The Governor's proposed FY2017 Transportation Budget is \$618 million. This is essentially level funded at a \$2 million increase over last year's budget. State funds (TF + TIB) increased by \$13.5 million (5%) over FY2016.

The Governor's recommended budget is fiscally constrained to our best estimate of available federal funds. Congress recently passed a new Federal Transportation authorization titled "Fixing America's Surface Transportation", or FAST Act. The FAST Act is estimated to provide an additional \$100 million plus to Vermont over the five-year period FFY2016 – FFY2020. And recently enacted Federal FFY2016 transportation appropriations act is estimated to provide an increase of approximately \$10 million in available formula-based FHWA funding over FFY2015 levels. The FAST Act provides greater certainty and reduced risk with respect to future funding levels.

With regard to State funds, this budget assumes passage of a Transportation fee bill estimated to yield \$9.5 million additional transportation revenues beginning in FY2017. We are hopeful that this increase will be sufficient to meet the increased match needs associated with the passage of the FAST Act. An additional \$2.5 million reduction in Transportation Funds appropriated to Public Safety is scheduled to take effect for FY2017.

This budget optimally allocates available transportation resources in a manner that best supports VTrans' vision of a safe, efficient and multimodal transportation system that promotes Vermont's quality of life and economic wellbeing. It emphasizes safety, preservation and maintenance of the existing transportation system, economic development, and energy efficient transportation choices.

A strong economy requires a 21<sup>st</sup> Century infrastructure. This budget makes sound investments in our infrastructure that will support the economy not only by directly supporting jobs in the construction industry, but also by supporting other important economic sectors. Several recent years of record level investment in our infrastructure

are yielding positive results. Since 2008, we have experienced an overall improvement in pavement quality and in the condition of our structures. In 2008, Vermont ranked near the bottom of all states – 45<sup>th</sup> in the nation – for numbers of structurally deficient bridges. By the end of 2014 we improved that ranking to 17<sup>th</sup>. Our percentage of structurally deficient highway bridges has declined from 16.1% in December 2008 to 6.6% in December 2015. We have also made progress at improving our pavement conditions. The percentage of pavements rated in very poor condition declined from a high of 36 percent in 2008 to only 15 percent in 2015, which is a slight increase from 13% in 2014. To continue these gains this budget will advance the repair or replacement of more than 140 bridges, perform preventive maintenance on more than 25 structures, and improve more than 200 miles of pavement.

VTrans continues to emphasize the safety of our transportation system and its users through a solid budget for maintenance and operations. We have enhanced our safety focus through the recently created Office of Highway Safety which contains the Governor’s Highway Safety Program and Highway Safety Data and Analysis. In addition, the recently established Transportation Systems Management and Operations Section will oversee traffic operations, intelligent transportation systems, and traffic research. With a five-year annual average of 61 highway fatalities and hundreds of incapacitating injuries on our highways each year as a result of crashes, VTrans and all of state government continue to work collaboratively to reduce the number of preventable crashes.

Mindful of our continuing energy challenges and our need to drive down our carbon footprint, this transportation budget proposal continues to invest significantly in all modes of transportation including our railroads, public transit systems, airports, and bicycle and pedestrian facilities. This budget funds over \$31 million in public transit including new buses for expansion and bus replacements, new investments in bus arrival information, and some expansion of the intercity bus network. To continue our vision of boosting tourism and mobility along the western corridor, this budget invests \$8.6 million to the rail line to improve track, bridges and crossings which increase safety and efficiencies which will bring us closer to our goal of delivering passenger rail service between Rutland and Burlington. The budget also funds over \$10 million in bicycle and pedestrian infrastructure, and makes significant investments in our state airports to return them to a state of good repair and to foster public/private partnerships that add jobs in Vermont’s growing aviation economy.

