Subject: Tobacco Free Grounds Grant Requirement

Dear Providers,

The Agency of Human Services will not take any remedial action against the designated agencies or preferred providers for failure to achieve 100 percent tobacco-free facilities by July 1, 2015. Over the next several weeks ADAP will work with the provider agencies to develop a clear plan for working towards tobacco free environments as well as a future agreed upon date for full implementation.

Cindy Thomas will be in touch with you regarding next steps to developing a plan and benchmarks.

Thank you,
Barbara

Barbara Cimaglio
Deputy Commissioner
Alcohol and Drug Abuse Programs
