8 § 9551. ALL-PAYER MODEL

9 In order to implement a value-based payment model allowing participating
10 health care providers to be paid by Medicaid, Medicare, and commercial
11 insurance using a common methodology that may include population-based

13 ensure that the model:

14 (1) maintains consistency with the principles established in section 9371

12 (7) includes a process for integration of community-based providers,
13 including home health agencies, mental health agencies, development
14 disability service providers, and area agencies on aging, and their funding
15 streams, into a transformed, fully integrated health care system;
16 (8) continues to prioritize the use, where appropriate, of existing local
17 and regional collaboratives of community health providers that develop
18 integrated health care initiatives to address regional needs and evaluate best

5 care organizations, to the extent permitted under federal law;

6 (11) provides quality measures for access to care, quality of care, patient
7 outcomes, and social determinants of health;

8 (12) requires processes and protocols for shared decision making
9 between the patient and his or her health care providers that take into account a
10 patient’s unique needs, preferences, values, and priorities, including use of
11 decision support tools and shared decision-making methods with which the
12 patient may assess the merits of various treatment options in the context of his
13 or her values and convictions, and by providing patients access to their medical
14 records and to clinical knowledge so that they may make informed choices
15 about their care;

16 (13) supports coordination of patients’ care and care transitions through
17 the use of technology, such as sharing electronic summary records across

8 which all business that is not confidential or proprietary is conducted and
9 members of the public are provided an opportunity to comment; and

15 of and address the financial risk to community-based providers that are
16 members of an accountable care organization;

17 (9) public comment on all aspects of the ACO's costs and use and on the
18 ACO's proposed budget;

15 shall supervise the participation of health care professionals, health care
16 facilities, and other persons operating or participating in an accountable care
17 organization. The Board shall ensure that its certification and oversight
18 processes constitute sufficient State supervision over these entities to comply
19 with federal antitrust provisions and shall refer to the Attorney General for
20 appropriate action the activities of any individual or entity that the Board
21 determines, after notice and an opportunity to be heard, may be in violation of

3 costs by modifying payment methods.
