2016 VHC Plan Designs & Cost Sharing Reduction Program

Robin J. Lunge, J.D., MHCDS Director of Health Care Reform, AOA

March 24, 2015

Benefits Overview

Covered Services

 What services are paid in whole or in part?

Level of Cost Sharing

 How much should you pay when you get services?

Type of Cost Sharing

 Do you pay through co-pays, deductibles, or co-insurance?

Level of Cost Sharing

 What services are paid in whole or in part?

Level of Cost Sharing

 How much should you pay when you get services?

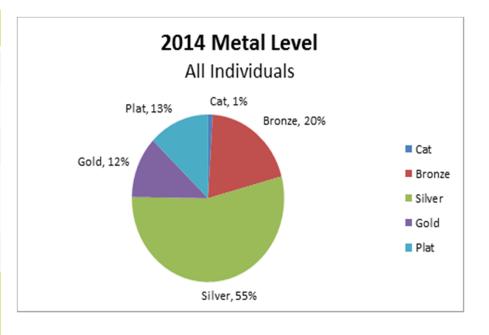

Type of Cost Sharing

 Do you pay through co-pays, deductibles, or co-insurance?

Enrollment Distribution 2014

Metal Level	
Bronze	20%
Silver	55%
Gold	12%
Platinum	13%
Catastrophic	1%
Eligible for Premium Subsidy	64%

Enrollment Distribution 2015 (As of Mar. 22)

Metal Level	
Bronze	20%
Silver	55%
Gold	11%
Platinum	13%
Catastrophic	1%
Eligible for Premium Subsidy	62%

- Renewals still in-process
- High percentage of remaining enrollment likely to be subsidyeligible (pending change of circumstance)
- Expect greatest % increase in Silver level

Context: Actuarial Value

- Actuarial value means the total average costs of covered services that your plan will cover
 - As total health care costs rise from year to year, costsharing contributions must <u>rise</u> in order for the AV % to <u>stay the same</u>
- In a plan with a high AV, you will pay more in premiums, less in cost-sharing
- A plan with a low AV, you will pay less in premiums, more in cost-sharing

GMC Benefits and Type of Cost Sharing

 What services are paid in whole or in part by GMC?

Level of Cost Sharing

 How much should you pay when you get services?

Type of Cost Sharing

 Do you pay through co-pays, deductibles, or co-insurance?

Principles for Decision Making (2012)

- Creating meaningful choice for consumers
- Encouraging high value services, like primary care and generic drugs, and innovation – in alignment with State priorities
- Minimizing disruption for small group and individual market
- Maximizing portability of plans, allowing consumers to move between employer and individual coverage while maintaining desired plan
- Affordability
- Administrative simplicity
- Maximizing individual premium tax credits

Factors Driving VHC Plan Designs

Federal Law and Regulations

- Metal Levels & Actuarial Value Calculator
- ACA out of pocket maximum limits of \$6,850 (2016)
 - New for 2016: individual maximum is set at \$6850, which impacts design of two-person & family plans.
- Out of pocket maximums for high deductible health plans was \$5450 in 2015. IRS has not yet released for 2016. Typically, increases about \$100/year.
- Minimum deductibles for high deductible health plans of \$1300 (2015)
 - IRS has not yet released 2016. Typically, increases about \$50 every 2-3 years

Factors Driving VHC Plan Designs

- Vermont prescription drug law
 - Limits out of pocket expenditures for Rx to \$1300 (2015)
- 2012 plan designs reflect the market parameters at that time
 - For example, copay only plans are at gold or platinumequivalent levels

Hybrid Approach to Plan Design

- A hybrid approach of state-specified plan designs and some "choice" plans designed by insurance carriers within set parameters
- 6 specified design options across four actuarial levels:
 - At Platinum: 1 Specified Plan Design
 - At Gold: 1 Specified Plan Design
 - At Silver: 2 Specified Plan Designs
 - At Bronze: 2 Specified Plan Designs
- Additional "Choice" Plans Designed by Insurers submitted through RFP process

11 HEALTH CARE REFORM

Summary of Plans on VHC (2014 – 2015)

- Twenty (20) total medical plans
- DVHA selected 6 standard plans from each carrier
 - At Platinum: 1 BCBSVT & 1 MVP
 - At Gold: 1 BCBSVT & 1 MVP
 - At Silver: 2 BCBSVT & 2 MVP (1 BCBS and 1 MVP maybe paired with an HSA)
 - At Bronze: 2 BCBSVT & 2 MVP(1 BCBS and 1 MVP maybe paired with an HSA)
- FYI: DVHA selected 3 carrier designed plans from each carrier (6 in total)
- Catastrophic plans
- _ 1 BCBSVT and 1 MVP

What is changing for 2016?

Goals:

- Provide certainty & minimize plan design changes for 2016
- Meet new federal maximums and requirements for highdeductible plans (HDHPs)
- Meet federal AV calculator requirements
- GMCB prioritized affordability of primary care services
- No changes to Platinum, Gold, & Stand Alone Dental plans

BRONZE PLAN CHANGES

State of Vermont 2016 Standard Plan Designs	Bronze Deducti	ible Plan Design Options
	Bronze	Bronze
Deductible/OOP Max	2015 Plan Design	2016 Proposed Design
Description of Alternative		Keep PCP/MH and Rx Generic copays at 2015 level, Increase Rx Deductible to offset
General Comments		Deductibles apply to all services/scripts so the coin/copays are not a factor until the ded has been met
Pros of Alternative		Increasing Rx deductible instead of generic copay will incent more generic use
Cons of Alternative		Large Ded/MOOP increases impact high cost members; Drug getting a higher proportional increase in cost sharing than medical services for moderate cost members but drug benefit is currently richer than medical
Гуре of Plan	Deductible	Deductible
Medical Ded	\$3,500	\$4,000
Rx Ded	\$300	\$500
Integrated Ded	No	No
