1 TO THE HOUSE OF REPRESENTATIVES:

## 2 The Committee on House Committee on Fish, Wildlife and Water

3 Resources to which was referred House Bill No. 35 entitled "An act relating to  
4 improving the quality of State waters" respectfully reports that it has  
5 considered the same and recommends that the bill be amended by striking out  
6 all after the enacting clause and inserting in lieu thereof the following:

7 \* \* \* Purpose \* \* \*

## 8 SEC. 1. PURPOSE; IMPROVEMENT OF WATER QUALITY

9 It is the purpose of this act to:

11           (2) authorize and prioritize proactive measures designed to implement  
12        and meet the impending total maximum daily load (TMDL) plan for Lake  
13        Champlain, meet impending TMDL plans for other State waters, and improve  
14        water quality across the State;

15        (3) identify and prioritize cost-effective strategies for the State to  
16        address water quality issues; and

17           (4) engage more municipalities, agricultural operations, businesses, and  
18       other interested parties as part of the State's efforts to improve the quality of  
19       the waters of the State.

**Gray highlighting = Change from HFWWR Amend 1.3**

**Red highlighting = Issues for Discussion**

1           (5) provide mechanisms, staffing, and financing necessary for State  
2       waters to achieve and maintain compliance with the Vermont water quality  
3       standards.

\* \* \* Agricultural Water Quality;

5 Definitions \* \* \*

6 Sec. 2. 6 V.S.A. § 4802 is amended to read:

7       § 4802. **DEFINITION DEFINITIONS**

8       For purposes of As used in this chapter, the word “secretary,” when used by

9       itself means the secretary of agriculture, food and markets:

(1) "Agency" means the Agency of Agriculture, Food and Markets.

(2) "Farming" shall have the same meaning as used in 10 V.S.A.

12 § 6001(22).

13 (3) "Secretary" means the Secretary of Agriculture, Food and Markets.

14                   (4) “Top of bank” means the point along the bank of a stream where an  
15                   abrupt change in slope is evident, and where the stream is generally able to  
16                   overflow the banks and enter the adjacent floodplain during an annual flood  
17                   event. Annual flood event shall be determined according to the Agency of  
18                   Natural Resources’ Flood Hazard Area and River Corridor Protection  
19                   Procedure.

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1                   (5) “Waste” or “agricultural waste” means material originating or  
2                   emanating from a farm that is determined by the Secretary or the Secretary of  
3                   Natural Resources to be harmful to the waters of the State, including:  
4                   sediments; minerals, including heavy metals; plant nutrients; pesticides;  
5                   organic wastes, including livestock waste, animal mortalities, compost, feed  
6                   and crop debris; waste oils; pathogenic bacteria and viruses; thermal pollution;  
7                   silage runoff; untreated milkhouse waste; and any other farm waste as the term  
8                   “waste” is defined in 10 V.S.A. § 1251 (12).

9                   (6) “Water” shall have the same meaning as used in 10 V.S.A.  
10                  § 1251(13).

11                  \* \* \* Agricultural Water Quality;

12                  Small Farm Certification and Inspection \* \* \*

13                  Sec. 3. 6 V.S.A. § 4858a is added to read:

14                  § 4858a. SMALL FARM CERTIFICATION

15                  (a) Required small farm certification. A person who owns or operates a  
16                  small farm shall, on a form provided by the Secretary, certify compliance with  
17                  the accepted agricultural practices. The Secretary of Agriculture, Food and  
18                  Markets shall establish the requirements and manner of certification of  
19                  compliance with the accepted agricultural practices, provided that the  
20                  Secretary shall require an owner or operator of a farm to submit a certification

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1       of compliance with the accepted agricultural practices at least once every five  
2       years.

3       (b) Rulemaking; small farm certification. The Secretary of Agriculture,  
4       Food and Markets shall adopt by rule requirements for a small farm  
5       certification of compliance with the accepted agricultural practices. The rules  
6       required by this subsection shall be adopted as part of the accepted agricultural  
7       practices under section 4810 of this title.

8       (c) Small farm inspection. The Secretary may inspect a small farm in the  
9       State at any time for the purposes of assessing compliance by the small farm  
10      with the accepted agricultural practices and determining consistency with a  
11      certification of compliance submitted by the person who owns or operates the  
12      small farm. The Secretary may prioritize inspections of small farms in the  
13      State based on identified water quality issues posed by a small farm.

14      (d) Notice of change of ownership or change of lease. A person who owns  
15      or leases a small farm shall notify the Secretary of a change of ownership or  
16      change of lessee of a small farm within 30 days of the change. The  
17      notification shall include the certification of small farm compliance required  
18      under subsection (a) of this section.

19      (e)(1) Identification; ranking of water quality needs. During an inspection  
20      of a small farm under this section, the Secretary shall identify areas where the

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1       farm could benefit from capital, structural, or technical assistance in order to  
2       improve or come into compliance with the accepted agricultural practices and  
3       any applicable State water quality permit or certification required under this  
4       chapter.

5           (2) Notwithstanding the priority system established under section 4823  
6       of this title, the Secretary annually shall establish a priority ranking system for  
7       small farms according to the water quality benefit associated with the capital,  
8       structural, or technical improvements identified as needed by the Secretary  
9       during an inspection of the farm.

10          (3) Notwithstanding the priority system established by subdivision (2) of  
11       this subsection, the Secretary may provide financial assistance to a small farm  
12       at any time, regardless of the priority ranking system, if the Secretary  
13       determines that the farm needs assistance to address a water quality issue that  
14       requires immediate abatement.

15       Sec. 4. 6 V.S.A. § 4810a is added to read:

16          § 4810a. ACCEPTABLE AGRICULTURAL PRACTICES; REVISION

17           (a) On or before July 1, 2016 the Secretary of Agriculture, Food, and  
18       Markets shall amend the accepted agricultural practices in order to improve  
19       water quality in the State, assure practices on all farms eliminate adverse  
20       impacts to water quality, and implement the small farm certification program

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1       required by section 4858a of this title. At a minimum, the amendments to the  
2       accepted agricultural practices shall:

3       (1) Specify and define those farms that:

4           (A) shall be required to comply with the small certification

5       requirements under section 4858a of this title; and

6           (B) shall be subject to the accepted agricultural practices, but shall

7       not be required to comply with small farm certification requirements under

8       section 4858a of this title.

9       (2)(A) Prohibit a farm from stacking manure, storing fertilizer, or  
10      storing other nutrients on the farm:

11       (i) in a manner and location that presents a threat of discharge to a

12      water of the State or presents a threat of contamination to groundwater;

13       (ii) on lands in a floodway or otherwise subject to regular  
14      flooding.

15       (B) In no case shall manure stacking sites, fertilizer storage, or other  
16      nutrient storage be located within 100 feet of a private well or within 100 feet  
17      of a water of the State.

18       (3) Require the construction and management of barnyards, waste  
19      management systems, animal holding areas, and production areas in a manner

Gray highlighting = Change from HFWWR Amend 1.3  
Red highlighting = Issues for Discussion

1       to prevent runoff of waste to a surface water, to groundwater, or across  
2       property boundaries.

3           (4) Establish standards for nutrient management on farms, including  
4       required nutrient management planning on all farms that manage agricultural  
5       wastes.

6           (5) Require cropland on the farm to be cultivated in a manner that  
7       results in an average soil loss of less than or equal to the soil loss tolerance for  
8       the prevalent soil, known as 1T, as calculated through application of the  
9       Revised Universal Soil Loss Equation, or through the application of similarly  
10      accepted models.

11          (6) Require a farm to comply with standards established by the  
12       Secretary for maintaining a vegetative buffer zone of perennial vegetation  
13       between annual croplands and the top of the bank of an adjoining water of the  
14       State. At a minimum the vegetative buffer standards established by the  
15       Secretary shall prohibit the application of manure on the farm within 25 feet of  
16       the top of the bank of an adjoining water of the State or within 10 feet of a  
17      ditch.

18          (7) Prohibit the construction or siting of a farm structure for the storage  
19       of manure, fertilizer, or pesticide storage within a floodway area identified on a  
20       National Flood Insurance Program Map on file with a town clerk.

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1                   (8) Regulate, in a manner consistent with the Agency of Natural  
2                   Resources' flood hazard area and river corridor rules, the construction or siting  
3                   of a farm structure or the storage of manure, fertilizer, or pesticides storage  
4                   within a river corridor designated by the Secretary of Natural Resources.

5                   (9) Establish standards for the exclusion of livestock from the waters of  
6                   the State to prevent erosion and adverse water quality impacts.

7                   (10) Establish standards for the management of subsurface agriculture  
8                   tile drainage consistent with subsection (b) of this section.

9                   (b) On or before January 15, 2018, the Secretary of Agriculture, Food and  
10                  Markets shall amend the accepted agricultural practices in order to include  
11                  requirements for reducing nutrient contribution to waters of the State from  
12                  subsurface tile drainage. Upon adoption of requirements for subsurface tile  
13                  drainage, the Secretary may require an existing subsurface tile drain to comply  
14                  with the requirements of the AAPs for subsurface tile drainage upon a  
15                  determination that compliance is necessary to reduce adverse impacts to water  
16                  quality from the subsurface tile drain.

17                  Sec. 5. AGENCY OF AGRICULTURE, FOOD AND MARKETS REPORT

18                  ON SUBSURFACE TILE DRAINAGE

19                  On or before January 15, 2017, the Secretary of Agriculture, Food and  
20                  Markets, after consultation with the Secretary of Natural Resources and the

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

U.S. Department of Agriculture's Natural Resource Conservation Service,  
shall report to the House Committee on Fish, Wildlife and Water Resources,  
the Senate Committee on Natural Resources and Energy, the House Committee  
on Agriculture and Forest Products, and the Senate Committee on Agriculture  
regarding the status of current, scientific research relating to the environmental  
management of subsurface agriculture tile drainage and how subsurface  
agriculture tile drainage contributes to nutrient loading of surface waters. The  
report shall include a recommendation from the Secretary of Agriculture, Food  
and Markets regarding how best to manage subsurface agriculture tile drainage  
in the State in order to mitigate the contribution of tile drainage to waters of the  
State.

12 \* \* \* Agricultural Water Quality; Permit Fee Report\* \* \*

13 Sec. 6. AGENCY OF AGRICULTURE, FOOD AND MARKETS REPORT

14 ON FEES FOR PERMITTED FARMS

15           On or before January 15, 2016, the Secretary of Agriculture, Food and  
16           Markets shall submit to the House Committee on Agriculture and Forest  
17           Products, the Senate Committee on Agriculture, the House Committee on Fish,  
18           Wildlife and Water Resources, the Senate Committee on Natural Resources  
19           and Energy, the House Committee on Ways and Means, and the Senate  
20           Committee on Finance a report regarding the fees to be assessed farms for

Gray highlighting = Change from HFWWR Amend 1.3  
Red highlighting = Issues for Discussion

1       permits or certifications issued under 6 V.S.A. chapter 215. The report shall  
2       include:

3       (1) a recommended fee amount to be assessed against large farms,

4       medium farms, and small farms permitted or certified by the Agency;

5       (2) a recommended fee for custom applicators and other entities

6       regulated under 6 V.S.A. chapter 215;

7       (3) a recommended schedule for implementation and collection of fees;

8       and

9       (4) a recommended use for collected fees, including whether the  
10      collected fees should be deposited into a specific special fund.

11           \* \* \* Agricultural Water Quality; Best Management Practices \* \* \*

12      Sec. 7. 6 V.S.A. § 4810 is amended to read:

13      § 4810. AUTHORITY; COOPERATION; COORDINATION

14      (a) Agricultural land use practices. In accordance with 10 V.S.A.

15      § 1259(i), the secretary Secretary shall adopt by rule, pursuant to 3 V.S.A.

16      chapter 25 of Title 3, and shall implement and enforce agricultural land use

17      practices in order to reduce the amount of agricultural pollutants entering the

18      waters of the state satisfy the requirements of 33 U.S.C. § 1329 that State

19      identify and implement best management practices to control nonpoint sources

20      of agricultural waste to waters of the State. These agricultural land use

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1 practices shall be created in two categories, pursuant to subdivisions (1) and  
2 (2) of this subsection.

3 (1) “Accepted Agricultural Practices” (AAPs) shall be standards to be  
4 followed in conducting agricultural activities in this ~~state~~ State. These  
5 standards shall address activities which have a potential for causing pollutants  
6 to enter the groundwater and waters of the ~~state~~ State, including dairy and  
7 other livestock operations plus all forms of crop and nursery operations and  
8 on-farm or agricultural fairground, registered pursuant to 20 V.S.A. § 3902,  
9 livestock and poultry slaughter and processing activities. The AAPs shall  
10 include, as well as promote and encourage, practices for farmers in preventing  
11 pollutants from entering the groundwater and waters of the ~~state~~ State when  
12 engaged in, ~~but not limited to~~, animal waste management and disposal, soil  
13 amendment applications, plant fertilization, and pest and weed control.

14 Persons engaged in farming, as defined in 10 V.S.A. § 6001, who ~~follow~~ are in  
15 compliance with these practices shall be presumed to be in compliance with  
16 water quality standards. AAPs shall be practical and ~~cost effective~~  
17 cost-effective to implement, as determined by the Secretary. The AAPs for  
18 groundwater shall include a process under which the ~~agency~~ Agency shall  
19 receive, investigate, and respond to a complaint that a farm has contaminated  
20 the drinking water or groundwater of a property owner.

