Dear Maxine,

I am writing to you as a private citizen. Please don't think I represent Sugarbush's position on this, as we would not want to take a public stand on this right now.

But as a Waitsfield resident and parent of two teenagers, I support cannabis legalization. I agree with much of what Rob Williams has to say on this issue—that pot is easier to procure than alcohol for teenagers; that taking it out of the black market and regulating it would be beneficial to our state; and that it would present agricultural opportunities for farmers. I do look at marijuana much like alcohol and tobacco—use is an adult choice, and should be regulated as such. I also support extreme measures for those who provide marijuana to minors.

Good luck with all the debate.

Thank you.

Candice White
