December 1, 2013

Dear Patient:

Green Mountain Urology will be integrating its practice into Fletcher Allen Urology in the Colchester and Middlebury offices as of December 1, 2013.

Please note that nothing about our patient care will change. We will continue to see patients at both our Colchester and Middlebury locations, with Dr. Grunert also seeing patients at the existing Fletcher Allen location in St. Albans in the Doctor's Office Commons. As part of the University of Vermont Medical Group at Fletcher Allen, we remain as committed as ever to providing you with the highest quality of care possible.

The only change you should notice is that after December 1, you will receive bills for your visits to us from Fletcher Allen Health Care. Additionally, your paper-based patient medical records are now securely located within Fletcher Allen's Health Information Management's Holly Court Service Center. For information on how to gain access to your patient records, please call 802-847-2846.

Becoming part of Vermont's only university hospital provides us – and you – with greater resources to draw on during this time of significant changes in the health care environment. We feel confident that this move will benefit you and our practice. Please feel free to contact either one of us at 802-655-4900 (Dr. Grunert) or 802-388-3899 (Dr. Mahoney) with any questions.

Sincerely,

Richard T. Grunert, MD
Andrew C. Mahoney, MD
