H.431

SHORT FORM

Introduced by Representative McCormack of Burlington

Referred to Committee on

Date:

Subject: Utilities; electric; grid; cyber attack; electromagnetic pulse attack;
severe solar storm; manual backup

Statement of purpose of bill as introduced: This bill proposes to require all
electric utilities to take measures to ensure the safety of the electrical power
grid in the event of a cyber attack or an electromagnetic pulse attack or severe
solar storm. Such measures include the installation of a manual control backup
system.

An act relating to securing the safety of the electrical power grid from an
electromagnetic pulse attack or severe solar storm

It is hereby enacted by the General Assembly of the State of Vermont:
