

State Employees shared savings pilot program

Sec. X. STATE EMPLOYEES SHARED SAVINGS PILOT PROGRAM

The Commissioner of Human Resources, in consultation with the Vermont State Employees Association, shall develop a pilot program for fiscal year 2016 to explore using the price differentials between health care providers for the same services in an effort to reduce State health care expenditures for health care services delivered to State employees by at least \$500,000.00 below projections. The pilot may accrue all savings to the State or use a shared savings model in which some of the financial savings accrue to the State and some to the employee.