The traveling public needs a reliable transportation system, yet a number of bridges, culverts and pavements have exhausted their useful life. We recognize the critical importance of our transportation assets and are incorporating asset management planning into our project prioritization process to maximize the return on our taxpayers’ investment. The Asset Management and Performance Bureau will manage data and performance of infrastructure assets, and develop budgets to maintain our assets. As we seek to improve the efficiency and increase innovation we established an Office of Performance, Innovation and Efficiency in our Finance and Administration Division.

Even as we improve the safety and performance of the system for today’s users, we continue to look to the future by building greater resilience into the roadway network, and by fostering a culture of continuous improvement, customer service and innovation throughout the Agency.

## Program Development

- \$111.1 million for paving. This is an \$11.1 million increase (11 percent) over FY2016. This paving budget demonstrates our continued commitment to improve the condition of the state's highway network. A robust paving program is essential to maintaining the State's existing infrastructure, and supporting Vermonters' safety and mobility. This funding will improve over 200 miles of state highway through traditional resurfacing, district leveling and preventive maintenance treatments. These investments will continue our record of improvements to pavement conditions. The percentage of pavements rated in very poor condition has declined from a high of 36 percent in 2008 to 15 percent in 2015; which is 2 percent higher than the 2014 pavement condition.
- \$105.1 million for bridges. This is an \$11.1 million decrease (10 percent) from FY2016, and is the seventh consecutive year that planned bridge spending has topped \$100 million. The decrease is attributed to reduced levels of available federal funds, and the completion of Irene-related bridge projects. Planned spending on interstate bridges is up \$9 million (20 percent). Planned spending in state bridges is down \$17 million (34 percent). Funding for town highway bridges is down \$3 million (13 percent) from FY2016, which funds 21 town highway bridge projects that are ready for construction and 14 additional projects under development. Recent efforts and funding have allowed VTrans to exceed its performance goals in Interstate, State and Town Highway Bridge Programs which prepares us well to manage future investments in our aging bridge population. This budget funds major construction on 68 bridges and large culverts, and preventive maintenance work on dozens more structures.
- \$31.1 million for roadway. This is a \$12.3 million decrease (28 percent) from FY2016. The roadway budget includes approximately \$5.5 million in construction funds for continued Irene repair work, consisting of improvements to several corridors that were impacted by Irene and the repair of multiple, individual storm damaged sites. The remainder of the funding for the program is primarily infrastructure related for such projects as roadway reconstruction, culvert replacement, and slope/ledge repair/removal. Significant projects include the start of construction activities on the Charlotte US Route 7 reconstruction project, construction activities on Circumferential Highway Alternatives projects including the Essex Crescent Connector, as well as several culvert and slope projects that will serve to both stabilize existing infrastructure and improve safety.
- \$17.4 million for traffic and safety. This is a \$620,000 decrease (3 percent) from FY2016. Highway safety activities for this program are identified through the Highway Safety Improvement Program and the Strategic Highway Safety Plan. As crash data across the state indicates changing trends, this budget will look to refine the partnerships, coalitions and strategies associated with highway safety in those areas. Through this refinement, VTrans and other highway safety partners statewide will take steps to reduce crashes through collaborative approaches. Safety projects anticipated in FY2017 include multiple traffic signal and intersection improvements across the state, a roundabout in Hartford, centerline rumble stripe installations, and a continued emphasis on traffic sign upgrades and pavement markings on the interstate, state, and Class 1 & 2 Town Highways.
- \$2.6 million for park-and-ride facilities. This is a \$73,000 decrease (3 percent) from FY2016. This year's budget proposal includes funds for scoping two park & ride facilities. It also includes construction funds for five park & ride facilities. Of these, two are new facilities and three are being enlarged and/or upgraded. All told this will result in the

addition of over 159 spaces. There is also funding included for seven other projects under design and a line item for new project opportunities that arise. It also includes continued funding of \$250,000 for the municipal park & ride program.

- \$10.1 million for bicycle and pedestrian facilities. This is a \$3.9 million increase (64 percent) from FY2016. Funding should increase in future years as newly awarded projects become ready for construction. The budget funds construction for 35 bicycle and pedestrian projects and four projects funded through the Safe Routes to School program. Funding is included to continue construction on the 92-mile Lamoille Valley Rail Trail and to continue the design of 46 other bicycle and pedestrian and Safe Routes to School projects. State funding for non-federal projects including municipal sidewalks is doubled from \$150,000 to \$300,000. This program was created last year to achieve cost efficiencies by eliminating federal requirements. It also includes design of a statewide project to resurface the Delaware and Hudson Rail Trail and a line item for new projects to be awarded. The Agency will continue planning and integrating these facilities into the State's overall transportation strategy.
- \$4.6 million for transportation alternatives. This is a \$192,000 decrease (4 percent) from FY2016. This budget funds enhancement and transportation alternatives projects that previously received grants and are now ready to proceed. It includes work on 45 projects, including construction funding for 26 projects, and advancement of two scoping studies. It also includes a line item for new projects to be awarded.

358	The Rail Program assists in the development of rail transportation options for shippers and passengers, and provides support to improve the freight and passenger infrastructure.									
359	\$33.9 million for rail. This is a \$1.3 million decrease (4 percent) from FY2016. This budget invests \$4.1 million of State and Federal funds for track and bridge upgrades on the Western Corridor from Burlington to Rutland which will allow increased efficiencies, train speeds and track safety. We are also focusing on crossing improvements and safety upgrades by investing \$4.5 million on 12 crossings on the Western									
360	Corridor which will install new safety equipment and increased train speeds. This budget continues our support for the current Vermonter and the Ethan Allen Amtrak services and also continues to invest in the									
361	expansion of the Ethan Allen service to Burlington. The FY2017 budget will help advance several critical rail projects including: the construction of bridge 219 in Pittsford, and continuing to upgrade our									
362	structures to the 286,000 pound national freight industry standard.

Public Transit: FY 2017 Governor Recommend	7,928,916		23,244,783						31,173,698
<p>The Public Transit Program manages state and federal programs, funding of operating, capital, and technical assistance to transit districts, transit authorities, municipal transit systems and non-profit public transit systems.</p> <p>\$31.2 million for public transit. This is a \$4.1 million increase (15 percent) over FY2016. The increase reflects the need to begin ordering replacement vehicles. Existing Public Transit earmarks for vehicle replacement have been fully expended and we now have to use capital funds. The Administration's ongoing commitment to enhancing mobility for an aging population and efforts to reduce our carbon footprint through advanced commuter runs requires an investment in replacement and expansion of capital equipment. This investment in public transit has brought us to a yearly ridership of just under 5 million. Transit expansion highlights include the increased frequencies on successful routes, new inter-city routes and additional service to new state complex in Waterbury. The continued investment in technology should bring advanced information about bus arrivals and departures in real time and some experimental car and bus hailing services in the rural areas. All of these should enhance mobility, reduce environmental impact and assist with economic development. VTrans is continuing to review the State's public transportation system in collaboration with transit providers to identify ways to improve system efficiencies through route integration, operational improvements, and consideration of organizational restructuring.</p>

349 The Department of Motor Vehicles administers motor vehicle and related laws, promotes highway safety and collects transportation revenues, while providing a high level of customer service and satisfaction in a timely and cost-effective manner.									
350									
351									
352 The Department of Motor Vehicles (DMV) administers motor vehicle and related laws, promotes highway safety and collects transportation revenues, while providing a high level of customer service and									
353 customer satisfaction in a timely and cost effective manner. DMV is responsible for issuing driver licenses, permits, motor vehicle registrations (including snowmobile & motorboat registrations), driver license									
354 suspensions and reinstatements, enforcement of motor-vehicle related laws, and collecting motor fuel revenue for the State of Vermont. The Governor has designated DMV as the lead agency for enforcement									
355 of laws regarding traffic of commercial vehicles. To enhance highway safety and protect our infrastructure, DMV has performance expectations that must be met regarding the number of commercial vehicles									
356 inspected and weighed. The Department also manages several safety programs, including vehicle inspections, motor carrier safety, school bus safety and those related to motorcycle training.									
357									
358 The FY17 budget of \$29 million is an increase of approximately \$1.9 million over last fiscal year. This budget is primarily a maintenance effort budget and will ensure the continuation of DMV services and offerings at all locations. This budget contains \$1.7m restricted funding for IT projects to support development of new technology, as well as upgrades to existing DMV technology.									
359									
360 The DMV is responsible for collecting an estimated \$321 million in taxes and fees during FY17.									
361									
362 FY16 = 236 positions, FY17 = 229 positions (includes 9 retirements, 1 pilot program position and 1 internal transfer)

