

Mark Perrin 4/22/15

Mark Perrin

From Middlebury, 18 year Board Member...serving our local elementary school and currently our Union District, Supervisory Union, Regional Technical School District and SBE. . I realize that I may be biased when we use the word community because of the Board I've served on.

We 're all brought here because of our desire to see all our students thrive and succeed as contributing members of our community

Student Opportunity

Looks different around the state for various reasons...the data shows this

Student needs are changing and will continue to change

Student centered learning is a commitment we have already made

Efficient Educational Delivery System

Whatever that system is, it needs to be more responsive than what we have now...the data shows this

We need to have sustainable financing through our taxpayer system...the data shows that we are going to be in real trouble if we don't change

Our system needs to be transparent and fair, we don't directly vote on SU budgets and tax payers from efficient, well run educational systems still contribute to the contrary.

Timing

Now that we have focused our attention on the issues, let's not lose the inertia

Thank you for recognizing the importance of the AOE and AHS working together in our schools. This relationship will only help our students achieve success.

Thank you for listening and your diligent work
