

Good morning Kate
Could you give this to the committee members.

Dear Committee

Due to last weeks Vermont Supreme Court ruling we again respectfully ask you to vote down S.141.

One of our biggest concerns is that people will not be able to get off the NICS system once they are on.

Because of this case our concerns are well founded.

If you pass this bill out we respectfully ask that there is no waiting period and that you also pass a very limited process that turns over the names of truly violent people. This was included in version 1.1 in the bill.

I will be in the committee today and would love to talk about this if you let me

Respectfully
Ed Cutler
President
Gun Owners of Vermont