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

- 1                   (2) “Best Management Practices” (BMPs) may be required by the  
2 ~~secretary~~ Secretary on a ~~case-by-case~~ case-by-case basis. ~~Before requiring~~  
3 ~~BMPs, the secretary shall determine that sufficient financial assistance is~~  
4 ~~available to assist farmers in achieving compliance with applicable BMPs.~~  
5 When requiring implementation of a BMP, the Secretary shall inform a farmer  
6 of the resources available to assist the farmer in implementing BMPs and  
7 complying with the requirements of this chapter. BMPs shall be practical and  
8 cost effective to implement, ~~as determined by the Secretary, and shall be~~  
9 designed to achieve compliance with the requirements of this chapter.
- 10                  (b) Cooperation and coordination. The ~~secretary of agriculture, food and~~  
11 ~~markets~~ Secretary of Agriculture, Food and Markets shall coordinate with the  
12 ~~secretary of natural resources~~ Secretary of Natural Resources in implementing  
13 and enforcing programs, plans, and practices developed for reducing and  
14 eliminating agricultural non-point source pollutants and discharges from  
15 concentrated animal feeding operations. The ~~secretary of agriculture, food and~~  
16 ~~markets~~ Secretary of Agriculture, Food and Markets and the ~~secretary of~~  
17 ~~natural resources~~ Secretary of Natural Resources shall develop a memorandum  
18 of understanding for the non-point program describing program administration,  
19 grant negotiation, grant sharing, and how they will coordinate watershed  
20 planning activities to comply with Public Law 92-500. The ~~secretary of~~

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1       agriculture, food and markets Secretary of Agriculture, Food and Markets and  
2       the secretary of the agency of natural resources Secretary of Natural Resources  
3       shall also develop a memorandum of understanding according to the public  
4       notice and comment process of 10 V.S.A. § 1259(i) regarding the  
5       implementation of the federal concentrated animal feeding operation program  
6       and the relationship between the requirements of the federal program and the  
7       state State agricultural water quality requirements for large, medium, and small  
8       farms under this chapter 215 of this title. The memorandum of understanding  
9       shall describe program administration, permit issuance, an appellate process,  
10      and enforcement authority and implementation. The memorandum of  
11      understanding shall be consistent with the federal National Pollutant Discharge  
12      Elimination System permit regulations for discharges from concentrated  
13      animal feeding operations. The allocation of duties under this chapter between  
14      the secretary of agriculture, food and markets Secretary of Agriculture, Food  
15      and Markets and the secretary of natural resources Secretary of Natural  
16      Resources shall be consistent with the secretary's Secretary's duties,  
17      established under the provisions of 10 V.S.A. § 1258(b), to comply with Public  
18      Law 92-500. The secretary of natural resources Secretary of Natural  
19      Resources shall be the state State lead person in applying for federal funds  
20      under Public Law 92-500, but shall consult with the secretary of agriculture,

Gray highlighting = Change from HFWWR Amend 1.3

**Red highlighting = Issues for Discussion**

1 food and markets Secretary of Agriculture, Food and Markets during the  
2 process. The agricultural non-point source program may compete with other  
3 programs for competitive watershed projects funded from federal funds. The  
4 ~~secretary of agriculture, food and markets~~ Secretary of Agriculture, Food and  
5 Markets shall be represented in reviewing these projects for funding. Actions  
6 by the ~~secretary of agriculture, food and markets~~ Secretary of Agriculture,  
7 Food and Markets under this chapter concerning agricultural non-point source  
8 pollution shall be consistent with the water quality standards and water  
9 pollution control requirements of 10 V.S.A. chapter 47 of Title 10 and the  
10 federal Clean Water Act as amended. In addition, the ~~secretary of agriculture,~~  
11 ~~food and markets~~ Secretary of Agriculture, Food and Markets shall coordinate  
12 with the ~~secretary of natural resources~~ Secretary of Natural Resources in  
13 implementing and enforcing programs, plans, and practices developed for the  
14 proper management of composting facilities when those facilities are located  
15 on a farm.

16 Sec. 8. 6 V.S.A. § 4813 is amended to read:

17       § 4813. BASIN MANAGEMENT; APPEALS TO THE WATER

18 RESOURCES BOARD ENVIRONMENTAL DIVISION

19 (a) The secretary of agriculture, food and markets Secretary of Agriculture,  
20 Food and Markets shall cooperate with the secretary of natural resources

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1       Secretary of Natural Resources in the basin planning process with regard to the  
2       agricultural non-point source waste component of each basin plan. Any person  
3       with an interest in the agricultural non-point source component of the basin  
4       planning process may petition the ~~secretary of agriculture, food and markets~~  
5       Secretary of Agriculture, Food and Markets to require, and the ~~secretary~~  
6       Secretary may require, best management practices in the individual basin  
7       beyond accepted agricultural practices adopted by rule, in order to achieve  
8       compliance with the water quality goals in 10 V.S.A. § 1250 and any duly  
9       adopted basin plan. The ~~secretary of agriculture, food and markets~~ Secretary  
10      of Agriculture, Food and Markets shall hold a public hearing within 60 days  
11      and shall issue a timely written decision that sets forth the facts and reasons  
12      supporting the decision.

13           (b) Any person engaged in farming that has been required by the ~~secretary~~  
14      ~~of agriculture, food and markets~~ Secretary of Agriculture, Food and Markets to  
15      implement best management practices or any person who has petitioned the  
16      ~~secretary of agriculture, food and markets~~ Secretary of Agriculture, Food and  
17      Markets under subsection (a) of this section may appeal the ~~secretary of~~  
18      ~~agriculture, food and market's~~ Secretary of Agriculture, Food and Markets'  
19      decision to the ~~environmental division~~ Environmental Division de novo.

1                   (c) ~~Before requiring best management practices under this section, the~~  
2 ~~secretary of agriculture, food and markets or the board shall determine that~~  
3 ~~sufficient financial assistance is available to assist farmers in achieving~~  
4 ~~compliance with applicable best management practices~~ When requiring  
5 implementation of a best management practice, the Secretary shall inform a  
6 farmer of the resources available to assist the farmer in implementing the best  
7 management practice and complying with the requirements of this chapter.

8                   \* \* \* Agricultural Water Quality; Training \* \* \*

9                   Sec. 9. 6 V.S.A. chapter 215, subchapter 8 is added to read:

10                  Subchapter 8. Agricultural Water Quality Training

11                  § 4981. AGRICULTURAL WATER QUALITY CERTIFICATION

12                  TRAINING

13                  (a) The Secretary of Agriculture, Food and Markets shall adopt by  
14 procedure requirements for training classes or programs for owners or  
15 operators of small farms, medium farms, or large farms certified or permitted  
16 under this chapter regarding:

17                  (1) the prevention of discharges, as that term is defined in 10 V.S.A.

18                  § 1251(3); and

19                  (2) the mitigation and management of stormwater runoff, as that term is  
20 defined in 10 V.S.A. § 1264, from farms.

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1           (b) Any training required by procedure under this section shall address:

(1) the existing statutory and regulatory requirements for operation of a large, medium, or small farm in the State;

4                   (2) the management practices and technical and financial resources  
5                   available to assist in compliance with statutory or regulatory agricultural  
6                   requirements; and

7           (3) the land application of manure, nutrients, or sludge; methods or  
8           techniques to minimize the runoff of land-applied manure, nutrients, or sludge  
9           to waters of the State; and identification of weather or soil conditions that  
10          increase the risk of runoff of land-applied manure, nutrients, or sludge to  
11          waters of the State.

12                   (c) The Secretary shall include the training required by this section as a  
13                   condition of a large farm permit, medium farm permit, or small farm  
14                   certification required under this chapter. The Secretary may phase in training  
15                   requirements under this section based on farm size, permit or certification  
16                   category, or available staffing. On or before January 1, 2016 the Secretary  
17                   shall establish a schedule by which all owners or operators of small farms,  
18                   medium farms, or large farms shall complete the training required by this  
19                   section.

# Certification of Custom Applicators \* \* \*

2 Sec. 10. 6 V.S.A. chapter 215, subchapter 9 is added to read:

### Subchapter 9. Certification of Custom Applicators of Manure,

4 Nutrients, Septage, or Sludge

## 5      § 4987. DEFINITIONS

## As used in this subchapter:

7                   (1) “Custom applicator” means the owner of a company engaged in the  
8                   business of applying manure, nutrients, ~~septage~~, or sludge to land and who  
9                   charges or collects other consideration for the service. “Custom applicator”  
10                  shall include employees of a custom applicator, when the employees apply  
11                  manure, nutrients, ~~septage~~, or sludge to land.

12                   (2) "Manure" means livestock waste that may also contain bedding,  
13                   spilled feed, water, or soil.

14                   (3) “Septage” means the liquid and solid materials pumped from a septic  
15                   tank or cesspool during cleaning.

16           (4) "Sludge" means any solid, semisolid, or liquid generated from a  
17        municipal, commercial, or industrial wastewater treatment plant or process,  
18        water supply treatment plant, air pollution control facility, or any other such  
19        waste having similar characteristics and effects.

## § 4988. CERTIFICATION OF CUSTOM APPLICATOR

(a) The Secretary of Agriculture, Food and Markets shall adopt by rule a process by which a custom applicator shall be certified to operate within the State. The certification process shall require a custom applicator to complete eight hours of training over each five-year period regarding:

(1) application methods or techniques to minimize the runoff of  
land applied manure, nutrients, ~~septage~~, or sludge to waters of the State; and

(2) identification of weather or soil conditions that increase the risk of runoff of land-applied manure, nutrients, septage, or sludge to waters of the State.

(b) A custom applicator shall not apply manure, nutrients, septage, or sludge unless certified by the Secretary of Agriculture, Food and Markets

(c) The requirements of this section shall not apply to an owner or operator of a farm applying manure, nutrients, septage, or sludge to a field that he or she owns or controls.

\* \* \* Agricultural Water Quality; Enforcement; Corrective Actions \* \* \*

Sec. 11. 6 V.S.A. chapter 215, subchapter 10 is added to read:

## Subchapter 10. Enforcement

## **§ 4991. PURPOSE**

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1       The purpose of this subchapter is to provide the Secretary of Agriculture,  
2       Food and Markets with the necessary authority to enforce the agricultural  
3       water quality requirements of this chapter. When the Secretary of Agriculture,  
4       Food and Markets determines that a person subject to the requirements of the  
5       chapter is violating a requirement of this chapter, the Secretary shall respond to  
6       and require discontinuance of the violation. The Secretary may respond to a  
7       violation of the requirements of this chapter by:  
8              (1) issuing a corrective action order under section 4992 of this title;  
9              (2) issuing a cease and desist order under section 4993 of this title;  
10             (3) issuing an emergency order under section 4993 of this title;  
11             (4) revoking or conditioning coverage under a permit or certification  
12       under section 4994 of this title;  
13             (4) bringing a civil enforcement action under section 4995 of this title;  
14             (5) referring the violation to the Secretary of Natural Resources for  
15       enforcement under 10 V.S.A. chapter 201; or  
16             (6) pursuing other action, such as consulting with a farmer, within the  
17       authority of the Secretary to assure discontinuance of the violation and  
18       remediation of any harm caused by the violation.  
19       § 4992. CORRECTIVE ACTIONS; ADMINISTRATIVE ENFORCEMENT

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

- 1       (a) When the Secretary of Agriculture, Food and Markets determines that a  
2       person is violating the requirements of this chapter, rules adopted under this  
3       chapter, or a permit or certification issued under this chapter, the Secretary  
4       may issue a written warning that shall be served in person or by certified mail,  
5       return receipt requested. A warning issued under this subsection shall include:  
6              (1) a description of the alleged violation;  
7              (2) identification of this section;  
8              (3) identification of the applicable statute, rule, or permit condition  
9       violated;  
10             (4) the required corrective actions that the person shall take to correct  
11       the violation; and  
12             (5) a summary of federal and State assistance programs that may be  
13       utilized by the person to assist in correcting the violation.  
14       (b) A person issued a warning under this section shall have 30 days to  
15       respond to the written warning and shall provide an abatement schedule for  
16       curing the violation and a description of the corrective action to be taken to  
17       cure the violation.  
18       (c) If a person who receives a warning under this subsection fails to  
19       respond in a timely manner to the written warning or to take corrective action,

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1       the Secretary may act pursuant to section 4993 or section 4995 of this section  
2       in order to protect water quality.

3       § 4993. ADMINISTRATIVE ENFORCEMENT; CEASE AND DESIST  
4       ORDERS; EMERGENCY ORDERS

5       (a) Notwithstanding the requirements of section 4992 of this title, the  
6       Secretary at any time may pursue one or more of the following enforcement  
7       actions:

8              (1) Issue a cease and desist order in accordance with the requirements of  
9       subsection (b) of this section to a person the Secretary believes to be in  
10      violation of the requirements of this chapter.

11              (2) Issue emergency administrative orders to protect water quality when  
12      an alleged violation, activity, or farm practice:

13                  (A) presents an immediate threat of substantial harm to the  
14      environment or immediate threat to the public health or welfare;

15                  (B) is likely to result in an immediate threat of substantial harm to the  
16      environment or immediate threat to the public health or welfare; or

17                  (C) requires a permit or amendment to a permit issued under this  
18      chapter and a farm owner or operator has commenced an activity or is  
19      continuing an activity without a permit or permit amendment.

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1           (3) Institute appropriate proceedings on behalf of the Agency of  
2       Agriculture, Food and Markets to enforce the requirements of this chapter,  
3       rules adopted under this chapter, or a permit or certification issued under this  
4       chapter.

5           (4) Order mandatory corrective actions, including a requirement to  
6       remove livestock from a farm or production area when the volume of waste  
7       produced by livestock on the farm exceeds the infrastructure capacity of the  
8       farm or the production area to manage the waste or waste leachate and prevent  
9       runoff or leaching of wastes to waters of the State or groundwater, as required  
10      by this chapter.

