Pending Question: Shall the recommendation of amendment of the Committee on Health and Welfare be amended as moved by Senator Ingram?

Text of recommendation of amendment of the Committee on Health and Welfare:

The Committee has recommended that the bill be amended in Sec. 1, findings, by striking out subsection (f) in its entirety and inserting in lieu thereof a new subsection (f) to read as follows:

(f) A 2015 National Academy of Medicine report found that increasing the minimum age of legal access to tobacco products from 18 to 21 years of age would reduce the rate of tobacco use by 12 percent and would decrease smoking-related deaths by 10 percent.

Text of Senator Ingram's motion to amend:

Senator Ingram has moved to amend the recommendation of amendment of the Committee on Health and Welfare by adding a new section to the bill to be numbered Sec. 8 to read as follows:

Sec. 8. EXEMPTIONS; PERSONS ATTAINING 18 YEARS OF AGE ON OR BEFORE JULY 1, 2017

UNFINISHED BUSINESS OF THURSDAY, APRIL 20, 2017

House Proposal of Amendment

S. 22

An act relating to increased penalties for possession, sale, and dispensation of fentanyl.

The House proposes to the Senate to amend the bill by striking out all after the enacting clause and inserting in lieu thereof the following:

Sec. 1. LEGISLATIVE FINDINGS

The General Assembly finds:

(1) According to Michael Botticelli, former Director of the Office of National Drug Control Policy, the National Drug Control Strategy recommends treating “addiction as a public health issue, not a crime.” Further, the strategy “rejects the notion that we can arrest and incarcerate our way out of the nation’s drug problem.”

(2) Vermont Chief Justice Paul Reiber has declared that “the classic approach of ‘tough on crime’ is not working in [the] area of drug policy” and that treatment-based models are proving to be a more effective approach for dealing with crime associated with substance abuse.

(3) A felony conviction record is a significant impediment to gaining and maintaining employment and housing, yet we know that stable employment and housing are an essential element to recovery from substance abuse and desistance of criminal activity that often accompanies addiction.

(4) In a 2014 study by the PEW Research Center, 67 percent of people polled said government should focus more on providing treatment to people who use illicit drugs and less on punishment. The Center later reported that states are leading the way in reforming drug laws to reflect this opinion. State-level actions have included lowering penalties for possession and use of illegal drugs, shortening mandatory minimums or curbing their applicability, removing automatic sentence enhancements, and establishing or extending the jurisdiction of drug courts and other alternatives to the regular criminal justice system.

(5) Vermont must look at alternative approaches to the traditional criminal justice model for addressing low-level illicit drug use if it is going to reduce the effects of addiction and addiction-related crime in this State.

Sec. 2. STUDY

(a) The Office of Legislative Council shall examine the issue of a public health approach to low-level possession and use of illicit and regulated drugs,

including fentanyl, in Vermont as an alternative to the traditional criminal justice model, looking to trends both nationally and internationally, with a goal of providing policymakers a range of approaches to consider during the 2018 legislative session.

(b) The Office of Legislative Council shall report its findings to the General Assembly on or before November 15, 2017.

Sec. 3. 18 V.S.A. § 4234b is amended to read:

§ 4234b. EPHEDRINE AND PSEUDOEPHEDRINE

* * *

(c) Electronic registry system.

(1)(A) Retail establishments shall use an electronic registry system to record the sale of products made pursuant to subsection (b) of this section. The electronic registry system shall have the capacity to block a sale of nonprescription drug products containing ephedrine base, pseudoephedrine base, or phenylpropanolamine base that would result in a purchaser exceeding the lawful daily or monthly amount. The system shall contain an override function that may be used by an agent of a retail establishment who is dispensing the drug product and who has a reasonable fear of imminent bodily harm to his or her person or to another person if the transaction is not completed. The system shall create a record of each use of the override mechanism.

(B) The electronic registry system shall be available free of charge to the State of Vermont, retail establishments, and local law enforcement agencies.