429	Town Highway Bridge, FY 2016 Governor Recommend	1,232,953	1,421,331	16,162,896		1,204,650		0		20,021,730
430	The Town Highway Bridge Program assists towns with bridge engineering services and for aid in maintaining and constructing bridges having a span of six feet or more on Class 1, 2 and 3 town highways.									
431	Town Highway Bridges: Funding for town highway bridges is decreased by \$2.9 million (13 percent) from FY2016. This budget funds 21 town highway bridge projects that are ready for construction and 14 additional projects under development. Funding largely reflects the project pipeline and project readiness. The Administration remains committed to improving Vermont's town highway system, and the Tri-State Annual Report comparing town highway assets across Maine, New Hampshire, and Vermont is a testament to this fact.									
432										
433										
434										
435										
436										
437	Comments:									
438	Appropriation is entirely project driven.

<b>1</b>	<b>AGENCY NAME:</b> Agency of Transportation
<b>2</b>	<b>DEPARTMENT NAME:</b>
<b>3</b>	<b>DIVISION NAME:</b> Highway
<b>23</b>	<b>NARRATIVE/COMMENTS/STORY: Describe the program. Who/what does it serve? Are there any data limitations or caveats? Explain trend or recent changes. Speak to new initiatives expected to have future impact.</b>
<b>24</b>	The data related to very poor highway mileage for FY 2015 will not be available until approximately December 1, 2015. Once this data is processed the pavement performance measures for FY 2016 and FY 2017 can be predicted (estimated). In FY 2008 and FY 2009 the average annual pavement program budget was approximately \$62 million and about 35% of Vermont state highway miles were rated as very poor. Between FY 2010 and FY 2013 the average annual pavement program budget increased to approximately \$96 million (ranging between \$77 and \$108 million per year), and less than 25% of the state's roadway miles had very poor pavement. In FY 2015 and FY 2016 the Paving Budget is \$115,830,703 and \$84,592,201 respectively with the average for these two years falling into the range previously identified. By utilizing a sophisticated pavement management system, VTrans is able to effectively target the right pavement treatment at the right time to maximize the investment while achieving this performance target. The pavement management system will play a key role as VTrans develops and implements its Asset Management Plan and will help inform trade-off decisions between different programs. To meet the expectations of our customers for smoother roads and to make snow plowing more efficient and effective VTrans has established a pavement leveling program that is implemented by the Operations Bureau outside of the regular pavement program. The leveling program provides a thinner overlay treatment and is applied to the worst road segments to bridge the gap until a longer term pavement treatment can be programmed. The Performance Measure B is based on the calendar year and are reported based in Quarter 3 performance data (09/30/15). Performance metric C represents the "average" condition experienced by someone traveling in our State. It places an emphasis on those roads (and the condition of those pavements) that are traveled most.

