13	(d) The Department may award a State assistance grant of up to 50 percent
14	of the eligible costs of an approved pollution abatement project or a portion
15	thereof not eligible for federal financial assistance in a municipality that is
16	certified by the Secretary of Commerce and Community Development to be
17	within the designated job development zone. To achieve the objectives of
18	chapter 29, subchapter 2 of this title, the eligibility and priority provisions of
19	this chapter do not apply to municipalities within a designated job development
20	zone.
01	

21 (e) [Repealed.] [Repealed.]

1	Sec. 19. 10 V.S.A. § 1626a is amended to read:
2	§ 1626a. AWARDS FOR WASTEWATER TREATMENT PLANTS WITH
3	A CAPACITY OF 250,000 GALLONS OR MORE PER DAY
4	(a) Definitions. For the purpose of this section:
5	(1) "Septage" means the product of an individual or a group septic tank,
6	which is removed from the tank for further processing and disposal.
7	(2) "Sludge" means the intermediate product of a municipal wastewater
8	treatment plant which receives further processing by the same plant in a
9	manner similar to the processing of septage by the plant.
10	(3) The project or plant "cost" means the cost of the enlargement or new
11	construction of a wastewater treatment plant which the commissioner of
12	environmental conservation finds is eligible for financial assistance under this
13	section.
14	(b) Loan eligibility. The proposed enlargement or new construction of a
15	wastewater treatment plant with a total design hydraulic capacity of 250,000 or
16	more gallons per day shall be eligible for a loan for 100 percent of the total
17	project cost, as provided by chapter 120 of Title 24, if the commissioner of
18	environmental conservation finds that:
19	(1) the proposed plant capacity is necessary to accommodate anticipated
20	municipal growth; and that

1	(2) the proposed plant capacity will be sufficient to receive, treat and
2	dispose of septage in a quantity equivalent to the ratio of 2,000 gallons or more
3	of such septage per day for each 1,000,000 gallons per day of plant design
4	hydraulic capacity. However, this condition shall not be required if the
5	commissioner finds that such septage treatment capacity by the plant is not
6	needed within the region of the state in which the plant is or will be located.
7	(c) Additional state assistance eligibility.
8	(1) Grants. A proposed wastewater treatment plant which is eligible for
9	a loan under subsection (b) of this section, and a wastewater treatment plant
10	with a design hydraulic capacity of 250,000 or more gallons per day which is
11	being refurbished, shall in addition be eligible for a grant of up to 50 percent of
12	the cost of that portion of the plant to be used to treat septage, or septage and
13	sludge in combination, if the commissioner of environmental conservation
14	finds that the proposed plant capacity will be sufficient to receive, treat and
15	dispose of septage alone in a quantity equivalent to the ratio of 4,000 gallons or
16	more of such septage per day for each 1,000,000 gallons per day of plant
17	design hydraulic capacity. The portion of the plant used for processing
18	septage, or septage and sludge in combination, shall include facilities for
19	receiving septage and for the storage, treatment, transfer, and disposal of both
20	septage and sludge.

1	(2) Loans. A proposed wastewater treatment plant which is eligible for
2	a grant under this subsection may receive an interest free loan for the
3	remaining amount of the total project cost, from revolving funds established by
4	chapter 120 of Title 24.
5	(d) Conditions of additional state assistance. The additional state
6	assistance provided by subsection (c) of this section shall be awarded under the
7	following conditions:
8	(1) To be eligible for additional assistance, a proposed plant shall be
9	consistent with any solid waste implementation plan adopted pursuant to
10	24 V.S.A. § 2202a, or chapter 117 of Title 24, which is approved by the
11	secretary of natural resources and which addresses septage and sludge
12	management. However, the commissioner of environmental conservation shall
13	not withhold additional assistance because of an absence of an adopted or
14	approved solid waste implementation plan.
15	(2) Plants eligible for additional assistance shall receive increased
16	funding priority in accordance with rules adopted by the secretary.
17	(3) A plant receiving additional assistance shall, for the useful life of the
18	facility, maintain its additional processing capacity for use only in receiving
19	and processing septage. Such septage shall be accepted from any Vermont
20	municipality, and shall not be restricted to specific municipalities. The rate or
21	rates charged for acceptance by the plant of septage from sources other than

1	the users for whom the plant is designed primarily to serve, shall be equal to
2	the rate or rates charged the primary users, and shall not subsidize the primary
3	users. The agency shall include these requirements in any permit issued for the
4	construction and operation of the plant, and the requirements shall be
5	enforceable in the manner prescribed for that permit.
6	(4) Project costs eligible for additional assistance shall include the cost
7	of: land used for the direct disposal of septage and sludge; facilities to receive,
8	store, treat, transfer and dispose of septage and sludge; and facilities to
9	compost or pelletize or otherwise process septage and sludge.
10	(5) When other state or federal assistance is awarded to a plant eligible
11	for additional assistance under this section, such other assistance shall reduce,
12	first, the loan amount awarded under this section, and secondly, the grant
13	amount awarded under this section. [Repealed.]
14	Sec. 20. 10 V.S.A. § 1626b is added to read:
15	§ 1626b. MUNICIPAL WATER POLLUTION CONTROL GRANTS
16	(a) Projects. The Secretary may award State assistance grants to
17	municipalities for water pollution abatement and control facilities.
18	(b) Application. The Secretary shall prescribe the form of application to
19	apply for a grant under this section. The application shall include:
20	(1) a description of the project;
21	(2) a schedule for project implementation;

1	(3) an estimate of the project cost;
2	(4) the information necessary for the Secretary to determine the grant
3	amount using the criteria described in section 1628 of this title;
4	(5) whether the project requires a permit under chapter 151 of this
5	title; and
6	(6) any other information that the Secretary deems necessary to
7	implement this section.
8	(c) Grant award. The Secretary shall make grant awards pursuant to the
9	project priority system adopted under section 1628 of this title in an amount
10	not to exceed 35 percent of eligible project costs. The Secretary shall not
11	award a grant under this section until the applicant provides a permit or
12	jurisdictional opinion that a permit is not required, issued pursuant to chapter
13	151 of this title.
14	(d) Payment of awards. Payment of awards shall be made pursuant to
15	section 1627 of this title.
16	Sec. 21. 10 V.S.A. § 1628 is amended to read:
17	§ 1628. PRIORITIES
18	The Department shall make grant awards under this chapter to eligible
19	municipal water pollution abatement and control projects on the basis of
20	urgency of need as determined according to a system of priorities adopted by
21	rule by the Department and to the extent appropriate funds are available. The