11       (5) Seek administrative or civil penalties in accordance with the  
12      requirements of section 15, 16, 17, or 4993 of this title. Notwithstanding the  
13      requirements of section 15 of this title to the contrary, the maximum  
14      administrative penalty issued by the Secretary under this section shall not  
15      exceed \$5,000.00 for each violation, and the maximum amount of any penalty  
16      assessed for separate and distinct violations of this chapter shall not exceed  
17      \$50,000.00.

18       (b) A person may request that the Secretary hold a hearing on a cease and  
19      desist order or an emergency order issued under this section within five days of  
20      receipt of the order. Upon receipt of a request for a hearing, the Secretary

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1       promptly shall set a date and time for a hearing. A request for a hearing on a  
2       cease and desist order or emergency order issued under this section shall not  
3       stay the order.

4       **§ 4994. PERMIT OR CERTIFICATION; REVOCATION; ENFORCEMENT**

5       The Secretary may, after due notice and hearing, revoke or condition  
6       coverage under a general permit, an individual permit, a small farm  
7       certification, or other permit or certification issued under this chapter or rules  
8       adopted under this chapter when the person subject to the permit or  
9       certification fails to comply with a requirement of this chapter or any term,  
10       provision, or requirements of a permit or certification required by this chapter.

11       The Secretary may also seek enforcement remedies and penalties under this  
12       subchapter against any person who fails to comply with any term, provision, or  
13       requirements of a permit or certification required by this chapter or who  
14       violates the terms or conditions of coverage under any general permit, any  
15       individual permit, or any certification issued under this chapter.

16       **§ 4995. CIVIL ENFORCEMENT**

17       (a) The Secretary may bring an action in the Civil Division of the Superior  
18       Court to enforce the requirements of this chapter, or rules adopted under this  
19       chapter, or any permit or certification issued under this chapter, to assure  
20       compliance, and to obtain penalties in the amounts described in subsection (b)

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1       of this section. The action shall be brought by the Attorney General in the  
2       name of the State.

3       (b) The court may grant temporary and permanent injunctive relief,  
4       and may:

5        (1) Enjoin future activities.

6           (2) Order corrective actions to be taken to mitigate or curtail any  
7       violation and to protect human health or the environment, including the  
8       removal of livestock from the farm or production area when the volume of  
9       wastes produced by livestock exceeds the infrastructure capacity of the farm or  
10      its production area to manage the waste or waste leachate to prevent runoff or  
11      leaching of wastes to waters of the State or groundwater as required by the  
12      standards in this chapter.

13        (3) Order the design, construction, installation, operation, or  
14       maintenance of facilities designed to mitigate or prevent a violation of this  
15       chapter or to protect human health or the environment or designed to assure  
16       compliance.

17        (4) Fix and order compensation for any public or private property  
18       destroyed or damaged.

19        (5) Revoke coverage under any permit or certification issued under this  
20       chapter.

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1           (6) Order reimbursement from any person who caused governmental  
2        expenditures for the investigation, abatement, mitigation, or removal of a  
3        hazard to human health or the environment.

4           (7) Levy a civil penalty as provided in this subdivision. A civil penalty  
5        of not more than \$85,000.00 may be imposed for each violation. In addition,  
6        in the case of a continuing violation, a penalty of not more than \$42,500.00  
7        may be imposed for each day the violation continues. In fixing the amount of  
8        the penalty, the court shall apply the criteria set forth in subsections (e) and (f)  
9        of this section. The cost of collection of penalties or other monetary awards  
10      shall be assessed against and added to a penalty assessed against a respondent.

11          (c)(1) In any civil action brought under this section in which a temporary  
12        restraining order or preliminary injunction is sought, relief shall be obtained  
13        upon a showing that there is the probability of success on the merits and that:

14                  (A) a violation exists; or  
15                  (B) a violation is imminent and substantial harm is likely to result.

16          (2) In a civil action brought under this section in which a temporary  
17        restraining order or preliminary injunction is sought, the Secretary need not  
18        demonstrate immediate and irreparable injury, loss, or damage.

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1       (d) Any balancing of the equities in actions under this section may affect  
2       the time by which compliance shall be attained, but not the necessity of  
3       compliance within a reasonable period of time.

4       (e) In determining the amount of the penalty provided in subsection (b) of  
5       this section, the court shall consider the following:

6              (1) the degree of actual or potential impact on public health, safety,  
7       welfare, and the environment resulting from the violation;

8              (2) the presence of mitigating circumstances, including unreasonable  
9       delay by the Secretary in seeking enforcement;

10             (3) whether the respondent knew or had reason to know the violation  
11       existed;

12             (4) the respondent's record of compliance;

13             (5) the deterrent effect of the penalty;

14             (6) the State's actual costs of enforcement; and

15             (7) the length of time the violation has existed.

16       (f) In addition to any penalty assessed under subsection (b) of this section,  
17       the Secretary may also recapture economic benefit resulting from a violation.

18       **§ 4996. APPEALS; ENFORCEMENT**

19             (a) Any person subject, under this subchapter, to an enforcement order, an  
20       administrative penalty, or revocation of a permit or certification who is

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1       aggrieved by a final decision of the Secretary may appeal to the Superior Court  
2       within 30 days of the decision. The administrative judge may specially assign  
3       an environmental judge to Superior Court for the purpose of hearing an appeal.  
4       (b) If the Secretary issues an emergency order under this chapter, the  
5       person subject to the order may request a hearing before the Superior Court.  
6       Notice of the request for hearing under this subdivision shall be filed with the  
7       Superior Court and the Secretary within five days of receipt of the order. A  
8       hearing on the emergency order shall be held at the earliest possible time and  
9       shall take precedence over all other hearings. The hearing shall be held within  
10      five days of receipt of the notice of the request for hearing. A request for  
11      hearing on an emergency order shall not stay the order. The Superior Court  
12      shall issue a decision within five days from the conclusion of the hearing, and  
13      no later than 30 days from the date the notice of request for hearing was  
14      received by the person subject to the order.  
15      Sec. 12. 6 V.S.A. § 4812 is amended to read:  
16      **§ 4812. CORRECTIVE ACTIONS**  
17      (a) ~~When the Secretary of Agriculture, Food and Markets determines that a~~  
18      ~~person engaged in farming is managing a farm using practices which are~~  
19      ~~inconsistent with the requirements of this chapter or rules adopted under this~~  
20      ~~subchapter, the Secretary may issue a written warning which shall be served in~~

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1 person or by certified mail, return receipt requested. The warning shall include  
2 a brief description of the alleged violation, identification of this statute and  
3 applicable rules, a recommendation for corrective actions that may be taken by  
4 the person, along with a summary of federal and State assistance programs  
5 which may be utilized by the person to remedy the violation. The person shall  
6 have 30 days to respond to the written warning and shall provide an abatement  
7 schedule for curing the violation and a description of the corrective action to be  
8 taken to cure the violation. If the person fails to respond to the written warning  
9 within this period or to take corrective action to change the practices, the  
10 Secretary may act pursuant to subsection (b) of this section in order to protect  
11 water quality.

12 (b) The Secretary may:

13 (1) issue cease and desist orders and administrative penalties in  
14 accordance with the requirements of sections 15, 16, and 17 of this title; and  
15 (2) institute appropriate proceedings on behalf of the Agency to enforce  
16 this subchapter.

17 (c) Whenever the Secretary believes that any person engaged in farming is  
18 in violation of this subchapter or rules adopted thereunder, an action may be  
19 brought in the name of the Agency in a court of competent jurisdiction to  
20 restrain by temporary or permanent injunction the continuation or repetition of

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1 the violation. The court may issue temporary or permanent injunctions, and  
2 other relief as may be necessary and appropriate to curtail any violations.

3 (d) [Repealed.]

4 (e) Any person subject to an enforcement order or an administrative  
5 penalty who is aggrieved by the final decision of the Secretary may appeal to  
6 the Superior Court within 30 days of the decision. The administrative judge  
7 may specially assign an Environmental judge to Superior Court for the purpose  
8 of hearing an appeal. [Repealed.]

9 Sec. 13. 6 V.S.A. § 4854 is amended to read:

10 § 4854. REVOCATION; ENFORCEMENT

11 The secretary may revoke a permit issued under this subchapter after  
12 following the same process prescribed by section 2705 of this title regarding  
13 the revocation of a handler's license. The secretary may also seek enforcement  
14 remedies under sections 1, 12, 13, 16, and 17 of this title as well as assess an  
15 administrative penalty under section 15 of this title to any person who fails to  
16 apply for a permit as required by this subchapter, or who violates the terms or  
17 conditions of a permit issued under this subchapter. However, notwithstanding  
18 the provisions of section 15 of this title to the contrary, the maximum  
19 administrative penalty assessed for a violation of this subchapter shall not  
20 exceed \$5,000.00 for each violation, and the maximum amount of any penalty

Gray highlighting = Change from HFWWR Amend 1.3  
Red highlighting = Issues for Discussion

1 assessed for separate and distinct violations of this chapter shall not exceed  
2 \$50,000.00. [Repealed.]

3 Sec. 14. 6 V.S.A. § 4858(b) is amended to read:

4 (b) Rules; general and individual permits. The ~~secretary~~ Secretary shall  
5 establish by rule, pursuant to ~~3~~ V.S.A. chapter 25 of Title ~~3~~, requirements for a  
6 “general permit” and “individual permit” to ~~ensure~~ assure that medium and  
7 small farms generating animal waste comply with the water quality standards  
8 of the ~~state~~ State.

9 \* \* \*

10 (2) The rules adopted under this section shall also address permit  
11 administration, public notice and hearing, permit enforcement, permit  
12 transition, revocation, and appeals consistent with provisions of sections 4859,  
13 4860, and 4861 of this title and subchapter 10 of this chapter.

14 \* \* \*

15 Sec. 15. 6 V.S.A. § 4860 is amended to read:

16 § 4860. ~~REVOCATION; ENFORCEMENT~~

17 (a) ~~The secretary may revoke coverage under a general permit or an~~  
18 ~~individual permit issued under this subchapter after following the same process~~  
19 ~~prescribed by section 2705 of this title regarding the revocation of a handler's~~  
20 ~~license. The secretary may also seek enforcement remedies under sections 1,~~

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1        ~~11, 12, 13, 16, and 17 of this title as well as assess an administrative penalty~~  
2        ~~under section 15 of this title from any person who fails to comply with any~~  
3        ~~permit provision as required by this subchapter or who violates the terms or~~  
4        ~~conditions of coverage under any general permit or any individual permit~~  
5        ~~issued under this subchapter. However, notwithstanding provisions of section~~  
6        ~~15 of this title to the contrary, the maximum administrative penalty assessed~~  
7        ~~for a violation of this subchapter shall not exceed \$5,000.00 for each violation,~~  
8        ~~and the maximum amount of any penalty assessed for separate and distinct~~  
9        ~~violations of this chapter shall not exceed \$50,000.00.~~

10        ~~(b) Any person who violates any provision of this subchapter or who fails~~  
11        ~~to comply with any order or the terms of any permit issued in accordance with~~  
12        ~~this subchapter shall be fined not more than \$10,000.00 for each violation.~~  
13        ~~Each violation may be a separate offense and, in the case of a continuing~~  
14        ~~violation, each day's continuance may be deemed a separate offense.~~

15        ~~(c) Any person who knowingly makes any false statement, representation,~~  
16        ~~or certification in any application, record, report, plan, or other document filed~~  
17        ~~or required to be maintained by this subchapter or by any permit, rule,~~  
18        ~~regulation, or order issued under this subchapter, or who falsifies, tampers~~  
19        ~~with, or knowingly renders inaccurate any monitoring device or method~~  
20        ~~required to be maintained by this subchapter or by any permit, rule, regulation,~~

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

or order issued under this subchapter shall upon conviction be punished by a fine of not more than \$5,000.00 for each violation. Each violation may be a separate offense and, in the case of a continuing violation, each day's continuance may be deemed a separate offense. [Repealed.]

5 \* \* \* Stream Alteration; Agricultural Activities \* \* \*

6 Sec. 16. 10 V.S.A. § 1021 is amended to read:

7        § 1021. ALTERATION PROHIBITED; EXCEPTIONS

8                 (a) A person shall not change, alter, or modify the course, current, or cross  
9                 section of any watercourse or of designated outstanding resource waters,  
10                 within or along the boundaries of this State either by movement, fill, or  
11                 excavation of ten cubic yards or more of instream material in any year, unless  
12                 authorized by the Secretary. A person shall not establish or construct a berm in  
13                 a flood hazard area or river corridor, as those terms are defined in subdivisions  
14                 752(3) and (11) of this title, unless permitted by the Secretary or constructed as  
15                 an emergency protective measure under subsection (b) of this section.

16 \* \* \*

17 (f) This subchapter shall not apply to:

(1) accepted agricultural or silvicultural practices, as defined by the

19 Secretary of Agriculture, Food and Markets, or timber harvesting activities in

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1       compliance with acceptable management practices adopted by the  
2       Commissioner of Forests, Parks and Recreation, ~~respectively; or~~  
3           (2) a farm that is implementing an approved U.S. Department of  
4       Agriculture Natural Resource Conservation Service streambank stabilization  
5       project or a streambank stabilization project approved by the Secretary of  
6       Agriculture, Food and Markets that is consistent with policies adopted by the  
7       Secretary of Natural Resources to reduce fluvial erosion hazards.

\* \* \*

11 Sec. 17. 32 V.S.A. § 3756(i) is amended to read:

12           (i)(1) The Director shall remove from use value appraisal an entire parcel  
13         of managed ~~forest land~~ forestland and notify the owner ~~in accordance with the~~  
14         procedure in subsection (b) of this section when the ~~Department~~ Commissioner  
15         of Forests, Parks and Recreation has not received a management activity report  
16         or has received an adverse inspection report, unless the lack of conformance  
17         consists solely of the failure to make prescribed planned cutting. In that case,  
18         the Director may delay removal from use value appraisal for a period of one  
19         year at a time to allow time to bring the parcel into conformance with the plan.

