Sec. xx. MIDDLEBURY RAILROAD TUNNEL; CLEARANCE

Notwithstanding 5 V.S.A. § 3670, the Agency of Transportation, Vermont Railway, Inc., and the Town of Middlebury may proceed with design and construction of federal-aid Highway Project Middlebury WCRS(23) (new railroad tunnel to replace existing bridges carrying Merchants Row (TH #8) and Main Street (VT 30/TH #2) over Vermont Railway) to provide minimum vertical clearance of 21' - 0" over the highest track elevation should the Agency determine that such clearance is cost effective, given the complexities of the project site.