1	system of priorities shall include increased priority to eligible municipal
2	projects in designated centers. The Department shall assure that projects
3	sponsored by a town school district, or incorporated school district shall be
4	given increased priority for purposes of the receipt of engineering planning
5	advances awarded under section 1593 of this chapter. The total amount of the
6	engineering planning advances made and still outstanding during a period for
7	this purpose shall not exceed 30 percent of the bond issue or appropriation
8	voted for construction grant funds by the General Assembly for the period in
9	which the award is made require consideration of criteria, including:
10	(1) whether a project is grant or loan eligible;
11	(2) the condition of the waters affected by the project and whether the
12	waters are:
13	(A) not in compliance with the Vermont Water Quality
14	Standards; or
15	(B) have a total maximum daily load (TMDL);
16	(3) whether the project will address water quality issues identified in a
17	basin plan;
18	(4) whether the project will abate or control pollution that is causing or
19	may cause a threat to public health;
20	(5) whether the project will address an emergency situation affecting or
21	constituting a threat to the environment or the public health, safety, or welfare;

1	(6) if the project repairs or replaces existing infrastructure, the condition
2	and integrity of such infrastructure;
3	(7) whether the project incorporates principles of environmental
4	resiliency or sustainability, including energy efficiency, which reduce the
5	environmental impacts of the project or a water pollution abatement and
6	control facility;
7	(8) the fiscal integrity and sustainability of the project, including
8	whether the project is a cost-effective alternative, when compared to other
9	alternatives;
10	(9) whether the project serves a designated center;
11	(10) affordability factors for the municipality or municipalities in which
12	the project is located, including:
13	(A) median household income;
14	(B) unemployment rate; and
15	(C) population trends; and
16	(11) if the project removes a pollutant for which the water or waters
17	affected by the project are impaired, the cost-effectiveness of the project at
18	removing that pollutant.

1 Sec. 22. 10 V.S.A. § 1630 is amended to read: 2 § 1630. REGULATIONS RULES 3 The department Department with the approval of the secretary Secretary 4 shall adopt regulations rules consistent with this subchapter as it finds 5 necessary for proper administration of the subchapter. 6 Sec. 23. 10 V.S.A. § 1632 is amended to read: 7 § 1632. STATE ADMINISTRATIVE DEPARTMENTS 8 For the purpose of constructing or substantially improving a water pollution 9 abatement and control facility or potable water supply facility any state State 10 administrative department as authorized in Title 3 shall be deemed a 11 municipality under section 1623 of this title, and subject to the terms and 12 conditions applicable to municipalities; provided, however, that a State 13 administrative department deemed a municipality shall only receive State 14 assistance under this chapter if the Department has a surplus of funds at the 15 end of each fiscal year after all municipal grant applicants have received 16 committed funds. 17 Sec. 24. 24 V.S.A. § 4751 is amended to read: § 4751. DECLARATION OF POLICY 18 19 It is hereby declared to be in the public interest to foster and promote timely 20 expenditures by municipalities for water supply systems, water pollution 21 abatement and control facilities, and solid waste management, each of which is

1	declared to be an essential governmental function when undertaken and
2	implemented by a municipality. It is also declared to be in the public interest
3	to promote expenditures for certain existing privately owned public water
4	systems and certain privately owned wastewater and public and potable water
5	supply systems to bring those systems into compliance with federal and state
6	State standards and to protect public health and the environment.
7	Sec. 25. 24 V.S.A. § 4752 is amended to read:
8	§ 4752. DEFINITIONS
9	For the purposes of As used in this chapter:
10	* * *
11	(3) "Municipality" means any city, town, village, town school district,
12	incorporated school district, union school district, or other school district, fire
13	district, consolidated sewer district, consolidated water district, solid waste
14	district, or statewide or regional water quality utility, or mechanism organized
15	under laws of the State.
16	* * *
17	(6) "Noncommunity water system" means a noncommunity water
18	system as that term is defined shall have the same meaning as in 10 V.S.A.
19	§ 1671.
20	(7) "Privately owned water system" means any water system which that
21	is not owned or operated by a municipality.

1	(8) "Community water system" means a public community water system
2	as that term is defined shall have the same meaning as in 10 V.S.A. § 1671.
3	(9) "Public water system supply systems" means a public water system
4	as that term is defined in 10 V.S.A. § 1671, except for bottled water facilities
5	and for-profit noncommunity systems, which includes water systems, water
6	treatment plants, structures, pipe lines, storage facilities, pumps, and attendant
7	facilities necessary to develop a source of water, and to treat and convey it in
8	proper quantity and quality.
9	(10) "Privately owned wastewater system" means a privately owned
10	wastewater conveyance, treatment, and disposal system or elements thereof
11	which is privately owned and system, which handles receives primarily
12	domestic type wastes.
13	(11) "Water pollution abatement and control facilities" means such
14	equipment, conveyances, and structural or nonstructural facilities owned or
15	operated by a municipality that are needed for and appurtenant to the
16	prevention, management, treatment, storage, or disposal of stormwater,
17	sewage, or waste, including a wastewater treatment facility, combined sewer
18	separation facilities, an indirect discharge system, a wastewater system, flood
19	resiliency work related to a structural facility, or a groundwater protection
20	project.

1	(12) "Disadvantaged municipality" means a municipality or the served
2	area of a municipality which:
3	(A) has a median household income below the State average median
4	household income as determined by the Secretary and which, after construction
5	of the proposed water supply improvements, will have an annual household
6	user cost greater than one percent of the median household income as
7	determined by the Secretary; or
8	(B) has a median household income equal to or greater than the State
9	average median household income as determined by the Secretary and which,
10	after construction of the proposed water supply improvements, will have an
11	annual household user cost greater than 2.5 percent of the median household
12	income as determined by the Secretary.
13	(13) "Potable water supply facilities" means municipal water sources,
14	water treatment plants, structures, pipe lines, storage facilities, pumps and
15	attendant facilities necessary to develop a source of water and to treat and
16	convey it in proper quantity and quality for public use within a municipality.
17	(14) "Sewage" shall have the same meaning as used in section 3501 of
18	this chapter.
19	(15) "Stormwater" shall have the same meaning as stormwater runoff in
20	section 1264 of this title.
21	(16) "Waste" shall have the same meaning as used in 10 V.S.A. § 1251.

VT LEG #314450 v.3

1	Sec. 26. 24 V.S.A. § 4753 is amended to read:
2	§ 4753. REVOLVING LOAN FUNDS; AUTHORITY TO SPEND; REPORT
3	(a) There is hereby established a series of special funds to be known as:
4	(1) The Vermont Environmental Protection Agency (EPA) Pollution
5	Control Revolving Fund, which shall be used, consistent with federal law, to
6	provide loans to municipalities, and State agencies, and the Vermont Housing
7	Finance Agency for planning sewage systems and sewage treatment or
8	disposal plants as defined in subdivisions 3501(6) and 3601(3) of this title, for
9	constructing publicly owned sewage systems and sewage treatment or disposal
10	plants as defined in subdivisions 3501(6) and 3601(3) of this title, for planning
11	or construction of certain privately owned wastewater systems, and
12	construction of water pollution abatement and control facilities, including
13	project-related easements, acquisitions of land, options to purchase land, and
14	temporary or permanent rights-of-way, and for implementing related
15	management programs.
16	(2) The Vermont Pollution Control Revolving Fund, which shall be used
17	to provide loans to municipalities, and State agencies, and the Vermont
18	Housing Finance Agency for planning and construction of water pollution
19	abatement and control facilities, for constructing publicly owned pollution
20	control facilities, and for constructing certain privately owned wastewater
21	systems and potable water supply systems including project-related easements,

1	acquisitions of land, options to purchase land, and temporary or permanent
2	rights-of-way.
3	(3) The Vermont Environmental Protection Agency (EPA) Drinking
4	Water State Revolving Fund, which shall be used to provide loans to
5	municipalities and certain privately owned water systems for:
6	(A) planning, designing, constructing, repairing, or improving a
7	public water system supply systems, including project-related easements,
8	acquisitions of land, options to purchase land, and temporary or permanent
9	rights-of-way, in order to comply with State and federal standards and protect
10	public health and the environment; and
11	(B) implementing related management programs.
12	(4) The Vermont Solid Waste Revolving Fund, which shall be used to
13	provide loans to municipalities (including union municipal districts formed
14	under subchapter 3 of chapter 121, subchapter 3 of this title) for planning solid
15	waste handling and disposal facilities as enumerated in section 2203a of this
16	title, and for constructing publicly owned solid waste handling and disposal
17	facilities as enumerated in section 2203a of this title.
18	(5) The Vermont Drinking Water Planning Loan Fund, which shall be
19	used to provide loans to municipalities and privately owned, nonprofit
20	community water systems, with populations of less than 10,000, for
21	conducting feasibility studies and for the preparation of preliminary

1	engineering planning studies and final engineering plans and specifications for
2	improvements to public water supply systems in order to comply with State
3	and federal standards and to protect public health. The Secretary may forgive
4	up to \$50,000.00 of the unpaid balance of a loan made from the Vermont
5	Drinking Water Planning Loan Fund to municipalities after project
6	construction is substantially completed or upon approval of a plan. The
7	Secretary shall establish amounts, eligibility, policies, and procedures for loan
8	forgiveness in the annual State Intended Use Plan intended use plan (IUP), as
9	required by the Safe Drinking Water Act, 42 U.S.C. § 300f et seq., with public
10	review and comment prior to finalization and submission to the U.S.
11	Environmental Protection Agency.
12	(6) The Vermont Drinking Water Source Protection Fund, which shall
13	be used to provide loans to municipalities for purchasing land or conservation
14	easements in order to protect public water sources and ensure compliance with
15	State and federal drinking water regulations.
16	(7) The Vermont Drinking Water Emergency Use Fund, which shall be
17	within the control of the Secretary. Disbursements from the Fund may be
17 18	within the control of the Secretary. Disbursements from the Fund may be made by the Secretary for costs required to undertake the following emergency

1	(B) hiring contractors to perform or cause to be performed
2	infrastructure repairs of a public water system supply systems;
3	(C) hiring certified operators to perform operational activities at $\frac{1}{4}$
4	public water system supply systems; and
5	(D) providing or causing to be provided bottled or bulk water for $\frac{1}{2}$
6	public water system supply systems due to problems with quality or quantity,
7	or both.
8	(8) [Repealed.]
9	(9) The Vermont Drinking Water Revolving Loan Fund, which shall be
10	used to provide loans to a municipality for the design, land acquisition, if
11	necessary, and construction of a potable water supply when a household in the
12	municipality has been disconnected involuntarily from a public water supply
13	system for reasons other than nonpayment of fees.
14	(10) The Vermont Wastewater and Potable Water Revolving Loan
15	Fund, which shall be used to provide loans to individuals, in accordance with
16	section 4763b of this title, for the design and construction of repairs to or
17	replacement of wastewater systems and potable water supplies when the
18	wastewater system or potable water supply is a failed system or supply as
19	defined in 10 V.S.A. § 1972. The amount of \$275,000.00 from the fees
20	collected pursuant to 3 V.S.A. § 2822(j)(4) shall be deposited on an annual
21	basis into this Fund.