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1                   (2)(A) The Director shall remove from use value appraisal an entire  
2                   parcel or parcels of agricultural land and farm buildings identified by the  
3                   Secretary of Agriculture, Food and Markets as being used by a person:  
4                    (i) found, after hearing, to be out of compliance with water quality  
5                   requirements established under 6 V.S.A. chapter 215; or  
6                    (ii) who is not in compliance with the terms of an order issued  
7                   under 6 V.S.A. chapter 215, subchapter 10 to remedy a violation of water  
8                   quality requirements established under 6 V.S.A. chapter 215.

9                    (B) The Director shall notify the owner that agricultural land or a  
10                  farm building has been removed from use value appraisal by mailing  
11                  notification of removal to the owner or operator's last and usual place of  
12                  abode. After removal of agricultural land or a farm building from use value  
13                  appraisal under this section, the Director shall not consider a new application  
14                  for use value appraisal for the agricultural land or farm building until the  
15                  Secretary of Agriculture, Food and Markets submits to the Director a  
16                  certification that the owner or operator of the agricultural land or farm building  
17                  is complying with the water quality requirements of 6 V.S.A. chapter 215 or an  
18                  order issued under 6 V.S.A. chapter 215. After submission of a certification by  
19                  the Secretary of Agriculture, Food and Markets, an owner or operator shall be

Gray highlighting = Change from HFWWR Amend 1.3  
Red highlighting = Issues for Discussion

1 eligible to apply for enrollment of the agricultural land or farm building  
2 according to the requirements of section 3756 of this title.

3 Sec. 18. 32 V.S.A. § 3758 is amended to read:

## 4        § 3758. APPEALS

5                         (a) Whenever the Director denies in whole or in part any application for  
6 classification as agricultural land or managed forestland or farm buildings, or  
7 grants a different classification than that applied for, or the Director or  
8 assessing officials fix a use value appraisal or determine that previously  
9 classified property is no longer eligible or that the property has undergone a  
10 change in use, the aggrieved owner may appeal the decision of the Director to  
11 the Commissioner within 30 days of the decision, and from there to Superior  
12 Court in the county in which the property is located.

13 \* \* \*

14           (e) When the Director removes agricultural land or a farm building  
15           pursuant to notification from the Secretary of Agriculture, Food and Markets  
16           under section 3756 of this title, the exclusive right of appeal shall be as  
17           provided in 6 V.S.A. § 4991(d).

18 Sec. 19. 32 V.S.A. § 3752(5) is amended to read:

(5) "Development" means, for the purposes of determining whether a land use change tax is to be assessed under section 3757 of this chapter, the

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1 construction of any building, road, or other structure, or any mining,  
2 excavation, or landfill activity. “Development” also means the subdivision of  
3 a parcel of land into two or more parcels, regardless of whether a change in use  
4 actually occurs, where one or more of the resulting parcels contains less than  
5 25 acres each; but if subdivision is solely the result of a transfer to one or more  
6 of a spouse, parent, grandparent, child, grandchild, niece, nephew, or sibling of  
7 the transferor, or to the surviving spouse of any of the foregoing, then  
8 “development” shall not apply to any portion of the newly created parcel or  
9 parcels which qualifies for enrollment and for which, within 30 days following  
10 the transfer, each transferee or transferor applies for reenrollment in the use  
11 value appraisal program. “Development” also means the cutting of timber on  
12 property appraised under this chapter at use value in a manner contrary to a  
13 forest or conservation management plan as provided for in subsection 3755(b)  
14 of this title during the remaining term of the plan, or contrary to the minimum  
15 acceptable standards for forest management if the plan has expired; or a  
16 change in the parcel or use of the parcel in violation of the conservation  
17 management standards established by the Commissioner of Forests, Parks and  
18 Recreation. “Development” also means notification of the Director by the  
19 Secretary of Agriculture, Food and Markets under section 3756 of this title that  
20 the owner or operator of agricultural land or a farm building is violating the

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1       water quality requirements of 6 V.S.A. chapter 215 or is failing to comply with  
2       the terms of an order issued under 6 V.S.A. chapter 215, subchapter 10. The  
3       term “development” shall not include the construction, reconstruction,  
4       structural alteration, relocation, or enlargement of any building, road, or other  
5       structure for farming, logging, forestry, or conservation purposes, but shall  
6       include the subsequent commencement of a use of that building, road, or  
7       structure for other than farming, logging, or forestry purposes.

8                          \* \* \* Agency of Natural Resources Basin Planning \* \* \*

9       Sec. 20. 10 V.S.A. § 1253 is amended to read:

10      § 1253. CLASSIFICATION OF WATERS DESIGNATED,

11                          RECLASSIFICATION

12                          \* \* \*

13      (d)(1) The Through the process of basin planning, the Secretary shall  
14      determine what degree of water quality and classification should be obtained  
15      and maintained for those waters not classified by the Board before 1981  
16      following the procedures in sections 1254 and 1258 of this title. Those waters  
17      shall be classified in the public interest. The Secretary shall prepare and  
18      Maintain an overall surface water management plan to assure that the State  
19      water quality standards are met in all State waters. The surface water  
20      management plan shall include a schedule for updating the basin plans. The

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1 Secretary, in cooperation with regional planning commissions, shall revise all  
2 ~~17 15~~ basin plans by January 1, 2006, and update them every five years  
3 thereafter the basin plans on a five-year rotating basis. On or before January 4  
4 15 of each year, the Secretary shall report to the House Committees on  
5 Agriculture and Forest Products, on Natural Resources and Energy, and on  
6 Fish, Wildlife and Water Resources, and to the Senate Committees on  
7 Agriculture and on Natural Resources and Energy regarding the progress made  
8 and difficulties encountered in revising basin plans. ~~By January 1, 1993, the~~  
9 Secretary shall prepare an overall management plan to ensure that the water  
10 quality standards are met in all State waters. The report shall include a  
11 schedule for the production of basin plans in the subsequent calendar year and  
12 a summary of actions to be taken over the subsequent three years. The  
13 provisions of 2 V.S.A. § 20(d) (expiration of required reports) shall not apply  
14 to the report to be made under this subsection.

15 (2) In developing a basin plan under this subsection, the Secretary shall:  
16 (A) assure that municipal officials, citizens, watershed groups, and  
17 other interested groups and individuals are involved in the basin planning  
18 process;  
19 (B) assure regional and local input in State water quality policy  
20 development and planning processes;

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1                   (C) provide education to municipal officials and citizens regarding  
2                   the basin planning process; and

3                   (D) develop, in cooperation with the applicable regional planning  
4                   commission, an analysis and formal recommendation on conformance with the  
5                   goals and objectives of applicable regional plans.

6                   (3) The Secretary may contract with a regional planning commission to  
7                   assist in or to produce a basin plan under the schedule set forth in subdivision  
8                   (1) of this subsection. When contracting with a regional planning commission  
9                   to assist in or produce a basin plan, the Secretary may require the regional  
10                  planning commission to:

11                  (A) conduct any of the activities required under subdivision (2) of  
12                  this subsection;

13                  (B) provide technical assistance and data collection activities to  
14                  inform municipal officials and the State in making water quality investment  
15                  decisions;

16                  (C) coordinate municipal planning and adoption or implementation of  
17                  municipal development regulations to better meet State water quality policies  
18                  and investment priorities;

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

- 1                   (D) assist the Secretary in implementing a project evaluation process  
2                   to prioritize water quality improvement projects within the region to assure  
3                   cost effective use of State and federal funds;  
4                   (e) In determining the question of public interest, the Secretary shall give due  
5                   consideration to, and explain his or her decision with respect to, the following:  
6                   (1) existing and obtainable water qualities;  
7                   (2) existing and potential use of waters for public water supply,  
8                   recreational, agricultural, industrial, and other legitimate purposes;  
9                   (3) natural sources of pollution;  
10                  (4) public and private pollution sources and the alternative means of  
11                  abating the same;  
12                  (5) consistency with the State water quality policy established in  
13                  10 V.S.A. § 1250;  
14                  (6) suitability of waters as habitat for fish, aquatic life, and wildlife;  
15                  (7) need for and use of minimum streamflow requirements;  
16                  (8) federal requirements for classification and management of waters;  
17                  (9) consistency with applicable municipal, regional, and State plans; and  
18                  (10) any other factors relevant to determine the maximum beneficial use  
19                  and enjoyment of waters.

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

4                         (g) The Secretary under the reclassification rule may grant permits for only  
5                         a portion of the assimilative capacity of the receiving waters, or may permit  
6                         only indirect discharges from on-site disposal systems, or both.

7 Sec. 21. 24 V.S.A. § 4302 is amended to read:

## 8 § 4302. PURPOSE; GOALS

9 \* \* \*

10               (b) It is also the intent of the Legislature that municipalities, regional  
11               planning commissions, and State agencies shall engage in a continuing  
12               planning process that will further the following goals:

13 \* \* \*

14                   (c) In addition, this chapter shall be used to further the following specific  
15                   goals:

16 \* \* \*

17                   (6) To maintain and improve the quality of air, water, wildlife, and land  
18                   resources

Gray highlighting = Change from HFWWR Amend 1.3

**Red highlighting = Issues for Discussion**

4                   (B) Vermont's water quality should be maintained and improved  
5 according to the policies and actions developed in the basin plans established  
6 by the Secretary of Natural Resources under 10 V.S.A. § 1253.

7 \* \* \*

8 Sec. 22. 24 V.S.A. § 4348(c) is amended to read:

9                         (c) At least 30 days prior to the first hearing, a copy of the proposed plan or  
10 amendment, with a request for general comments and for specific comments  
11 with respect to the extent to which the plan or amendment is consistent with  
12 the goals established in section 4302 of this title, shall be delivered with proof  
13 of receipt, or sent by certified mail, return receipt requested, to each of the  
14 following:

15                   (1) the chair of the legislative body of each municipality within the  
16                   region:

**Gray highlighting = Change from HFWWR Amend 1.3**

**Red highlighting = Issues for Discussion**

(4) business, conservation, low income advocacy, and other community or interest groups or organizations that have requested notice in writing prior to the date the hearing is warned; and

(5) The Agency of Natural Resources and the Agency of Agriculture,

5 Food and Markets.

6 Sec. 23. 24 V.S.A. § 4348a(a) is amended to read:

7           (a) A regional plan shall be consistent with the goals established in section  
8        4302 of this title and shall include the following:

10 (6) A statement of policies on the:

11                             (A) preservation of rare and irreplaceable natural areas, scenic and  
12 historic features and resources; and  
13                             (B) protection and improvement of the quality of State waters to be  
14 used in the development and furtherance of the applicable basin plans  
15 established by the Secretary of Natural Resources under 10 V.S.A. § 1253;

16 \* \* \*

17 \* \* \* Antidegradation Policy Implementation Rule \* \* \*

18 Sec. 24. 10 V.S.A. § 1251a(c) is amended to read:

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1 process for the antidegradation policy in the water quality standards of the  
2 State. The implementation process for the antidegradation policy shall be  
3 consistent with the State water quality policy established in section 1250 of  
4 this title, the Vermont Water Quality Standards, and any applicable  
5 requirements of the federal Clean Water Act. ~~On or before July 1, 2008, a~~  
6 ~~final proposal of the rules for an implementation process for the~~  
7 ~~antidegradation policy shall be filed with the Secretary of State under 3 V.S.A.~~  
8 ~~§ 841.~~

9 \* \* \* Stormwater Management \* \* \*

10 Sec. 25. 10 V.S.A. § 1264 is amended to read:

11 § 1264. STORMWATER MANAGEMENT

12 ~~(a) The General Assembly finds that the management of stormwater runoff~~  
13 ~~is necessary to reduce stream channel instability, pollution, siltation,~~  
14 ~~sedimentation, and local flooding, all of which have adverse impacts on the~~  
15 ~~water and land resources of the State. The General Assembly intends, by~~  
16 ~~enactment of this section, to reduce the adverse effects of stormwater runoff.~~  
17 ~~The General Assembly determines that this intent may best be attained by a~~  
18 ~~process that: assures broad participation; focuses upon the prevention of~~  
19 ~~pollution; relies on structural treatment only when necessary; establishes and~~  
20 ~~maintains accountability; tailors strategies to the region and the locale; assures~~

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1       an adequate funding source; builds broadbased programs; provides for the  
2       evaluation and appropriate evolution of programs; is consistent with the federal  
3       Clean Water Act and the State water quality standards; and accords appropriate  
4       recognition to the importance of community benefits that accompany an  
5       effective stormwater runoff management program. In furtherance of these  
6       purposes, the Secretary shall implement two stormwater permitting programs.  
7       The first program is based on the requirements of the federal National  
8       Pollutant Discharge Elimination System (NPDES) permit program in  
9       accordance with section 1258 of this title. The second program is a State  
10      permit program based on the requirements of this section for the discharge of  
11      “regulated stormwater runoff” as that term is defined in subdivision (11) of this  
12      subsection. As used in this section:  
13           (1) “2002 Stormwater Management Manual” means the Agency of  
14       Natural Resources’ Stormwater Management Manual dated April 2002, as  
15       amended from time to time by rule.  
16           (2) “Best management practice” (BMP) means a schedule of activities,  
17       prohibitions of practices, maintenance procedures, and other management  
18       practices to prevent or reduce water pollution.  
19           (3) “Development” means the construction of impervious surface on a  
20       tract or tracts of land where no impervious surface previously existed.

