The legislature is poised to pass an experimental plan lowering the standard of dental care without saving patients or the state any money.

The “dental therapist” bill would:

- Allow “dental therapists” to perform complex irreversible surgical procedures with less than a 4 year college degree. Doctors of Dentistry have 8 years of specialized training.
- Allow inadequately trained “dental therapists” to write prescriptions for drugs.
- Not save patients any money.

You trust your community dentists and we need your help. Help us protect the high standard of oral healthcare Vermonters expect.

S.20 is bad for you and bad for Vermont's healthcare system. Please call Rep. Townsend at 862-7404 and ask her to oppose S.20.
