Subject: Re: testimony on H.719

Sue

Thank you for the opportunity to comment on this project.

GMP is committed to increasing the amount of cost effective renewable energy in our portfolio because it's both what our customers want and is also required by state law. GMP has set internal criteria it adheres to in siting renewable projects, and one of those key areas is working with the community and having local support. The select board of Windsor voted unanimously to not support the solar project at the Windsor prison site. GMP respects their decision and will not pursue a solar project at that site.

Thank you

Robert Dostis