(C) The electronic registry system shall operate in real time to enable communication among in-state users and users of similar systems in neighboring states.

(D) The State shall use the National Precursor Log Exchange (NPLEx) online portal or its equivalent to host Vermont's electronic registry system.

(2)(A) Prior to completing a sale under subsection (b) of this section, a retail establishment shall require the person purchasing the drug product to present a current, valid government-issued identification document. The retail establishment shall record in the electronic registry system:

(i) the name and address of the purchaser;

(ii) the name of the drug product and quantity of ephedrine, pseudoephedrine, and phenylpropanolamine base sold in grams;

(iii) the date and time of purchase;

(iv) the form of identification presented, the issuing government entity, and the corresponding identification number; and

(v) the name of the person selling or furnishing the drug product.

(B)(i) If the retail establishment experiences an electronic or mechanical failure of the electronic registry system and is unable to comply with the electronic recording requirement, the retail establishment shall maintain a written log or an alternative electronic record-keeping mechanism until the retail establishment is able to comply fully with this subsection (c).

(ii) If the region of the State where the retail establishment is located does not have broadband Internet access, the retail establishment shall maintain a written log or an alternative electronic record-keeping mechanism until broadband Internet access becomes accessible in that region. At that time, the retail establishment shall come into compliance with this subsection (c).

(C) A retail establishment shall maintain all records of drug product purchases made pursuant to this subsection (c) for a minimum of two years.

(3) A retail establishment shall display a sign at the register provided by NPLeX or its equivalent to notify purchasers of drug products containing ephedrine, pseudoephedrine, or phenylpropanolamine base that:

(A) the purchase of the drug product or products shall result in the purchaser's identity being listed on a national database; and

(B) the purchaser has the right to request the transaction number for any purchase that was denied pursuant to this subsection (c).

(4) Except as provided in subdivision (5) of this subsection (c), a person or retail establishment that violates this subsection shall:

(A) for a first violation be assessed a civil penalty of not more than \$100.00; and

(B) for a second or subsequent violation be assessed a civil penalty of not more than \$500.00.

(d) This section shall not apply to a manufacturer ~~which~~ that has obtained an exemption from the Attorney General of the United States under Section 711(d) of the federal Combat Methamphetamine Epidemic Act of 2005.

(e) As used in this section:

(1) "Distributor" means a person, other than a manufacturer or wholesaler, who sells, delivers, transfers, or in any manner furnishes a drug

product to any person who is not the ultimate user or consumer of the product.

(2) “Knowingly” means having actual knowledge of the relevant facts.

(3) “Manufacturer” means a person who produces, compounds, packages, or in any manner initially prepares a drug product for sale or use.

(4) “Wholesaler” means a person, other than a manufacturer, who sells, transfers, or in any manner furnishes a drug product to any other person for the purpose of being resold.

Sec. 5. EFFECTIVE DATES

This section and Sec. 3 (ephedrine and pseudoephedrine) shall take effect on passage. The remaining sections shall take effect on July 1, 2017.

And that after passage the title of the bill be amended to read:

An act relating to alternative approaches to addressing low-level illicit drug use and the ephedrine and pseudoephedrine registry.

Reported favorably with recommendation of proposal of amendment by Senator MacDonald for the Committee on Natural Resources and Energy.

Sec. 1. FINDINGS; PURPOSE

(a) Findings. The General Assembly finds as follows:

(1) In 1969, Governor Deane Davis by executive order created the Governor's Commission on Environmental Control, which consisted of 17 members and became known as the Gibb Commission because it was chaired by Representative Arthur Gibb.

(2) The Gibb Commission's recommendations, submitted in 1970, included a new State system for reviewing and controlling plans for large-scale and environmentally sensitive development. The system was not to be centered in Montpelier. Instead, the power to review projects and grant permits would be vested more locally, in commissions for districts within the State.

