Subject: re: VTpublic TV funding

Rep. Kitchel,

Though I would not necessarily choose each and every program on their schedule, I feel VT public television offers the best, most family acceptable, highly educational programming available to those of us who choose to purchase the lowest, **least costly** rank of available commercial TV feeders. I feel that outside of news, which is increasingly worthless, and CSPAN, what is shown on the commercial stations is a waste of time: 2 1/2 men is reprehensible; the "reality" shows are pointless; try to find a really uplifting show.

Please continue funding for this one, pleasant, worthwhile site. At least we get the New York state public TV in the western part of Vermont as well as Create and World - also fine public TV channels.

Thank you,  
Ida Mae Johnson