1	(b) Each of such funds shall be established and held separate and apart
2	from any other funds or monies of the State and shall be used and administered
3	exclusively for the purpose of this chapter with the exception of transferring
4	funds from the Vermont Drinking Water Planning Loan Fund and the Vermont
5	Drinking Water Source Protection Fund to the Vermont Environmental
6	Protection Agency (EPA) Drinking Water State Revolving Fund, and from the
7	Vermont Pollution Control Revolving Fund to the Vermont Environmental
8	Protection Agency (EPA) Pollution Control Revolving Fund, when authorized
9	by the Secretary. These funds shall be administered by the Bond Bank on
10	behalf of the State, except that: the Vermont EPA Drinking Water State
11	Revolving Fund shall be administered by VEDA concerning loans to privately
12	owned water systems under subdivision subdivisions $(a)(3)$ and (5) of this
13	section; and the Vermont Wastewater and Potable Water Revolving Loan Fund
14	may be administered by a community development financial institution, as that
15	term is defined in 12 U.S.C. § 4702, that is contracted with by the State for the
16	purpose of providing loans to individuals for failed wastewater systems and
17	potable water supplies under subdivision (a)(10) of this section. The funds
18	shall be invested in the same manner as permitted for investment of funds
19	belonging to the State or held in the Treasury. The funds shall consist of the
20	following:

1	(1) such sums as may be appropriated or transferred thereto from time to
2	time by the General Assembly, the State Emergency Board, or the Joint Fiscal
3	Committee during such times as the General Assembly is not in session;
4	(2) principal and interest received from the repayment of loans made
5	from each of such funds;
6	(3) capitalization grants and awards made to the State by the United
7	States of America for any of the purposes for which such funds have been
8	established;
9	(4) interest earned from the investment of fund balances;
10	(5) private gifts, bequests, and donations made to the State for any of the
11	purposes for which such funds have been established; and
12	(6) other funds from any public or private source intended for use for
13	any of the purposes for which such funds have been established.
14	(c) In addition to the purposes established in subsection (a) of this section,
15	the various loan funds created herein may be used for one or more of the
16	purposes established in section 4757 of this title.
17	(d) Funds from the Vermont Environmental Protection Agency Pollution
18	Control Fund and the Vermont Pollution Control Revolving Fund, established
19	by subdivisions (a)(1) and (2) of this section, may be awarded for:
20	(1) the refurbishment or construction of a new or an enlarged
21	wastewater treatment plant with a resulting total capacity of 250,000 gallons or

1	more per day in accordance with the provisions of this chapter and 10 V.S.A.
2	§ 1626a; or
3	(2) the construction of stormwater management facilities as specifically
4	or generally described in Vermont's Nonpoint Source Management Plan, and
5	which are necessary to remedy or prevent pollution of waters of the State,
6	provided, in any year in which the federal grant for the Fund established in
7	subdivision (a)(1) of this section does not exceed the amount available to the
8	State in the 2002 federal appropriation, no more than 30 percent of that year's
9	federal and State appropriations to that Fund shall be used for the purpose
10	outlined in this subdivision. [Repealed.]
10 11	outlined in this subdivision. [Repealed.] (e) The Secretary may bring an action under this subsection or other
11	(e) The Secretary may bring an action under this subsection or other
11 12	(e) The Secretary may bring an action under this subsection or other available State and federal laws against the owner or permittee of the public
11 12 13	(e) The Secretary may bring an action under this subsection or other available State and federal laws against the owner or permittee of the public water system supply systems to seek reimbursement to the Vermont Drinking
11 12 13 14	(e) The Secretary may bring an action under this subsection or other available State and federal laws against the owner or permittee of the public water system supply systems to seek reimbursement to the Vermont Drinking Water Emergency Use Fund for all disbursements from the Fund made
11 12 13 14 15	(e) The Secretary may bring an action under this subsection or other available State and federal laws against the owner or permittee of the public water system supply systems to seek reimbursement to the Vermont Drinking Water Emergency Use Fund for all disbursements from the Fund made pursuant to subdivision (a)(7) of this section. To the extent compatible with

- 1 Sec. 27. 24 V.S.A. § 4753a is amended to read: 2 § 4753a. AWARDS FROM REVOLVING LOAN FUNDS 3 (a) Pollution control. The General Assembly shall approve all categories of 4 awards made from the special funds established by section 4753 of this title for 5 water pollution abatement and facility construction, in order to assure that such 6 awards conform with State policy on water quality and pollution abatement, 7 and with the State policy that municipal entities shall receive first priority in 8 the award of public monies for such construction, including monies returned to 9 the revolving funds from previous awards. To facilitate this legislative 10 oversight, the Secretary of Natural Resources shall annually no later than on or 11 before January 15 report to the House Committee on Corrections and 12 Institutions, the Senate Committee on Institutions, and the House and Senate 13 Committees on Natural Resources and Energy on all awards made from the 14 relevant special funds during the prior and current fiscal years, and shall report 15 on and seek legislative approval of all the types of projects for which awards 16 are proposed to be made from the relevant special funds during the current or 17 any subsequent fiscal year. Where feasible, the specific projects shall be listed. 18 The provisions of 2 V.S.A. § 20(d) (expiration of required reports) shall not 19 apply to the report to be made under this subsection. 20 (b) Water supply. The Secretary of Natural Resources shall no later than
- 21 January 15, 2000 recommend to the House Committee on Corrections and

VT LEG #314450 v.3

1	Institutions, the Senate Committee on Institutions, and the House and Senate
2	Committees on Natural Resources and Energy a procedure for reporting to and
3	seeking the concurrence of the Legislature with regard to the special funds
4	established by section 4753 of this title for water supply facility construction.
5	[Repealed.]
6	(c) [Repealed.]
7	(d) Loan forgiveness; pollution control. Notwithstanding any other
8	provision of law regarding loan forgiveness, upon the award of a loan from the
9	Vermont Environmental Protection Agency Pollution Control Revolving Fund
10	(CWSRF), the Secretary of Natural Resources, in a manner that is consistent
11	with federal grant provisions, may forgive up to 50 percent of a loan if the
12	award is made for a project on a priority list and the project is capitalized, at
13	least in part, from funds derived from a federal CWSRF capitalization grant
14	that includes provisions authorizing loan forgiveness. Such loan forgiveness
15	shall be based on the loan value, but funds to be forgiven shall only consist of
16	federal funds, except where the loan is used as a match to other federal grants
17	requiring nonfederal funds as a match provide loan forgiveness.
18	(e) Loan forgiveness; drinking water.
19	(1) Notwithstanding any other provision of law regarding loan
20	forgiveness, upon the award of a loan from the Vermont Environmental
21	Protection Agency Drinking Water State Revolving Fund (DWSRF), the

1	Secretary of Natural Resources, in a manner that is consistent with federal
2	grant provisions, may forgive up to 100 percent of a loan if the award is made
3	for a project on the priority list and the project is capitalized, at least in part,
4	from funds derived from a federal DWSRF capitalization grant that includes
5	provisions authorizing loan forgiveness. Such loan forgiveness shall be based
6	on the loan value, but funds to be forgiven shall only consist of federal funds,
7	except where the loan is used as a match to other federal grants requiring
8	nonfederal funds as a match provide loan forgiveness.
9	(2) Notwithstanding any other provision of law regarding loan
10	forgiveness, upon the award of a loan from the Vermont Drinking Water State
11	Revolving Loan Fund, the Secretary of Natural Resources may provide loan
12	forgiveness for preliminary engineering and final design costs when a
13	municipality undertakes such engineering on behalf of a household that has
14	been disconnected involuntarily from a public water supply system for reasons
15	other than nonpayment of fees, provided it is not the same municipality that is
16	disconnecting the household.
17	(f) Loan forgiveness standard. The Secretary shall establish standards,
18	policies, and procedures as necessary for implementing subsections (d) and (e)
19	of this section for allocating the funds among projects and for revising standard
20	priority lists in order to comply with requirements associated with federal
21	capitalization grant agreements.