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1           (4) “Existing stormwater discharge” means a discharge of regulated  
2        ~~stormwater runoff which first occurred prior to June 1, 2002 and that is subject~~  
3        ~~to the permitting requirements of this chapter.~~

4           (5) “Expansion” and “the expanded portion of an existing discharge”  
5        mean an increase or addition of ~~impervious surface~~, such that the total resulting  
6        ~~impervious area is greater than the minimum regulatory threshold. Expansion~~  
7        ~~does not mean an increase or addition of impervious surface of less than 5,000~~  
8        ~~square feet.~~

9           (6) “Impervious surface” means those manmade surfaces, including  
10      ~~paved and unpaved roads, parking areas, roofs, driveways, and walkways, from~~  
11      ~~which precipitation runs off rather than infiltrates.~~

12           (7) “New stormwater discharge” means a new or expanded discharge of  
13      ~~regulated stormwater runoff, subject to the permitting requirements of this~~  
14      ~~chapter, which first occurs after June 1, 2002 and has not been previously~~  
15      ~~authorized pursuant to this chapter.~~

16           (8) “Offset” means a State permitted or approved action or project  
17      ~~within a stormwater impaired water that a discharger or a third person may~~  
18      ~~complete to mitigate the impacts that a discharge of regulated stormwater~~  
19      ~~runoff has on the stormwater impaired water.~~

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1           (9) “Offset charge” means the amount of sediment load or hydrologic  
2        impact that an offset must reduce or control in the stormwater impaired water  
3        in which the offset is located.

4           (10) “Redevelopment” means the construction or reconstruction of an  
5        impervious surface where an impervious surface already exists when such new  
6        construction involves substantial site grading, substantial subsurface  
7        excavation, or substantial modification of existing stormwater conveyance,  
8        such that the total of impervious surface to be constructed or reconstructed is  
9        greater than the minimum regulatory threshold. Redevelopment does not mean  
10      the construction or reconstruction of impervious surface where impervious  
11      surface already exists when the construction or reconstruction involves less  
12      than 5,000 square feet. Redevelopment does not mean public road  
13      management activities, including any crack sealing, patching, coldplaning,  
14      resurfacing, reclaiming, or grading treatments used to maintain pavement,  
15      bridges, and unpaved roads.

16           (11) “Regulated stormwater runoff” means precipitation, snowmelt, and  
17      the material dissolved or suspended in precipitation and snowmelt that runs off  
18      impervious surfaces and discharges into surface waters or into groundwater via  
19      infiltration.

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1           (12) “Stormwater impact fee” means the monetary charge assessed to a  
2       permit applicant for the discharge of regulated stormwater runoff to a  
3       stormwater impaired water that mitigates a sediment load level or hydrologic  
4       impact that the discharger is unable to control through on site treatment or  
5       completion of an offset on a site owned or controlled by the permit applicant.

6           (13) “Stormwater impaired water” means a State water that the  
7       Secretary determines is significantly impaired by discharges of regulated  
8       stormwater runoff.

9           (14) “Stormwater runoff” means precipitation and snowmelt that does  
10      not infiltrate into the soil, including material dissolved or suspended in it, but  
11      does not include discharges from undisturbed natural terrain or wastes from  
12      combined sewer overflows.

13           (15) “Total maximum daily load” (TMDL) means the calculations and  
14      plan for meeting water quality standards approved by the U.S. Environmental  
15      Protection Agency (EPA) and prepared pursuant to 33 U.S.C. § 1313(d) and  
16      federal regulations adopted under that law.

17           (16) “Water quality remediation plan” means a plan, other than a TMDL  
18      or sediment load allocation, designed to bring an impaired water body into  
19      compliance with applicable water quality standards in accordance with 40  
20      C.F.R. § 130.7(b)(1)(ii) and (iii).

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1                   (17) “Watershed improvement permit” means a general permit specific  
2 to a stormwater impaired water that is designed to apply management  
3 strategies to existing and new discharges and that includes a schedule of  
4 compliance no longer than five years reasonably designed to assure attainment  
5 of the Vermont water quality standards in the receiving waters.

6                   (18) “Stormwater system” means the storm sewers; outfall sewers;  
7 surface drains; manmade wetlands; channels; ditches; wet and dry bottom  
8 basins; rain gardens; and other control equipment necessary and appurtenant to  
9 the collection, transportation, conveyance, pumping, treatment, disposal, and  
10 discharge of regulated stormwater runoff.

11                  (19) “Net zero standard” means:

12                   (A) A new discharge or the expanded portion of an existing discharge  
13 meets the requirements of the 2002 Stormwater Management Manual and does  
14 not increase the sediment load in the receiving stormwater impaired water; or

15                   (B) A discharge from redevelopment; from an existing discharge  
16 operating under an expired stormwater discharge permit where the property  
17 owner applies for a new permit; or from any combination of development,  
18 redevelopment, and expansion meets on site the water quality, recharge, and  
19 channel protection criteria set forth in Table 1.1 of the 2002 Stormwater  
20 Management Manual that are determined to be technically feasible by an

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1 engineering feasibility analysis conducted by the Agency and if the sediment  
2 lead from the discharge approximates the natural runoff from an undeveloped  
3 field or open meadow that is not used for agricultural activity.

4 (b) The Secretary shall prepare a plan for the management of collected  
5 stormwater runoff found by the Secretary to be deleterious to receiving waters.  
6 The plan shall recognize that the runoff of stormwater is different from the  
7 discharge of sanitary and industrial wastes because of the influence of natural  
8 events of stormwater runoff, the variations in characteristics of those runoffs,  
9 and the increased stream flows and natural degradation of the receiving water  
10 quality at the time of discharge. The plan shall be cost effective and designed  
11 to minimize any adverse impact of stormwater runoff to waters of the State.

12 By no later than February 1, 2001, the Secretary shall prepare an enhanced  
13 stormwater management program and report on the content of that program to  
14 the House Committees on Fish, Wildlife and Water Resources and on Natural  
15 Resources and Energy and to the Senate Committee on Natural Resources and  
16 Energy. In developing the program, the Secretary shall consult with the Board,  
17 affected municipalities, regional entities, other State and federal agencies, and  
18 members of the public. The Secretary shall be responsible for implementation  
19 of the program. The Secretary's stormwater management program shall  
20 include, at a minimum, provisions that:

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

- 1           (1) Indicate that the primary goals of the State program will be to assure  
2           compliance with the Vermont Water Quality Standards and to maintain after  
3           development, as nearly as possible, the predevelopment runoff characteristics.
- 4           (2) Allow for differences in hydrologic characteristics in different parts  
5           of the State.
- 6           (3) Incorporate stormwater management into the basin planning process  
7           conducted under section 1253 of this title.
- 8           (4) Assure consistency with applicable requirements of the federal Clean  
9           Water Act.
- 10          (5) Address stormwater management in new development and  
11           redevelopment.
- 12          (6) Control stormwater runoff from construction sites and other land  
13           disturbing activities.
- 14          (7) Indicate that water quality mitigation practices may be required for  
15           any redevelopment of previously developed sites, even when  
16           prerevelopment runoff characteristics are proposed to be maintained.
- 17          (8) Specify minimum requirements for inspection and maintenance of  
18           stormwater management practices.
- 19          (9) Promote detection and elimination of improper or illegal connections  
20           and discharges.

Gray highlighting = Change from HFWWR Amend 1.3  
Red highlighting = Issues for Discussion

1           (10) Promote implementation of pollution prevention during the conduct  
2       of municipal operations.

3           (11) Provide for a design manual that includes technical guidance for the  
4       management of stormwater runoff.

5           (12) Encourage municipal governments to utilize existing regulatory and  
6       planning authority to implement improved stormwater management by  
7       providing technical assistance, training, research and coordination with respect  
8       to stormwater management technology, and by preparing and distributing a  
9       model local stormwater management ordinance.

10          (13) Promote public education and participation among citizens and  
11       municipalities about cost effective and innovative measures to reduce  
12       stormwater discharges to the waters of the State.

13          (e) The Secretary shall submit the program report to the House Committees  
14       on Agriculture and Forest Products, on Transportation, and on Natural  
15       Resources and Energy and to the Senate Committees on Agriculture and on  
16       Natural Resources and Energy.

17          (d)(1) The Secretary shall initiate rulemaking by October 15, 2004, and  
18       shall adopt a rule for a stormwater management program by June 15, 2005.  
19       The rule shall be adopted in accordance with 3 V.S.A. chapter 25 and shall  
20       include:

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

- 1                   (A) the regulatory elements of the program identified in subsection  
2                   (b) of this section, including the development and use of offsets and the  
3                   establishment and imposition of stormwater impact fees to apply when issuing  
4                   permits that allow regulated stormwater runoff to stormwater impaired waters;  
5                   (B) requirements concerning the contents of permit applications that  
6                   include, at a minimum, for regulated stormwater runoff, the permit application  
7                   requirements contained in the Agency's 1997 stormwater management  
8                   procedures;  
9                   (C) a system of notifying interested persons in a timely way of the  
10                  Agency's receipt of stormwater discharge applications, provided any alleged  
11                  failures with respect to such notice shall not be relevant in any Agency permit  
12                  decision or any appeals brought pursuant to section 1269 of this chapter;  
13                  (D) requirements concerning a permit for discharges of regulated  
14                  stormwater runoff from the development, redevelopment, or expansion of  
15                  impervious surfaces equal to or greater than one acre or any combination of  
16                  development, redevelopment, and expansion of impervious surfaces equal to or  
17                  greater than one acre; and  
18                  (E) requirements concerning a permit for discharges of regulated  
19                  stormwater runoff from an impervious surface of any size to  
20                  stormwater impaired waters if the Secretary determines that treatment is

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1 necessary to reduce the adverse impact of such stormwater discharges due to  
2 the size of the impervious surface, drainage patterns, hydraulic connectivity,  
3 existing stormwater treatment, or other factors identified by the Secretary.

4 (2) Notwithstanding 3 V.S.A. § 840(a), the Secretary shall hold at least  
5 three public hearings in different areas of the State regarding the proposed rule.

6 (e)(1) Except as otherwise may be provided in subsection (f) of this  
7 section, the Secretary shall, for new stormwater discharges, require a permit  
8 for discharge of, regulated stormwater runoff consistent with, at a minimum,  
9 the 2002 Stormwater Management Manual. The Secretary may issue,  
10 condition, modify, revoke, or deny discharge permits for regulated stormwater  
11 runoff, as necessary to assure achievement of the goals of the program and  
12 compliance with State law and the federal Clean Water Act. The permit shall  
13 specify the use of best management practices to control regulated stormwater  
14 runoff. The permit shall require as a condition of approval, proper operation,  
15 and maintenance of any stormwater management facility and submittal by the  
16 permittee of an annual inspection report on the operation, maintenance and  
17 condition of the stormwater management system. The permit shall contain  
18 additional conditions, requirements, and restrictions as the Secretary deems  
19 necessary to achieve and maintain compliance with the water quality standards,  
20 including requirements concerning recording, reporting, and monitoring the

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1 effects on receiving waters due to operation and maintenance of stormwater  
2 management facilities.

3 ~~(2) As one of the principal means of administering an enhanced~~  
4 ~~stormwater program, the Secretary may issue and enforce general permits. To~~  
5 ~~the extent appropriate, such permits shall include the use of certifications of~~  
6 ~~compliance by licensed professional engineers practicing within the scope of~~  
7 ~~their engineering specialty. The Secretary may issue general permits for~~  
8 ~~classes of regulated stormwater runoff permittees and may specify the period~~  
9 ~~of time for which the permit is valid other than that specified in subdivision~~  
10 ~~1263(d)(4) of this title when such is consistent with the provisions of this~~  
11 ~~section. General permits shall be adopted and administered in accordance with~~  
12 ~~the provisions of subsection 1263(b) of this title. No permit is required under~~  
13 ~~this section for:~~

14 ~~(A) Stormwater runoff from farms subject to accepted agricultural~~  
15 ~~practices adopted by the Secretary of Agriculture, Food and Markets;~~  
16 ~~(B) Stormwater runoff from concentrated animal feeding operations~~  
17 ~~that require a permit under subsection 1263(g) of this chapter; or~~  
18 ~~(C) Stormwater runoff from silvicultural activities subject to accepted~~  
19 ~~management practices adopted by the Commissioner of Forests, Parks and~~  
20 ~~Recreation.~~

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1                   (3) Prior to issuing a permit under this subsection, the Secretary shall  
2 review the permit applicant's history of compliance with the requirements of  
3 this chapter. The Secretary may, at his or her discretion and as necessary to  
4 assure achievement of the goals of the program and compliance with State law  
5 and the federal Clean Water Act, deny an application for the discharge of  
6 regulated stormwater under this subsection if review of the applicant's  
7 compliance history indicates that the applicant is discharging regulated  
8 stormwater in violation of this chapter or is the holder of an expired permit for  
9 an existing discharge of regulated stormwater.

