

Sept 14, 13

Kathy + Doug,

I'm giving you a 48 hr. notice to come in the basement to hook up, Arlene's + Pat's boiler. I have called Jean, Harry, plus have made several attempts. We don't need to disturb you while doing this. You must take your padlock off the door to the wall Harry built.

We will be coming between 9:00-9:00. If you feel you need to get a electrician you still can, but you need to let us hook-up your ~~xxx~~ next door tenants furnace so they can save heat. Thank-you

Wesley Sandry
