* * * Vermont Milk Commission * * *

Sec. 3. VERMONT MILK COMMISSION; EQUITABLE DAIRY PRICING

(a) The General Assembly finds that:

(1) The price that farmers from northeastern states, including Vermont, receive for milk is not set by supply and demand in the free market, but instead is set by the terms of a federal marketing order known as the Northeast Marketing Area Federal Order 1 (Milk Marketing Order).

(2) The Milk Marketing Order does not reflect the actual cost to farmers of milk production.

(3) The Milk Marketing Order is dependent on commodity prices and other market influences that lead to significant fluctuations in the price provided to farmers.

(4) Because of the Milk Market Order, farmers lose money on milk production, and because of the volatility of the market, farmers cannot predictably plan for investment to decrease production costs.

(5) The Vermont Milk Commission was established, in part, to ensure the continuing economic vitality of the dairy industry by stabilizing the price received by farmers for milk at a level allowing them an equitable rate of return.

(6) The Secretary of Agriculture, Food and Markets should reconvene the Vermont Milk Commission to work with interested parties, including other states, to recommend to the U.S. Congress through the Vermont congressional delegation a replacement to the Milk Marketing Order that ensures farmers are provided with an equitable price for milk.

(b) As soon as practical and no later than September 1, 2017, the Secretary

of Agriculture, Food and Markets shall convene the Vermont Milk Commission under 6 V.S.A. chapter 162 to propose changes to the federal Northeast Marketing Area Federal Order 1 that provide farmers in Vermont with an equitable price for milk that reflects better the actual cost of dairy production. The Vermont Milk Commission shall:

(1) Analyze the current status of the milk market to identify areas or issues that could be addressed in an amendment to the Milk Marketing Order.

(2) Collaborate with interested parties, including other Northeastern states, to develop a proposed amendment to or replacement of the current Milk Marketing Order for the northeast. The proposed amendment or replacement shall be designed to:

(A) provide farmers with an equitable price for milk that is based on the costs of production; and

(B) eliminate or reduce provisions in the Milk Marketing Order that facilitate price volatility in the milk market.

(3) Submit a proposed amendment to or replacement of the Milk Marketing Order to the Senate Committee on Agriculture and the House Committee on Agriculture and Forestry on or before January 15, 2018.

(4) After review by the General Assembly, submit to the congressional delegation of Vermont the proposed amendment to or replacement of the Milk Marketing Order so that the U.S. Congress may amend the Milk Marketing Order.

(c) Except for the two legislative members of the Commission, the per diem compensation and reimbursement to which a member of the Commission is entitled shall be paid from the budget of the Agency of Agriculture, Food and Markets.

* * * Development Cabinet * * *

Sec. 4. 3 V.S.A. § 2293(b) is amended to read:

(b) Development Cabinet.

(1)(A) A The Development Cabinet is created, to consist of the Secretaries of ~~the Agencies of~~ Administration, of Agriculture, Food and Markets, of Commerce and Community Development, of Education, of Natural Resources, and of Transportation.

(B) The Governor or ~~the Governor's~~ designee shall chair the Development Cabinet.

(2) The Development Cabinet shall advise the Governor on how best to implement the purposes of this section, and shall recommend changes as

appropriate to improve implementation of those purposes.

* * * Energy Efficiency * * *

Sec. 5. 30 V.S.A. § 209(d)(3) is amended to read:

(3) Energy efficiency charge; regulated fuels. In addition to its existing authority, the Board may establish by order or rule a volumetric charge to customers for the support of energy efficiency programs that meet the requirements of section 218c of this title. The charge shall be known as the energy efficiency charge, shall be shown separately on each customer's bill, and shall be paid to a fund administrator appointed by the Board and deposited into an Electric Efficiency Fund. When such a charge is shown, notice as to how to obtain information about energy efficiency programs approved under

this section shall be provided in a manner directed by the Board. This notice shall include, at a minimum, a toll-free telephone number, and to the extent feasible shall be on the customer's bill and near the energy efficiency charge.

* * *

(B) The charge established by the Board pursuant to this subdivision (3) shall be in an amount determined by the Board by rule or order that is consistent with the principles of least-cost integrated planning as defined in section 218c of this title.

(i) As circumstances and programs evolve, the amount of the charge shall be reviewed for unrealized energy efficiency potential and shall be adjusted as necessary in order to realize all reasonably available, cost-effective, energy efficiency savings.

(ii) In setting the amount of the charge and its allocation, the Board shall determine an appropriate balance among the following objectives; provided, however, that particular emphasis shall be accorded to the first four of these objectives: reducing the size of future power purchases; reducing the generation of greenhouse gases; limiting the need to upgrade the State's transmission and distribution infrastructure; minimizing the costs of electricity; reducing Vermont's total energy demand, consumption, and expenditures; providing efficiency and conservation as a part of a comprehensive resource supply strategy; providing the opportunity for all Vermonters to participate in efficiency and conservation programs; and targeting efficiency and conservation efforts to locations, markets, or customers where they may provide the greatest value.

(iii) The Board, by rule or order, shall establish a process by which a customer who pays an average annual energy efficiency charge under this subdivision (3) of at least \$5,000.00 may apply to the Board to self-administer energy efficiency through the use of an energy savings account, which shall contain a percentage of the customer's energy efficiency charge payments as determined by the Board. The remaining portion of the charge shall be used for systemwide energy benefits. The Board in its rules or order shall establish criteria for approval of these applications.

(iv) For one three-year period, the customer for the account of a manufacturing facility located in an industrial park in a small town or rural area may apply to self-administer energy efficiency programs and measures in lieu of paying the energy efficiency charge on the account.

(I) As used in this subdivision (I), "rural area," "small town," and "industrial park" shall have the same meaning as set forth in 10 V.S.A. § 325m.

(II) A customer seeking approval under this subdivision (iv) shall agree to invest, over a three-year period, an average annual dollar amount on cost-effective energy programs and measures equivalent to:

(aa) 75 percent of its most recent annual energy efficiency charge amount; or

(bb) if the customer has not previously paid an annual energy efficiency charge, 75 percent of the customer's estimated net annual kilowatt hours to be consumed multiplied by the applicable energy efficiency charge, provided that the customer shall submit to the Board the actual amount of kilowatt hours consumed in the first calendar year of self-administration so that the Board can determine if the customer shall be responsible for additional investment in energy programs and measures.

(III) Cost-effective energy programs and measures may include investment in on-site renewable generation, if cost-effective and part of a comprehensive program for the facility that includes energy efficiency measures. Annual financing payments of a cost-effective energy program or measure under this subdivision are allowable investment in calculating a customer's average investment on cost-effective energy programs or measures over a three-year period.

(IV) The Board shall develop criteria for approval of these applications.

(V) A customer shall self-administer under this subdivision for one three-year period and may not reapply for successive terms. At the conclusion of the three-year period, the customer shall pay the energy efficiency charge as part of the customer's electric bill.