1	Sec. 28. 24 V.S.A. § 4754 is amended to read:
2	§ 4754. LOAN APPLICATION
3	A municipality may apply for a loan, the proceeds of which shall be used to
4	acquire, design, plan, construct, enlarge, repair or improve a publicly-owned
5	sewage system, sewage treatment or disposal plant, publicly owned water
6	pollution abatement and pollution control facility, water supply, water system,
7	public water supply systems as defined in section 4752(9) of this title, or a
8	solid waste handling and disposal facility, or certain privately owned privately
9	owned wastewater systems as described in section 4763 of this title, or to
10	implement a related management program. In addition, the loan proceeds shall
11	be used to pay the outstanding balance of any engineering planning advances
12	made to the municipal applicant under <u>this</u> chapter 55 of Title 10 and
13	determined by the secretary of the agency of natural resources Secretary to be
14	due and payable following construction of the improvements to be financed by
15	the proceeds of the loan. The bond bank Bond Bank may prescribe any form
16	of application or procedure required of a municipality for a loan hereunder.
17	Such application shall include such information as the bond bank Bond Bank
18	shall deem necessary for the purpose of implementing this chapter.

1	Sec. 29. 24 V.S.A. § 4755 is amended to read:
2	§ 4755. LOAN; LOAN AGREEMENTS <u>; GENERAL PROVISIONS</u>
3	(a) Except as provided by subsection (c) of this section, the Bond Bank
4	may make loans to a municipality on behalf of the State for one or more of the
5	purposes set forth in section 4754 of this chapter. Each of such loans shall be
6	made subject to the following conditions and limitations:
7	(1) $\frac{1}{1000}$ No loan shall be made for any purpose permitted under this
8	chapter other than from the revolving fund in which the same purpose is
9	included;.
10	(2) the <u>The</u> total amount of loan out of a particular revolving fund shall
11	not exceed the balance of that fund;.
12	(3) the <u>The</u> loan shall be evidenced by a municipal bond, payable by the
13	municipality over a term not to exceed 30 years or the projected useful life of
14	the project, which ever whichever is less, except:
15	(A) there shall be no deferral of payment, unless authorized by
16	10 V.S.A. § 1624a ;
17	(B) the term of the loan shall not exceed 20 years when required by
18	10 V.S.A. § 1624(b) section 4763c of this title; and
19	(C) the loan may be evidenced by any other permitted debt
20	instrument payable as permitted by chapter 53 of this title;

1	(4) notwithstanding Notwithstanding any other provisions of law,
2	municipal legislative bodies may execute notes and incur debt on behalf of
3	municipalities , :
4	(A) with voter approval at a duly warned meeting, for amounts less
5	than \$75,000.00 ,; or
6	(B) increase by increasing previously approved bond authorizations
7	by up to \$75,000.00 to cover unanticipated project costs; and.
8	(5) the <u>The</u> rate of interest charged for the loans made to municipalities
9	under this chapter, or the manner of determining the same, shall be established
10	from time to time by the State Treasurer after consultation with the Secretary
11	of the Agency taking into consideration the current average rate on outstanding
12	marketable obligations of the State as of the last day of the preceding month.
13	The rate of interest shall be no less than zero percent nor more than 80 percent
14	of the average rate on marketable obligations of the State and no more than the
15	market interest rate, as determined by the Bond Bank, except as provided in
16	section 4763c of this title. Effective July 1, 1999, an An administrative fee of
17	no more than two percent shall be charged for the loans made to municipalities
18	under this chapter from the Clean Water State Revolving Fund. Effective July
19	1, 2001, an administrative fee of no more than two percent may be charged for
20	loans made to municipalities under this chapter from and the Vermont
21	Environmental Protection Agency Drinking Water State Revolving Fund. The

1	Secretary shall establish the method used to determine such administrative fee.
2	Fee proceeds shall be deposited into a nonlapsing account and be held
3	separately from the funds established pursuant to section 4753 of this title.
4	Moneys Monies from such account shall be used to pay the costs of
5	administering each of the funds established by subsection 4753(a) of this title,
6	and any excess shall be transferred to the appropriate account established by
7	subsection 4753(a) of this title. Notwithstanding all other requirements of this
8	subdivision, the interest rate charged for municipal water supply projects shall
9	be established by the Secretary pursuant to 10 V.S.A. § 1624.
10	(b) Loans made to a municipality by the Bond Bank on behalf of the State
11	under this chapter shall be evidenced by and made in accordance with the
12	terms and conditions specified in a loan agreement to be executed by the Bond
13	Bank on behalf of the State and the municipality. The loan agreement shall
14	specify the terms and conditions of loan repayment by the municipality, as well
15	as the terms, conditions, and estimated schedule of disbursement of loan
16	proceeds. Disbursement of loan proceeds shall be based upon certification of
17	the loan recipient showing that costs for which reimbursement is requested
18	have been incurred and paid by the recipient. The recipient shall provide
19	supporting evidence of payment upon the request of the department
20	Department. Partial payments of loan proceeds shall be made not more
21	frequently than monthly. Interest costs incurred in local short-term borrowing

1	of the loan amount shall be reimbursed as part of the loan. The loan agreement
2	shall state the term and interest rate of the loan, the scheduling of loan
3	repayments, and such other terms and conditions as shall be deemed necessary
4	by the Bond Bank.
5	(c) The Vermont Economic Development Authority shall make loans on
6	behalf of the state State when the loan recipient is a privately owned public
7	water system. Such loans shall be issued and administered pursuant to
8	subchapter 3 of this chapter.
9	(d) The Secretary of Natural Resources shall by January 15, 2003 submit a
10	comprehensive report to the House Committees on Corrections and Institutions
11	and on Natural Resources and Senate Committees on Institutions and on
12	Natural Resources and Energy on the use by the state and by municipalities of
13	the two percent administrative fee authorized by subdivision (a)(4) of this
14	section. [Repealed.]
15	(e) For the purposes of this chapter, a State administrative department as
16	authorized in Title 3 shall be deemed a municipality and subject to the terms
17	and conditions applicable to municipalities; provided, however, that a State
18	administrative department deemed a municipality shall only receive State
19	assistance under this chapter if the Department has a surplus of funds at the
20	end of each fiscal year after all municipal loan applicants have received
21	committed funds.