(3) In 1970, the General Assembly enacted 1970 Acts and Resolves No. 250, an act to create an environmental board and district environmental commissions. This act is now codified at 10 V.S.A. chapter 151 and is commonly known as Act 250. In Sec. 1 of Act 250 (the Findings), the General Assembly found that:

(A) "the unplanned, uncoordinated and uncontrolled use of the lands and the environment of the state of Vermont has resulted in usages of the lands and the environment which may be destructive to the environment and which are not suitable to the demands and needs of the people of the state of Vermont";

(B) "a comprehensive state capability and development plan and land use plan are necessary to provide guidelines for utilization of the lands and environment of the state of Vermont and to define the goals to be achieved through land environmental use, planning and control";

(C) "it is necessary to establish an environmental board and district environmental commissions and vest them with the authority to regulate the use of the lands and the environment of the state according to the guidelines and goals set forth in the state comprehensive capability and development plan

and to give these commissions the authority to enforce the regulations and controls”; and

(D) “it is necessary to regulate and control the utilization and usages of lands and the environment to insure that, hereafter, the only usages which will be permitted are not unduly detrimental to the environment, will promote the general welfare through orderly growth and development and are suitable to the demands and needs of the people of this state.”

(4) In 1973 Acts and Resolves No. 85, Secs. 6 and 7, the General Assembly adopted the Capability and Development Plan (the Plan) called for by Act 250. Among the Plan’s objectives are:

(A) “Preservation of the agricultural and forest productivity of the land, and the economic viability of agricultural units, conservation of the recreational opportunity afforded by the state’s hills, forests, streams and lakes, wise use of the state’s non-renewable earth and mineral reserves, and protection of the beauty of the landscape are matters of public good. Uses which threaten or significantly inhibit these resources should be permitted only when the public interest is clearly benefited thereby.”

(B) “Increased demands for and costs of public services, such as schools, road maintenance, and fire and police protection must be considered in relation to available tax revenues and reasonable public and private capital investment. . . . Accordingly, conditions may be imposed upon the rate and location of development in order to control its impact upon the community.”

(C) “Strip development along highways and scattered residential development not related to community centers cause increased cost of government, congestion of highways, the loss of prime agricultural lands, overtaxing of town roads and services and economic or social decline in the traditional community center.”

(D) “Provision should be made for the renovation of village and town centers for commercial and industrial development, where feasible, and location of residential and other development off the main highways near the village center on land which is other than primary agricultural soil.”

(E) “In order to achieve a strong economy that provides satisfying and rewarding job and investment opportunities and sufficient income to meet the needs and aspirations of the citizens of Vermont, economic development should be pursued selectively so as to provide maximum economic benefit with minimal environmental impact.”

(b) Purpose. The General Assembly establishes a Commission on Act 250: the Next 50 Years (the Commission) and intends that the Commission review the vision for Act 250 adopted in the 1970s and its implementation with the

objective of ensuring that, over the next 50 years, Act 250 supports Vermont's economic, environmental, and land use planning goals.

(c) Executive Branch working group. Contemporaneously with the consideration of this act by the General Assembly, the Chair of the Natural Resources Board (NRB) has convened a working group on Act 250 to include the NRB and the Agencies of Commerce and Community Development and of Natural Resources, with assistance from the Agencies of Agriculture, Food and Markets and of Transportation. The working group intends to make recommendations during October 2017. The General Assembly intends that the Commission established by this act receive and consider information and recommendations offered by the working group convened by the Chair of the NRB.

Sec. 2. COMMISSION ON ACT 250: THE NEXT 50 YEARS; REPORT

(a) Establishment. There is established the Commission on Act 250: the Next 50 Years (the Commission) to:

Offsets shall be designed to reduce the sediment load, phosphorus load, or hydrologic impact of regulated stormwater runoff in ~~stormwater-impaired waters~~ the receiving water. All balances in the ~~fund~~ Fund at the end of any fiscal year shall be carried forward and remain a part of the ~~fund~~ Fund. Interest earned by the ~~fund~~ Fund shall be deposited into the ~~fund~~ Fund.
