

Carbo - Sorry but I'm in South Carolina until the first week of May.
It's Masters Week in Augusta right now.

Michael - as a concerned landowner I am a strong supporter of forester licensing.
My concern is always for my neighbors who own forest land in my greater
community that need all the help they can get in setting
up logging jobs and working with loggers. Having a licensed forester
process in place would certainly help in this area.

Please add my name to the list of supporters for this bill.

- Mike