1	Sec. 30. 24 V.S.A. § 4758 is amended to read:
2	§ 4758. LOAN PRIORITIES
3	(a) Periodically, and at least annually, the secretary Secretary shall prepare
4	and certify to the bond bank Bond Bank a project priority list of those
5	municipalities whose publicly owned projects, or privately owned wastewater
6	systems, are eligible for financing or assistance under this chapter. In
7	determining financing availability for wastewater projects water pollution
8	abatement and control facilities under this chapter, the secretary of the agency
9	having jurisdiction Secretary shall apply the following criteria:
10	(1) the probable public benefit to be gained or preserved by the project
11	to be financed;
12	(2) the long-term costs and the resulting benefits to be derived from the
13	project. In determining benefits, induced growth from a project that is not
14	consistent with a town, city, or village plan, duly adopted under chapter 117 of
15	this title, will not be considered;
16	(3) the cost of comparable credit or financing alternatives available to
17	the municipality;
18	(4) the existence of immediate public health, safety and welfare factors,
19	and compliance therewith;
20	(5) the existence of an emergency constituting a threat to public health,
21	safety and welfare; and

1	(6) the current area and population to be served by the proposed project
2	adopted pursuant to 10 V.S.A. § 1628.
3	(b) In determining financing availability for stormwater projects under this
4	chapter, the secretary of the agency having jurisdiction shall apply the
5	following criteria:
6	(1) that the project is specifically or generally described in Vermont's
7	nonpoint source management plan;
8	(2) that the project will remedy or prevent the impairment of waters, and
9	the severity of that existing or prevented impairment; and
10	(3) that the project is consistent with the applicable basin plan for the
11	waters affected by the project. [Repealed.]
12	Sec. 31. 24 V.S.A. § 4763c is added to read:
13	<u>§ 4763c. LOANS FOR PUBLIC WATER SUPPLY SYSTEMS</u>
14	(a) The Secretary may certify to the Vermont Municipal Bond Bank
15	established by section 4571 of this title the award of a loan to a municipality to
16	assist with a public water supply system project, when the Secretary finds that:
17	(1) the project is necessary;
18	(2) the proposed type, size, and estimated cost of the project are suitable
19	for its intended purpose; and
20	(3) the municipality will have the technical, financial, and managerial
21	ability to operate the facility in compliance with federal and State law.

1	(b) The certification by the Secretary shall specify the interest rate, and
2	indicate which of the following loan conditions concerning construction loans
3	<u>apply:</u>
4	(1) The term shall not exceed 20 years, and the annual interest rate, plus
5	the administrative fee, shall be no more than three percent or less than zero
6	percent, except that when the applicant municipality is disadvantaged as
7	defined by subdivision 4752(12) of this title, the term shall not exceed
8	30 years. When the applicant municipality is disadvantaged as defined in
9	subdivision 4752(12), the annual interest rate, plus the administrative fee, shall
10	be no less than minus three percent.
11	(2) In no instance shall the annual interest rate, plus the administrative
12	fee, be less than necessary to achieve an annual household user cost equal to
13	one percent of the median household income of the applicant municipality or
14	served area, taking into account:
15	(A) debt retirement of the project, including any monies a
16	municipality may borrow to match federal funds available to the Vermont EPA
17	Drinking Water State Revolving Fund pursuant to section 4763d of this title;
18	(B) prior drinking water projects; and
19	(C) estimated annual operation and maintenance costs as determined
20	by the Secretary.

1	(c) A municipal legislative body may execute a loan agreement under this
2	subsection provided the loan is authorized by municipal voters and secured by
3	the full faith and credit of the municipality.
4	(d) A loan shall be issued and administered pursuant to this chapter.
5	(e) Loans shall be available to the extent funds are available and according
6	to priorities established by the Secretary.
7	(f) For purposes of this section, the Secretary shall determine the median
8	household income of a municipality from the most recent federal census data
9	available when the priority list used for funding the project was approved, or at
10	the option of an applicant municipality, based on the recommendation of an
11	independent contractor hired by the municipality and approved by the
12	Secretary. The determination of the Secretary shall be final. The cost of an
13	independent contractor may be included in the total cost of a project.
14	(g) Loans awarded for the purpose of refinancing old debt shall be for a
15	term of no more than 20 years and at an interest rate set by the State Treasurer
16	at no less than zero percent and no more than the market interest rate, as
17	determined by the Bond Bank, except that municipalities or private water
18	system owners that qualify for loan awards under section 4770 of this title and
19	that incurred debt and initiated construction after April 5, 1997 may receive
20	loans at interest rates and terms pursuant to subdivision (b)(2)(A) of this
21	section.

1	(h) Loans awarded for the purpose of conducting feasibility studies and
2	preparation of engineering plans and designs shall be for a term of no more
3	than five years at an interest rate of zero percent.
4	(i) Loans awarded for the purpose of purchasing land or conservation
5	easements to protect public water sources shall be for a term of no more than
6	20 years at an annual interest rate of three percent.
7	(j) The Secretary may forgive up to \$25,000.00 of a loan from the Vermont
8	Environmental Protection Agency (EPA) Drinking Water State Revolving
9	Fund to municipalities for improvements to public school water systems
10	following substantial completion of the project. The Secretary shall establish
11	amounts, eligibility, policies, and procedures for loan forgiveness in the annual
12	State intended use plan (IUP), as required by the Safe Drinking Water Act,
13	42 U.S.C. § 300f et seq., with public review and comment prior to finalization
14	and submission to the EPA.
15	(k) Subject to the interest rate and administrative fee limitations of
16	subsection (b) of this section, the Secretary may designate projects as U.S.
17	Department of Agriculture Rural Development-Vermont EPA Drinking Water
18	State Revolving Fund jointly funded projects, and reduce the Vermont EPA
19	revolving fund interest rate, plus administrative fee, in order to make the total
20	loan cost of the joint loan to the municipality equivalent to the total loan cost
21	of a separately funded Vermont EPA revolving loan for the same project.