10                 (f)(1) In a stormwater impaired water, the Secretary may issue:

11                   (A) An individual permit in a stormwater impaired water for which  
12 no TMDL, water quality remediation plan, or watershed improvement permit  
13 has been established or issued, provided that the permitted discharge meets the  
14 following discharge standard: prior to the issuance of a general permit to  
15 implement a TMDL or a water quality remediation plan, the discharge meets  
16 the net zero standard;

17                   (B) An individual permit or a general permit to implement a TMDL  
18 or water quality remediation plan in a stormwater impaired water, provided  
19 that the permitted discharge meets the following discharge standard:

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

- 1                   (i) ~~a new stormwater discharge or the expansion of an existing~~  
2        ~~discharge shall meet the treatment standards for new development and~~  
3        ~~expansion in the 2002 Stormwater Management Manual and any additional~~  
4        ~~requirements deemed necessary by the Secretary to implement the TMDL or~~  
5        ~~water quality remediation plan;~~
- 6                   (ii) ~~for a discharge of regulated stormwater runoff from~~  
7        ~~redeveloped impervious surfaces:~~
  - 8                   (I) ~~the existing impervious surface shall be reduced by 20~~  
9        ~~percent, or a stormwater treatment practice shall be designed to capture and~~  
10      ~~treat 20 percent of the water quality volume treatment standard of the 2002~~  
11      ~~Stormwater Management Manual from the existing impervious surface; and~~
  - 12                   (II) ~~any additional requirements deemed necessary by the~~  
13      ~~Secretary to implement the TMDL or the water quality remediation plan;~~
  - 14                   (iii) ~~an existing stormwater discharge shall meet the treatment~~  
15      ~~standards deemed necessary by the Secretary to implement a TMDL or a water~~  
16      ~~quality remediation plan;~~
  - 17                   (iv) ~~if a permit is required for an expansion of an existing~~  
18      ~~impervious surface or for the redevelopment of an existing impervious surface,~~  
19      ~~discharges from the expansion or from the redeveloped portion of the existing~~  
20      ~~impervious surface shall meet the relevant treatment standard of the 2002~~

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1       Stormwater Management Manual, and the existing impervious surface shall  
2       meet the treatment standards deemed necessary by the Secretary to implement  
3       a TMDL or the water quality remediation plan;

4           (C) A watershed improvement permit, provided that the watershed  
5       improvement permit provides reasonable assurance of compliance with the  
6       Vermont water quality standards in five years;

7           (D) A general or individual permit that is implementing a TMDL or  
8       water quality remediation plan; or

9           (E) A statewide general permit for new discharges that the Secretary  
10      deems necessary to assure attainment of the Vermont Water Quality Standards.

11           (2) An authorization to discharge regulated stormwater runoff pursuant  
12      to a permit issued under this subsection shall be valid for a time period not to  
13      exceed five years. A person seeking to discharge regulated stormwater runoff  
14      after the expiration of that period shall obtain an individual permit or coverage  
15      under a general permit, whichever is applicable, in accordance with subsection  
16      1263(e) of this title.

17           (3) By January 15, 2010, the Secretary shall issue a watershed  
18      improvement permit, issue a general or individual permit implementing a  
19      TMDL approved by the EPA, or issue a general or individual permit  
20      implementing a water quality remediation plan for each of the

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1 stormwater impaired waters on the Vermont Year 2004 Section 303(d) List of  
2 Waters required by 33 U.S.C. 1313(d). In developing a TMDL or a water  
3 quality remediation plan for a stormwater impaired water, the Secretary shall  
4 consult “A Scientifically Based Assessment and Adaptive Management  
5 Approach to Stormwater Management” and “Areas of Agreement about the  
6 Scientific Underpinnings of the Water Resources Board’s Original Seven  
7 Questions” set out in appendices A and B, respectively, of the final report of  
8 the Water Resources Board’s “Investigation Into Developing Cleanup Plans  
9 For Stormwater Impaired Waters, Docket No. Inv 03-01,” issued March 9,  
10 2004.

11 (4) Discharge permits issued under this subsection shall require BMP-  
12 based stormwater treatment practices. Permit compliance shall be judged on  
13 the basis of performance of the terms and conditions of the discharge permit,  
14 including construction and maintenance in accordance with BMP  
15 specifications. Any permit issued for a new stormwater discharge or for the  
16 expanded portion of an existing discharge pursuant to this subsection shall  
17 require compliance with BMPs for stormwater collection and treatment  
18 established by the 2002 Stormwater Management Manual, and any additional  
19 requirements for stormwater treatment and control systems as the Secretary

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1       determines to be necessary to ensure that the permitted discharge does not  
2       cause or contribute to a violation of the Vermont Water Quality Standards.

3           (5) In addition to any permit condition otherwise authorized under  
4       subsection (e) of this section, in any permit issued pursuant to this subsection,  
5       the Secretary may require an offset or stormwater impact fee as necessary to  
6       ensure the discharge does not cause or contribute to a violation of the Vermont  
7       Water Quality Standards. Offsets and stormwater impact fees, where utilized,  
8       shall incorporate an appropriate margin of safety to account for the variability  
9       in quantifying the load of pollutants of concern. To facilitate utilization of  
10      offsets and stormwater impact fees, the Secretary shall identify by January 1,  
11      2005 a list of potential offsets in each of the waters listed as a  
12      stormwater impaired water under this subsection.

13           (g)(1) The Secretary may issue a permit consistent with the requirements of  
14       subsection (f) of this section, even where a TMDL or wasteload allocation has  
15       not been prepared for the receiving water. In any appeal under this chapter an  
16       individual permit meeting the requirements of subsection (f) of this section  
17       shall have a rebuttable presumption in favor of the permittee that the discharge  
18       does not cause or contribute to a violation of the Vermont Water Quality  
19       Standards for the receiving waters with respect to the discharge of regulated  
20       stormwater runoff. This rebuttable presumption shall only apply to permitted

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1        discharges into receiving waters that are principally impaired by sources other  
2        than regulated stormwater runoff.

3            ~~(2) This subsection shall apply to stormwater permits issued under the~~  
4        ~~federally delegated NPDES program only to the extent allowed under federal~~  
5        ~~law.~~

6            ~~(h) The rebuttable presumption specified in subdivision (g)(1) of this~~  
7        ~~section shall also apply to permitted discharges into receiving waters that meet~~  
8        ~~the water quality standards of the State, provided the discharge meets the~~  
9        ~~requirements of subsection (e) of this section.~~

10          ~~(i) A residential subdivision may transfer a pretransition stormwater~~  
11        ~~discharge permit or a stormwater discharge permit implementing a total~~  
12        ~~maximum daily load plan to a municipality, provided that the municipality~~  
13        ~~assumes responsibility for the permitting of the stormwater system that serves~~  
14        ~~the residential subdivision. As used in this section:~~

15            ~~(1) “Pretransition stormwater discharge permit” means any permit~~  
16        ~~issued by the Secretary of Natural Resources pursuant to this section on or~~  
17        ~~before June 30, 2004 for a discharge of stormwater.~~

18            ~~(2) “Residential subdivision” means land identified and demarcated by~~  
19        ~~recorded plat or other device that a municipality has authorized to be used~~  
20        ~~primarily for residential construction.~~

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1                   (j) Notwithstanding any other provision of law, if an application to  
2                   discharge stormwater runoff pertains to a telecommunications facility as  
3                   defined in 30 V.S.A. § 248a and is filed before July 1, 2017 and the discharge  
4                   will be to a water that is not principally impaired by stormwater runoff:

5                   (1) The Secretary shall issue a decision on the application within 40  
6                   days of the date the Secretary determines the application to be complete, if the  
7                   application seeks authorization under a general permit.

8                   (2) The Secretary shall issue a decision on the application within 60  
9                   days of the date the Secretary determines the application to be complete, if the  
10                  application seeks or requires authorization under an individual permit.

11                  (k) The Secretary may adopt rules regulating stormwater discharges and  
12                  stormwater infrastructure repair or maintenance during a state of emergency  
13                  declared under 20 V.S.A. chapter 1 or during flooding or other emergency  
14                  conditions that pose an imminent risk to life or a risk of damage to public or  
15                  private property. Any rule adopted under this subsection shall comply with  
16                  National Flood Insurance Program requirements. A rule adopted under this  
17                  subsection shall include a requirement that an activity receive an individual  
18                  stormwater discharge emergency permit or receive coverage under a general  
19                  stormwater discharge emergency permit.

20                  (1) A rule adopted under this subsection shall establish:

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1                   (A) criteria for coverage under an individual or general emergency

2                   permit;

3                   (B) criteria for different categories of activities covered under a

4                   general emergency permit;

5                   (C) requirements for public notification of permitted activities,

6                   including notification after initiation or completion of a permitted activity;

7                   (D) requirements for coordination with State and municipal

8                   authorities;

9                   (E) requirements that the Secretary document permitted activity,

10                  including, at a minimum, requirements for documenting permit terms,

11                  documenting permit duration, and documenting the nature of an activity when

12                  the rules authorize notification of the Secretary after initiation or completion of

13                  the activity.

14                  (2) A rule adopted under this section may:

15                  (A) establish reporting requirements for categories of activities;

16                  (B) authorize an activity that does not require reporting to the

17                  Secretary; or

18                  (C) authorize an activity that requires reporting to the Secretary after

19                  initiation or completion of an activity.

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

- 1       (a) Findings and intent.
  - 2           (1) Findings. The General Assembly finds that the management of
  - 3           stormwater runoff is necessary to reduce stream channel instability, pollution,
  - 4           siltation, sedimentation, and flooding, all of which have adverse impacts on the
  - 5           water and land resources of the State.
- 6       (2) Intent. The General Assembly intends, by enactment of this
- 7       section to:
  - 8           (A) Reduce the adverse effects of stormwater runoff.
  - 9           (B) Direct the Agency of Natural Resources to develop a process that
  - 10          assures broad participation; focuses upon the prevention of pollution; relies on
  - 11          structural treatment only when necessary; establishes and maintains
  - 12          accountability; tailors strategies to the region and the locale; builds
  - 13          broad-based programs; provides for the evaluation and appropriate evolution of
  - 14          programs; is consistent with the federal Clean Water Act and the State water
  - 15          quality standards; and accords appropriate recognition to the importance of
  - 16          community benefits that accompany an effective stormwater runoff
  - 17          management program. In furtherance of these purposes, the Secretary shall
  - 18          implement a stormwater permitting program. The stormwater permitting
  - 19          program developed by the Secretary shall recognize that stormwater runoff is
  - 20          different from the discharge of sanitary and industrial wastes because of the

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1       influence of natural events of stormwater runoff, the variations in  
2       characteristics of those runoffs, and the increased stream flows causing  
3       degradation of the quality of the receiving water at the time of discharge.

4       **(b) Definitions. As used in this section:**

5       (1) “Best management practice” (BMP) means a schedule of activities,  
6       prohibitions or practices, maintenance procedures, and other management  
7       practices to prevent or reduce water pollution.

8       (2) “Development” means the construction of impervious surface on a  
9       tract or tracts of land where no impervious surface previously existed.

10      (3) “Expansion” and “the expanded portion of an existing discharge”  
11      mean an increase or addition of impervious surface, such that the total resulting  
12      impervious area is greater than the minimum regulatory threshold.

13      (4) “Impervious surface” means those manmade surfaces, including  
14      paved and unpaved roads, parking areas, roofs, driveways, and walkways, from  
15      which precipitation runs off rather than infiltrates.

16      (5) “New stormwater discharge” means a new or expanded discharge of  
17      regulated stormwater runoff, subject to the permitting requirements of this  
18      chapter **that** has not been previously authorized pursuant to this chapter.

19      (6) “Offset” means a State-permitted or -approved action or project  
20      within a stormwater-impaired water that a discharger or a third person may

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1       complete to mitigate the impacts that a discharge of regulated stormwater  
2       runoff has on the stormwater-impaired water.

3       (7) “Redevelopment” or “redevelop” means the construction or  
4       reconstruction of an impervious surface where an impervious surface already  
5       exists when such new construction involves substantial site grading, substantial  
6       subsurface excavation, or substantial modification of an existing stormwater  
7       conveyance, such that the total of impervious surface to be constructed or  
8       reconstructed is greater than the minimum regulatory threshold.

9       Redevelopment does not mean public road management activities, including  
10      any crack sealing, patching, coldplaning, resurfacing, reclaiming, or grading  
11      treatments used to maintain pavement, bridges, and unpaved roads.

12      (8) “Regulated stormwater runoff” means precipitation, snowmelt, and  
13      the material dissolved or suspended in precipitation and snowmelt that runs off  
14      impervious surfaces and discharges into surface waters or into groundwater via  
15      infiltration.

16      (9) “Stormwater impact fee” means the monetary charge assessed to a  
17      permit applicant for the discharge of regulated stormwater runoff to a  
18      stormwater-impaired water that mitigates a sediment load level or hydrologic  
19      impact that the discharger is unable to control through on-site treatment or  
20      completion of an offset on a site owned or controlled by the permit applicant.

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1                   (10) “Stormwater-impaired water” means a State water that the  
2                   Secretary determines is significantly impaired by discharges of regulated  
3                   stormwater runoff.

4                   (11) “Stormwater Management Manual” means the Agency of Natural  
5                   Resources’ Stormwater Management Manual, as adopted and amended by rule.

6                   (12) “Stormwater runoff” means precipitation and snowmelt that does  
7                   not infiltrate into the soil, including material dissolved or suspended in it, but  
8                   does not include discharges from undisturbed natural terrain or wastes from  
9                   combined sewer overflows.

10                  (13) “Stormwater system” includes the storm sewers; outfall sewers;  
11                  surface drains; manmade wetlands; channels; ditches; wet and dry bottom  
12                  basins; rain gardens; and other control equipment necessary and appurtenant to  
13                  the collection, transportation, conveyance, pumping, treatment, disposal, and  
14                  discharge of regulated stormwater runoff.

15                  (14) “Total maximum daily load” (TMDL) means the calculations and  
16                  plan for meeting water quality standards approved by the U.S. Environmental  
17                  Protection Agency (EPA) and prepared pursuant to 33 U.S.C. § 1313(d) and  
18                  federal regulations adopted under that law.

19                  (15) “Water quality remediation plan” means a plan, other than a  
20                  TMDL, designed to bring an impaired water body into compliance with

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1       applicable water quality standards in accordance with 40 C.F.R.

2       § 130.7(b)(1)(ii) and (iii).

