

S.285

An act relating to universal recycling requirements.

The House proposes to the Senate to amend the bill by striking all after the enacting clause and inserting in lieu thereof the following:

\* \* \* Solid Waste Management Facility Requirements \* \* \*

Sec. 1. 10 V.S.A. § 6605 is amended to read:

§ 6605. SOLID WASTE MANAGEMENT FACILITY CERTIFICATION

(a)(1) No person shall construct, substantially alter, or operate any solid waste management facility without first obtaining certification from the Secretary for such facility, site, or activity, except for sludge or septage treatment or storage facilities located within the fenced area of a domestic wastewater treatment plant permitted under chapter 47 of this title. This exemption for sludge or septage treatment or storage facilities shall exist only if:

(A) the treatment facility does not ~~utilize~~ use a process to ~~further~~ reduce pathogens further in order to qualify for marketing and distribution; and

(B) the facility is not a drying bed, lagoon, or nonconcrete bunker; and

(C) the owner of the facility has submitted a sludge and septage management plan to the Secretary and the Secretary has approved the plan.

Noncompliance with an approved sludge and septage management plan shall

constitute a violation of the terms of this chapter, as well as a violation under chapters 201 and 211 of this title.

(2) Certification shall be valid for a period not to exceed 10 years.

(b) Certification for a solid waste management facility, where appropriate, shall:

\* \* \*

(3)~~(A)~~ Specify the projected amount and types of waste material to be disposed of at the facility, which, in case of landfills and incinerators, shall include the following:

~~(A)~~(i) if the waste is being delivered from a municipality that has an approved implementation plan, hazardous materials and recyclables shall be removed from the waste according to the terms of that implementation plan;

~~(B)~~(ii) except as provided in subdivision (B) of this subdivision (3), if the waste is being delivered from a municipality that does not have an approved implementation plan, leaf and yard residuals shall be removed from the waste stream, and 100 percent of each of the following shall be removed from the waste stream: mandated recyclables, hazardous waste from households, and hazardous waste from small quantity generators.

(B) If waste delivered to the facility is process residuals from a material recovery facility, the facility receiving the waste shall not be required to remove 100 percent of mandated recyclables from the process residuals if the facility receiving the waste has a plan approved by the Secretary to remove

mandated recyclables from the process residuals to the maximum extent practicable.

\* \* \*

(j) A facility certified under this section that offers the collection of municipal solid waste shall:

(1) Beginning on July 1, 2014, collect mandated recyclables separate from other solid waste and deliver mandated recyclables to a facility maintained and operated for the management and recycling of mandated recyclables. A facility shall not be required to accept mandated recyclables from a commercial hauler.

(2) Beginning on July 1, 2015, collect leaf and yard residuals between April 1 and December 15 separate from other solid waste and deliver leaf and yard residuals to a location that manages leaf and yard residuals in a manner consistent with the priority uses established under subdivisions 6605k(a)(3)-(5) of this title.

(3) Beginning on July 1, 2017, collect food residuals separate from other solid waste and deliver food residuals to a location that manages food residuals in a manner consistent with the priority uses established under subdivisions 6605k(a)(2)-(5) of this title.

\* \* \*

~~(l) A facility certified under this section that offers the collection of municipal solid waste shall not charge a separate fee for the collection of~~

~~mandated recyclables.~~ A facility certified under this section may incorporate the cost of the collection of mandated recyclables into the cost of the collection of municipal solid waste and may adjust the charge for the collection of municipal solid waste. A facility certified under this section may charge a separate fee for the collection of mandated recyclables, leaf and yard residuals, or food residuals. ~~If a facility collects mandated recyclables from a commercial hauler, the facility may charge a fee for the collection of those mandated recyclables.~~

\* \* \*

\* \* \* Commercial Hauler Requirements \* \* \*

Sec. 2. 10 V.S.A. § 6607a is amended to read:

§ 6607a. WASTE TRANSPORTATION

(a) A commercial hauler desiring to transport waste within the State shall apply to the Secretary for a permit to do so, by submitting an application on a form prepared for this purpose by the Secretary and by submitting the disclosure statement described in section 6605f of this title. These permits shall have a duration of five years and shall be renewed annually. The application shall indicate the nature of the waste to be hauled. The Secretary may specify conditions that the Secretary deems necessary to assure compliance with State law.

(b) As used in this section:

(1) “Commercial hauler” means:

(A) any person that transports regulated quantities of hazardous waste; and

(B) any person that transports solid waste for compensation in a vehicle.

(2) The commercial hauler required to obtain a permit under this section is the legal or commercial entity that is transporting the waste, rather than the individual employees and subcontractors of the legal or commercial entity. In the case of a sole proprietorship, the sole proprietor is the commercial entity.

(3) The Secretary shall not require a commercial hauler to obtain a permit under this section, comply with the disclosure requirements of this section, comply with the reporting and registration requirements of section 6608 of this title, or pay the fee specified in 3 V.S.A. § 2822, if:

(A) the commercial hauler does not transport more than four cubic yards of solid waste at any time; and

(B) the solid waste transportation services performed are incidental to other nonwaste transportation-related services performed by the commercial hauler.

\* \* \*

(g)(1) Except as set forth in subdivisions (2), (3), and (4) of this subsection, a commercial hauler that offers the collection of municipal solid waste ~~shall~~:

(A) Beginning on July 1, 2015, shall offer to collect mandated recyclables ~~separated~~ separate from other solid waste and deliver mandated

recyclables to a facility maintained and operated for the management and recycling of mandated recyclables.

