#### **Agency Mission Statement**

It is the mission of the Agency of Natural Resources to protect, sustain, and enhance Vermont's natural resources for the benefit of this and future generations. To accomplish this mission, the Agency directs its activities to accomplish four primary goals:

- To promote the sustainable use of Vermont's natural resources
- To protect and improve the health of Vermont's people and ecosystems
- To promote sustainable outdoor recreation
- To operate efficiently and effectively as an agency so that we can fulfill our mission.

#### **Agency Vision**

Vermont's environment and natural resources are vital to our quality of life, culture and economy, and environmental stewardship is essential to our collective prosperity, based on a shared ethic of protection, respect and enjoyment of our natural environment.

#### **Agency Values**

Draw from and build upon Vermonter's shared ethic of responsibility for our natural environment, an ethic that encompasses a sense of place, community and quality of life, an understanding that we are an integral part of the environment, and that we must all be responsible stewards for this and future generations. Cultivate stable, efficient, effective, inclusive decision making, informed by science and the rule of law.

#### **Description of Departments**

<u>Department of Fish and Wildlife</u> -- responsible for the conservation and management of Vermont's fish and wildlife resources and the protection of the state's threatened and endangered species.

<u>Department of Forests, Parks and Recreation</u> - responsible for the conservation and management of Vermont's forest resources, the operation and maintenance of the state park system, and the promotion and support of outdoor recreation for Vermonters and our visitors.

<u>Department of Environmental Conservation</u> - responsible for the conservation and management of the state's natural resources and protection of the public health through various grant, regulatory, technical assistance, and public information and education programs.

<u>Agency Central Office (Administration, Management and Planning) -</u> responsible for leadership and oversight of all programs, as well as the financial management, personnel administration, information system management, and legal services for the agency.

#### Agency Key Budget Issues FY17

The Agency's FY17 budget includes FY16 base cuts of 33 positions and \$1.3 million of General Funds related to the Labor Savings and Retirement Incentive initiatives. Plans are being implemented to try to minimize impacts to the public and to our core mission.

The Agency budget proposal includes language that would improve how payment in lieu of taxes (PILOT) is calculated providing more consistent and fair payment to towns.

In Forests, Parks and Recreation, an increase in General Fund support is proposed to reduce the Department's dependency on the Lands and Facilities Trust Fund for base operating expenses.

#### **Agency Central Office Mission Statement**

The mission of the Agency of Natural Resources Central Office is to provide both leadership for agency programs and the support that those programs need to protect, sustain, and enhance Vermont's natural resources for the benefit of this and future generations.

#### **Description of Divisions, Appropriations, and Programs**

The major components of the ANR Administration, Management and Planning appropriation are:

<u>Secretary's Office</u> - The Secretary's Office is responsible for the overall leadership and management of the Agency, oversight of legal services throughout the Agency, and coordination of Agency policy and public information.

Office of General Counsel - The Agency of Natural Resources' Office of General Counsel provides legal assistance and services to the Office of Planning, Department of Environmental Conservation, Department of Fish and Wildlife, and Department of Forests, Parks and Recreation. The range of legal services includes drafting and reviewing policies and permits, rulemaking and providing general advice on Agency matters. The attorneys in the Enforcement and Litigation Section also represent the Agency in litigation before the Environmental Court and other administrative bodies, Act 250 proceedings, and enforcement matters.

Office of Policy and Planning - The Office of Policy and Planning coordinates Agency policy positions in relation to other state agencies, federal agencies and outside stakeholders. The Office also works with Counsel for the Department of Environmental Conservation, the Department of Fish and Wildlife, and the Department of Forests, Parks and Recreation in representing the Agency in proceedings before the Environmental Court, the Public Service Board, and the Natural Resources Board. These proceedings include: (1) Appeals of Agency actions such as the issuance or denial of permits, Appeals of Act 250 permits (2) the review of proposed projects seeking an Act 250 permit, and (3) the review of proposed projects seeking a certificate of public good before the Public Service Board. In addition, members of this Office provide case management for large, complex projects in the Act 250 / Section 248 process, including but not limited to managing timelines for submittals and Agency responses; coordinating intra-Agency discussion of the impacts of a project; and mediating disputes with the applicant, members of the public, and state and federal officials with regard to a project.

<u>Administrative Services Division</u> - The Administrative Services Division is responsible for providing financial management services for the Agency and its departments, preparation and management of the Agency budget, coordination with the Agency of Administration on finance and office operations, personnel administration support, management of Agency offices and other facilities, and logistical support of the Agency's six regional offices.

<u>Information Technology Division</u> - The Information Technology Division is responsible for providing direct information technology services to the entire Agency and to the Agency and Act 250 regional offices, and the development and implementation of the Agency's Information Technology Plan.

<u>Regional Offices -</u> The ANR Central Office appropriation includes funding to support office operations of the Agency's six regional offices, five of which are shared by staff from the Natural Resources Board Act 250 program.

Other Central Office support includes:

An appropriation for payment in lieu of property taxes on lands owned by the Agency.

A pass-through for the Connecticut River Joint Commission, which coordinates with Vermont citizens, municipalities and the State of New Hampshire on issues related to the management and protection of the Connecticut River.

#### **ANR Central Office Key Budget Issues FY17**

The ANR budget proposal includes a new formula for payment in lieu of taxes (PILOT) after a two year moratorium on payments to towns. The new formula would limit impacts to towns, is fair, predictable and easier to administer, and it would prevent the large spiked increases from the past. The budget proposal also includes funding for PILOT increases due to several long planned acquisitions including the conservation project that established the new Molly's Falls State Park.

One IT position has been reduced as part of the FY16 retirement incentive initiative.

Funding support for Vermont Green Up and for the Lake Champlain Basin Program shifts from the Central Office to the Department of Environmental Conservation for FY17.