3       (16) “Watershed improvement permit” means a general permit specific  
4       to a stormwater-impaired water that is designed to apply management  
5       strategies to existing and new discharges and that includes a schedule of  
6       compliance no longer than five years reasonably designed to assure attainment  
7       of the Vermont water quality standards in the receiving waters.

8       (c) Prohibitions.

9       (1) A person shall not commence the construction or redevelopment of  
10      one acre or more of new impervious surface without first obtaining a permit  
11      from the Secretary.

12      (2) A person shall not discharge from a facility that has a standard  
13      industrial classification identified in 40 C.F.R. § 122.26 without first obtaining  
14      a permit from the Secretary.

15      (3) A person that has been designated by the Secretary as requiring  
16      coverage for its municipal separate storm sewer system may not discharge  
17      without first obtaining a permit from the Secretary.

18      (4) A person shall not commence a project that will result in an earth  
19      disturbance of one acre or greater, or less than one acre if part of a common  
20      plan of development, without first obtaining a permit from the Secretary.

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1           (5) A person shall not expand or redevelop existing impervious surface  
2       by more than 5,000 square feet, such that the total resulting impervious area is  
3       greater than one acre, without first obtaining a permit from the Secretary.

4           (6)(A) In accordance with the schedule established under subsection  
5       (g)(2) of this section, a municipality shall not discharge stormwater from a  
6       municipal road without first obtaining:

7            (i) an individual permit;  
8            (ii) coverage under a municipal road general permit; or  
9            (iii) coverage under a municipal separate stormsewer system  
10       permit that implements the technical standards and criteria established by the  
11       Secretary for stormwater improvements of municipal roads.

12           (B) As used in this subdivision, “municipality” means a city, town, or  
13       village.

14           (d) Exemptions. No permit is required under this section for:  
15            (1) Stormwater runoff from farms subject in compliance with  
16       agricultural practices adopted by the Secretary of Agriculture, Food and  
17       Markets.

18            (2) Stormwater runoff from concentrated animal feeding operations  
19       permitted under subsection 1263(g) of this chapter.

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1                   (3) Stormwater runoff from silvicultural activities subject to accepted  
2                   management practices adopted by the Commissioner of Forests, Parks and  
3                   Recreation.

4                   (4) Stormwater systems that were permitted under subdivision (c)(1) or  
5                   (5) of this section and for which a municipality has assumed full legal  
6                   responsibility for that stormwater system. As used in this subdivision, “full  
7                   legal responsibility” means a legal control of the stormwater system, including  
8                   a legal right to access the stormwater system, a legal duty to properly maintain  
9                   the stormwater system, and a legal duty to repair and replace the stormwater  
10                  system when it no longer adequately protects waters of the State.

11                  (5) Stormwater runoff permitted under section 1263 of this title.

12                  (e) State designation. The Secretary shall require a permit under this  
13                  section for a discharge or stormwater runoff from impervious surfaces upon a  
14                  determination by the Secretary that the treatment of the discharge or  
15                  stormwater runoff is necessary to reduce the adverse impacts to water quality  
16                  of the discharge or stormwater runoff taking into consideration any of the  
17                  following factors: the size of the impervious surface, drainage patterns,  
18                  hydraulic connectivity, existing stormwater treatment, stormwater controls  
19                  necessary to implement the wasteload allocation of a TMDL, or other factors.  
20                  The Secretary may make this determination on a case-by-case basis or

Gray highlighting = Change from HFWWR Amend 1.3  
Red highlighting = Issues for Discussion

1       according to classes of activities, classes of runoff, or classes of discharge  
2       identified during the basin planning process.

3       (f) Rulemaking. The Secretary shall adopt rules to manage regulated  
4       stormwater runoff. At a minimum, the rules shall:

5       (1) Establish as the primary goals of the rules:

6           (A) assuring compliance with the Vermont Water Quality Standards;  
7       and  
8           (B) maintenance after development, as nearly as possible, of the  
9       predevelopment runoff characteristics.

10       (2) Establish criteria for the use of the basin planning process to  
11       establish watershed-specific priorities for the management of stormwater  
12       runoff.

13       (3) Assure consistency with applicable requirements of the federal Clean  
14       Water Act.

15       (4) Include technical standards and best management practices that  
16       address stormwater discharges from existing development, new development,  
17       and redevelopment.

18       (5) Specify minimum requirements for inspection and maintenance of  
19       stormwater management practices.

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1           (6) Include standards for the management of stormwater runoff from  
2           construction sites and other land disturbing activities.

3           (7) Allow municipal governments to assume the full legal responsibility  
4           for a stormwater system permitted under these rules as a part of a permit issued  
5           by the Secretary.

6           (8) Include standards with respect to the use of offsets and stormwater  
7           impact fees.

8           (9) Include minimum standards for the issuance of stormwater permits  
9           during emergencies for the repair or maintenance of stormwater infrastructure  
10          during a state of emergency declared under 20 V.S.A. chapter 1 or during  
11          flooding or other emergency conditions that pose an imminent risk to life or a  
12          risk of damage to public or private property. Minimum standards adopted  
13          under this subdivision shall comply with National Flood Insurance Program  
14          requirements.

15          (10) To the extent appropriate, authorize in the permitting process use of  
16          certifications of compliance by licensed professional engineers practicing  
17          within the scope of their engineering specialty.

18          (g) General permits.

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1           (1) The Secretary may issue general permits for classes of regulated  
2       stormwater runoff that shall be adopted and administered in accordance with  
3       the provisions of subsection 1263(b) of this title.

4           (2)(A) The Secretary shall issue by July 1, 2018, a general permit for  
5       discharges of regulated stormwater from municipal roads. Under the  
6       municipal roads stormwater general permit, the Secretary shall:

7           (i) Establish a schedule for implementation of the general permit  
8       by each municipality in the State. Under the schedule, the Secretary shall  
9       establish:

10           (I) the date by which each municipality shall apply for  
11       coverage under the municipal roads general permit;

12           (II) the date by which each municipality shall inventory  
13       necessary stormwater management projects on municipal roads;

14           (III) the date by which each municipality shall establish a plan  
15       for implementation of stormwater improvements that prioritizes stormwater  
16       improvements according to criteria established by the Secretary under the  
17       general permit; and

18           (IV) the date by which each municipality shall implement  
19       stormwater improvements of municipal roads according to a municipal  
20       implementation plan.

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1                   (ii) Establish criteria and technical standards, such as best  
2       management practices, for implementation of stormwater improvements of  
3       municipal roads.

4                   (iii) Establish criteria for municipal prioritization of stormwater  
5       improvements of municipal roads. The Secretary shall base the criteria on the  
6       water quality impacts of a stormwater discharge, the current state of a  
7       municipal road, the priority of a municipal road or stormwater project in any  
8       existing transportation capital plan developed by a municipality, and the  
9       benefits of the stormwater improvement to the life of the municipal road.

10                  (iv) Require each municipality to submit to the Secretary and  
11       periodically update its implementation plan for stormwater improvements.

12                  (B) The Secretary may require an individual permit for a stormwater  
13       improvement at any time under subsection (e) of this section. An individual  
14       permit shall include site-specific standards for the stormwater improvement.

15                  (C) All municipalities shall apply for coverage under the municipal  
16       road general permit by July 1, 2021.

17                  (D) As used in this subdivision (g)(2), “municipality” means a city,  
18       town, or village.

19                  (h) Permit requirements. An individual or general stormwater permit shall:  
20                  (1) Be valid for a period of time, not to exceed ten years;

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1                   (2) For discharges of regulated stormwater to a stormwater impaired

2                   water:

3                   (A) In which no TMDL, watershed improvement permit, or water  
4                   quality remediation plan has been approved, require that the discharge shall  
5                   comply with the following discharge standards:

6                   (i) A new discharge or the expanded portion of an existing  
7                   discharge shall satisfy the requirements of the Stormwater Management  
8                   Manual and shall not increase the pollutant load in the receiving water for  
9                   stormwater; or

10                  (ii) For redevelopment of or renewal of a permit for existing  
11                  impervious surface, the discharge shall satisfy on-site the water quality,  
12                  recharge, and channel protection criteria set forth in the Stormwater  
13                  Management Manual that are determined to be technically feasible by an  
14                  engineering feasibility analysis conducted by the Agency and the discharge  
15                  shall not increase the pollutant load in the receiving water for stormwater.

16                  (B) In which a TMDL or water quality remediation plan has been  
17                  adopted, the discharge shall satisfy the requirements of the Stormwater  
18                  Management Manual, and the Secretary shall determine that there is sufficient  
19                  pollutant load allocations for the discharge.

**Gray highlighting = Change from HFWWR Amend 1.3**

**Red highlighting = Issues for Discussion**

1           (3) Contain requirements necessary to comply with the minimum  
2       requirements of the rules adopted under this section, the Vermont water quality  
3       standards, and any applicable provision of the Clean Water Act.

4           (i) Disclosure of violations. The Secretary may, at his or her discretion and  
5 as necessary to assure achievement of the goals of the program and compliance  
6 with State law and the federal Clean Water Act, deny an application for the  
7 discharge of regulated stormwater under this subsection if review of the  
8 applicant's compliance history indicates that the applicant is discharging  
9 regulated stormwater in violation of this chapter or is the holder of an expired  
10 permit for an existing discharge of regulated stormwater.

11           (j) Presumption. In any appeal under this chapter, an individual permit  
12 issued under this section shall have a rebuttable presumption in favor of the  
13 permittee that the discharge does not cause or contribute to a violation of the  
14 Vermont Water Quality Standards for the receiving waters with respect to the  
15 discharge of regulated stormwater runoff.

## 16 Sec. 26. [Reserved; stormwater management practices]

17 \* \* \* Water Quality Data Coordination \* \* \*

18 Sec. 27. 10 V.S.A. § 1284 is added to read:

19       § 1284. WATER QUALITY DATA COORDINATION

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

- 1       (a) To facilitate attainment or accomplishment of the purposes of this  
2       chapter, the Secretary shall coordinate and assess all available data and science  
3       regarding the quality of the waters of the State, including:  
4              (1) light detection and ranging information data (LIDAR);  
5              (2) stream gauge data;  
6              (3) stream mapping, including fluvial erosion hazard maps;  
7              (4) water quality monitoring or sampling data;  
8              (5) cumulative stressors on a watershed, such as the frequency an  
9       activity is conducted within a watershed or the number of stormwater or other  
10      permits issued in a watershed; and  
11      (6) any other data available to the Secretary.  
12       (b) After coordination of the data required under subsection (a) of this  
13      section, the Secretary shall:  
14          (1) assess where additional data are needed and the best methods for  
15      collection of such data;  
16          (2) identify and map on a watershed basis areas of the State that are  
17      significant contributors to water quality problems or are in critical need of  
18      water quality remediation or response.  
19       (c) The Secretary shall post all data compiled under this section on the  
20      website of the Agency of Natural Resources.

1                           \* \* \* Water Quality Funding; Clean Water Fund\* \* \*

2 Sec. 28. 10 V.S.A. chapter 47, subchapter 7 is added to read:

3                           Subchapter 7. Vermont Clean Water Fund

4                           § 1387. PURPOSE

5                           The General Assembly establishes in this subchapter a Vermont Clean Water  
6                           Fund as a mechanism for financing the improvement of water quality in the State.

7                           The Clean Water Fund shall be used to:

8                           (1) support the Agency of Natural Resources, the Agency of Agriculture,  
9                           Food and Markets, the Agency of Transportation, and other State agencies in  
10                          implementation and administration of water quality programs and projects in the  
11                          State;

12                          (2) assist municipalities in complying with water quality requirements and  
13                          construction or implementation of water quality projects;

14                          (3) provide funding to nonprofit organizations, regional associations, and  
15                          other entities for implementation and administration of community-based water  
16                          quality programs or projects.

17                          § 1388. CLEAN WATER FUND

18                          (a) There is created a special fund to be known as the “Clean Water Fund.”  
19                          Notwithstanding any contrary provisions of 32 V.S.A. chapter 7, subchapter 5:  
20                          (1) the Fund shall be administered by the Clean Water Fund Board  
21                          established under section 1388 of this title;

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

- 1           (2) the Fund shall consist of:
- 2           (A) revenues dedicated for deposit into the Fund by the General
- 3           Assembly, including [to be determined]; and
- 4           (B) other gifts, donations, and impact fees received from any source,
- 5           public or private, dedicated for deposit into the Fund and approved by the
- 6           Board.
- 7           (b) The Clean Water Fund Board shall make recommendations on
- 8           expenditures from the Fund consistent with the following priorities:
- 9           (1) to provide funding to programs and projects that address sources of
- 10          water pollution in waters listed as impaired on the list of waters established by
- 11          33 U.S.C. § 1313(d);
- 12          (2) to provide funding to projects that address water pollution identified
- 13          as a critical source of water quality pollution;
- 14          (3) to provide funding to programs or projects that address or repair
- 15          conditions that increase the risk of flooding or pose a threat to life or
- 16          property; and
- 17          (4) to provide funding to innovative nutrient removal technologies,
- 18          including community-based methane digesters that utilize manure, wastewater,
- 19          and food residuals to produce energy.

Gray highlighting = Change from HFWWR Amend 1.3  
Red highlighting = Issues for Discussion

1           (c) Unexpended balances and any earnings shall remain in the Fund from  
2       year to year.

3       § 1389. CLEAN WATER FUND BOARD

4           (a) Creation. There is created a Clean Water Fund Board which shall be  
5       attached to the Agency of Administration for administrative purposes.