1	Sec. 32. 24 V.S.A. § 4763d is added to read:
2	<u>§ 4763d. MUNICIPAL MATCH OF FEDERAL REVOLVING FUNDS</u>
3	(a) A municipality may choose to provide the State money necessary to
4	match federal monies available to the Vermont EPA Drinking Water State
5	Revolving Fund established by subdivision 4753(a)(3) of this title, and thereby
6	become eligible to receive a loan from the Revolving Fund in the amount of
7	the total cost of a water facility project approved under this section. Such a
8	loan from the Revolving Fund, for up to the total project cost, shall be
9	approved by municipal voters and secured by the full faith and credit of the
10	municipality or anticipated revenues from municipal water charges.
11	(b) The amount of such a municipal match of federal funds shall be equal
12	to one-sixth of the total project cost, which shall constitute a sum in addition to
13	the amount of a loan for the total project cost to be received by the
14	municipality from the Revolving Fund. A municipality is authorized to borrow
15	monies needed for the match amount, from sources other than the Revolving
16	Fund, which shall be approved by municipal voters and secured by the full
17	faith and credit of the municipality or anticipated revenues from municipal
18	water charges, or a municipality may use other funds or tax revenues available
19	to it for this purpose.

1	(c) Upon request of the owner of a privately owned public water system, a
2	municipality may apply for and support an application for a community
3	development block grant to receive use of State and federal funds, provided:
4	(1) the private water system owner agrees to pay all administrative and
5	legal costs incurred by the municipality in pursuit of the grant;
6	(2) the municipality finds that the project to be supported by the grant is
7	consistent with applicable local and regional plans, and local ordinances or
8	other local enactments;
9	(3) the private water system owner, to the extent practicable, undertakes
10	the administration of logistical and legal work necessary to prepare the
11	application materials; and
12	(4) the private water system owner agrees to hold the municipality
13	harmless from any claims of liability arising from the grant application or
14	project.
15	(d) The Secretary may use federal funds to award grants to municipalities
16	to complete studies, or for start-up costs associated with the physical and
17	operational consolidation of public water systems or the interconnection of
18	public water systems. The Secretary shall establish amounts, eligibility,
19	priorities, policies, and procedures in the annual State intended use plan (IUP),
20	as required by the Safe Drinking Water Act, 42 U.S.C. § 300f et seq.

- 1 Sec. 33. 24 V.S.A. § 4764 is added to read:
- 2 § 4764. PLANNING 3 (a) Engineering planning advance. A municipality or a combination of two or more municipalities desiring an advance of funds for engineering planning 4 5 for public water supply systems, as defined in subdivision 4752(9) of this title, 6 or improvements, or for water pollution abatement and control facilities or 7 improvements, may apply to the Department for an advance under this chapter. 8 As used in this subsection, "engineering planning" may include source 9 exploration, surveys, reports, designs, plans, specifications, or other 10 engineering services necessary in preparation for construction of the types of 11 systems or facilities referred to in this section. 12 (b) Regional engineering planning. The Department, with the approval of 13 the Secretary, may use up to ten percent of the total capital appropriation for construction grants to undertake regional engineering planning and process 14 15 research. Funds approved for regional engineering planning may be awarded 16 directly to a lead municipality and administered in accordance with this 17 chapter. 18 (c) Funding. In each fiscal year, the Department may use up to 30 percent 19 of the total capital appropriation for construction grants provided under 20 10 V.S.A. chapter 55 to award engineering planning advances.

- 1 Sec. 34. 24 V.S.A. § 4765 is added to read:
- 2 <u>§ 4765. APPLICATION</u>
- 3 <u>The application shall be supported by data covering:</u>
- 4 <u>(1) a description of the project;</u>
- 5 (2) a description of the engineering service to be performed;
- 6 (3) an explanation of the need for the project;
- 7 (4) an estimate of the cost of the project;
- 8 (5) the amount of advance requested;
- 9 (6) a schedule for project implementation;
- 10 (7) such other information and assurances as the Department may
- 11 <u>require.</u>
- 12 Sec. 35. 24 V.S.A. § 4766 is added to read:
- 13 <u>§ 4766. AWARD OF ADVANCE</u>
- 14 (a) The Department may award an engineering planning advance, as
- 15 defined in section 4764 of this title, in an amount determined by standards
- 16 <u>established by the Department, and pursuant to the following:</u>
- 17 (1) for public water supply systems, as defined in subdivision 4752(9) of
- 18 this title, when it finds the same to be necessary in order to preserve or enhance
- 19 the quality of water provided to the inhabitants of the municipality, or to
- 20 <u>alleviate an adverse public health condition, or to allow for orderly</u>
- 21 <u>development and growth of the municipality, except that no funds may be</u>

1	awarded until the Department determines that the applicant has complied with
2	the provisions of 10 V.S.A. § 1676a, unless such funds are solely for the
3	purpose of determining the effect of the proposed project on agriculture; or
4	(2) for planning of water pollution abatement and control facilities, in
5	order to enable a municipality to comply with water quality standards
6	established under 10 V.S.A. chapter 47.
7	(b) The Department shall award an advance for engineering planning under
8	this section only when it finds:
9	(1) that the cost of the project is reasonable for its intended purpose; and
10	(2) that local funds are not readily available.
11	Sec. 36. 24 V.S.A. § 4767 is added to read:
12	<u>§ 4767. PAYMENT OF AWARDS</u>
13	On receipt of the engineering planning documents and their approval by the
14	Department, the Department shall certify the award to the Commissioner of
15	Finance and Management who shall issue his or her warrant for payment of the
16	award from the construction grant funds available to the Department. The
17	Department may direct the Commissioner of Finance and Management to issue
18	his or her warrant for partial payments of the award upon receipt and approval
19	of portions of the total engineering work to be performed under the advance,
20	together with the recipient's certification that costs for which reimbursement
21	has been requested have been incurred and paid by the recipient municipality.