<b>1</b>	<b>AGENCY NAME:</b> Agency of Transportation
<b>2</b>	<b>DEPARTMENT NAME:</b>
<b>3</b>	<b>DIVISION NAME:</b> Highway
<b>23</b>	<b>NARRATIVE/COMMENTS/STORY: Describe the program. Who/what does it serve? Are there any data limitations or caveats? Explain trend or recent changes. Speak to new initiatives expected to have future impact.</b>
<b>24</b>	<p>There are 310 long bridges on the interstate system. VTrans inspects these bridges on a regular schedule and in 2015, 5 of these bridges (1.61%) were identified as structurally deficient. The percentage of structurally deficient bridges on the interstate system has decreased significantly from 10.2% in 2008 to 1.6% in 2015. The % of structurally deficient deck area has also decreased from a high of 16.9% in 2008 to the current low of 4.6% in 2015. These improvements coincide with an increase budget for the Interstate Bridge Program from \$5,943,000 in 2008 to \$54,653,015 in 2015. VTrans does not currently have the ability to predict future bridge condition based on possible future expenditures. This is an area of future improvement which we are working on through the development of VTrans' Bridge Management System thus the metric is being reported as TBD (To Be Developed). Between 2006 and 2015 there was a spike in federal funding due to the American Recovery and Reinvestment Act of 2009, and state funding through the Transportation Infrastructure Bond fund established by the Legislature in 2010. The Legislature also approved changes to the state gas tax in 2012 to help mitigate declining revenues resulting from decreasing motor fuel consumption due to improved vehicle fuel efficiency. VTrans is not anticipating any more significant increases in federal and state funding in the near future. To help achieve this performance target with constrained funding, VTrans is creating and implementing a Transportation Asset Management Plan (TAMP) which includes development of bridge deterioration models. These models will help VTrans forecast structural deficiency under different funding scenarios to inform budget needs and guide trade-off decisions. VTrans has also implemented and will continue pursuing innovative project development, contracting and construction techniques to help reduce costs and to deliver projects quicker. Innovation examples include VTrans' Structures Section's Accelerated Bridge Program (ABP), design-build and Contract Manager/General Contractor (CMGC) contracting, and "Bridge in a Backpack" construction methods. Performance Measure B is based on calendar year data and 2015 measures are based on Quarter 3 (09/30/15) performance data. In 2014, there were only 3 projects being reported on; so 2 of the three projects met the criteria for Performance Measure B. In 2015, there were no Interstate Bridge projects so the metric is being reported as 100% even though no projects were delivered.</p>

24	<p>There are 779 long bridges on the state highway system. VTrans inspects these bridges on a regular schedule and in 2015, 51 of these bridges (6.6%) were identified as structurally deficient. The percentage of structurally deficient bridges on the state system, which generally includes roads with VT and US route numbers, has decreased significantly from 20.47% in 2008 to 6.6% in 2015. The % of structurally deficient deck area has also decreased from a high of 17.4% in 2008 to the current low of 5.4% in 2015. These improvements coincide with an increase budget for the Interstate Bridge Program from \$18,201,388 in 2008 to \$71,810,914 in 2015. VTrans does not currently have the ability to predict future bridge condition based on possible future expenditures. This is an area of future improvement which we are working on through the development of VTrans' Bridge Management System. Between 2008 and 2015 there was a spike in federal funding due to the American Recovery and Reinvestment Act of 2009, and state funding through the Transportation Infrastructure Bond fund established by the Legislature in 2010. The Legislature also approved changes to the state gas tax in 2012 to help mitigate declining revenues resulting from decreasing motor fuel consumption due to improved vehicle fuel efficiency. VTrans is not anticipating any more significant increases in federal and state funding in the near future. To help achieve this performance target with constrained funding, VTrans is creating and implementing a Transportation Asset Management Plan (TAMP) which includes development of bridge deterioration models. The models will help VTrans forecast structural deficiency under different funding scenarios to inform budget needs and guide trade-off decisions. VTrans has also implemented and will continue pursuing innovative project development, contracting and construction techniques to help reduce costs and to ensure that projects are delivered on-time and on-budget. Innovation examples include VTrans' Structures Section's Accelerated Bridge Program (ABP), design-build and Contract Manager/General Contractor (CGMC) contracting, and "Bridge in a Backpack" construction methods. Performance Measure B is based on the calendar year and 2015 values were reported based on the 3rd Quarter (09/30/15) performance report.</p>

23	<b>NARRATIVE/COMMENTS/STORY:</b> Describe the program. Who/what does it serve? Are there any data limitations or caveats? Explain trend or recent changes. Speak to new initiatives expected to have future impact.
24	<p>This past year of the Vermont Highway Safety Alliance our membership has increased and so have our partnerships. It is through these partnerships that we can work together to speak with one voice and broadcast a stronger message. VHSA was established to reduce crashes and the resulting injury/tragedies on our highways. Over our three years we have demonstrated many times that “the whole is greater than the sum of the parts.” With the collective efforts of our partnerships during this past year, we have coordinated initiatives such as Teen Driving Month in April, our annual booth at the Champlain Valley Fair, a Road User Rally on the Statehouse lawn in September. We have also continued our Regional Safety Forums, holding events in Lyndon and Bennington.</p> <p>The operating arms of our organization, our Focus Groups, have been integral in various successes since the beginning and especially this year. The Education/Outreach and Marketing team has continued to work on many initiatives throughout the state, with a major accomplishment being the establishment of a website (yscvt.wordpress.com) that allows schools to custom build driver safety fairs for their youth. Our Data group unveiled the crash web query tool that allows anyone to visit the website and find crash data that is pertinent to their town, intersection, user type or demographic. The Law Enforcement team has continued to support the DRE and ARIDE programs as well as focus enforcement efforts throughout the year, including several successful high visibility enforcement campaigns.</p> <p>In addition to efforts noted above, the Board has made a concerted effort this year to establish a marketing plan with the intent of creating unified and consistent messages that will provide our membership and drivers the opportunity to identify to our purpose and mission.</p>

1	<b>AGENCY NAME:</b>	Agency of Transportation
2	<b>DEPARTMENT NAME:</b>	
3	<b>DIVISION NAME:</b>	Policy, Planning & Intermodal Development
23	<b>NARRATIVE/COMMENTS/STORY:</b> Describe the program. Who/what does it serve? Are there any data limitations or caveats? Explain trend or recent changes. Speak to new initiatives expected to have future impact.	
24	<p>Amtrak ridership – ridership declined 4.2% from FY 14 due to the track upgrade work currently undertaken by Massachusetts – which required slowing existing schedule and some busing. The major benefit of the work in Massachusetts is that, when complete, it will greatly improve operating speeds and on-time performance. We anticipate strong annual 5% growth in ridership will follow in the next few years (Actual annual ridership numbers were 100,829 in FFY 2013, 107,688 in FFY 2014 and 103,128 in FFY 2015)</p> <p>Continuously-welded rail - 11 miles of CWR is scheduled for FY 16 with another 11.5 miles to follow in FY 18. This will complete the CWR overhaul between Rutland and Burlington. The major benefit is that it will get the track ready for Amtrak service to Burlington, and improve freight operations.</p> <p>Condition bridge inspections – 178 annual bridge conditions inspections. Prior to FY 14, the agency did not undertake bridge condition inspections on a regular basis. The major benefit of these inspections is that its allowing the agency to identify needed improvements and address them quickly, resulting in increasing the lifecycle of existing bridges, and preventing a system failure that would negatively impact passenger and freight operations.</p>

**FY 2017 GOVERNOR'S BUDGET RECOMMENDATIONS - PROGRAM PERFORMANCE MEASURES**

1	<b>AGENCY NAME:</b> Agency of Transportation
2	<b>DEPARTMENT NAME:</b>
3	<b>DIVISION NAME:</b> Policy, Planning & Intermodal Development
23	<b>NARRATIVE/COMMENTS/STORY:</b> Describe the program. Who/what does it serve? Are there any data limitations or caveats? Explain trend or recent changes. Speak to new initiatives expected to have future impact.
24	Annual transit ridership in Vermont has increased by 9% over the last 5 years despite the CCTA strike in 2014. The transit program budget has continued to grow as new routes have been developed including the new intercity routes which completed their first year of operation in July. This year, Public Transit has begun to document the cost per trip under the new performance measures. Many of the budget increases have been driven by the need for replacing vehicles purchased under much earlier earmarks. Increases in routes have also resulted in a need for additional vehicles. VTrans does not operate transit service but is responsible for planning, administration and oversight of the statewide network of public transit providers. By focusing on system performance, new routes with high ridership potential have been implemented, existing service has been improved to attract new riders and under-performing routes have been identified and either modified to increase performance, or eliminated. External factors such as increased gas prices have also played a role in attracting new transit riders. We have also been proactive by targeting and reaching out to demographic groups, such as the Millennial generation that are inclined to use transit, and to major employers that may be able to reduce parking needs and devote more of their campuses to productive uses. We are also investing in transit that supports independence and aging in place for the elderly and disabled diminishing the need for more institutionalized care and allowing full participation in their communities.

2	<b>DEPARTMENT NAME:</b> Department of Motor Vehicles
3	<b>DIVISION NAME:</b>
23	<b>NARRATIVE/COMMENTS/STORY:</b> Describe the program. Who/what does it serve? Are there any data limitations or caveats? Explain trend or recent changes. Speak to new initiatives expected to have future impact.
24	The FY2015 actual percentage is based on customer wait times reported from two specific branch offices: Rutland and Springfield. Both offices had customers reach a counter within 30 minutes or less in 92% of the time. Wait times are based on the time between when a customer receives a ticket from DMV's automated call-up system to the time they are called to a customer service counter. It is not inclusive of the time it might take to complete the transaction itself. The DMV reports on average wait times for all of its offices and vans each week. In FY2015 wait times in other branch offices ranged from 70% to 88%. This was mostly a result of serving 13% more customers than in prior years and an 11% increase in transactions attributed greatly to the REAL ID license requirements. From a long term perspective, the Department plans to expand internet services and offer self-help kiosks in branch locations in order to best serve the customers. In FY2015 the number of transactions processed through the internet and from self-service kiosks increased by 7.5% over last year. The Department expects this trend will continue.

<b>2</b>	<b>DEPARTMENT NAME:</b>	
<b>3</b>	<b>DIVISION NAME:</b>	Highway

<b>23</b>	<b>NARRATIVE/COMMENTS/STORY: Describe the program. Who/what does it serve? Are there any data limitations or caveats? Explain trend or recent changes. Speak to new initiatives expected to have future impact.</b>
<b>24</b>	<p>There are 1,627 long bridges on the town highways that are eligible for federal funding. VTrans inspects these bridges on a regular schedule and in 2015, 123 of these bridges (7.56%) were identified as structurally deficient. The % of structurally deficient deck area has also decreased from a high of 28.1% in 1995 to the current low of 7.1% in 2015. Since 2008, the Transportation Program has included an average of approximately \$20 million per year for the town highway bridge program varying between \$16 and \$26 million per year. This funding range has produced significant improvement with the percentage of structurally deficient bridges on town highways decreasing from 18.9% in 2008 to 7.56% in 2015. It has been possible to provide a range of funding because there was a spike in federal funding due to the American Recovery and Reinvestment Act of 2009, and state funding through the Transportation Infrastructure Bond fund established by the Legislature in 2010. The Legislature also approved changes to the state gas tax in 2012 to help mitigate declining revenues resulting from decreasing motor fuel consumption due to improved vehicle fuel efficiency. VTrans is not anticipating any more significant increases in federal and state funding in the near future. To help achieve this performance target with constrained funding, VTrans is creating and implementing a Transportation Asset Management Plan (TAMP) which includes development of bridge deterioration models. These models will help VTrans forecast structural deficiency under different funding scenarios to inform budget needs and guide trade-off decisions. VTrans has also implemented and will continue pursuing innovative project development, contracting and construction techniques to help reduce costs and to deliver projects quicker. Innovation examples include VTrans' Structures Section's Accelerated Bridge Program (ABP), design-build and Contract Manager/General Contractor (CMGC) contracting, and "Bridge in a Backpack" construction methods. Performance Measures B is being reported based on Quarter 3 (09/30/15) performance data.</p>
