15 Sec. J.1. FINDINGS AND INTENT

16 (a) The General Assembly finds:

17 (1) Vermont has long relied on economic activity relating to working
18 farms and forestland in the State. These working lands, and the people who
19 work the land, are part of the State's cultural and ecological heritage, and
20 Vermont has made major policy and budget commitments in recent years in
21 support of working lands enterprises. Farm and forest enterprises need a

1 robust system of infrastructure to support their economic and ecological
2 activities, and that infrastructure requires a strong economic base consisting of
3 dealers, manufacturers, and repair facilities. Initiatives to help strengthen farm
4 and forest working land infrastructure are in the best interest of the State.

5 (2) Snowmobiles and all-terrain vehicles have a significant economic
6 impact in the State, including the distribution and sale of these vehicles, use by
7 residents, ski areas, and emergency responders, as well as tourists who come to
8 enjoy riding snowmobiles and all-terrain vehicles in Vermont. It is in the best
9 interest of the State to ensure that Vermont consumers who want to purchase
10 snowmobiles and all-terrain vehicles have access to a competitive marketplace
11 and a strong network of dealers, suppliers, and repair facilities in the State.

12 (3) The distribution and sale of equipment, snowmobiles, and all-terrain
13 vehicles within this State vitally affects the general economy of the State and
14 the public interest and the public welfare, and in order to promote the public
15 interest and the public welfare, and in the exercise of its police power, it is
16 necessary to regulate equipment, snowmobile, and all-terrain vehicle suppliers
17 and their representatives, and to regulate dealer agreements issued by suppliers
18 who are doing business in this State, in order to protect and preserve the
19 investments and properties of the citizens of this State.

20 (4) There continues to exist an inequality of bargaining power between
21 equipment, snowmobile, and all-terrain vehicle suppliers and the independent

1 dealer network. This inequality of bargaining power enables equipment,
2 snowmobile, and all-terrain vehicle suppliers to compel dealers to execute
3 dealer agreements, related contracts, and addenda that contain terms and
4 conditions that would not routinely be agreed to by the equipment,
5 snowmobile, and all-terrain vehicle dealer if this inequality did not exist. It
6 therefore is in the public interest to enact legislation to prevent unfair or
7 arbitrary treatment of equipment, snowmobile, and all-terrain vehicle dealers
8 by equipment, snowmobile, and all-terrain vehicle suppliers. It is also in the
9 public interest that Vermont consumers, municipalities, businesses, and others
10 that purchase equipment, snowmobiles, and all-terrain vehicles in Vermont
11 have access to a robust independent dealer network to obtain competitive
12 prices when purchasing these items and to obtain warranty, recall, or other
13 repair work.

14 (b) It is the intent of the General Assembly that this act be liberally
15 construed in order to achieve its purposes.

16 Sec. J.2. 9 V.S.A. chapter 107 is amended to read:
