

ExxonMobil will continue to be dedicated to building scientific understanding as well as advocating for sound and principled policies that can help build a better future for all.

In response to the misinformation campaign directed at our company, we have made more readily accessible to the public a plethora of original documents and other relevant archival material on our website at www.exxonmobil.com/climatereports. We strongly urge the Committee and all interested persons to read these documents for themselves and draw their own conclusions.

Sincerely,

A handwritten signature in black ink, appearing to read "Jack Quinn". The signature is fluid and cursive, with a large initial "J" and a long, sweeping tail.

Jack Quinn
Northeast State Government Relations Manager
Exxon Mobil Corporation