~~(B) Beginning on July 1, 2016, offer to collect leaf and yard residuals separate from other solid waste and deliver leaf and yard residuals to a location that manages leaf and yard residuals in a manner consistent with the priority uses established under subdivisions 6605k(a)(3)-(5) of this title.~~

~~(C)~~ Beginning on July 1, ~~2018, 2020~~, offer collection of food residuals separate from other solid waste and deliver to a location that manages food residuals in a manner consistent with the priority uses established under subdivisions 6605k(a)(2)-(5) of this title.

(2) In a municipality that has adopted a solid waste management ordinance addressing the collection of mandated recyclables, ~~leaf and yard residuals~~, or food residuals, a commercial hauler in that municipality is not required to comply with the requirements of subdivision (1) of this subsection and subsection (h) of this section for the material addressed by the ordinance if the ordinance:

(A) is applicable to all residents of the municipality;

(B) prohibits a resident from opting out of municipally provided solid waste services; and

(C) does not apply a variable rate for the collection for the material addressed by the ordinance.

(3) A commercial hauler is not required to comply with the requirements of subdivision (1)(A), ~~(B)~~, ~~or (C)~~ or (B) of this subsection in a specified area within a municipality if:

(A) the Secretary has approved a solid waste implementation plan for the municipality;

(B) for purposes of waiver of the requirements of subdivision (1)(A) of this subsection (g), the Secretary determines that under the approved plan:

(i) the municipality is achieving the per capita disposal rate in the State Solid Waste Plan; and

(ii) the municipality demonstrates that its progress toward meeting the diversion goal in the State Solid Waste Plan is substantially equivalent to that of municipalities complying with the requirements of subdivision (1)(A) of this subsection (g);

(C) the approved plan delineates an area where solid waste management services required by subdivision (1)(A), ~~(B)~~, ~~or (C)~~ or (B) of this subsection (g) are not required; and

(D) in the delineated area, alternatives to the services, including on-site management, required under subdivision (1)(A), ~~(B)~~, ~~or (C)~~ or (B) of this subsection (g) are offered, the alternative services have capacity to serve the needs of all residents in the delineated area, and the alternative services are convenient to residents of the delineated area.

(4) A commercial hauler is not required to comply with the requirements of subdivision (1)(A), ~~(B), or (C)~~ or (B) of this subsection for mandated recyclables, ~~leaf and yard residuals,~~ or food residuals collected as part of a litter collection.

(h) A commercial hauler certified under this section that offers the collection of municipal solid waste may not charge a separate line item fee on a bill to a residential customer for the collection of mandated recyclables, provided that a commercial hauler may charge a fee for all service calls, stops, or collections at a residential property and a commercial hauler may charge a tiered or variable fee based on the size of the collection container provided to a residential customer or the amount of waste collected from a residential customer. A commercial hauler certified under this section may incorporate the cost of the collection of mandated recyclables into the cost of the collection of solid waste and may adjust the charge for the collection of solid waste. A commercial hauler certified under this section that offers the collection of solid waste may charge a separate fee for the collection of ~~leaf and yard residuals or~~ food residuals from a residential customer.

(i) A commercial hauler that operates a bag-drop or fast-trash site at a fixed location to collect municipal solid waste shall offer at the site all collection services required under 10 V.S.A. § 6605(j).

Sec. 3. UNIVERSAL RECYCLING STAKEHOLDER GROUP;  
COMMERCIAL HAULER SERVICES; FOOD RESIDUAL  
COLLECTION SERVICES

(a) The Agency of Natural Resources has convened a Universal Recycling Stakeholder Group to provide valuable input, advice, and assistance to the Agency and the State in the implementation of 2012 Acts and Resolves No. 148 (Act 148). The work of the Stakeholder Group has been integral to the successful implementation of Act 148 and the work of the Stakeholder Group is commended by the General Assembly.

(b) As part of the ongoing Agency of Natural Resource's Universal Recycling Stakeholder Group, the Secretary of Natural Resources shall seek the input of the Stakeholder Group regarding the requirement under 10 V.S.A. § 6607a(g) that commercial solid waste haulers offer the service of collection of food residuals separate from other solid waste beginning July 1, 2020. The Secretary shall request that the Stakeholder Group review whether:

(1) the requirements under subsection 6607a(g) should be amended so that commercial haulers are only required to offer collection of food residuals:

(A) in municipalities, solid waste management districts, or other areas based on population, housing, or route density; or

(B) based on other appropriate criteria specified by the Working Group.

(2) sufficient regional capacity to process food residuals is available to allow for the collection of food residuals by all commercial solid waste haulers beginning on July 1, 2020.

(b) The Secretary of Natural Resources, after consultation with the Universal Recycling Stakeholder Group, shall include in the report the Agency shall submit under 6604(b) of this title recommendations addressing subdivisions (a)(1) and (2) of this section.

\* \* \* Food Residual Management \* \* \*

Sec. 4. 10 V.S.A. § 6605k(b) is amended to read:

(b) A person who produces more than an amount identified under subsection (c) of this section in food residuals ~~and is located within 20 miles of a certified organics management facility that has available capacity and that is willing to accept the food residuals~~ shall:

(1) ~~Separate~~ separate food residuals from other solid waste, provided that a de minimis amount of food residuals may be disposed of in solid waste when a person has established a program to separate food residuals and the program includes a component for the education of program users regarding the need to separate food residuals; and

(2) ~~Arrange~~ arrange for the transfer of food residuals to a location that manages food residuals in a manner consistent with the priority uses established under subdivisions (a)(2)-(5) of this section or shall manage food residuals on site.

\* \* \* Effective Dates \* \* \*

Sec. 5. EFFECTIVE DATES

(a) This act shall take effect on passage, except that Sec. 4 (food residuals)  
shall take effect on July 1, 2020.