6           (b) Organization of the Board. The Clean Water Fund Board shall be  
7       composed of:

8              (1) the Secretary of Administration or designee;

9              (2) the Secretary of Natural Resources or designee;

10             (3) the Secretary of Agriculture, Food and Markets or designee;

11             (4) the Secretary of Commerce and Community Development or  
12       designee;

13             (5) the Secretary of Transportation or designee;

14             (6) two members of the public or the House of Representatives  
15       appointed by the Speaker of the House;

16             (7) two members of the public or the Senate appointed by the  
17       Committee on Committees; and

18             (8) two members of the public appointed by the Governor.

19           (c) Officers; committees; rules. The Clean Water Fund Board shall  
20       annually elect a chair from its members. The Clean Water Fund Board may

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1       elect additional officers from its members, establish committees or  
2       subcommittees, and adopt procedural rules as necessary and appropriate to  
3       perform its work.

4       (d) Member terms. Members of the Clean Water Fund Board appointed by  
5       the Governor shall serve initial terms of three years, members appointed by the  
6       Speaker of the House shall serve initial terms of two years, and members  
7       appointed by the Committee on Committees shall serve initial terms of one  
8       year. Thereafter, each of the above appointed members shall serve a term of  
9       three years. A vacancy shall be filled by the appointing authority for the  
10       remainder of the unexpired term. An appointed member shall not serve more  
11       than three consecutive three-year terms.

12       (e) Compensation. Public members of the Clean Water Fund Board may  
13       receive compensation according to 32 V.S.A. § 1010(b).

14       (f) Powers and duties of the Clean Water Fund Board.

15           (1) The Clean Water Fund Board shall have the following powers and  
16           authority:

17              (A) to receive proposals from the Secretaries of Agriculture, Food,  
18              and Markets, of Commerce and Community Development, of Natural  
19              Resources, and of Transportation on the expenditures of the Fund;

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1           (B) to make recommendations to the Secretary of Administration  
2        regarding the appropriate allocation of funds from the Clean Water Fund for  
3        the purposes of developing the State budget; and  
4           (C) to pursue and accept grants or other funding from any public or  
5        private source and to administer such grants or funding consistent with their  
6        terms.

7           (2) The Clean Water Fund Board shall develop:  
8            (A) an annual revenue estimate and proposed budget for the Clean  
9        Water Fund;  
10          (B) measures for determining progress and effectiveness of  
11        expenditures for clean water restoration efforts; and  
12          (C) the annual Clean Water Investment Report required under section  
13        1389 of this title.

14          (3) The Clean Water Fund Board shall solicit public comment and  
15        consult with existing organizations and advisory committees interested in  
16        improving water quality in Vermont.

17        § 1390. CLEAN WATER INVESTMENT REPORT  
18          Beginning on January 15, 2017, and annually thereafter, the Clean Water  
19        Fund Board shall publish a Clean Water Investment Report. The report shall  
20        summarize all investments made by the Clean Water Fund Board and other

Gray highlighting = Change from HFWWR Amend 1.3

**Red highlighting = Issues for Discussion**

State agencies for clean water restoration over the past calendar year. The report shall include expenditures from the Clean Water Fund, the General Fund, the Transportation Fund, and any other State expenditures for clean water restoration, regardless of funding source. The report shall document progress or shortcomings in meeting established indicators for clean water restoration. The report may also provide an overview of additional funding necessary to meet objectives established for clean water restoration and recommendations for additional revenue to meet those restoration objectives.

The provisions of 2 V.S.A. § 20(d) (expiration of required reports) shall not apply to the report required by this section.

11 Sec. 29. [Reserved]

12 Sec. 30. [Reserved]

13           \* \* \* Department of Environmental Conservation Water Quality Fees \* \* \*

14 Sec. 31. 3 V.S.A. § 2822 is amended to read:

15        § 2822. BUDGET AND REPORT; POWERS

16 \* \* \*

17                   (i) The Secretary shall not process an application for which the applicable  
18                   fee has not been paid unless the Secretary specifies that the fee may be paid at  
19                   a different time or unless the person applying for the permit is exempt from the  
20                   permit fee requirements pursuant to 32 V.S.A. § 710. In addition, the persons

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1 who are exempt under 32 V.S.A. § 710 are also exempt from the application  
2 fees for stormwater operating permits specified in subdivisions (j)(2)(A)(iii)(I)  
3 and (II) of this section if they otherwise meet the requirements of 32 V.S.A.  
4 § 710. Municipalities shall be exempt from the payment of fees under this  
5 section except for those fees prescribed in subdivisions (j)(1), (2), (7), (8), (14),  
6 and (15) of this section for which a municipality may recover its costs by  
7 charging a user fee to those who use the permitted services. Municipalities  
8 shall pay fees prescribed in subdivisions (j)(2), (10), (11), and (26), except that  
9 a municipality shall also be exempt from those fees for ~~orphan~~ stormwater  
10 systems prescribed in subdivisions (j)(2)(A)(iii) and (2)(B)(iv)(I) or (II) of this  
11 section when the municipality agrees to become an applicant or co-applicant  
12 for an orphan stormwater system under 10 V.S.A. § 1264e for which a  
13 municipality has assumed full legal responsibility under 10 V.S.A. § 1264.

14 (j) In accordance with subsection (i) of this section, the following fees are  
15 established for permits, licenses, certifications, approvals, registrations, orders,  
16 and other actions taken by the Agency of Natural Resources.

17 \* \* \*

18 (2) For discharge permits issued under 10 V.S.A. chapter 47 and orders  
19 issued under 10 V.S.A. § 1272, an administrative processing fee of \$120.00  
20 \$240.00 shall be paid at the time of application for a discharge permit in

15 Sec. 32. 32 V.S.A. § 710 is amended to read:

16        § 710. PAYMENT OF STATE AGENCY FEES

17                   (a) Notwithstanding any other provision of law, the Agency of

18 Transportation, any cooperating municipalities, and their contractors or agents  
19 shall be exempt from the payment of fee charges for reviews, inspections, or  
20 nonoperating permits issued by the Department of Public Safety, a District

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1 Environmental Commission, and the Agency of Natural Resources for any  
2 projects undertaken by or for the Agency and any cooperating municipalities  
3 for which all or a portion of the funds are authorized by a legislatively  
4 approved transportation construction, rehabilitation, or paving program within  
5 a general appropriation act introduced pursuant to section 701 of this title  
6 except for those fees established under 3 V.S.A. § 2822(j)(2)(A)(iii), (j)(10),  
7 (j)(11), and (j)(26).

8 (b) Notwithstanding any other provision of law, no fees shall be charged  
9 for reviews, inspections, or nonoperating permits issued by the Department of  
10 Public Safety, a District Environmental Commission, and the Agency of  
11 Natural Resources for:

12 (1) Any project undertaken by the Department of Buildings and General  
13 Services, the Agency of Natural Resources or the Agency of Transportation  
14 which is authorized or funded in whole or in part by the capital construction  
15 act introduced pursuant to section 701a of this title except for those fees  
16 established under 3 V.S.A. § 2822(j)(2)(A)(iii), (j)(10), (j)(11), and (j)(26).

17 (2) Any project undertaken by a municipality, which is funded in whole  
18 or in part by a grant or loan from the Agency of Natural Resources or the  
19 Agency of Transportation financed by an appropriation of a capital  
20 construction act introduced pursuant to section 701a of this title except for

those fees established under 3 V.S.A. § 2822(j)(2)(A)(iii), (j)(7)(A) and (B),  
(j)(10), (j)(11), and (j)(26). However, all such fees shall be paid for reviews,  
inspections, or permits required by municipal solid waste facilities developed  
by a solid waste district which serves, or is expected to serve, in whole or in  
part, parties located outside its own district boundaries pursuant to 10 V.S.A.  
chapter 159.

7 \* \* \* Wastewater Treatment Plants; Financial Assistance for

#### 8 Phosphorus Reduction \* \* \*

9 Sec. 33. 10 V.S.A. § 1266a is amended to read:

10        § 1266a. DISCHARGES OF PHOSPHORUS

11                             (a) No person directly discharging into the drainage basins of Lake  
12                             Champlain or Lake Memphremagog shall discharge any waste that contains a  
13                             phosphorus concentration in excess of 0.80 milligrams per liter on a monthly  
14                             average basis. Discharges of less than 200,000 gallons per day, permitted on  
15                             or before July 1, 1991, shall not be subject to the requirements of this  
16                             subsection. Discharges from a municipally owned aerated lagoon type  
17                             secondary sewage treatment plant in the Lake Memphremagog drainage basin,  
18                             permitted on or before July 1, 1991 shall not be subject to the requirements of  
19                             this subsection unless the plant is modified to use a technology other than  
20                             aerated lagoons.

1                   (b) Notwithstanding any provision of subsection (a) of this section to the  
2 contrary, the Secretary shall establish effluent phosphorus wasteload  
3 allocations or concentration limits within any drainage basin in Vermont, as  
4 needed to achieve wasteload allocations in a total maximum daily load  
5 document approved by the U.S. Environmental Protection Agency, or as  
6 needed to attain compliance with water quality standards adopted by the  
7 Secretary pursuant to chapter 47 of this title.

8                   (c) ~~The Seeretary of Natural Resources shall establish a schedule for~~  
9 ~~municipalities that requires compliance with this section at a rate that~~  
10 ~~corresponds to the rate at which funds are provided under subsection 1625(e)~~  
11 ~~of this title. To the extent that funds are not provided to municipalities eligible~~  
12 ~~under that subsection, municipal compliance with this section shall not be~~  
13 ~~required. [Repealed.]~~

14 Sec. 34. 10 V.S.A. § 1625 is amended to read:

15                   **§ 1625. AWARDS FOR POLLUTION ABATEMENT PROJECTS TO**

16                   **ABATE DRY WEATHER SEWAGE FLOWS**

17                   (a) When the Department finds that a proposed water pollution abatement  
18 project is necessary to maintain water quality standards during dry weather  
19 sewage flows, and that the proposed type, kind, quality, size, and estimated  
20 cost, including operation cost and sewage disposal charges, of the project are

Gray highlighting = Change from HFWWR Amend 1.3

Red highlighting = Issues for Discussion

1       suitable for abatement of pollution, and the project or the prescribed project  
2       phases are necessary to meet the intent of the water quality classifications  
3       established by the Secretary or by statute under chapter 47 of this title, the  
4       Department may award to municipalities a State assistance grant of up to 25  
5       percent of the eligible project cost, provided that in no case shall the total of  
6       the State and federal grants exceed 90 percent of the eligible project costs:

7                 (1) except that the 90 percent limitation shall not apply when the  
8       municipality provides, as their local share, federal funds allocated to them for  
9       the purpose of matching other federal grant programs having a matching

10      requirement; and

11                 (2) except that the total of state and federal grants issued under  
12       P.L. 92-500 section 202(a)(2) may equal up to 95 percent of the eligible costs  
13       for innovative or alternative wastewater treatment processes and techniques.

14                 (b) In carrying out the purposes of this subchapter, the Department shall  
15       define the purpose and scope of an eligible project, including a determination  
16       of the area to be served, type of treatment, effluent limitations, eligible  
17       construction costs, cost accounting procedures and methods and other such  
18       project construction, operation and fiscal elements necessary to meet federal  
19       aid requirements. The Department shall, as a part of the administration of this  
20       grant program, encourage municipalities to undertake capital development

Gray highlighting = Change from HFWWR Amend 1.3  
Red highlighting = Issues for Discussion

1 planning and to establish water and sewer charges along public utility  
2 concepts.

3 (c) Any municipality having proceeded with construction of facilities with  
4 a State grant of 25 percent since July 1, 1984 shall be eligible for an increase in  
5 the State grant to a total of 35 percent of the eligible project costs.

6 (d) The Department may award a State assistance grant of up to 50 percent  
7 of the eligible costs of an approved pollution abatement project or a portion  
8 thereof not eligible for federal financial assistance in a municipality that is  
9 certified by the Secretary of Commerce and Community Development to be  
10 within the designated job development zone. To achieve the objectives of  
11 chapter 29, subchapter 2 of this title, the eligibility and priority provisions of  
12 this chapter do not apply to municipalities within a designated job development  
13 zone.

14 (e) ~~If the Department finds that a proposed municipal water pollution~~  
15 ~~control project is necessary to reduce effluent phosphorus concentration or~~  
16 ~~mass loading to the level required in section 1266a of this title, the Department~~  
17 ~~shall award to the municipality, subject to the availability of funds, a state~~  
18 ~~assistance grant. Such grants shall be for 100 percent of the eligible project~~  
19 ~~cost. This funding shall not be available for phosphorus removal projects~~

Gray highlighting = Change from HFWWR Amend 1.3

1 where the effluent concentration must be reduced in order to maintain a  
2 previously permitted mass loading of phosphorus.

3 \* \* \* Accepted Management Practices for Forestry \* \* \*

4 Sec. 35. 10 V.S.A. § 2622 is amended to read:

5 § 2622. RULES; ACCEPTED MANAGEMENT PRACTICES FOR  
6 HARVESTING TIMBER; FORESTS

7 The ~~commissioner~~ Commissioner shall adopt rules to establish ~~methods~~  
8 accepted management practices by which the harvest and utilization of timber  
9 in private and public ~~forest land~~ forestland will be consistent with continuous  
10 forest growth, including reforestation, will prevent wasteful and dangerous  
11 forestry practices, will regulate heavy cutting, will encourage good forestry  
12 management, will enable and assist landowners to practice good forestry  
13 management, and will conserve the natural resources consistent with the  
14 purposes and policies of this chapter, giving due consideration to the need to  
15 assure continuous supplies of forest products and to the rights of the owner or  
16 operator of the land. ~~Such~~ The rules shall be ~~advisory, and not mandatory,~~  
17 ~~except that~~ adopted under this section and the rules adopted under section 2625  
18 of this title shall be mandatory as shall other rules specifically authorized to be  
19 mandatory.
