**Subject:** Make bad decisions; spend more money than we have, waste federal funds...solution

Fire state employees, who will be unable to get health care, or just cut our benefits. Balancing the budget on the backs of those who truly suffer when they loss \$20 a month is unfair. This is bad business and weakens services that are needed. Take a good look at how top heavy we are in the management.

If we could strike you would have found ways to balance, and been on your way to other state business.

This took 10 minutes of my break. Thank you for your consideration. The work you do is appreciated. As you know, you cannot make everyone happy all the time.
