Hi Jean,

It gives me great pleasure that I am able to send this URL to you ... the video of the presentation of Dr. Bertha Madras, about Marijuana {Do not legalize.} in Room 11 in the Vermont Statehouse, on Wednesday, Jan. 27, 2016 {"Prevention Awareness Day"} ...

<http://www.mcleanhospital.org/biography/bertha-madras> {very knowledgeable very experienced Harvard Neuroscientist}

Unfortunately, evidently, NO legislators attended any part of this well-researched and well-documented presentation, with so much convincing data and charts !

I am so pleased that someone heard about all this ... and emailed to me this video recording of the 93 minute, 42 second presentation ...

Dr. Bertha Madras - Marijuana/Opiates - ORCA Media Inc. | TelVue CloudCast Video Player

<https://vp.telvue.com/preview?id=T01221&video=263607>

This allows me to view this presentation again ... and it allows me to email the URL to many in the legislature, and to other interested people {such as a very good friend of mine, whose son overdosed on Heroin, after being on Marijuana, and died ... and therefore my friend is now on the Board of <http://acadiafamilycenter.org/> .}

Sincerely ... Peter