1	The recipient shall provide supporting evidence of payment upon the request of			
2	the Department. Partial payments shall be made not more frequently than			
3	monthly. Interest costs incurred in local short-term borrowing of the			
4	engineering planning advance shall be reimbursed as part of the advance.			
5	Sec. 37. 24 V.S.A. § 4768 is added to read:			
6	<u>§ 4768. REPAYMENT OF ADVANCES</u>			
7	Advances under this subchapter shall be repaid when construction of the			
8	facilities or any portion thereof is undertaken. Where a construction grant or			
9	loan is authorized by the Department for the project, the amount of the			
10	outstanding advances shall be retained from the initial payments of the grant or			
11	loan funds. In other instances, if repayment is not made within 60 days upon			
12	demand by the Department, the sum shall bear interest at the rate of 12 percent			
13	per annum from the date payment is demanded by the Department to the date			
14	of payment by the municipality. The Department may approve proportional			
15	repayment when construction is initiated on a small portion of the planned			
16	project.			
17	Sec. 38. REPORT ON LOANS TO PRIVATE ENTITIES FOR WATER			
18	POLLUTION ABATEMENT AND CONTROL FACILITIES AND			
19	PUBLIC WATER SUPPLY SYSTEMS			
20	(a) On or before December 15, 2016, the Secretary of Natural Resources			
21	shall submit to the House Committees on Corrections and Institutions, on Fish,			

1	Wildlife and Water Resources, and on Commerce and Economic Development	
2	and the Senate Committee on Institutions a report regarding whether and how	
3	to provide loans under 24 V.S.A. chapter 120 to private entities for water	
4	pollution abatement and control facilities, and public water supply systems.	
5	(b) The report shall include:	
6	(1) an assessment of the total funds available from the State for grants	
7	and loans to municipalities and the total funds available from the State for	
8	loans to private entities to improve water quality;	
9	(2) an estimate of the costs to municipalities over the next 10 years of	
10	complying with State and federal water quality and water supply requirements,	
11	including any necessary improvements to water pollution abatement and	
12	control facilities or public water supply systems;	
13	(3) an estimate of the likely demand by municipalities in the next 10	
14	years for grants and loans for municipal compliance with State and federal	
15	water quality and water supply requirements;	
16	(4) a recommendation of whether to authorize loans under 24 V.S.A.	
17	chapter 120 to private entities for water pollution abatement and control	
18	facilities or public water supply systems;	
19	(A) if the Secretary recommends that private entities should not	
20	receive loans under 24 V.S.A. chapter 120 for water pollution abatement and	

1	control facilities or public water supply systems, the basis for the			
2	recommendation;			
3	(B) if the Secretary recommends that private entities should be			
4	authorized to receive loans under 24 V.S.A. chapter 120 for water pollution			
5	abatement and control facilities or public water supply systems:			
6	(i) the basis for the recommendation;			
7	(ii) how loans to municipal projects would retain priority over			
8	private entities in eligibility;			
9	(iii) whether loans to private entities should be limited to certain			
10	types of water pollution abatement and control facilities or public water supply			
11	systems projects, including whether:			
12	(I) loans for correcting sewage problems should only be			
13	authorized to private residences or development with failed systems, as that			
14	term is defined in 10 V.S.A. § 1972; and			
15	(II) loans to private entities for stormwater management should			
16	be limited to situations when stormwater runoff contributes to combined sewer			
17	overflow issues in a municipality and the State or the municipality lacks			
18	regulatory authority to require the private entity to implement stormwater			
19	controls;			
20	(iv) which financial institution or institutions should administer			
21	the loans; and			

1	(v) recommendations on loan eligibility requirements, conditions
2	of loan agreements, and other provisions necessary to administer loans to
3	private entities.
4	Sec. 39. TRANSITION; WATER POLLUTION ABATEMENT CONTROL
5	FACILITIES
6	(a) Notwithstanding any conflict with this act, the Department is authorized
7	to continue to award assistance under the Municipal Pollution Control Priority
8	System Rule, adopted August 1, 2014, until new rules are adopted to
9	implement this act pursuant to 10 V.S.A. § 1628. Until such new rules are
10	adopted, the Department shall award grants pursuant to subsection (b) of this
11	section.
12	(b) When the Department finds that a proposed water pollution abatement
13	and control facility is necessary to maintain or achieve compliance with the
14	Vermont Water Quality Standards; that the proposed type, kind, quality, size,
15	and estimated cost of the project, including operation cost and sewage disposal
16	charges, are suitable for abatement of pollution; and that the project or the
17	prescribed project phases are necessary to meet the intent of the water quality
18	classifications established by the Secretary or by statute under 10 V.S.A.
19	chapter 47, the Department may award State financial assistance to the project
20	as follows:

1	(1) Combined sewer separation facilities and combined sewer overflow
2	abatement projects shall be eligible for a grant of 25 percent of the eligible
3	project costs.
4	(2) Projects to abate dry weather sewage flows shall be eligible for a
5	grant of up to 25 percent of the eligible project costs, except that any
6	municipality having proceeded with construction of facilities with a State grant
7	of 25 percent since July 1, 1984 shall be eligible for an increase in the State
8	grant to a total of 35 percent of the eligible project costs.
9	(3) A project to construct, enlarge, or refurbish a wastewater treatment
10	plant with a design hydraulic capacity of 250,000 or more gallons per day shall
11	be eligible for a grant of up to 50 percent of the cost of that portion of the plant
12	used to treat septage, or septage and sludge in combination, if the
13	Commissioner of Environmental Conservation finds that the proposed plant
14	capacity will be sufficient to receive, treat, and dispose of septage alone in a
15	quantity equivalent to the ratio of 4,000 gallons or more of such septage per
16	day for each 1,000,000 gallons per day of plant design hydraulic capacity. The
17	portion of the plant used for processing septage, or septage and sludge in
18	combination, shall include facilities for receiving septage and for the storage,
19	treatment, transfer, and disposal of both septage and sludge.
20	Sec. 40. EFFECTIVE DATE
21	This act shall take effect on passage.
